Democratic Party May Be Reorganized.

about the reorganization of the Democratic party on a sound basis. "Don Dick-inson is one of the prime movers in this effort. German says it is too early to talk anything of that kind now, and that the next two years of Republican admin-intration will develop lines upon which the Democracy must fight its futere cam-paigns. Able Republicans and a few of the old crowd of Cleveland Democrats hope that the Democracy may be organized upon a healthful basis, but they are yet fearful that Bryanism has too great a hold upon the majority of the party.

CHICAGO, Nov. 5.-A special to the Chronicle from Detroit, Mich., says: Don M. Dickinson is suthority for the statement that within three weeks a meeting will be held in New York City to outline a plan of reorganization of the Democratic party. He says the call for The meeting will have the signatures of prominent Democrats. The meeting, Mr. Dickinson says, will be attended by Democrats of both gold and silver leanings. The call for the meeting will be sent out in a few days. It will be malled broadcast throughout the land, appealing to all Democrats, gold and silver alike.

Stone Ridicules It.

NEW YORK, Nov. 8 .- Governor Stone, vice-chairman of the Democratic Na-tional Committee, said at the Hoffman House tought in regard to the proposed reorganization of the Democracy:

This talk about a reorganization is absurd. The Democracy:

This talk about a reorganization is absurd. The Democratic party is aiready organized. If by reorganization is meant a change in the National committee, that will have to be done at the next convention. If by reorganization is meant a radical change of platform with a candidate whose views accord with it, that will have also to wait until the past National convention.

"If the next National convention wants a new National committee, I am willing to abide by the verdict of the convention. I believe those men who clamor for re-organization after defeat are the very ones that contributed to defeat. There are some people who go to a penyention and demand a certain platform, insist up-on the selection of cortain candidates, and at their failure to get what they want, im-sucdiately withdraw their support and become opponents of the party. If they want changes, let them work in their state organizations for the selection of delegates to bring about those changes."

John G. Carlisle's Advice. ATLANTA, Ga., Nov. 8.—John G. Car-lisle has wired the Atlanta Journal, in response to a request from that paper. his views us follows:

"In my opinion, the Democratic party should at ence organize on the Demo-cratic basis. The immediate return to the conservative, patriotic position occupied by the party before it was demoralized by Populian and Free Silver Repub-licans in 1886 will invite all true Democrais in active opposition to the objec-tionable policies of the Administration, insure the success of our Northern friends in state and local contests and prepare the way for a great National victory in 2804. its folly and live. John G. Carilsie, New York-In order

to achieve success or to become benefi-cial to the country as an opposition party, the Democracy must abandon all dead issues, free itself from all demor-alizing alliances and return to the true principles and policies of the party. The new questions precipitated upon the country by the conduct of the present Administration and the declarations of its suporters must be met in a broad spirit of justice and sincere respect for the man-dates of the Constitution and the liberal principles upon which our institutions are founded. We have drifted into a situation which makes the correct solution of these questions exceedingly difficult, and the party should give them a most care-ful consideration in all their aspects before committing itself to any specific plan of adjustment. Upon the general principles involved there will be little difference of opinions, but the measures to be adopted, in order to extricate to be adopted, in order to extricate the country from its present unfortunate position, cannot hastily be formulated. What plan shall be proposed for the reorganisation of the party in order that its real strength may be effectively asserted is a question which it seems to me ought to be considered and decided by a conference composed of conservative Democrate, representing both elements of the party as it has existed during the last four years. All are equally interested in the success of the party on a sound and patriotic platform of princi-ples, and, therefore, all should be con-sulted, both as to the plan of reorganiza-tion and the policies to be announced. Senator John M. Morgan, of Alabama The Democratic party needs no reconstruction. It needs fidelity to its creed, which has stood for 100 years. At prea-ent it demands the payment of the Na-tions; debt and a return to the "specie basis" for banking. It demands the restoration to the states of the exclusive right to determine the qualifications of voters. It demands that all Federal tax-ation shall be equal and uniform in places within the limits of the United States. I bought a 50-cent beg at my drug store and took two of the large tablets after each meal and found them delightful to take, being as pleasant to the taste as caramel candy. Whenever during the day or night I felt any pain or uncastness in the stomach or about the heart I took one of the small tablets, and in three weeks it seemed to me as if I had never

known what stomach trouble was. "I keep Stuart's Dyspepsia Tablets in the house, and every member of our fam-ily uses them occasionally after a hearty meal or when any of us have a pain or
