Little Regret Is Manifested by Salem Bryanites.

M'KINLEY S1896 PLURALITY DOUBLED

Marion County Is Safely Moored in the Republican Column for Years to Come.

SALEN Nov. 8.-It is a matter of quite common mention in Salem that the Dem-ocrats and Populists do not manifest very deep regret over the defeat of Bryan. White the vote for Bryan was up to the ations of Republican leaders, show ing that the Democrats and Populists quite generally voted for their candidate, it is very evident that, after all, they were not anxious that Bryan should be

McKinley's plurality in Marion County this year is double what it was four years ago, and Republican leaders feel that for the next % years this county will be one of the strongest supporters of Republican principles in the state.

The present county administration is

conducting county affairs on an economi-cal plan, and will greatly reduce, if not entirely wipe out, the county's indebtedness before another election comes around. A reduction of expenses has been the demand of voters in this county in recent years, and whichever party should be in power when such a reduc-tion is accomplished will gain greatly inpublic favor.

CLACKAMAS COUNTY. Finally Agreed That McKinley's

Plurality Is About 600. OREGON CITY, Nov. 5.—The official count of the vote for President, made last Tuesday, will not be made until some time next week, as the clerk and his deputies are busy with the sessions of County and Circuit Courts. No memo-randa was brought in of the vote of two or three precincts, but it is generally agreed by those who have kept tab on both sides that McKinley's majority is

between 585 and 600.

R. D. CARTER

MAYOR-ELECT OF BAKER CITY.

BAKER CITY, Nov. 9,-R. D. Carter, Mayor-elect of this city, is 44 years of age. He was born in Maryland. He came to Baker City in 1877, and since that time has been closely identified with the business interests of this section. He was employed in the engineers de-partment during the survey and construction of the O. B. & N. Railway line between Union and this place. In 1884 he organized the firm of Carter & Miller, and engaged in the butches business, and has been instrumental in building up a large and paying business. His interests in the city and county are large, and the successful management of his own affairs affords good assurance that he will make an efficient official.

The chief reductions are in real property. Last year Lincoln County reported too scress of tillable land, valued at \$46,building a sheer dam at Hood River to This year the Assessor could find but keep saw logs from entering the irrigating ditch. About 3,000,000 feet of logs have been placed in the river above the head of the ditch during the past Summer The heavy rains of last week raised the water in the river, and some of the logs floated down and were caught in Winans Money-lenders are doing large bust-

ness these days, according to The Dulies Chronicle. In nearly every instance the loans are solicited by farmers for buying more land. The brokers say it is a very rare thing to find a farmer asking a loan in order to pay an old debt, but when ho does the loan is only for a short time, and is solicited because he refuses to sell his wheat at the prevailing price.

The Oregon Irrigation Company has been reorganized, by A. M. Drake, a cap-italist of Minneapolis, Minn., and others, who will push the scheme to an early the downward course. Property that last completion, says the Princylle Journal. The plan includes the building of a dam across the Deschutes at Bend to raise the water nearer the level of the desert and to create a water power for sawmills, etc. The desert east of the Deschutes will be irrigated and a large body of fine land opened to settlement.

MciKnley's electoral vote is the largest ever given a Presidential candidate. The tribute is not to McKiniev the man, but to him as the representative of our new and progressive but conservative Ameri-canism. The people did not vote merely for sound money or prosperity or expan-sion, but for a safe and sound National policy on all matters of public interest. The voters did not choose to run any risks, and, more than that, they were determined not to yield to the suavity of pure, demagozy.—La Grundle Fournal.

T. J. Greens has built a sawmill at Sixes for Guerin Bros., who have a contract for an 1800-foot flume for the Thompson-Searles Mining Company. The flume will be built in the canyon of the South Sixes, and will carry the entire flow of the stream in Summer. thus leaveter of the atream in Summer, thus leaving the bed of the stream, from the fails, at the head of the furne, so that it can be drained and mined to bedreck. Machinery will be run with water-power. The places grounds of the South Sixes, both above and below the casyon, where the company is operating, are rich in coarse gold, and the portion of the river bed where the company will operate has

never been worked. No better advertisement could be given for the State of Oregon than the over whelming repudiation of Bryanism which she gave at the polls on Tuesday In Oregon's majority for Republicanian there is no sign of wavering or hesitancy. Unlike some other Western States, we did not have to wait until all the backwoods precincts were heard from to know the result. To the whole country it is known that Gregon gave a decisive decision. She has fully der forward

jerity of 2000 in round numbers, while in 1900 it will reach 15,000. These figures tell a story which needs no comment.— Newberg Graphic.
