Church of Rome Denounced

AT MISSION COMMITTEE MEETING

by Methodist Clergymen.

What Profestantism Has to Contend With in Southern Europe and Latin America.

NEW YORK, Nov. 19.-Two fleros on slaughts on the Church of Rome enlivslaughts on the Church of Rome enliv-ened the proceedings at today's session of the General Missionary Committee. On each occasion an audience which filled every part of the large auditorium in St. Paul's Methodist Episcopal Church, where the committee is meeting, broke into applause, and no effort was made by the chairman to check these demon-starations of approval. starations of approval.

The general committee, which is composed of all the bishops and leading min-sters in the Methodist Church of Amer-ca, has been in session daily since Wednesday. Upon several occasions dur-ing former sessions, when reference had been made to anything pertaining to the Roman Catholic Church, the same spirit of defiance has been apparent. Upon no former occasion, however, has that church been denounced in terms so un-qualified, nor has the approval of the au-dience been given vent in so vigorous

applause.

The first person to advance to the attack was Bishop Goodsell, of Tennessee. In the course of an address on the work of the Methodist Episcopal Church in various parts of Europe, he had occasion to speak of the work done in Italy and the conditions there. It was in the recital of the latter that the bishop used such strong language against the Church of

"In Northern Europe, for instance, in Germany and the Scandinavian coun-tries," the bishop said, "we have made satisfactory progress, though we have a great deal of indifference and even opsition to contend with. - Statistics show that we have made as much headway during the first 35 years in Europe as we have in the same period in this country. which offers a more congenial soil for our

"In Southern Europe the conditions are somewhat different. There the struggle has been harder. There are many who doubt whether we have done any work at all in Italy, the land of superstition and priestoraft; whether we could ever hope to accomplish anything there, in the hope to accomplish anything there, in the face of the tremendous press of adverse thought with which we are confronted. The fact is that we sent one of our workers into Italy. He soon made up his mind that in Rome we had to do as do the Romans. He began by training the young, by taking them into our schools and seminaries. The work is slow, but its value has been recently testified to by the pontiff himself, who has honored us by excommunicating every one teachers. by excommunicating every one, teachers and pupils alike, connected with our in-stitutions of learning. In his effort to preserve for himself the triple crown of papacy, he has issued a sweeping inter-diction against the schools and every one passing through their gates. This, how-ever, has only made us more determined to wipe out a system which has created out of a former man of empire a cringing beggar with a monkey and a grind or-

The applause which greeted this sally The next speaker threw down the gaunt-let to the Church of Bome in terms as di-rect and condemnatory as did Bishop Goodsell. This was Rev. Dr. C. W. Dress, ified with the work of the Methodist Episcopal Church in South America, and was appointed by the committee to take over the supervision of the work among the Spanish-speaking nations on this con-tinent. Besides Bishop Goodsell, he is the only member of the committee who, in the course of his labor, has come in direct contact with the work of the Roman Catholic Church. In beginning his address, Dr. Drees made reference to the

end of Spanish rule in this hemisphere, and was roundly applauded. He said: "It was wise of the chairman to call the subject on which I am to speak the work among the Spanish-speaking inhabitants of America. Happily, there is no longer a Spanish America. The last vestige of Spanish domination in this hemisphere disappeared when the old Spanish battle-ship, Maria Thoreaa, in being towed to this country after having been wrecked by our guns, laid her bones to rest on the

sands of the island which was the first American territory discovered. "A former speaker has said that a con-dition where half of the world is pagan and the other half Christian cannot long andure. The same can be said with as much truth of a state of affairs where Christendom is divided into two great camps with Protestantism on one hand and Greek and Roman Catholicism on the other. The time is upon us when snew the questions which appeared in the Protestant reformation will begin to agitate the world and demand to be pushed to their final issue. After slumbering for four centuries, these self-same questions were awakened through the last act of infamy of the pontiff in declaring himself infallible. Within 24 hours after that blasphemous declaration had been written on the triple crown of Rome the Prussian armies invaded Catholic France. Forty-five days later the battle of Sedan was fought, with Protestant Prussia the vic-tor, and 20 days only had elapsed when

tor, and 30 days only had elapsed when the united armies entered the 'holy city' where the pope held sway, bringing with them carloads of Bibles. The pope lost his temporal power, and since that day the creed has been weakening.

"The Roman Church at one time held sway everywhere, but now both that church and Spanish domination have fallen off their high pedestals. When Spain is arreigned the Catholic church should be arraigned with that power as co-respondent. Ever since Isabella signed co-respondent. Ever since Isabella signed away the liberty of Spain to the pope there has been an illegitimate alliance between statecraft and priestcraft against human liberty and human progress The applause which followed this sally was as tremendous as it was spontane-ous. Dr. Drees said in conclusion that the most promising-field among the Span-

ish-speaking population in America was ripening in Porto Rico, and advised the committee to spare neither expense nor labor to oust Rome from that island. labor to oust Rome from that island.

Bishop Hartsell spoke on Africa, which is his field. He said in part:

"We stand today in the face of a revolt of the pagen world against Christian civilization. In the fur East Mohammedanlam is outnumbering the Christian religion in the number of adherents. China has just slammed her door in the face of Christianity. Only a few days ago her rapresentative stood in Carnegie Institute, in Pittsburg, and boildly threw down the gauntist to Christian culture in behalf of the ancient civilization of his people. Half the world is pagen, the other half Christian, and our seal and labor in the first year of a coming century will decide whether we shall win or whother the

Christian faith shall be deluged by pagan-ism and ile buried for centuries."
"The gravest problem confronting us in Africa is the native question. The best

Africa is the native question. The best statesmen in Europe are at present solving that question, and the human tendency of their work is gratifying."

Rev. Dr. Oldham reviewed the various perplexing questions involving the domestic missions. The chief among these, he said, was the poverty and lack of thrift which had become the heritage of a great portion of the population in great cities, and the indifference and even the defiance met with in the camps of labor, where the church was thought to be in compiracy with the rich to keep the workingman down. This was only to be overcome by teaching the churches in the Chancellor von Bulow Defines Her Policy.

Involunt Officials Will Be Called to Account-A Public Herring Ordered.

NEW YORK, Nov. 18.—The Board of Police Commissioners today ordered charges preferred against Inspector Adam A. Crose and Captain John S. Harthy, and practically turned them over to the mercy of their secusers. That the two officers are to be proceed-
