The wheat market was a sickly affair for Monday, and the cereal fell away in all directions. The American visible was way up in the big figures, world's shipmands were heavy, fine rains were failing in California, and take it all around, builted spriptoms were about as scarce as hen's teeth. The East wabbled around considerable, but closed much lewer. Weakness in freights helped to keep the San Francisco finarkets fairly steady, and the same feature was slightly in evidence locally, although there were few buyers in the market at anything steady, and the same feature was slightly in evidence locally, although there were few buyers in the market at anything over S to 1814 cents for Walla Wella. There was some Walla Walla wheat offering at 54 cents, but very little business

in the produce markets, business was of the usual Monday proportions, and price Changes were of no consequence. -Eastern eggs have advanced in Chicago

Eastern ears have advanced in Chicago and from present indications both Bastern and Oregon stock is in a fair why to stand another advance in the local market. There was enough poultry curried over to give that market a very weak start, but receipts were light. Game is also less pieniful this week, which will make matters better for the poultry shipters. Foliatoes and onlone are fifth on pera. Poistoes and onlons are fifm on light receipts. There is no change in the hop market.

NEW YORK STOCK MARKET.

MEW YORK STOCK MARKET.

Heavy Selling Pressure Forced Prices to Lower Levels.

NEW YORK, Nov. 19.—The selling pressure again proved more than the market could absorb, and prices are very generally lower as a result. There are a few exceptions, both in the railroad and industrial departments, but the strength in these few stocks was not free from an appearance of manipulation by the built for the purpose of sustaining the market and encouraged renewed buying for the advance. The downward course of prices promptly set in after the market had opened generally higher. Easier money in London, and the extent of the advance for Americans prompted some epeculative ventures in that market, and the stories cabled from abroad of great trank line consolidations showing that the remover monger had been regains the Erstish public with much the hams kind of fare as that which has been in Wall street for some time past.

The lower prices here in New York attracted buying by the arbitrage brokers, which served to sustain the market, but on the quentimed extense of depression in London, they turned seller and liquidated very heavily, the sales on balance

vance. When the bears perceived this they made a fresh attack and drove prices down again, and while the level of the market did not fall generally to the early low point, the closing was active and say. Amongst the points of special strength should be mentioned General Electric Metropolitan Railway.
American Ice, Colorado Fuel and American Smelling, and for a time Sugar and Brooklyn Transit

Brooklyn Transit.

The autouncement of a failure of a board member had some slight influence on sentiment, until it was leatned to be of no importance. There was no actual news development to account for the downward course of property of the downward course of property and the way are presented. news development to account for the downward course of prices, and it was largely due to technical causes. The cus-tom of professionals to take the bear side of the market sgainst a public bull position asserted Itself, and there was much solid opinion to be heard that the rise in prices had overrun itself and that a reaction was overdue. The money mar-ket was closely scanned for signs of di-minishing resources. Call money hardket was coosely scanned for signs of di-minishing resources. Call money hard-ened slightly, but eased off again in the late dealings. New York exchange at Chicago also fell from a small premium to a small discount. The sterling ex-change rate held steady in spite of the slightly firmer money rate here and an easier rate in London. The supply of grain and cotton has been much dimin-ished, and exchange experts surging that grain and cotton has been much diminished, and exchange experts surmise that the firmness of exchange indicates an accumulation going on for some purpose, probably subscriptions of foreign loans. The volume of business in bonds as well as in stocks was considerably diminished, but prices of bonds held firmer than those of stocks. Total sales, parvalue, \$3.36,000.

United States refunding is and the cou-pon is advanced 14, and new is 14 per cent on the last call.

> GRAIN **PROVISIONS** STOCKS and COTTON

BOUGHT AND SOLD FOR CASH OR CARRIED ON MARGINS

THE SECOND PORT OF THE PARTY OF 214-215 Chamber of Commerce Portland, Ozegon

Advertiser's London financial cablegram

says:

The markets here were active and firm today. New York cables concerning the speculative and monotary position being regarded as satisfactory. Americans were regarded as satisfactory. Americans were good during the morning. The Continent sold a little, but many American orders had to wait for execution, London professionals continued purchasing after your opening. You offered stocks and London nervously, realized. Then you came to the rescue, making the closs above the worst. There were wide fluctuations in Northern Pacific and Union Pacifics. Money was easier. The market owed the bank over £1,000,000, which was repaid. Discounts weakened.

Nov. 19 .- Wheat and flour in Paris, steady; French and country mar-kets quiet.

Wheat-Spot, steady; No. 2 red Western although this now is not much of a fac-tor. There were also smaller world ship-ments than expected. At the start there was a fair buying by local professionals with some indications of covering by Sat-urday's shorts atthough this did not at any time become prominent. Prices were irregular at the opening, but the market was quickly steaded by the amount of wheat offered by commission houses and for some time the market held about the Wheat—Spot, steady; No. 2 red Wester Winter, 6s; No. 1 Northern Spring, 346; No. 1 California, 6s 34d; futur-steady; December, 5s 114d; March, 3d.

for some time the market held about the top of the opening range.

When the world's visible figures were posted, however, the market quickly turned weak and for the rest of the seg-100 slon, the frend of prices was downward,
156 support toward the end being almost en162 tirely withdrawn from the market. The
1723 visible showed an increase of 1.658,000
173 bushels. On the decline early buyers offered freely, but found considerable diffi-culty in disposing of their wheat. Decem-ber wheat opened at TiscTisc, compared with Saturday's closing price of Tisc. It

sold at 71%c, then declined irregularly to 70%c, where it closed. Corn was irregular and active for November, and rather dull for the other months. The opening in all options was firm with wheat and on the unfavorable weather. Shortly after the opening, a jump of nearly 4c took place in November, lise to fears of a squeeze, shorts scramdue to fears of a squeeze, shorts scrambling for the infrequent offerings. Corn cume out freely at the top, however, the leading selling being by the speculator who is said to control the situation and prices declined rapidly. December, after showing firmness for a time, declined on the heavy visible increase, and in sympathy with wheat and closed weak and lower. Receipts were 65 cars. December ranged from 25/4936c and closed 1/4c lower, at 35/4935/4c.

Humboldt and Mendocino, 19912c.

Hops—Crop 1909, 11936c.

Hay—Wheat, 19213 30: wheat and oats, 19913 50: best barley, 19 50: alfalfa, 578 9 00: compressed wheat, 1933 per ton; straw, 35947½c per bale.

Milistuffs—Middlings, \$18 50919 00: bran, 19525 30; best for Milistums—Suddings, str. Wester, Bran, \$15915 59 per ton.
Potatoes — River Burbanks, 25999c; sweet, new, 50055c per cental; Salinas Burbanks, 50cg41 15; Oregon Burbanks, 79

ranged from 254336 and closed 1/c lower, at 3543354c.
Oats were dull throughout. December closed 1/c lower at 254234c.
Provisions were dull throughout, but showed some strength early in spite of the lower increased prices and heavy receipts. This was mostly due to sympathy with the grain markets. Packers were not in the market and little outside interest was shown. The range of prices was narrow. January pork closed 1/c higher, lard unchanged and ribs 1/g higher.
The leading futures ranged as follows: The leading futures ranged as follows:

The Metal Markets.

The Metal Markets.

NEW YORK, Nov. 12.—Aside from a little activity in tin, the local metal market displayed very little animation today. Prices on all grades remained unchanged, except the shove mentioned, and this was caused by lower London advices, closing rather easy for tin here, at 125 E0022 To. Pig from warrants were quiet at 5610. Lake copper, \$15 Teg17. Lead quiet at \$4 Th, and spelter quiet at \$1 Th, and spelter quiet at \$1 Th, and spelter quiet at \$1 Th Drokers' price for lead was \$1, and for copper, \$17.

Bar silver, 66c,

SAN FRANCISCO, Nov. 18.-Bar silver,

Cotton Markets Higher. NEW YORK, Nov. 19.—The cotton market opened steady at an advance of 258 points, on stronger cables than expected. There was a further advance of 18630 The expectation of higher Liverpool cables tomorrow gave the local mar-ket a firm closing at about the best prices of the session, the net rise being 17623 points. The spot cotton advance

here was 4c.

Coffee and Sugar. NEW YORK, Nov. 18 .- Coffee options

closed firm at a net gain of 5 to 19 points. Sales, 48,250 bags, including November, \$6 10; December, 30 4063 50; January \$6 55; March, \$5 5066 70; apot, Ello, steady; No. 7 invoice, 75c; mild, quiet; Cordova, 94@

Novel Breadmaking.

The Forum.

Among all the exhibits of bread and breadmaking at the Paris Exposition the one which interested me most was a sys-tem of milling and baking combined. This tem of milling and baking combined. This system has a double purpose: (1) To make the flour more palatable and more nutritious than that made by the ordinary roller mill: and (2) to make it immediately before baking, so as to secure for the loaf a flour which is absolutely fresh. It is well known that all food substances when ground to a fine powder have a tendency to become oxidized. As is the case with coffice, which is best when freshly sousted and freshly ground, so it is with coreal flour, which is never so aromatic, so paintable, or so nutritious as at the Corn-Spot, steady; American mixed, 2s 4d; futures, steady; November, 2s 11%d; December, 2s 11%d; January, 2s 104. so relatable, or so nutrificus as at the moment when it is first made. The Schweitzer system of milling and the visible supply of grain in store and affoat on Saturday, November 17, as com-

bread-making secures the two points n tioned above. In Paris a mill and an at-tached bakery on a somewhat larger scale illustrated the method which is employed in supplying bread to a populous commuty, Another installation was a form apparatus adapted for use on a farm or in a small community. So perfect is the milling system employed that the small-est mill, intended for use on a farm and driven by hand, as a coffee mill would be run, makes flour identical in compo-sition with that made by the largest machine. The Schweltzer system, in regard to the milling operations, is a return to the old system of millstones, with the exception that corrugated steel grinders take the place of the milistones of the olden days. These grinders are so accurately adjusted as to admit of the malting of the linest flour, while avoiding actual contact of the two grinding surfaces. The simplicity of the apparatus, its cheapness, and the case with which it can be in-stalled, commend this system particularly for domestic use, and for the supply of villages and small communities. Never-theless, it is capable of being operated on an extensive scale, as is demonstrated by the largest establishment at La VIIlette. Paris, where more than 100,000 pounds of bread are made per day from flour not more than 14 hours old.
