Advertiser's London financial cablegram

Americans still monopolise attention in

the markets here. Trading in them to-

less exuberance than yesterday, and the

deslings had rather a spotty character. London continued buying, though arbi-trageurs sold. New York worked both

ways, but on balance realized, causing an uneventful finish. The London bulls seem

a little inclined to take profits.

Street No sales.

BONDS.

The bond market was notably strong in

There was a better feeling in the wheat market preserved, the East and Europe both showing some improvement. In the Portland market prices held steady at 34 cents for Walla Walla, with offerings very considerably and a peculation in steel stocks during the last year and a half. The break in Steel & Wire, coming near issed with prices, but are nearly always willing to sell on a failing market, but advance their limits as soon as the market begins to climb again. No new translations, served to unsettle sentiment very considerably at the close. The bear considerably in freelings are recorded but a the unper hand early in the day. The actions in freights are reported, but a number of ships are offering at high rates. In the produce markets there was a very good trade, with no changes in prices. The market is pretty well eleaned up on Eastern eggs, and they are holding steady at the best prices of the season. Poultry receipts have been rather light, and there is a possibility of much higher prices between now and Thankssiving. stock moved up an extreme Ps. NEW YORK STOCK MARKET.

An Early Reaction Followed by

Period of Strength at Close. NEW YORK, Nov. 23.-There was the same obb and flow in today's stock market that have characterized it for several days past. Neither the beginning nor the end, however, was so well defined as they were yesterday. The currents and cross-surrents were very cenfusing all day, and nurronts were very centusing all day, and made it difficult to analyze the tone, except during a period of prenounced reaction, which developed after the opening, and an equally pronounced recovery before the close. The close their was reactionary and weak under the influence of a violent break of 65 points in American Steel & Wire. That stock sylus to 51 in the general raily of the marup to 51 in the general raily of the mar-ket, but plunged downward to 60% in a few minutes, and closed about the lowest with heavy offerings still coming on the

The professional traders in Wall street

crowded to the last inth at the opening, other markets being almost deserted by traders. November opened at from \$5 to 45 c and soon fouched 47 cents under to 45½c and soon touched 47 cents under heavy bidding, but Mr. Phillips, who is credited with controlling that option, sold a few 5000 tushel lots and a reaction fol-lowed. A sale was made at 44 cents, but it was a fluke, as the market really stood at 44½ cents. The market became much quieter toward the class. Acceptances were light and the weather was reported as again being unfavorable. December corn sold between 55%655c and 55%c, clos-ing ise higher at 35%c. Nevember closed

the movement by the time-honored device of bidding up the Vanderbilis, but this proved unavailing in the face of the acute	WHEAT. Opening Highest Lowest Closs. November 90 71% 90 71% 90 71% 90 71% 71% December 21% 71% 71% 71%

The Metal Markets.

NEW YORK, Nov. 21.—Business was generally very slow in metal circles to-day. Tin, though somewhat higher, showed very little strength and closed steady at \$28 80. Lake copper ruled quie and unchanged at \$15 75@17 00; pig fro warrants were quiet at \$5,0000 50. Lead, about quiet at \$4,57%, and spelter, stendy at \$4,500 35. The bookers' price for lead was \$4 and for copper \$17.

late and I can but regard some of the communications as more talk than logic. I can find neither logic or argument in a statement that upon a transportation question, the opinion of so famous a trans-portation man as Mr. Huntington is unorthy of consideration, because, as a financier, he may have had the sagactty to shape his affairs so as to profit by the ultimate solution of the problem, even if, like ourselves, his judgment may have been somewhat biased by his personal interests; more especially as his judgment, in the main, has been confirmed by many eading transportation men of the nation, But a few years ago ships of 2000 tons register and over were at a discount in this port, owing to the fact that cargoes of that size were unwieldy in the world's markets. While this may still be true

to some extent and as regards some mar-kets, it is a lauded fact that ships of from 5000 to 6000 tons have sailed from our dpcks. but the shipyards of the world give most is demanding and finding larger, and in-creasingly larger ships, that charges may be reduced to the minimum and profits in-

route can deliver our wheat at Astoria desaper than the mountain route can at Sound ports, why should not we demand that it be done, with or without a differ-Citrus truit.—Mexican limes, 1464 50; common California lemons, \$1 0021 75; choice, \$12 0022 25; navel oranges, \$2 002 4 50 per box; pineapples, \$2502 per dozen. Cheese—California flats, 1042611c per pound; Young America, 11612c; Eastern, 14613c.

Populary, Tables, Tabl can not, must of necessity decline.

The question which presents itself to
my mind is, Will Portland cease letting
the dust raised by aggressive private

interests and competing corporations be-fog her horizon, and, facing the facts, drop into the balance some of her pres-ent questionable advantages as a port questionable because of its uncertain ten-ure, against a future contingency of much greater promise—greater bucause it affects her present life and comprehends

her future supremacy?

The wildest speculative dream does not anticipate the removal of the metropolis to Astoria; nor does it contemplate that no more ships will ascend the Columbia when Astoria shall have been granted common-point rates on wheat and lumcommon-point rates on wheat and jum-ber, but conservative sense, as well as leyalty to Oregon, yet to Portland, too, demands that the fluest fresh-water har-bor on the globe, and one of the five larg-est and best harbors in the United States, fresh or salt, should enjoy privileges agual to those enjoyed by the harbors on Puget Sound, and especially equal to those enjoyed by ports on Gray's and Willaps enjoyed by ports on Gray's and Willaps Harbors, in Washington.

The holding or removal of the financial and commercial center rests with Ports and commercial center rests with Ports.
