ISLE OF PINES. Havana Object to Giving It Up to the United States.

HAVANA, Nov. 28.—With reference to the suggestion that the United States will claim the Isle of Pines, the Discussion says: "It is either a canard or a feeler. If the latter, then it is unworthy of the United States. To attempt such a suggestion is to invite a brutal aggression. If Cuba is to be free, so ought the Isle of Pines to be. Cuba should be regarded as a whole. The Isle of Pines has always been considered a part of Cuba, and has been under the government of the Province of Havana. The people there were allowed to vote at the election and the Spaniards there had the privilege of insurrection in connection with the declaration of nationality."
