WEATHER A DRAWBACK

FALL TRADE SLIGHTLY AFFECTING JOBBING DISTRIBUTION.

Iron and Steel Business Is Booming November Pallures-Week's Bank Clearings.

NEW YORK, Nov. 30.-Bradstreet's to-

orrow will say: Unsettled weather and holidays are a frawback to retail and jobbing distribu tion in many markets, but the general situation is still a most satisfactory one, and the iron and steel, coal, boot and shoe, and lumber trades are conspicuously well maintained. The industrial situation is also deserving of note, because of the striking absence of complaints as to idleness or as to pending or future inbor-

While the volume of new orders in crude While the volume of new orders in crude material continues moderate when compared with the enormous activity for some time past, business in fron and steel is steadler, and as a rule held better in hand. Advices from the West are of large business doing in plg iron, while raits, structural material, plates and bars are being ordered in heavy volume. Milisturning out finished products are generally ordered six to eight weeks ahead, and January, 1901, deliveries are being called for in some cases. Whatever changes are expected are looked for in the shape of advanced prices.

Southern pig iron has been sold heaviguing the statement of the state

lly, and an advance to #11 25 for No. 2 is predicted for December 1. Tin plates are reported selling well. Export trade in fron and steel is less active, owing to lower prices abroad and active demand at me, but American railmakers this week have received flattering indorsements in the matter of prices, quality and deliv-ery from English railway authorities. Among textiles, the situation in woolen

goods and wool is perhaps the least en-curaging of any, but even here the strength of the raw material is notable. Relatively the best trade reports come from the south and southwest, while the most backward are from sections of the East, where unsensonable weather is complained of, and from sections of the Sprin wheat region which suffered most from the shortage in yield. It is notable, however, that the better situation in lumber has stimulated trade in Northern Min-

The feature in the grain markets this week was the carrying to a successful conclusion of the November corner in corn in Chicago. Following the private settlement of the shorts at a basis of 50 cents per bushel, came a drop to 41 cents. At New York, the influence of this corner—one of the successful corners on record—was to advance prices ellightly. Wheat has been irregular, but with the undertone bearish, because of large supplies and discouraged speculative liquidation. Wheat, including flour, shipments for the week aggregate 2.497,899 bushels, against 2,527,296 bushels last week, 3,629,400 bushels in the corresponding week of 1898, and ment of the shorts at a basis of 50 cents discouraged speculative liquidation. Wheat, including flour, shipments for the week aggregate 2.497,899 bushels, against 2.527,298 bushels last week, 3.69.400 bushels in the corresponding week of 1898, and 7,882,899 bushels in 1898. Fallures for the week number 184, as against 215 last week, 177 in this week a year ago, and 212 in 1898 Canadian fallures for the week number 5 canadian fallures for the week number 184, as 1 canadian fallures for the week number 184 canadian fal

Canadian failures for the week number 25, as against 31 last week, 25 a year ago, and 37 in 1838

NOVEMBER FAILURES.

Wool and Textile Industries Suffered Worse Than Others. NEW YORK, Nov. 30.-R. G. Dun & o.'s weekly review of trade tomorrow

will say: Commercial failures in November were 850 in number, and \$12,360,316 in amount of Habilities, against 752 in October for \$9,907.93, and 885 in November last year, when Habilities were only \$5,945,848. Manufacturing defaults were but 132 in num-ber, and \$1,882,163 in amount, the bulk of the mortality occurring in trading con-cerns, of which 617 failed for \$7,505,338. There were 40 other commercial failures. with Habilities of \$99,782. Four banking and financial companies defaulted for \$83,000. At first glance, the November statement appears very unsatisfactory, but it must be remembered that a few has ever excelled the record made along the heavy failures in wool and other textue this line by Mr. Corbett when he was in the Senate before. It is not ornaments, and the second of the second heavy failures in wool and other textue
industries account for a large share of the
reported liabilities. Aside from this one
branch of trade, which has naturally suftha. Oregon needs in the United States fered heavily from the tardy approach of Senate, but men of strong character, re-Winter, the figures show business to be on a good foundation.

Rollday, result ford.

on a good roundation.

Holiday rettail trade starts off well.

The week has been characterized by many advances in prices, but the most significantly self.—Fossil Journal. cant is the small rise in boots and shoes, which of all the great industries has been slowest to conform to the general im-provement. A larger demand for goods of current consumption is the report from hearly all directions. The dry goods trade, man who represents Oregon in the Sentence of the state that the man who represents oregon in the Sentence of the state that the man who represents oregon in the Sentence of the state that the man who represents oregon in the Sentence of the state that the man who represents oregon in the Sentence of the state that the man who represents oregon in the Sentence of the state that the man who represents oregon in the Sentence of the state that the man who represents oregon in the Sentence of the state that the man who represents oregon in the Sentence of the state that the man who represents oregon in the Sentence of the state that the man who represents oregon in the Sentence of the state that the man who represents oregon in the Sentence or the state that the man who represents oregon in the Sentence or the state of the state that the man who represents oregon in the Sentence or the state of the slowly. Cotton goods show the best results; fine brown sheetings advanced from 5 to 6.20c; bleached shirtings from 7 to 7.65c, and brown sheeting from 5 to 5.12c. readily see that the next 16 years will be to 6.20c; bleached shirtings from 7 to who are studying the question carefully readily see that the next 16 years will be There is little curtailment of output of the most momentous in the history of the cotton goods, but some mills which usu-ally run on export trade are diverting bility of bringing about the developments machinery to light weights for home use. That will forge us rapidly to the front, we ally run on export trade are diverting machinery to light weights for home use.

Railroad earnings for November to date show 1 per cent gain over 1899, and 11.1 per cent over 1898. Good news continues that our cup of needed legislation may be full. In order to secure National legislation on behalf of the Const we must the strongest men we can command. to come from iron and steel sections. Sales of pig from in these weeks have aggregated 200,000 tons at Chicago, and idle furnaces are going into blast, indicating a much larger capacity now than on November 1. Buying of all finished forms increases. larger capacity now than on a larger capacity now that it is taxing the many higher quotations. Railroads are purchasing most liberally, and machinery is in special demand. As yet the advance in special demand. As yet the advance in cotton goods is not at all in proportion to cotton cotton goods is not at all in proportion to the gain in raw material. The wool mar-ket is recovering from the shock of heavy failures, and sales of three chief Eastern markets increased about a half million pounds for the week, but prices are somewhat easier, particularly for the cheaper

Abundant estimates that the cotton yield will not reach 10,000,000 bales failed to affect prices, for traders are beginning to appreciate the fact that a decrease in consumption is an unavoidable con-comitant of unusually high quotations. Wheat is further from a dollar than at

any time since that price was predicted by a high authority, and the usual rumors of damage from jointing before frost fall as flat as they have done in previous years. An ample corn crop did not prevent a clever manipulator from securing control of the available stocks at Chicago and forcing the price up to 51 cents for the current month's delivery. Heavy receipts of cattle at Chicago depress the price, and the average in this market for live beef fell to \$470, against

Bank Clearings.

5.4 MANY BOUGHT FOR CAVALRY PUR. POSES.

United States and German Governments the Purchasers-Eight Carlonds Shipped Wednesday.

BAKER CITY Or. Nov. 30.—Eight carloads of horses were shipped from Baker City yesterday by McDonald & Kidwell, to the United States Purchasing Officer, at Walla Walla. Three weeks ago Captain Wainwright was in Baker City, and received 15 horses for the Philipping expalty. Those Jewice Norse to ippine cavalry. Those leaving here to-day numbered 203, and are for the same purpose. As the Government has stables branding places and ather facilities for handling horses at Walls Walls, it is more desirable to receive them there than anywhere else. The snow and incisment weather usual in this section of Eastera Oregon during the Winter also renders work of receiving more disagreeable. All

work of receiving more disagreeable. All horses turned in between now and Spring will likely be delivered at Walla Walla by the vendors.

McDonald & Kidwell have taken out of Baker County for the United States causily service 22 horses within the past year, and 75 for the cavalry of the German Government, Nearly all the horses and mules purchased by the Government from this county have been handled by this firm. When they are informed that another lot of horses are wanted, they commence gathering them up from different sections of the country, breaking them for the market. From \$45\$ to \$65\$ are paid the farmers and stockmen for are paid the farmers and stockmen for each animal. All must be broken to the suddle before received.

The constant demand for good saddle

animals for the past two years makes the work of gathering them up more difficult. Members of the firm state that good horses are still to be had and at about the same prices paid when Government purchases first commenced, but vastly bled all along for fear that continued Re-publican ascendancy would jeopardize our liberties, has new cause for alarm for more work is required to locate the stock The regularity with which the Government calls for more horses affords a certain market. Another lot has already been asked for, and McDonald & Kidalleged fact that within the past year salt has nearly doubled in price. Of course, this is a dangerous tendency of affairs, but since the entire Democratic well have advertised throughout this sec-tion of the country that they will be in Baker City and John Day 30 days hence to purchase all desirable saddle horses modity is spontaneously generated, unoffered. Horsemen have come to believe magnate, if Democrats do not lay in a that while the Government is using caylasting supply it will be a conspicuous example of neglected opportunity.—Salem

that while the Government is using cavalry in the tropter, there will be a constant demand for Eastern Oregon and Eastern Washington horses.

It is not widely known that the German Government bought several cavalry horses in this field. The firm of McDonald & Kidwell alone sold the German officer who came through here a total of 255 horses, 75 here in Baker City, and 159 in Walla Walla. These were intended for France is doing her best to entertain oom Paul. What all this show means is not easy to guess. France, as a nation, cannot lend any assistance to the African, and his mission must portend something entirely a stranger to securing Walla Walla. These were intended for use in the Orient. Should the Kalser's soldiers be able to manage the bunchgrass stock, it is believed that there may be other calls from the same source. With the two governments buying in the same field, the Eastern Oregon horseman will find a demand wholly lacking prior to the prevailing military operation

Washington Industries.

A Tekon company sold 50,000 bushels of wheat to a Portland firm recently. Everett is to have an opera-house to be built by the Everett Improvement Company at a cost of between \$45,000 and

that we have yet seen are those of Hon. H. W. Corbert, as published in our last issue. His lifelong training, habit and temperament carry him intuitively and \$50,000. The Simpson Lumber Company, of South Beach, has ordered complete machinery a new plant. Its daily capacity will 100,000 feet. oposition. There are none better than r. Corbett on a question of business or sance, and this, coupled with the fact

business at Hoquiam this year, reports that 37,755 salmon were handled in Houpright, is sufficient reason why he should be elected to represent Oregon in the United States Senate. With Mr. Corbett in the Senate, Oregon will have a gulam this season. The Centralia Council has made a con-

tract with the Gouger Lumber Company to furnish wood for the electric light plant in exchange for lights. W. M. Miner, of Aberdeen, who has invented several articles upon which he has cured patents, among them being a ratiay spike and fishplates, has just e eted a burglar-proof safe. which

counce superior to any-

thing of the kind they have seen. Frank Hall, of Ford's Prairie, has sold his crop of dried pruhes for 3 cents per The crop was light the past Fall, but the quality excellent. He mays he can make more money raising prunes at this price than in raising grain. Several large fruitgrowers have again become interested and they will endeavor to make the in-

dustry pay. Reports from Whitman County show that a number of farmers and frult-growers lost a portion of their apple crop in the late cold spell, which came on so suddenly and so unexpectedly. The loss is but a small portion of the total crop, and will cut little figure with the aggregate yield of the county. The amo of apples shipped will aggregate from 300 to 500 carloads.

Work on the new shipbuilding plant at Tacoma is expected to begin immediately, Tacoma is expected to begin immediately. The site for the works is near the old aphtha launch works property on the mud flats. Machinery for the plant is already on the ground and in readiness to be set up as soon as the buildings are constructed. Mr. Hill expects to have the works completed and in readiness to build ships by the opening of Spring.

B *F Wasson, of the Everett brickvard. has purchased 10 acres of land lying north of Evergreen cemetery, which is under-laid with good brick clay. He will disntinue his old yard opposite the Everett Hospital and at once begin the constion of the necessary sheds, yards water supply at the new yard. Among other improvements he will receive a ma-chine from the East that will turn out 20,000 bricks per day.

W. A. Thatcher has been surveying below Pomeroy in order to ascertain whether water power can be secured to operate an electric light plant of sufficlent capacity to light the city. A survey has been run from the creek at a point near the east line of the school section adjoining town to the west line of the same section. The power that could be obtained by running a water ditch along the course of this survey would not be sufficient for the purpose, but Mr. Thatcher thinks that by running a little farther down the creek a good and sufficient fall can be secured to meet all demands, even during the lowest stages of

Idnho Notes.

It is probable that north and south Shose County will be divided by the next Legislature.

Mrs. H. Hecker attempted to horse-whip J. H. Dauer, a groceryman of Mos-cow, Tuesday. The trouble was over a small bill.

The newly elected directors of the Idaho intermountain fair met in Boise and elected the following officers: President, John McMillan; vice-president, L. L. Ormsby; treasurer, John D. Springer; secretary, C. S. Loveland. The directors are: J. S. Bogart, J. F. Koelsch, Albert Kohny, J. B. Morrow, Robert McAfee, John Kennedy and E. E. Forshay. nedy and E. E. Forshay.

Seventy-nine instruments were filed with the County Recorder at Wallace last week, with an aggregate valuation of \$4.767.56. Of the 22 deeds five were for the nominal consideration of \$1 each. There were seven mortgages filed and one rewere seven-mortgages filed and one re-leased. The mining locations included 13 quartz lodes, four placer claims and three water rights. Three new companies filed articles of incorporation and two marriage licenses were issued. The total number of instruments filed for record to date this year is 281, as compared with 544 for the same period last year, an increase of al-most 50 per cent.

The Murray Mercantile Company Ltd.

The Murray Mercantile Company, Ltd., has filed articles of incorporation at Wal-lace. It is authorized to deal in merchan-dise of all kinds, to do a general bankling business, to erect, lease and operate water, air, electric and gas plants for light, power and telephone, to deal in stocks, bonds and debentures of other corporations. Murray is the principal place of business, and the capital stock of \$35,000 is divided into 5000 shares. The directors and incorporators are Winfield Ervin, Barry N. Hillard, Charles W. Betts, Ben-jamin W. Wells and Charles H. Cole, Jr., the two latter of Boston, and the other of Murray.

City Attorney William P. Reynolds, of BRITISH TRADE THREATENED War in South Africa Opens Markets

London Express.

The British manufacturer is waiting impatiently for the end of the war, so that

he may step forward for his share in the great industrial "boom" that is to roll through South Africa from Cape to Zam-

The sooner he understands clearly that he will have to fight for it, and fight desperately, too, the better it will be for his future prospects in South Africa, which, in the opinion of those having some knowledge of the furious competition that will be set loose upon him as soon as active hostilities are over, are not at all of a rosente character. He will be required to face no mere

phase of transitory rivalry; his whole strength, energy and skill will be called upon to deal with a deep-seated policy, long maturing by his commercial rivals. In order to understand properly the position it is necessary to remember that there are now three great manufacturing nations, whose common object is to sup-ply the rest of the world, or as much of it as they can, with their manufactured

Year by year Germany and America find their productive resources augmenting; year by year they find their existing mar-kets less and less sufficing and as ex-ports follow the line of least resistance. practically the whole weight of their rapidly growing competition must fall upon the manufacturers of this country, and in the markets to which they might consider they possess a preferential claim.

Japa Use Arabic Figures There is one thing which strikes a for eigner as being particularly strange in the uniform of the Japanese soldier, says a writer in North American Notes and Queries. This is that the numerals which he wears upon his shoulder straps, to de-note the number of his regiment, are

ably off the product of a few acres, and European numbers, not Chinese or Japanese ideograph. For instance, the soldiers of the Third Regiment just wore a 2 upon their shoulder-straps. I found upon in-quiry that this was because the European numbers were so much more quickly and eastly distinguished from each other than uplicated Chinese characters.
