Fast black, seamless, well reinforced; and elastic ribbed tops.

## LOOKING FOR HOMES

### Many Western Farmers Now in Oregon.

### ATTRACTED BY SOIL AND CLIMATE

### Kansas Men Say This State Should Send Immigration Literature to Every Postoffice.

A large number of homeseekers are now arriving in Portland, and many of the hotels are filled with them. They come principally from the Dakotas, Minnesota, Wisconsin, Iowa and Kansas, though all the Mississippi Valley States contribute more or less to their number. They are mostly of the farming class and the heads of families are usually provided with means to purchase land when they get around to it.

The beginning of winter is considered a good time to come West, as harvest is over, the grain sold and arrangements for the winter are made, and the weather is not so severe as in the north. The owners are looking over Oregon and Washington with a view to locating permanently where people do not freeze to death in winter nor are roasted in the summer.

The homeseekers' rate that prevailed several months ago is largely responsible for this heavy immigration now, though the present rates westward are lower than usual. Farmers who came to Oregon last year and saw the bountiful crops harvested beneath a kindly sun, that never made the farm hands uncomfortable, were impressed favorably with the state, and so went back resolved to arrange their affairs and give the Coast a genuine trial.

Among the newcomers is W. H. Rogers, of Sedgewick City, Kan. He has been in Oregon for several weeks with his family, and has concluded to purchase land in Washington County, where, according to his own words, he will be near a big city, so that freightage and marketing his products will be no great task. "It's just as easy to buy land near a big city as near a little one," he said, "and the market is much better in the former."

He has been considerably over the state, however, and has found that the chances for the farmer of small means are much better here than in Kansas. "There are splendid opportunities in Oregon," he said, yesterday, "for a man with \$500 to \$1000 to invest, as he can buy the makings of a fine home with that amount. Land is valuable in Kansas, and a quarter section cannot be purchased for less than \$2000 to \$3000. I have not sold my farms back there yet, but I anticipate no trouble in disposing of them while times are as good as they are now. However, good farms can be rented out for cash in Kansas, the rent ranging from \$40 to \$200 per quarter section, collectible in four payments."

"Crops have been very good in Kansas this year, and prices have been fair, so agriculture is flourishing there, but I don't like the hard winter nor the hot

### Men's 75c Natural Wool Shirts and Drawers

Are 57c Each

If bought today. Worthy garments, honestly made. Full Winter weight.

### BIG FAIR NOT ADVISABLE

### MEETING OF CITIZENS VOTES AGAINST IT.

### Consider It Unwise to Ask Congress for an Appropriation for It at This Time.

At a meeting of prominent citizens held at the Commercial Club last night to take action on the proposed Oriental Fair in 1902, it was decided that such a fair would be inadvisable, as the success would be dependent on a Government appropriation, and Oregon has at present other and more important things to ask from Congress. It was recommended that a grand fair be held in Portland in 1901. General Summers was chairman of the meeting, and J. E. Thielsen secretary pro tem.

The action taken was in fact the adoption of resolutions drawn up by a committee, appointed by a meeting held November 15, to confer with the Oregon delegation in Congress. The resolutions presented last night, and unanimously adopted, were as follows:

Whereas, At a preliminary meeting of prominent business men at the Commercial Club rooms, in this city, Thursday evening, November 15, 1900, for the purpose of discussing the feasibility of holding a grand "Exposition and Oriental Fair" for Western and Northwestern States, to be held in Portland in the year 1902; and

Whereas, A general discussion was held, and it was agreed that such a fair would be of great interest to the State of Oregon and the Northwest, provided a proper financial support could be secured from the General Government; and that the success of such a fair would be dependent on a Government appropriation, and Oregon has at present other and more important things to ask from Congress; and

Whereas, A competent committee was appointed to confer with our Senators and Representatives in Washington, and after a general conference, at which all of our Representatives in Washington were present, and it being fully explained that the policy of the Federal Government has been not to make any direct appropriation to expositions, such as the cotton exposition of the South, the Omaha and the Pan-American, but that all appropriations made by the Government have been in the shape of an appropriation for a Government exhibit; and that, owing to certain appropriations made by the Federal Government, Oregon, it was the unanimous opinion of those present, including the honorable Senators and Representatives, that it would not be advisable to make an effort for National aid at this time for the purpose of holding an exposition as contemplated, as it might seriously interfere with other appropriations for our state, such as giving a deep channel to the sea in the Columbia River and the entrance to the same, as well as the portage canal and other improvements that are of far more importance to the whole Northwest at this time; therefore, be it

Resolved, That this conference does not deem it advisable to ask for any additional National assistance at this time for such a project, as it might interfere with other such projects, and that it be the duty of our Representatives to urge improvement appropriations; be it further

Resolved, That this conference would recommend an active campaign for some great public enterprise for the year 1901, to be held in the City of Portland.

After the adoption of the resolutions, on motion it was decided that a committee of seven be appointed by the chair to make such recommendations on the line as suggested in the preamble and resolutions, and suggest a plan and report back to a subsequent meeting such recommendations as they deem proper. The meeting adjourned subject to call of the chair.

### AT THE HISTORICAL SOCIETY

### More Relics Added to the Already Large Collection.

The Oregon Historical Society rooms in the City Hall, fourth floor, northwest corner, will be open today from 1 to 5 P. M. so that all who care to examine the collection of pioneer and historical relics of all kinds pertaining to different parts of the United States may have the opportunity of doing so. The pictures of pioneers form a highly interesting and important feature of this collection, and one which is growing all the time. Among the recent additions the following may be noted:

A small piece of glass from the first house built by Dr. Marcus Whitman, which was burned at the time of the massacre, November 29-30, 1847, and a limb from an apple tree planted by Dr. Whitman, both from Mrs. Ellen Gilliam Day, Walla Walla, a granddaughter of General Cornelius Gilliam, who was accidentally killed April 5, 1848, and who at the time was in command of the forces of the provisional government sent into the Cayuse country to chastise the Indians.

## Store's Part of Christmas

Did you ever stop to think how much of Oregon's Christmas was due this store? To be sure, the day would come and go if the store were not here; there would be gift making to a certain extent, but the world's wouldn't be open for your choosing. There wouldn't be great holiday store house where old and young could come and get the Christmas spirit as well as the wares. Christmas spirit and enthusiasm are free here. Wares cost surprisingly little. Do your shopping early. Bring the children to see toy land. (Third floor.)

### Bissell's Toy Carpet Sweepers 15c

300 toy Carpet Sweepers, Bissell's famous make, while they last, 15c each. Take elevator third floor. Remember only 300 of them.

100 copies of the "Bath Comedy," by Agnes and Edgerton Castle, authors of "The Pride of Jennico," reg. \$1.15 value, at 93c

# MEIER & FRANK CO.

Thirteenth street, was entered and robbed during the absence of the family last evening. It was found on the return of the family that some jewelry had been taken. Some cash left in the house was not disturbed. As the family were returning they met a man walking out of the front gate, but he passed on rapidly. Burglars entered the apartments of Mrs. Fannie Wheeler, in the Holman block, Grand avenue and East Washington street, a few days ago, and a large amount of silverware was taken. This latter robbery occurred in the daytime.

### Clothesline Thief.

L. White, who lives on the northwest corner of East Alder and East Sixth streets, was up at about 4 o'clock Thursday morning, when he noticed the suspicious movements of a man on East Alder street. White watched him closely and presently he saw the fellow slip over the fence into the back yard of his neighbor, where there was a clothesline loaded with clothes. He commenced taking the garments when White called out sharply: "What are you doing there?" There was no reply, but the thief jumped onto the fence and then fell on the sidewalk with great force, with White after him. He got up, started toward Grand avenue and disappeared.
