The holiday frade in the retail portion alteration in the character of the stock of the city yesterday was of hig propositions, and the wholesalers were doing very large scale. Possibly the interest fairly well. Numerous rush orders from was a trifle less broad than on some fairly well. Numerous rush orders from the country came in for Christmas goods to replenish stocks which had been depleted by a targer demand than was expected. The poultry market is in an unsettled condition, buyers showing a disposition to hold off until the last minute. Receipts were fairly heavy, and about the top figure for dressed turkers yesterday was 32 cents, and ordinary stock sold still lower, with live dull at 11 cents. Chickens were in very poor demand, and some pretty fair stock was cleaned up at 11 50 per dozen. Some very large young dressed up in the stock market over a prolonged obblesses. was plainly for some other fowl besides chickens. Geese moved well at quota-tions, but the demand for ducks seems to have stackened. A large number of East-ern dressed turkeys arrived yesterday. day, and this emphasized the impres-sion of yesterday's rather sharp selling movement mear the cless here. Profession-al operators there fell upon the market at the opening, but they made scarcely a and as they cost about II cents per pound last down in Portland, they have had a great influence in making the price of the Oregon stock.

There was a little more strength in the wheat markets yesterday, which came somewhat in the nature of a surprise, on account of the protracted boliday which is imminent. It had but little effect in the local market, where rates have been held up to extreme limits for a long time. Buyers were still paying 55 and 54% cents for Walla, Walla, and 57 cents for blue-stem, with a fairly free selling movement. Freights are holding steady, with some business doing. Chicago Grain and Produce. CHICAGO, Dec. 21.—While wheat prices were maintained the greater part of the session, the undertone was a trifle casy. Here shorts began to take cognizance of the situation as shown by the early news and a reaction began. This was helped along later by reports of an export demand, and by St. Louis purchasing, under which May railied to 734c. Sheep-Receipts, 300 head. strong at about the top level, the late profit-taking sales being bondhonity absorbed. Northern Pacific sold ex-dividence and recovered strongly from yesterday's late reaction, but the top price was M, which was short of yesterday's price by a half point. The extraordinary speculation in Northern Pacific is based on the benefit to accrue from the retirement of the preferred stock, cancelling its privillege to share net earnings in excess of 4 per cent on the common. This causes attention to various other common stocks whose stocks are limited by the terms of the issues in their dividend rights. Atchison common and Denver & Rio Grande

The low grades of wheat also seem to be working stronger, and exporters talk rather better inquiry for wheat, but business so far reported small.
