MOUNT TABOR SCHOOL DISTRICT MAY REPUND BONDS.

is no fishing debt to provide for. The classrooms in the Glencos building have all been completed, and little money will have to be expended in repairs on the main building. It is estimated that the district will receive money enough from the school fund to meet current expenses without a special fax. All that will have without a special tax. All that will have to be provided for is interest on the bonds. The district has \$16.1% bonds outstanding, and 7 per cent is the lowest rate of interest paid. About one-third of thems bonds will come due this year, and the directors say they can be refunded at a lew rate. Interest alone per annum on the whole issue is \$1000. So good is the credit of the district that an offer has been made, so it is said, to refund the bonds coming due at 4 per cent. There bonds coming due at 4 per cent. There is opposition to paying off the bonds, for the feason, as property-owners any, that it is but a matter of time when the dis-

proved north from Morris street with 6x6 timbers only 18 feet long, and it will be almost impossible to put a double track on the street and retain those short timbers. An effort will be made to get Williams swenue graveled north of Morris street. Property-owners will be asked to give an expression one way or the other. It may be they will consent to having the avenue planked full width from Morris street north the same as it is south. The travel on North Williams avenue has grown very heavy.

PORTLAND, Jan. 16.-(To the Editor.)
Governor Odell, of New York, in his first annual message makes one long plea for seconomy. To compass that result the abolition or consolidation of various state commissions and the appointment of one aboution of consolidation of various state commissions and the appointment of one commissioner instead of a board is recommended. Regarding the revision of the New York City charter, he recommends the abolition of the fee system, a large reduction in salaries, and the substitution of a single-headed police commission for the City of New York such consolidation. the City of New York, such commission for the City of New York, such commissioner to be the Chief of Police of the city, to be appointed by the Mayor and subject to removal either by the Mayor or the Governor, and that the present office of a separate Chief of Police be abolished." Are not the Governor's suggestions as to single-headed commissions the reduction single-headed commissions, the reduction simple-neaded commissions, the reduction of sainties and the practice of economy, well worthy the consideration of the Multi-momah Legislative delegation, the duty of which is to procure for the City of Portland a new charter?
