PORTLAND, SATURDAY, JANUARY 12

Desire of outlying portions of Portland to be withdrawn from the city limits must not be satisfied, and the owners of such tracts will do well to desist from any such efforts before the Legislature. The burdens of taxation here are beavy, but they must be borne by all in due proportion. The city is spread out over 26 square mlies, when it should, perhaps, have been fords no evidence as to their moral confined in 10. The country insisted on becoming city. Let it bear the burden of municipal dignity and magnificence. It is not an auspicious time to come before the community with plans for evasion of taxes. Let us get the real estaly valuation back to \$40,000,000 and not going to relinquish its sovereignty assess personal property in proportion. Then we shall all be encumbered with be atoned for, not with tears of repentwith heavy blows of high taxes. The defeat of United States Senator Chandler for re-election by the New Hampshire Legislature means the end of a remarkable and in some respects brilliant political career. At 20 years of age William E. Chandler was admitted to the bar; at 28 he was Speaker of the State Legislature; at 30 he was 'irst Assistant Secretary of the United States Treasury. In 1876 it was due to the energy and acuteness of William E. that the initial steps statesman" who went to Florida and pointed Solicitor-General by President Democratic majority of the Senate that his nomination was rejected.

President Ellot Will Not Resign.

Chicago Times-Herald. Cambridge, Mass.-"The suggestion that Benjamin Ide Wheeler or any one else will succeed President Ellot, of Harvard, so long as he cares to held his position is not even worthy the trouble of a denial," said one of the Harvard overseers to-night. "The suggestion is preposterous." How a story could be started that Presi-

dent Ellot is to be succeeded by any one until death or failing health overtakes him is a good deal of a mystery here. No man in the world is more secure than Dr. Ellot and as his health is still spiendid and his years far from advanced he will undoubtedly continue to administer the affairs of the Cambridge University for many years to come.

President Ellot is now in Bermuda, where he went immediately after the No-vember election. He will be home very

San Francisco, Jan 4-A report was circulated here last night to the effect that President Benjamin Ide Wheeler, of the University of California, would soon re-sign to accept the presidency of Harvard. The story, which seems to have had its origin in the brain of some Eastern man, name unknown, is vigorously and positively denied by those in a position to know. President Wheeler is now in the East, probably in Washington or New York. Professor Bacon, personal friend of President Wheeler, said today: "The story is nonsense."

### The Growth of Bowling.

Chicago Tribune. The holding of the National bowling tournament in Chicago this week calls at-tention to the remarkable growth in pop-ularity of this sport during the last few years. Even in small towns and villages, where five years ago bowing was un-known, alleys have been fitted up and teams been organized which not only play among themselves but meet the cham-pions of rival towns in friendly matches. In many parts of the country state hewiing associations have been organized, the leaders in which come together, as dur-ing the present week, in National contests. More recently an almost equal in terest in bowling has been aroused among the women of the country. They, too, have their bowling meets, and in many men's clubs the bowling alleys are set apart for the use of the women on cer-tain days. As a sport which furnishes physical exercise to people who might otherwise neglect it, bowling deserves the vogue which it enjoys. It also trains the eye and hand to accuracy, and, as it can be played in all weathers, it is well cal-culated to take the place of golf and baseball during the Winter months. The only danger which seems to threaten its present popularity is that of professional-ism, which follows every sport which has many followers. Now sound, now hush from sobbing horn As the way winds to and fro, Our soldiers march through sun and shada, Glory and gloom of eve. Far as they may with a friend on his way To take his last long leave.

For totl and strife and roving life For toil and strike and rowing into He loved the solder's int; Breathed full and derp where prairies sweep, And the world is bounded not -All unconfined as the saling wind. His soul launched forth to roam. Hut it meared the strand of his childhood land, and he howed for his childhood land, and he howed for his childhood land. And he longed for his Faiher's home.

Now kay his head on the cool soft hed, That southes as a mother's breast; For the end is the soldier's fitting couch, And he loves to lis and rest Where pale stars shine o'er the moting pine, And the moon rides through the boughs, While the bugie-call of "Taps" doth fall, So soft he may not rouse:

Comrade, cheer! Dust thou wake? On thy sight See yon bright Morning break! Comrade dear, Night is here! There the light!
