

CLARK AS A SENATOR

Butte Millionaire Elected on the First Ballot.

HIS TRIUMPH OVER CHANDLER

Patterson, the New Colorado Senator, Announces That He Will Co-Operate With the Democrats—Quay Goes to Washington.

HELENA, Mont., Jan. 16.—W. A. Clark, the Butte millionaire, was this afternoon elected United States Senator to succeed Thomas H. Carter. Mr. Clark, in joint session, received 57 votes of the 83 cast on the first ballot, and was declared elected.

The whole proceedings were denounced by hundreds of eminent lawyers familiar with them as being worthy of a police court, and the record of the high-handed, vicious and brow-beating tactics exercised by the chairman of the committee will ever remain a stigma and disgrace in the annals of the Senate as judged by all fair-minded men.

No one was elected for the short term, and balloting will be resumed tomorrow.

WEST POINT, N. Y., Jan. 16.—When the Congressional committee met at the military academy today, and before any witnesses were called, Congressman Wanger, of Pennsylvania, addressed the committee.

Water Commission and the Port of Portland Commission are for the present to be nominated in the bill, to hold office until expiration of Mayor Row's term.

The number of these commissions is to be reduced to five, and the majority of the delegation appears to be in favor of consolidating the Police and Fire Boards, and making their term of office contemporaneous with the Mayor's.

It will be observed that this clause is entirely clear. If it meant to declare that all commissions should be elected by the people, it did not expressly say so; but on the contrary, left an easy loophole out of which the successful candidates could creep, if they desired.

As to the awkward financial situation of the city, various remedies have been discussed, but none yet adopted.

It is not clear to the committee whether the present charter, which denies the administration of city affairs out of the hands of the Mayor and Common Council and places it in the hands of various boards and commissions, is a thing to be changed at any one election.

General Dick switched to the methods of calling out fourth class men and pitting them against practiced men, and scored him heavily for this.

At the night session, the examination of Pegram was continued, the question being asked whether General Dick received some letters written by ex-Cadet Booz, and when he came to the point where Booz spoke of the report against him for facing in the wrong direction when relieving the wounded, Dick replied in his answer to that complaint.

This assertion of the witness did not strike the chairman as being credible, and he tried to get witness to admit this, but Pegram was adamant.

WASHINGTON, Jan. 16.—At the request of the State Department, the Navy Department has instructed the commander of the Scorpion to proceed at once from La Guayra to Guanoaco, Venezuela, to protect American interests, upon reports that the revolutionary movement there is increasing, and that an attempt is being made to take possession by arms of the New York & Bermudez Company.

Respecting these instructions, nothing could be learned at the State Department but the recently promoted Sargent had been instructed to avoid bloodshed and the destruction of property, if possible.

Still, taken in connection with what has gone before, there is little doubt but what, if the disturbing forces in Venezuela, whether governmental or revolutionary, are seeking to dispossess the incumbents in the asphalt concession in default of the American capital invested there, should be a thorough judicial inquiry the United States warships will prevent that action, peacefully if possible, forcibly if necessary.

Guanoaco, but is to be found in the ordinary charts, but a chart of the nearest point to the asphalt concession accessible to the Scorpion, lying up the Orinoco River about two days' run from La Guayra, is not included in the charts at the seat of trouble before the end of the present week.

The State Department also is in receipt of private but trustworthy advice to the effect that the American shipping and Trading Company, two of whose vessels were seized yesterday by the Venezuelan Government, is an English corporation. The vessel is in the registry, but by the Venezuelan flag, under the circumstances the State Department has found itself unable to intervene directly to compel restitution, but in view of the fact that American capital is invested in the company, it has directed Minister Loomis to use his good offices, as far as possible, to protect these American interests.

MANY GREAT MEN

And Many Accomplished Women Recommend Pe-ru-na for Chronic Catarrh.

CONGRESSMAN A. T. GOODWYN, OF ALABAMA.

Hon. A. T. Goodwyn, Congressman of Alabama, in a recent letter to Dr. Hartman, from Robinson Springs, Ala. says: "I have now used one bottle of Peruna and am a well man today. I could feel the good effects of your medicine before I had used it a week, after suffering with catarrh for over a year."

What the skin is to the outside of the body, the mucous membrane is to the inside of the body. Every organ, every duct and passage of the body is lined with mucous membranes.

A general fibrousness of these mucous membranes constitutes what Dr. Hartman calls systemic catarrh. A person with systemic catarrh cannot stand exertion. He is all tired out. He is nervous and fatigued. He is slow and depressed. He has little zest for life and is uninterested in business.

Miss Irene Akerman, a prominent dramatic reader of New York City, writes the following letter:

New York City, 20 West Fifteenth Street, February 7, 1900.

The Peruna Medicine Co., Columbus, O.: Gentlemen: "Lately I have devoted myself more to art work than dramatics. While illustrating I spent much of my time naturally indoors, which taxed me greatly. I felt the absence of good, fresh air and sunshine. When much run down, I resolved to give Peruna a trial. I am now so well that I feel I must add my testimony to that of others, out of gratitude for my restoration and preservation."—Irene Akerman.

In systemic catarrh there is more or less catarrh of every organ in the body. The catarrh may have originated in the head and throat, but it has finally pervaded the whole system.

It produces a wretched condition. The mucous membrane of the whole body refuse to do their work properly. Sight, hearing and taste are slightly affected. The lungs are weak; the voice husky. The tonsils are red and inflamed. The stomach does not digest food well. The liver acts sluggishly.

Suffered From Catarrh for Nine Years—Was Cured in Five Months.

From letters written by Mr. Peter Hattenberger of Portland, Wis., we quote extracts as follows:

"Dr. S. B. Hartman.—Dear Sir: I have been suffering with chronic catarrh about nine years, and it has now settled on my lungs and I have all the symptoms of consumption."

"Dec. 12, 1890.—I am still following your advice and am getting along well."

"Feb. 12, 1891.—I am still improving in every way. The catarrh is leaving my head and throat."

"April 27, 1891.—I am still using your medicine. My health is improving right along, my appetite is good, and I feel better than I have in five or six years."

"Aug. 28, 1891.—I am rid of the catarrh now, and feel perfectly well and happy."—Peter Hattenberger.
