MINEWORKERS' CONVENTION

President Mitchell Delivered His Annual Address.

INDIANAPOLIS, Ind., Jan. M. - The feature of today's session of the United Mineworkers of America was the annual address of Freeldent Mitchell. He cited the conditions which brought about the anthracite strike last September. "The growth of our organization during the past year," said the president, "has been almost phenomenal. In December, 1900, the membership was 189,329, an increase of 58,312, or 168 per cent. There were organ-ted and reorganized 908 locals, as against 477 in 1806."

ident Mitchell says that the miners whould own their headquarters building, but suggests no city. The president fa-vored contracts which would insure uninterrupted employment for a period of two years instead of one, and recommended that the mineworkers' organization propose to the operators the formation of a joint board of arbitration and conciliation to adjust disputes arising between oper-sions and miners over the construction or Interpretation of the provisions of the joint agreement, when adjustment cannot be effected by the ordinary and established methods now in force.

California's Big Orange Crop. SAN FRANCISCO, Jan. 23.-The Chron-

California's orange crop this season promises to break the previous annual record. There will be between 19,000 and II,600 carloads for Eastern shipment. The great bulk of the product is credited to the offrus belt, which has Los Angeles as its shipping center. The southern counties will probably yield a total of between 19,000 and 20,000 carloads. The Northern citrus belt, of which Oroville is the shipping center, will produce between 900 and 1900 carloads of oranges These are the latest estimates by the Southern Pacific Company.

Elected to Southern Directory. NEW YORK, Jan. M .- John D. Probst rus today elected a member of the board of directors of the Southern Pacific Railway. Mr. Probst, who was formerly a di-rector, resigned a few months ago to cre-ale a wacancy so that President Hays might be second to the board.

MRS. NATION AT WORK. Demolished a Saloon in Enterprise, Kan.

ENTERPRISE, Kan., Jan. 21.-Mrs. Carrie Nation, the Wichita joint-smasher, began her crusade in Enterprise today by demolishing one joint and delivering a street lecture. Mrs. Nation went to Schill ling's place and attacked the glass door. She smushed the glass out of the frames and then stepped into the deserted joint. leaving the others outside. She smashe the big mirror, chopped gashes in the bar and broke all the glasses and bottles on the shelves. Then she went to the refrigerator and commenced bringing out cases of beer. She handled them easily, and, ifting them high in the air, dropped them on the floor, deftly cracking each bottle left solid after the fall. She said she had only begun her work, and expected to clean, out many more places. It is re-ported that she will move on Abilene to-

morrow, and the Abilene joint-keepers are preparing for her coming. About 8:30, as Mrs. Nation was lecturing on the streets, Mrs. Schilling, the wife of the man whose place of business was demolished, came up to her. "I've got you now," she said, and she struck Mrs. Nation twice in the face. A slight gash was cut over the eye, and it bled profusely. Mrs. Nation went to a neighboring house, had her eye bandaged, and continued her lecture on the street.

Lawlessness at Tien Tain.

TIEN TSIN, Friday, Jan. 18.—The United States transport Sumner, which has ar-rived at Taku, brought 150 troops to replace Americans who had been invalided Two deserters from the American troops, with an American flag, have recently committed acts of depredation the surrounding country, and have black-mailed the villagers. Both were cap-tured, but one succeeded in making his escape, and is still at large. It is probable that they will be shot. Three Sikha, who were found suilty of similar acts, were taken to the scene of their depredations today and given 50 lashes each. Many lawless acts are being committed. ### THE DEAD EMPRESS

FUNERAL DATE NOT ANNOUNCED

Services for the Royal Family Will Be Held This Morning-Personal Betinue of the Queen First to View the Remains.

COWES, Isle of Wight, Jan. 24, 1 A. M .-At Il o'clock this morning the members of the royal family will gather around the body of the late Queen, which lies in a simple coffin in the chapelle ardente, festooned with red and white hangings. The Bishop of Winchester, standing before an altar removed for the occasion from the private chapel, will read a portion of the service for the dead. The coffin rests on a specially erected platform In rests on a specially erected platform draped with royal purple, the feet lying to the east. The head faces the simple altar. Over the features is a thin veil.

For a few hours before this service the public will be admitted to the room and allowed to view the remains of the sovereign who for so long ruled over them. The body will rest there until Sunday, and it is probable that no removal will occur for 10 days.

The correspondent of the Associated

The correspondent of the Associated Press learns that the cause of the Queen's death, as officially given, was "senile decay." The doctors have adopted this expression as most suitable and truthful. They attribute the paralysis which at-tacked her as secondary to the general weakness of her condition, nor is it conweakness of her condition, nor is it con-sidered advisable for reasons of state to intimate that her intellect was dimmed by that particular form of disease

Details of the Dying Hours. Details of the dying hours were not ob-tainable until last evening. It appears that the Queen was moved Sunday from her big bed into a small cot especially built with springs which was surrounded by a screen. This was to enable the doctors to reach the patient easily on both sides, which was impossible when she lay in a bed six feet wide. In this small bed she passed away, When Emperor William arrived, he

rushed in, without taking off his overcoat, tunned in, without taking off his overcost, to her bedside, and the first words he said were words of regret that his mother was unable to come. "Yes," murmured the Queen, "I wish 'Vicky' could be here," using a pet name of her eldest daughter.

Thesday afternoon all the family were in readings for the end. At a clock

in rendiness for the end. At 4 o'clock the Prince of Wales was summoned, Half an hour later he was joined by the other members of the family. At 5 o'clock the Duchess of York arrived, and the Queen Duchess of York arrived, and the Queen kissed her, saying, "I am glad you have come." Inc Bishop of Winchester began to pray. Inc Queen slowly sank into unconsciousness. At 6:15 P. M. the end was thought to have come. The Prince of Wales and several others walked out of the room. But the vitality of the Queen once more won the day. For another 15 minutes, with only the Princess of Wales and a few others present the Wales and a few others present, the feeble spark of life was maintained. At 5.20 o'clock, with Emperor William, the Prince and the others present, death ac-

tually came.

Death has softened the face, and the thin veil conceals no terrible defects. The and of the mighty leveler dealt with her lovingly; and as the last visitation of nature has been mercifully mittgated so also have been the pomp and giory which accompany the succession of the King. Puesday night neither he nor his wife yould allow their entourage to address

them by their correct titles.

A large force of detectives present from London is a precaution against any an archist attempt on Emperor William, and not on account of the new King. First to View the Remains,

COWES, Isle of Wight, Jan. 23.-Events have shifted from Cowes to London, Os-borne is a house of mourning, and Cowes is probably the quietest place in the United Kingdom today. The King de-parted early, After him followed the army of officials and newspaper corre-spondents. The King's departure was as unostentiations as that of an American spondents. The King's departure was as unostentiations as that of an American President. He and his suite, in civilian attire, left the castle without a military escort and with no sign of pomp.

Queen Victoria's body was embalmed last evening and occupied the center of the dining-room, which was hung with trappings of mourning. Outside two officers were on guard. Within, two Indian attendants remained in company with the ladies in waiting, who were constantly present. The body is attired in black. The face is perfectly peaceful and the remains have been placed with the arms folded. On the breast rests a beauarins foliate. On the oreast rests a best-trul gold cross. The head is inclined alightly to the right, All about repose quantities of beautiful flowers. The honor of first seeing the body of the Queen was conferred on her personal

retinue and such simple pathos as marked this ceremony could hardly have occurred in any other monarchy. All the servants and tenants were admitted. The footmen, house maids, coachmen, stable lads and policemen filled through the room for four hours. There were no formali-ties, Bent old men, children and Ismties. Bent old men, children and familles who had grown up on the estate and who regarded Queen Victoria as a friend and patron, rather than as a sovereign, took their turn, and their grief was the sorrow of those who had lost a friend. In the meantime, many residents of Cowes, from the neighboring towns, and some prominent people applied at the porters lodge for admission, but they were told to come tomorrow. There is no missacing the reality of the sorrow of Cowes, Emperor William and Princess Louise, the Duchess of argyil, walked to Wippingham Church this afternoon.

Emperor William has ordered in London two magnificent wreaths with broad ribbons, bearing the initials of himself and the Empress, which he personally, will place on the Queen's coffin at tomorrow's service. The route from Osborne House to Trin-ity pler was deserted, except for a few groups of bareheaded persons, when, at 3:80 o'clock, three open carriages drawn

by white horses, galloped down the hill. In the first carriage were the King, the Duke of York, the Duke of Connaught and Prince Christian. The King looked weil and bowed repeatedly in acknowledgment of the greetings of his subjects. The Remains of Victoria Still at Osborne House.

event. Nothing has been decided at Osborne House regarding the fuheral arrangements or the removal of the body, and nothing will be until the arrival of the King. The palace is painfully quiet this evening. There have been no arrivals or departures since the King left. The family dinner party, like that of last night, was brief. Herr Fuchs the German scuiptor, has arrived to take a cast of the dead Queen's face. The agent arrived here after Christman. It was explained to the these Christmas. It was explained to him that Portland people were in favor of the project, but that the reason they could not undertake an expenditure of \$1,506,000 to \$1,750,000 in building the road was that these sums were greater than this com-munity could take out of its legitimate business channels for permanent invest-ment. But Portland was found ready to o-operate with others in building the

The agent returned to New York and reported favorably. Information has since been received that before the New York people put a corps of engineers in the field to select one of the two routes already surveyed into Portland and vegify the cost of construction, it would be necessary for substantial men to organize a company and out of their own number elect a board of directors locally to manage its affairs.
