The symptoms grew steadily graver, but the heart's action was maintained throughout, and the temperature was

Among the innumerable telegrams of sympathy that continue pouring in from abroad, President McKinley's gives the greatest pleasure. The Daily Chronicle remarks: 'It is believed that President McKinley's was the first to reach the Prince of Wales under his new title, and just as Frederick the Great was the first European sovereign to recognize the independence of one United States, so now the President of the United States has been first to recognize the Kingship of the grandson of the monarch against whose authority the American colonists successfully rebelled. This is very touching when one remembers the visit of the Prince of Wales to Washington's tomb. Probably it was some remembrance of Probably it was some remembrance of that incident which made President Mc Kinley hasten to be first to salute the Prince of Wales as King, and the com-pilment, we are told, was most keenly appreciated."

The Standard says: "It is not for mere show that the Americans have received the news of the death of Queen Victoria as a bereavement of their own and com mented upon it in terms such as they would employ in the case of an honored President dying in office."

The King, who remains in Lendon over night, was driven to Buckingham Pal-ace, after taking the cath by the Privy Council, and dined there with the Duchess of Albany, Subsequently he went to Marlborough House to sleep.
