

FOR MUSTER-OUT
Volunteers May Be Discharged at Vancouver.

IT IS SECRETARY ROOT'S WISH
General Beebe and Senator Simon Lead the Matter Before the Secretary-General Miles in Favor of the Course.

WASHINGTON, Jan. 28.—General Chas. F. Beebe, of Portland, with Senator Simon, called on Secretary Root this morning and urged that those volunteers now in the Philippines who were enlisted at Portland or Vancouver Barracks, should be returned in a body to the States. Secretary Root assured them that it was his wish, so far as consistent with an active discharge of the men, to have discharges granted at the place of enlistment, but that he could not say definitely at this time just what should be done in particular cases. He recognizes the desirability of having the Thirty-fifth Regiment, four companies of the Thirty-ninth, and the companies of the Forty-third, landed at Vancouver Barracks, and will so order, unless some new obstacle presents.

REBELS DISPERSED.
Fannston Clears His District of Insurrectionists.

MANILA, Jan. 28.—General Fannston reports that practically all the organized insurrectionists in his district have been dispersed, with the exception of disconnected bands in the mountains. Sixty-five more rebels in the Island of Panay have surrendered to the United States authorities at Cabañatuan. George T. Rice, editor of the Daily Bulletin, who was ordered by General MacArthur to be deported because of the publication of his paper of allegations against Lieutenant-Commander William Brauner, was released from the military prison today, and it was ordered that he be held a prisoner until he arrives at San Francisco.

The Philippine Commission has passed an act annulling that part of the Spanish code which disqualifies Judges and Magistrates for trying certain cases on account of alleged incompetency. The act declares that the Judges are incompetent only when pecuniarily interested in the litigation or related to the litigant. The criminal and civil codes are almost completed. The hearing on the municipal government bill was finished today, and the measure will be enacted Wednesday. Only two natives objected to the church property taxation feature, and no objection will be entered on behalf of the church or other organizations.

Reports from General Luson say there is much disaffection in insurgent camps. A thousand persons swore allegiance to the United States in a church at Malabon, Sunday. Cailles Camp, near San Antonio, was destroyed by fire on Friday by a detachment of the Fifteenth Infantry. The insurgents escaped, but a score of houses were destroyed. Detachments of the Fourth Infantry and the Fourth Cavalry, with a platoon of marines, have captured 140 identified insurgents and 100 in Cavite Province. Twenty wire-repairers were attacked recently south of San Pablo by insurgents, and seven of them were killed. Two Americans were wounded, and one was captured, but was subsequently released by the Forty-eighth Regiment. The native volunteers who were wounded, and several were captured. Valles, chief of police in the Island of Cebu, who has been in hiding since August on account of his activity in the "Insurgent" interest, has taken his flight to Hong Kong. The other chief of Cebu police has been compelled to swear allegiance or be deported. They have chosen the former. Minor insurgent activities continue in Cebu and Bohol.

General MacArthur this evening reviewed and addressed the Eleventh Cavalry. He highly complimented the troops, and the the "Insurgent" interest in the Islands, prior to their departure.

FOR FILIPINO TROOPS.
NEW YORK, Jan. 28.—After the passage of the Army reorganization bill, Secretary Root will call for a report from General MacArthur to organize 10 regiments of Filipino infantry and cavalry, says the Washington correspondent of the Herald. This action will be taken upon the recommendation of the Philippine Commission, the commission says that while the American soldiers are unsurpassed in war, they do not make the best policemen in the Philippines. Native troops, in the main, the commission believes, should be offered by Americans.

P. D. ARMOUR'S WILL.
Disposes of an Estate Worth Fifteen Millions.

CHICAGO, Jan. 28.—The will of the late millionaire packer and grain dealer, Philip D. Armour, was today set aside by the probate court, according to statements made in an application for letters testamentary filed in the Probate Court here today by Malvina B. Armour, widow of the deceased, and J. Ogden Armour, their grand-children. Mrs. Armour and J. Ogden Armour are named executrix and executor, and are named as legatees, each receiving one-half of the estate. The total net worth, \$15,000,000 is in personal property, and \$10,000,000 in realty. P. D. Armour and Lester Armour, grand-children by his son, P. D. Armour, Jr., who died in California a year ago, are named legatees directly in the will, but are provided for handsomely by "charges upon the legatees." It is provided in these "charges" that upon attaining the age of 25 years, each of the grandchildren shall receive \$1,000,000, half of this from Malvina B. Armour, their grandmother, and half from J. Ogden Armour, their uncle. At 30 years of age each is to receive a similar amount from grandmother and uncle. Should they live to attain the age mentioned each will, therefore, receive an aggregate of \$2,000,000 from the estate. As a reason for not leaving his grandchildren more, the writer of the will explains that their father, during his life, had already received nearly all of his share in the estate. To this the children and their mother are heirs. The executrix and executor are given full power to manage the estate without bond. The instrument is dated Pasadena, Cal., Jan. 30, 1900.

Armour Institute, Mrs. Armour's pet project, which is fostered with a lavish hand during life, is not mentioned in the

LATE QUEEN'S FUNERAL
ROUTE OF PROCESSION THROUGH LONDON EXTENDED.

Saturday Will Be Observed in London as a Day of General Mourning—Kaiser's Son Decorated.

MILITARY SERVICE IN FINLAND
It Will Conform With the System in the Empire at Large.

ST. PETERSBURG, Jan. 28.—The Ministry of War has completed the draft of a law to regulate the military service in Finland in conformity with the system adopted in the empire at large. It is expected that it will be put in force early in the year. Governor-General Bobrikoff has lately issued instructions to the Governors of provinces in Finland urging a stricter enforcement of the ordinance of last July regarding public assemblies. The complaint is made that this ordinance is evaded under pretext of amusements and entertainments of various kinds, which require permits may be reckoned gatherings in which social, scientific and economic questions are discussed or where addresses are made. Assemblies which are permitted shall be watched over by the police, whose duty it will be to suppress demonstrations.

The St. Petersburg city government intends to install a telephone service, to give an automatic signal at 9 o'clock every morning for the purpose of enabling subscribers to regulate their timepieces. This function is fulfilled by the firing of a cannon at noon at the citadel. A fortnight ago, Colonel Hunsicker, the London agent of Carnegie's Steel Company, felt absolutely confident of the contract for 200 tons of armor-plate, the letting of this contract has just been indefinitely postponed. It is related that at the first audience the Emperor granted the Minister of Marine, a contract was recovered from his illness. His Majesty remarked that he observed a good many contracts for material for the Navy were being given to foreign companies, while Russia was a manufacturer of armor-plate. He said to have answered that there were many things which foreigners could produce better and more cheaply than the Russians. In instance, armor-plate. When the Emperor granted a contract was about to be awarded to the Carnegie works, he is stated to have ordered that it be given to the Kolvina Iron Works, near the city of St. Petersburg. The contract was understood to have made a contract several years ago binding it to pay Krupp 1,000,000 rubles, or more than \$500,000 a year, for the use of his process, but that it had not produced any armor-plate up to date.

The competition between the standard Oil Company and the Russian naphtha interests in the markets of the world, always live together, is the subject of a serious article in the Journal of Commerce and Industry, the official organ of the Ministry of Finance. The author writes that the competition between the two companies is a serious one. It should not be forgotten that the compromises which might be included between our industrialists and their puissant competitors of the New World for the partition of the European market would not have a durable character until our industrialists should have placed themselves in a situation to bring their own products to the market on equal terms. "If the powerful Standard Oil syndicate has been content hitherto to operate only in a part of Europe, nothing assures us that it will not in the future, more or less near at hand. American oils possess certain advantages over ours, and as long as this is true such measures as lowering the price will avail nothing. On the other hand, by improving the product, one will advance toward certain success, thanks to the facility of transportation in tank vessels.

"Much of the optimism of our peasantry is generally guided by logic of the present and simplest kind. If he looks upon all other men as his enemies, it is simply because he does not know any other. Anything which could attach him to it particularly. This is why he does not make an effort to become proficient in his work. Working in a shop in the field or in a factory, he always finds in his work the same privations. Life does not smile upon him, and he becomes indifferent to his lot. Large gold deposits are reported to have been discovered on the edge of Lake Balk. New discoveries of gold are reported from the Irkutsk River. M. Popoff, the inventor of a system of wireless telegraphy, is going to England to discuss the sale of rights to an English company.

LOCKED IN THE CASHIER.
Standard Oil Office in Kansas City Robbed.

KANSAS CITY, Jan. 28.—At the office of the Standard Oil Company, in the southern part of the city, this afternoon a young man forced Cashier Irvin, at the point of a revolver, into a closet, and after locking him in, made off with \$200,000 and \$200,000 in cash. Irvin was preparing his cash for the bank, when, at 3:45 o'clock, a young man, probably 24 years old, entered the office quietly, and, without making a sound, unlocked the door, ordered him to retreat to a small closet a few feet away. Irvin complied promptly, and the robber turned the key on him. Then, placing the money in sight in his pockets, he walked to the office, unlocked the door, and made off with the money. The police tonight arrested Chief Coverdale and Ralph Meyer, near the Union Station, on suspicion of being guilty of the robbery. Later, Cashier Irvin, together with other employees, were taken to the office and searched, but no money was found on any of them.

Storms in Germany. BERLIN, Jan. 28.—Hurricane-like snow-drifts in many parts of Germany and during the last 24 hours considerable damage has been done. The weather is particularly violent on the east Prussian coast, where the City of East Prussia has been struck by a violent tidal wave. At Frankfort-on-the-Main snow is falling heavily this evening. Dispatches from Bremen say that a strong north-west wind is driving the water into the Weser until it nearly reaches the edge of the dikes. A freight train near Dresden was partly hurled from an elevated track on the line from Potschappel to Wilsdorf, and five cars were badly wrecked.

THE HAGUE FESTIVITIES POSTPONED.
THE HAGUE, Jan. 28.—The Illumination in honor of the marriage of Queen Wilhelmina to Duke Henry of Mecklenburg-Schwerin has been postponed to February 4, out of respect to Queen Victoria's funeral.

Spain Will Participate.
MADRID, Jan. 28.—The Queen Regent has ordered the Spanish cruiser Carlos V to proceed to Spithead tomorrow to participate in the naval display.

MONUMENT TO VICTORIA.
NEW YORK, Jan. 28.—A dispatch to the Tribune from London says: A movement, which is, however, entirely without official encouragement, is on foot to erect a great monument to Queen Victoria, in London. Already a proposal has been made to erect a monument to Victoria, and it is supposed that only the United States Ambassador, Joseph H. Choate, and his staff will be present.

Salisbury Will Not Resign.
LONDON, Jan. 28.—There is not the slightest foundation, the Associated Press is officially informed, for the statement that Lord Salisbury will resign. Further, it is officially set forth that the Premier's resignation is not being considered at the time of the death of Queen Victoria was due to the urgent request of King Edward, who feared Lord Salisbury's health might be impaired by the trying and arduous duties of a participation in the funeral. Besides, it was bitterly cold at Cowes. The most cordial relations prevail between King Edward and Lord Salisbury.

Proclaimed at Pretoria.
PRETORIA, Jan. 28.—In the presence of Lord Kitchener and his staff at noon today the Governor-General, Sir Alfred Milner proclaimed King Edward VII as King of the United Kingdom of Great Britain and Ireland, defender of the faith, Emperor of India and Supreme Lord of and over the Transvaal.

Little Comment in Berlin. BERLIN, Jan. 28.—The announcement of the appointment of Emperor William as a Field Marshal in the British Army has been received by the press with comparatively little comment. The German newspapers, however, have noted the personal friendly relations between the Emperor and the King.

Government Troops Met With Crushing Defeat.
NEW YORK, Jan. 28.—A dispatch to the Herald from Port of Spain, Trinidad, says: Details have been received here of fierce fighting last week on the part of the rebels, resulting in final defeat for the government troops. Several hundred men were killed in the engagements. Carupano has been recaptured by the insurgents in a large battle. Reports from Carupano also indicate grave conditions. Persons here who are in touch with the situation are informed that a chief battalion of the government forces has been ordered to leave the island and the mutiny is said to have been an order issued by President Castro that certain prominent persons suspected of being in league with the rebels should be shot. The rebels were given the military commanders and disobeyed.

Trouble in the Central states seems to be growing, although the censorship prevents details from being known. It is reported that the rebel leaders are receiving aid from Colombia and that a vigorous protest will be made by the Castro Government. As Colombia has been giving aid to the rebels in that country, there is a possibility of a serious clash. The chief fighting on the mainland took place near the town of Carupano, where the rebels, having 200,000 rounds of ammunition, part captured at Carupano and part received from filibusters, entrenched themselves near Los Cuevas, a town a few miles inland from the coast. The government forces, under command of General Juliana Pedro Costa and Juanchoa Colista. They were closely watched by 100 government soldiers. One of them was shot and the rebels were prevented to seek food in their camp. A party of the enemy made a sortie and captured the man before he could reach his comrades. The main body of the rebels, however, were driven back to the trenches and the latter charged the intrenchments. They were driven back several times, but continued the attack for five hours. They gained no substantial advantage until a sudden change in the weather brought on a heavy rain. The rebels retreated, carrying most of their supplies. They had eight killed and four wounded. The government forces are said to have lost 250 killed and 27 wounded in the fight. Eleven women who were with the troops were slain during the battle. The town was captured by the rebels during the night and was entered by the 800 regulars the next morning. The insurgents retreated to Trapa, and, after resting, marched into Guirica to obtain shelter and reinforcements. They had been followed by the government forces, but returned from Guirica and gave battle, compelling the enemy to retreat from Trapa. The rebels, however, were committed in Los Cuevas and Trapa by the government troops are made by persons who have fled here. It is declared that neither national nor sex was respected in the soldiers' arms. The rebels were to have swarmed through the streets, frightening men and women by threats of putting them to the sword and compelling them to give large sums in order to save their lives.

CROWN PRINCE HONORED.
Frederick William Receives the Order of the Garter.

WESB, Isle of Wight, Jan. 28.—The Crown Prince of Prussia, Frederick William, was invested with the Order of the Garter today by King Edward VII. The investiture occurred in the council chamber of Osborne House, and was a brilliant function, in which were present the household, military and civil functionaries and the Emperor's entourage, including a party from the imperial yacht Hohenzollern. The Crown Prince, in full uniform, while the Crown Prince will before the King to receive the insignia. His Majesty addressed a few cordial words to the Prince, and then, turning to Emperor William in touching terms, thanked him for his visit at this time of sorrow and bereavement, and dwelt on the personal and other ties uniting Germany and Great Britain. Emperor William will bestow the Order of the Red Eagle on Prince Arthur of Connaught (the son of the Duke of Connaught). The Grand Cross Marshal of Prussia, Count von Eulenburg, his wife and two children, accompanied the Crown Prince to join the suite of Emperor William. The latter accompanied the Crown Prince on a long ramble through the Osborne House grounds today. His Majesty later boarded the Hohenzollern to transact urgent state business. The funeral procession will leave Osborne House Friday at 3 P. M. From the house to the pier the route will be lined with troops, and the royal personages will follow the coffin on foot. An order issued by Admiral Sir Charles Frederick Hotham shows that 25 British vessels will take part in the naval display.

NO SORROW IN IRELAND.
Redmond Says It Is Not Due to Want of Respect.

NEW YORK, Jan. 28.—A dispatch to the Journal and Advertiser from Dublin says: John Redmond, leader of the United Irish party, speaking at Wexford, said: "All the world was assembled in London, not in tribute, but in sorrow, around the Mer of her who, to English people, at least, will live in history as a great constitutional sovereign. But Ireland was absent. Ireland, of all her empire, stood apart, sullen and dissatisfied. Ask your English rulers why. It is not because the Irish race is hard of heart and cold of nature; it is not because of any want of respect for the personal virtues of the lady from whose weary hand the acceptor of power is snatched by death. It is because of the wrong done to her by the British Government. Ireland was snatched from a land of rebellion to a happy colony would transform Ireland tomorrow from a disaffected to a contented land."

IT'S THE LIMIT.
The total expense to patients of the Copeland Institute is \$5 per month, treatment and medicines included. That's the limit. Patients not permitted to pay more even if they so desire.
