trade in fair condition. There were a number of sales of wheat yesterday at 55% to 56 cents for Walla Walla, 56 cents being the topmost price warranted by the Liverpool quotations for heavy wheat. Barley remained dormant; as it has been for most of the month. There is considerable demand for charters, though exporters are alo wto bid the figure that ships are now held at-dis 3d. Beautiful weather has contributed to the encouragement of general trade. The movement of ops and potatoes, the former to the East, and the latter to Southern markets, has been quite active, and the lumber shipments have picked up considerably in the past week. In certain lines purchases have been light for the past day or two because of the desire of many dealers to clean up stocks with the month. These dealers buy more beavily at the begin-

ter has been propitious, not only in the Northwest, but also throughout the Eastern wheat districts, and nothing has yet appeared to pull down the estimates of large yields. The acreage in the Williamette Valley is fully up to the average sown there, and the same is true of the wheat country east of the mountains. Pruit prospects are also good. The weather has been cool enough to keep the trees from unseasonable growth, thus preenting the danger that sometimes threatens at this time of the year-of injury by frost because of pravious growth ild weather. The prune market is not satisfactory, and some of the grow-ers express fears that it will not recover before the coming crop shall be ready to sell. A large part of last year's prunes is attll in the hands of the growers, who are, however, able to hold them. If neceseary. No important asles have been reported lately.

A year ago wool was bringing as high as cents and buying was quite brisk. Thousands of pounds were sold before it was sheared. The dealers lost money. With that experience to guide them, buyers are this year taking wool only as fast as actually needed by the mills. Growers hold for more than the market warrants paying, and the result is that almost no sales are made. The new shearing season is approaching, and the growers are facing the problem of finding storage facilities for the new crop The warehouses at The Dalles, Heppner Pendleton, Ontario and other wool centers are full of last season's wool, and if they are to be free for the new crop the The price of Oregon butter felt off

5 cents a roll early in the week, and even at that price the market is not strong The competition of California new grass butter is what is driving the market down. Eggs are steady, and the market cleans up well every day. The glut of the poultry market continues, and the only solution seems to be to get the prices down to a figure that will make the people ent chickens in preference to other meat. There is no demand at all for turkeys. Ducks and geese sell slowly, And there is yet no end to the supply in sight. One farmer up the valley is waiting to get 1000 chickens on the market when there shall be reasonable chance that it will absorb them.

All hides received now are grubby and bring little money. There is little doing in hides or furs.

NEW YORK STOCK MARKET.

The Day's Operations Centered in Movement of Specials.

NEW YORK, Jan. 10 .- Today's market was made up of movements in special stocks, evidently under the operations of speculative cliques who brought manipuistion freely to bear to aid the movements. Another overwhelming proportion of the business was concentrated in less than a dozen stocks. St. Paul, Steel and Wire and Southern Pacific continuing very prominent, but were supplemented by large dealings in Rock Island and some of the Southern stocks. The first five minutes of trading were sufficient to demonstrate that very powerful support was in the market. The heavy offerings of St. Paul were freely bought and its decline was checked at 150. The same was true in Northern Pacific and in the steel stocks. The official color given to denials this morning of the so-called St. Paul and the explicit assertions that it was off, brought a large speculative selling of the stock and the statement on behalf of the steel and wire directors given out after the close of the market yesterday was a weakening influence in the steel group. When the determined and effective support at these threatening points was observed, the tone of speculation was strengthened and prompt advance in Rock Island and various other stocks in the latter part of the day served to sustain prices in the general list. Solling to realize was going on actively under cover of the strongth in active stocks and the market was highly irregular the whole day. Under the influence of the first upward

spurt in Rock Island, which rose an exspurt in Rock island, which rose an ex-treme 2k, there were general rocoveries. St. Paul and other leading stocks rose above last night. The fact that the buying in Rock Island was by brokers identified by the support in Steel & Wire aroused some distrust of the movement and subsequent advances. the movement and subsequent advanced In special stocks were not notably re-spended to in the general list. St. Paul sold off later to 149% and closed with a net loss of a point. Southern Pacific suffored from heavy realisting on the state-ment of December and the net earning showing the extraordinary increase of 882,123 over December of last year. Mo-bile & Ohle continued to advance, rising bile & Ohio continued to advance, rising 5% on top of yesterday's gain of 5%. No authentic information could be secured during trading hours as to the source of this buying, but it was made the occasion by speculators for advancing the stocks of various railroads which might be benefited by gaining its control, including Southern Railway, Louisville, Chicago & Alton and Kansas City Southern. The control of the road is at present vested in the bondholders through a voting trust, and it is said that no controlling interest in the stock is held by any one party.

by any one party. by any one party.

Late in the day the steel stocks were marked up vigorously after resisting the decline all day. The rise in Steel & Wire of the lowest reached 3%; in the preferred 1½, and in Federal Steel 3½. There

were gains of 1 to 1% by some other members of the group. The engagements of gold for export by tomorrow's steamer make a total of \$2.250,000, which is considerably less than the preliminary estimate. But sterling exchange here advanced further today than it did in Parls, and it is evident that a gold movement from here to London is imminent. Borrowers in London resorted to the Bank of England today, showing that the efforts of that institution to control the open market are meeting with success. With a prospect of gold being thus drawn from New York, it seems hardly probable that the bank rate will be reduced tomorrow.

Prices of bonds were well sustained today on a good absorption. Total sales par value, \$3.955.000.
United States bonds were all unchanged.

Shifted From the St. Paul.

Sharp & Pryan's letter to R. W. McKin-non & Co., yesterday, said: New York-The street was very generally surprised by the day's market, as the talk was hearish before the opening. The purchase of Chicago Terminal by the Harriman syndicate infused new life into things, however, which led to heavy buy-ing, and a decided advance in Rock Island and the Alton stocks. The market seems to have cut away from the talked-to-death St. Paul deal, as it is pretty generally be-lieved it is indefinitely postponed, if not actually abandoned. The stock, after an early break, however, was notably strong for an ex-deal stock. Southern Pacific rose slightly, subsequently reacting on profit-taking. The market closed at near-ly the best of the day.

Foreign Financial News. NEW YORK, Jan. 39.—The Commercial Advertiser's London financial cablegram

Business was brisker on the stock market here today. The American department was active once more. London was buy-ing quietly of American shares at the ing quietly of American shares at the New York opening, but cabled selling orders caused a setback. After that the department was duil up to the close, The chief demand for American stocks was in Southern Railway. This buying was stimulated by the report that the Mobile & Ohio and Southern Pacific securities were being sought in a fight for control. Money was a little stiffer today. Silver was fint on the constal of Eastern demand.

THE WOOL MARKETS. Improvement in Boston, but Move-

ment Still Slow.

BOSTON, Jan. W.-The American Wool and Cotton Reporter will say tomorrow: The wool market has been more active the past week, and a somewhat improved feeling is noted in the trade. Quite a number of milis have been represented in the market, and some fair-sized lines of wool have been taken. The amount of business done considerably exceeds that of the previous week, and we should estimate the volume of sales at about 3,500,000 pounds. These consist largely of territories, scoured, medium flaeces and delains wools. Some manufacturers express them-selves as satisfied with the orders which they have taken on overcoatings. Others are still running on duplicate light-weights. While prices are, upon the whole, in favor of the buyer, there has not been sufficient recession as yet to justify a general lowering of quotations. In fact, in some lines a preity firm feeling prevails. This is especially noticeable in quarter-blood fleeces and delains wools, as well as on scoured wools, and some sales have been made at full quota-

Sales for the week in Boston amounted to 3,176,000 pounds domestic and 280,000 pounds foreign, making a total of 3,456,000 pounds, against a total of 1,225,000 pounds for the previous week and a total of 4,544, 000 pounds for the corresponding week last year. The sales since January 1 amount to 9,615,000 pounds, against 17,-169,600 pounds for the corresponding time

LONDON, Jan. 30.—The wool auction sales were continued today. During the series 197,074 bales were offered, of which 15,550 were withdrawn. The offerings today numbered 10,631 bales. Merinos were in fair demand. American buyers paid full prices for suitable parcels of certain trades of which a larger supply was of grades, of which a larger supply was of-fered. TO FIGHT EACH OTHER.

The Canners and Fishermen Have Formed Unions.

VICTORIA, B. C., Jan. 30 .- A series of meetings is being held by the salmon canners of the Frases and Northern Britsan Columbia Rivers to perfect a combine for the coming season, and also to pro-vide protection for the canners from the labor agitators who succeeded in ke

the fishermen from working while the big run of fish was on last year. Every canner on the Fraser is going into the pool. The fishermen are size active, and have formed five unions on the different rivers, including in their membership Indians as well as white fishermen. A central authority is to be appointed to act as the representative of the unions in dealing with the combine. An effort 's being made to keep the Japanese who broke up last year's strike off the river.

Come back same way

Most people who go East via Billings and the Burilington Route come back the same way. They wouldn't if the service was

unsatisfactory. But it is satisfactory. Track is smooth and solid. Cars are modern. Employes are civil. Beat of all, you don't make a single change of cars from the time you leave Portland until you are landed, safe, sound and on time, at Kannas City or St. Louis. Only one change to Omaha and Denver.
