J. E. THIELERN GORS TO ONIO.—J. E. Thielsen, formerly superintendent of the Portland Railway Company, and a well-Fortland Railway Company, and a well-known railway man, will leave this aftermoon for Troy, O., where he will superintend the construction of new trolley
lines. But two messages came to him,
one asking if he would go, and the other,
after he had replied in the affirmative,
asking him to go at once. The message
came from Boston people who knew Mr.
Thicisen well, and there was no necessity
for love evaluations. Mr. Thicisen was for long explanations. Mr. Thieleen was superintendent of construction of the O. R. & N. and later had charge of the work of electrifying the Vancouver line and the Washington street system. He is a popular man and a competent engineer. Mrs. Thieleen will accompany him East.

DELAY IN McDaniel's Case.—The case of Frank E. McDaniel has at last reached the Supreme Court on appeal, the bill of exceptions having recently been settled in the lower court. McDaniel was convicted December 17, 1895, and the crime with which he was charged was committed about 415 months order to the time. which he was charged was committed about six months prior to that time. The trial was long, and as there was a great deal of evidence, it took considerable time for the official reporter to transcribe the stenographic notes. Delays occurred from numerous causes, and finally when the bill of exceptions was made up, District Attorney Chamberlain, who had come into office, desired other additional evidence, which had not originally been included in the transcript of testimony, to be made a part of it. This the official reporter did, consuming, of course, some more time. Considerable time was also more time. Considerable time was also consumed by the attorneys on both sides in reading the evidence, and having the court p. ss upon the numerous objections taken at the trial. There was perhaps quite a little unnecessary delay, but much of the time was consumed in actual work.

Pinewood Not Advances.—The present Winter has not been considered a favorable one for wood dealers, as very cold days and nights have falled to put in an appearance to any extent, so there has been no unusual demand for fuel. The season is not so well along that a cold season is not so well along that a cold spell is not expected, and so the prices of cordwood do not tend upward. Good dry fir can be bought for \$5 50 to \$4 a cord, and oak for \$4 50 to \$5, the higher price including the sawing into stove lengths. Wood dealers do not think it pays people to pile up a Winter's supply in the Fall, although the comfort of hav-ing a big pile of dry wood in the base-ment or west wights. ing a big pile of dry wood in the base-ment, on wet nights, may repay the trouble in some measure. "People pay as much for wood when they pile in a lot in the Fail as they would if they bought by the single cord all Winter," according to one deaer, "so those tenants who are always thinking of moving and therefore cannot lay in a supply of wood are no worse off than the property-owner who could not move if he wanted to."

Maxing Boan Supervisors Engreys.

Making Boad Supervisors Elective—A bill introduced in the Legislature by Representative Holcomb provides for the election of road supervisors in Mulinomah County every two years, and that in the meantime on June 1, 199, County Judge Cake may do accept with the process of the county meantime on June 1, 1805, County Judge Cake may do away with the present road supervisors, and appoint others in their places to serve until the election in June, 1902. The bill provides that the County Court may divide the county into road districts not oftener than once in two years, and that each road district shall lie wholly within one or more election precincts, provided that all the territory within any incorporated city or town may within any incorporated city or town may within any incorporated city or town may be one or more road district. According-ly, 30 or more road districts may be cre-ated, if desired, where there are now steen. It desired, where there are now eleven. The road supervisor shall be a resident and a taxpayer. The portion of the act providing for the appointment of road supervisors by the County Judge is the interesting feature of the bill, and is

attracting general attention.

Bicycle Rupainess Busy, - Bicycle dealers of Portland are all laying in new stocks for the season of 1991, and they think the present spell of dry weather and good roads will have a tendency to open the wheeling season carlier than usual. Repair shops were rushed with work yesterday, and many a wheelman, in a hurry to have a puncture stopped, was turned away. This is the very worst part of the season for us," a repairer said, "as they are all getting out their wheels for a spin and many of them find the bikes in no condition for the road. In a blkes in no condition for the read. In a few weeks it will be better, as most of the wheels will have been repaired, and then our regular customers will keep us just about husy. This business all comes by spurts, and on wet days in Winter we haven't much to do. Then is when the people ought to bring their disabled wheels in."

READY FOR OCCUPANCY.-The first floor of the new Pailing block, corner of Third and Washington, is about ready for its tenants, and some of these are already moving in. The Postal Company has nearly all its instruments in position in hearly all its instruments in position in the southern end of the building facing. Third street, while on Washington street the stores are being swept out ready for business. The ticket office of the O. R. & N. will occupy the corner apartment as formerly, while these of the Denver & Rio Grande and Great Northern will face. Rio Grande and Great Northern will face Third street, further south. The three upper stories of the block will be occupied as business offices, and when the build-ing is entirely finished it will add much to the life and traffic, already heavy in

that quarter of the city.

Hinto Too Long.—Prunegrowers in the vicinity of Portland did not make much money list year, and some of them have quite a proportion of the crop still on their hands. Those informed in such matters think the groups were did not said their their hands. Those informed in such mat-ters think the prune men did not sell just when they should, but stood out for an advance when 6 cents was offered. Ital-ian prunes can now be sold for 4% cents per pound, but the French do not seem to command any price at all. The organiza-tion of prunegrowers, which was started last year for the purpose of handling the crop, has passed out of existence, as a majority of the acreage could not be se-cured.

DEATH OF WILLIAM McCOWN.-J. L. Mc-Cown, chief proofreader of the Evening Telegram, received news of the death of his venerable father, William McCown. yesterday morning at Waltsburg, Wash. He had been ill only a short time, and up to a year ago was in good health. He was 80 years old and had emigrated to Ore-gon in 1852, being well known among the early pioneers. He leaves four children, Mrs. T. H. Brents and Frank McCown, of Walla Walla; William McCown, of Watts-burg, and J. L. McCown, of Portland. The latter was summoned to Waltsburg yes-terday morning.

Asks to Be Relieved .- P. T. Smith,

Asks to Br Releved.—P. T. Smith, executor of the will of James John, deceased, filed his final report. He asks to be relieved of his trust, because of falling health and recommends the appointment of Robert Catifn as administrator to take charge of the property. The report shows \$555 receipts, and that \$4000 was paid to Nicholas, Deady, Catlin and Kollock for defending a certain iswault against the heirs. James John left all of his property for the foundation of a school at St. Johns.

### COMING ATTRACTIONS.

"'Way Down East."

The sale of seats opened yesterday morning for "'Way Down East" at the Marquam Grand and was one of the heaviest in the history of the theater. Indications point to the largest week's business the theater has ever known. The company opens Monday night, February 4 for an entire week, with a matinee Wednesday and Saturday. This is the same great play by Lottie

This is the same great play by Lottie Blair Parker, elaborated by Joseph R. Grismer, that created a decided sensation in New York, where it remained for nearly two years. It will be given in this city under the personal direction of Mr. William A. Brady, with a sterling cast, careful attention to details, handsome scenery, and with all the realism that evinced its success elsewhere. All classes of people, among them thousands who seldom visit a theater, have become warm partisans of "Way Down East." It is full of delightful little episodes. One discloses the pride that underlies a mothdiscloses the pride that underlies a moth-er's love for her son. The young man is in love with a girl whom his fond par-ent believes is an outcast, utterly un-worthy, and whom she becates for encouraging her boy. The girl retorts that not only had she not encouraged him, but she had refused to marry him. The mother's pride is in arms in an instant. mother's pride is in arms in an instant, and she becomes all the more indignant because the girl has had the bad taste not to fall in love with her son. The play is full of relishable fun, as well as the serious interest attendant upon the pathetic story of the heroins. There is a thoroughly realistic snow storm, a splendid quartette, and much else that goes to make up a perfect production.

"The Star Boarder" at Cordray's. The offering at Cordray's Theater Sun-day night and all next week will be "The Star Boarder," one of the new and bright musical farce comedies which has been put together by clever playwrights and entrusted to good companies for the en-tertainment of the amusement-loving public. While the play makes no preten-sions of being anything but funny, it is sions of being anything but funny, it is asserted that as a laugh-producer it has few equals, and the many specialties which are introduced are said to be the best that money can procure. It is hand-somely staged and prettily contumed, and the fact that Charles H. Boyle is at the head of the company is rguarantee that the people who are presenting it are worth seeing.

"Kidusped" Tomorrow Night. "Kidnared," s melodrama containing exceptionally good advantages for elaborate and realistic scenic display, will be the attraction at the Metropolitan Theater tomorrow night, and will continue for an entire week with the usual matines Sat-urday. The only convincing groofs of the merits of this company are to witness their performance in person, as all combecautes of the entertainers were hugely enjoyed. The programme included songs, recitations, musical specialties, haton swinging, readings and other diversions.

I amalist County Tax Levy.

M'MINNVILLE, Or., Feb. 1.—The Commissioners for Yamhili County have
placed the tax levy for the ensuing year
at 18 mills, which is one-tenth mill less
than last year. This levy, added to the
city and school district levies, makes the
total rate in McMinnville 25.3 mills.

Taxpayers' League on the County Levy.

### LESS THAN \$120,000 IS NEEDED

The League Calculates That \$142,000 Can Be Saved in the General Expenses-Why Four Mills Will Be Enough.

The Taxpayers' League has prepared a County this year, above estimated re-ceipts need not be more than \$5.582, and that the road tax need not exceed \$50.970. Here are the figures and the League's suggestions:

\$4050 62, which will not be required this Steel bridge ...... (This was redecked last year. Not re-

quired this year.) Collecting taxes .. (Last year about \$17,500 was spent on old rolls, and a brief glance at the great expense for clerk hire will show that a great saving could be made.)

Rebate penalty taxes...........\$ 12,600 00 (There is but a small amount left of these penalties to repay, and \$3000 will cover it.) Roads

(Last year the levy was 2 mills, but 89,115 70 was expended. Of this amount, about \$7200 was spent for supervising. We think a 1 mill tax, with the cash on hand, should be sufficient this year, hand, should be sufficient this year. We also think that when a fixed levy is made it should not be exceeded, except for unforeseen and extraordinary emergencies.) We do not figure increased earnings in departments, which will be the case if laws now before the Legislature are reasoned.

We only estimate the same amount for delinquent taxes as last year, although table in detail, to be presented to the County Commissioners, showing, according to the League's calculation, that the general expenses for running Multnomah County this year, above estimated receipts need not be more than \$5.882 and the commissioners in smerzeneiss can be commissioners.
