APPROPRIATIONS TAKEN UP

Senator Bacon Denied the Bight of Departments to Withhold Official Information-The Sampson-Schley Controversy.

WASHINGTON, Peb. 4 .- The ship sub sidy bill was laid aside informally by the amendment to reduce the railway mall payments, but no action was taken. The House met at 12:55, immediately after the conclusion of the Marshall ex-Senate today to permit consideration of the appropriation bills. This action was taken late in the day on Allison's re-quest that the District of Columbia appropriation bill be taken up. Frye, in charge of the shipping bill, who had said he would not give way to appropriation bills without a vote of the Senate, was not in the chamber at the time; but Aldrich, Hanna and others interested in the meas-ure were present and joined in the gen-eral assent given to Allison's request. The shipping bill holds its place and as the unfinished business can be taken up when the appropriation bills are not oc-cupying attention. The District of Co-lumbia bill will occupy the attention of the Senate tomorrow. The greater part the Senate tomorrow. The greater part of the time of the Senate was given to listening to a speech by Bacon on the right of the Senate to demand informa-tion on file in the executive departments. He took the position that the departments are the creatures of Congress and that departmental denial of any demand for era on file was preposterous, con-ding that for 100 years there had been taken in accordance with the instructions of the House when the bill was recom-mitted at the last sension. Duty on Russian Sugar.

NEW YORK, Fob. &-According to a pecial from Washington to the Journal of Commerce, there are two aspects to the problem of whether a countervalling duty shall be laid upon sugar imported from meia, on the ground that the regulating sugar production in Ru outvalent to a bounty, which will be carefully considered by Secretary Gage before announcing a decision. The facts appear to indicate that there is no payment by the Russian Government to the sugar-growers, but a con-siderable tax is levied and production is restricted to a given amount for each establishment. The excess of production must be marketed abroad, but the gross production, including that sold abroad, contributes to the adjustment of the allowance of the production of the following year. It is in the interest of producers who desire to increase their future guo-ta to purchase the certificates of expertation from those who have produced a surplus, but are less cono ed to in crease their quota. It is contend-ed by the advocates of a countercontendvalling duty that the entire ma-chinery is under the control of the gov-ernment and that the exporter does, in fact, receive a bounty through govern-ment intervention. It is contanded that there is no bounty involved, but that the entire arrangement is a sort of pooling contract between different sugar manufac-turers, who are taxed heavily in any who are taxed heavily in any and receive no substantial aid
