The wheat market was still in the jumps yesterday, with enough of a weight banging to it in Europe and the East to prevent anything like an active market in this port. The wheat market continued on its downward course yesterday, and until it shows some signs of finding bottom, or steadies up again, there will be but little business in that direction. Among the produce markets yesterday, the only business of consequence was the distribution of steamer freight, which came in the night before. California vegetables arrived in good shape, and found an excellent demand. Oats are firm and higher, and potatoes are decidedly weak, in spite of the presence of a cold snap that threatens to interfere with receipts. Poultry has stiffened up again, and the few sales made yesterday were at prices materially above those of last week. Eggs are

yesterday's large buying in them for spec-ulation, the whole market successarily made some response and the earlier gains elsewhere were largely curtailed.

The steel stocks showed themselves not so yielding as those in other portions of the list, when the force of the selling movement had expended itself there. The ateel stocks were an important influence on the market. Buying was credited to insiders, and there was a recurrence of recent rumors of a coming wholesale conrecent rumors of a coming wholesale con-solidation of the great corporations in the trade. The opening rise in the South-westerns was not so well maintained, although Missouri Pacifics made a strong though Missouri Pacifics made a strong recovery later, rising to \$1%, and the Wa-bush securities were very largely bought. It was rumored that Chicago & Eastern Illinois had passed to the control of the Missouri Pacific or St. Louis Southwestsinsouri Facine of St. Louis Southwestern, and the lately prevalent rumors of a general consolidation of the Southwestern railway systems still retained their force in the speculation. Chicago & Eastern Illinois rose 5½ and the preferred 1½. A spurt of 3½ in Tobacco about midday was a forum.

The movement seemed t for the present. The movement seemed to be based on rumors as to the disposition of Lehigh Valley, different reports assigning it to Lackawanna, Reading and Erie. Gains in the latter were 3½ for Lackawanna, 8 for Delaware & Hudson, and 1 to 2 points for other members of the group. The movement in Pennsylvania was not explained, but resulted in an advance of 4 points.

succeeded in throwing off their depres-sion, the former advancing to 91, and the latter to 98 through heavy offerings in both cases. A flurry to 2 per cent in the call money rate was not much heeded, although it calls attention to the fact that last week's enormous incursion into the reserve forces by reason of the lean expansion of over \$30,000,000 was a reality to be reckoned with. The reaction in sterling exchange, and the impression that an outward gold movement to London is averted for the present, owing to the decline in the money rate, helped to offset the effect of the former tone of the local money market. The absorption of middle and lower-

grade bonds continued very heavy and at advancing prices. Total sales, par value, \$7,710,000.

The market was extremely spotly throughout, but the constant croping out of new and aggressive points of strength served to overcome the disposition to sell on the part of the timid hold-

The mar-ket quickly touched 75. Soon, however, driblets of long stuff came out, some for New York, some for the foreign account and more from local scalpers. May grad-ually worked off to 75, where something of a surprise was in store for the talent.
