> NEW YORK STOCK MARKET, Considerable Falling Off in the Volume of Dealings.

NEW YORK, Feb. 8 .- There was a con siderable falling off in the volume of deal-ings in stocks today, and the decline would have been much more marked, had It not been for the bringing forward into activity of a horde of low-priced stocks of the class denominated among the brokers as "cats and dogs." It is characteristic of a long bull movement that it should eventually reach into the dogs of the list and stir up the sentiment of the market. The theory is that the generally higher rate of values attained in the general market, entities the low-priced stocks to some increase in valuation even without special development in the affairs of the property. The bidding up of these stocks is also a favorite device by buil operators to sustain the market for the purpose of realisting in the higher priced stocks, which have already enjoyed their advance. So far as the rail-road department of the stock market was acteristic of a long bull movement. road department of the stock market was concerned, this was clearly what was go-ling on today.

NEW YORK, Feb. 8.—The Commercial Advertiser's London financial telegram Though business on the stock exchange here was limited today, the tone in the general list was steady. American stocks were an exception. Their movements were ceipts are now on the whole running wery erratio. Prices at the opening were about the same as last year, but we dedeptessed and in the first hour there was aire to keep it in mind that during the free selling all around. Then the marbalance of the month they are quite like-

New York prices as they came on the cable caused a violent see-saw toward the end and the close was irregular, Southern Pacifics being strong, Union Pacifics flat, the Denver 18 sues buoyant and the rest of the market sagging. Grand Trunks dropped heavily on the disappointing dividend news.

Chicago Grain and Produce. CHICAGO, Feb. 8.—During the first half hour in the wheat pit, business was ac-tive and the market decidely weak, under a decline at Liverpool of World, while Argentine shipments last week were 1.29,-000 bushels, according to Board of Trade figures. Longs offered heavily. May opened with an initial loss of MFSc, at 74½ to 74½c. and was soon pounded down to 74½c. Then the tone became steadler, while the strength displayed in corn had its effect among shorts. A few export-ers also reported bids in line with the market, and these influences gradually af-forded a reaction to 74%674%c.
