The week opened with a much better trade than has been in evidence on Monday for a fong time. Local retailers were not doing much, but orders from the country were numerous. Receipts of produce as usual on Monday were rather profit-taking and again turned back. Chilish, but were still adequate for all demands, and there was a further weak-ening in prices. The egg market reached ening in prices. The egg market reached stock rising \$\frac{1}{2}\$ and rallying Evansville & Terre Haute 2\frac{1}{2}\$ after a decline of a from the open market and received by from the open market and received by from the open market and received by country were numerous. Receipts of product duce as usual on Monday were rather duce as usual on Monday were rather light, but were still adequate for all degree and street weak and there was a further weak ening in prices. The egg market reached a point where round lots were offering at 20 cents, and single case lots were selling all over the city at 2 and 25 cents. Onlines are firmer and potatoes continue very weak at quotations. The poultry market was well cleaned up Satuday, and prospects are favorable for good prices this week, unless receipts should increase this week, unless receipts should increase for agreater extent than is now expected. Granges are plentiful and cheap, best stock being in good supply at E 25 and \$25 per box.

FORTLAND MARKETS.

Grain, Flour, Etc.

A big increase in the world's shipments made a stand-off for the liberal decrease in the American visible yesterday, and as a result, the market remained almost stationary, although the East closed fractionally above Saturday's close. In California fine crop prospects seem to be affecting the market, and the May option reached the lowest point of the season, touching 160%, while December was down to 160%. The Portland market is quiet with very little selling, and prices are nominally \$4\$ and \$5\formal{c}\$ cents for Walla Walla. Very little can be bought at these figures, and it is probable that a half a cent better could be obtained if these figures, and it is probable that a haif a cent better could be obtained if wheat was needed for a special purpose. Heavy Buying in Union Pacific at Advanced Prices. NEW YORK, Feb. 11.—There was a very notable decline in the volume of dealings on the Stock Exchange today and the most active stocks were those under pressure, with the exception of Union Pacific, which was bought with pereistency on a large scale. The market was again characterized by the wide move-ment in a very large number of unim-portant stocks which are seldom prominent in the dealings and which someAdvertiser's London financial cablegram

Hope-Steady.

CHICAGO, Feb. 11.—Saturday's strenu-us and confident bears, relying on calculations of bearish statistics with which to begin anew a profitable week, were today driven to cover. The statistical reports forecasted Saturday proved accuports forecasted Saturday proved accu-rate, but instead of finding any market to insure profits, shorts were confronted by a stiff market, on which May opened unchanged, at 74%74%c. The market had been sold to a standstill, and the rush to cover approached a stampede, which, de-spite more liberal offerings from longs on the rise, carried May to 75%c during the first hour. The chief factor in overcom-ling the bearishness of the statistics was ing the bearishness of the statistics was the strength early developed in the corn market, although a reported reduction in the estimate of Argentina's exportable surplus, steadiness in the Liverpool mar-ket and the moderation of Northwest re-ceipts were contributory aids. Heavy clearances and a decrease in the visible were influential additions to the day's bullish considerations, which resulted in a further advance during the afternoon BOUGHT AND SOLD FOR CASH OR

Chicago Grain Gossip. CHICAGO, Feb. 11. Cables were a shade easier. Visible supply decreased 1,253,000. There was nothing apparent in the statistical position or the news to make a stronger market, but the fact that did not sell off on bearish news together with more or less talk about accumulation of wheat in strong hands in this market of late, caused uneasiness among the shorts, and their buying was the principal cause for the advances. Shipping demand, slow, export bids, as a rule, being out of line. The clearances for the day, however, were large. Amount on passage increased 2,000,000. Outside trade

The Metal Markets. NEW YORK, Feb. 11.—The week starts with the general situation in local metal with the general situation in local metal circles about as was prevalent all last week, and in fact for some months past. Trading was confined to supplying immediate requirements, and this business was of very small volume. The tendency of values, nevertheless is downward, as the statistical position indicates a bountiful quantity in all lines of metal. The in London today was 168 higher, at 122 15s, and was sympathetically firm and fil22 lis, and was sympathetically firm and 5 points above Saturday's close here, at

LONDON, Feb. 11.-Bar silver, 284d. Cotton Was Quiet.

NEW YORK, Peb. 11.—Operations in cotton futures were restricted to unusually small proportions today, and prices kept in narrow bounds. Taken as a whole, it was a day of professional "settlements," in view of tomorrow's fielding. On the first call, the market was steady, 3 points higher to 2 points lower. A brief period of nominal steadiness was followed by a gradual decline under selling for both accounts by pit operators and absence of support from any quarter. The market finally cosed steady, with prices 4 to 12

Thousands Are Coming

Our general passenger agent at Omaha advises us that thousands will take advantage of the cheap rates to the Northwest in effect every Tuesday in February, March and April.

Enough business is already in sight to make it necessary to run special cars on the fow-rate days. If you have any friends in the East who are talking of coming West, give us their names-we'll look them up and see that they get special attention.
