COMMERCIAL AND FINANCIAL NEWS

Business, like the weather yesterday, had an early Spring-like cast, and aside from the distribution of some liberal receipts of produce, the wholesale district was taking matters rather easy. A car-load of mixed vegetables cams in from California, and cleaned up well at good The egg market continues to feel the pressure of increasing receipts, but the shipment of a couple of carloads to the north, has eased the situation a little, and prices remain unchanged. The wool market remains dull, and mohair is al-most unsalable in the East, thus causing local teniers to hesitate about doing anything in either of these commodities. Wheat opened better in the East yesterday, but sold off toward the close, which was fractionally under the close of Wed-nesday. Butter is stendying up a little and poultry is firm, at quotations, ex-cept for goese, which are in poor demand.

NEW YORK STOCK MARKET.

Sharp Upturn in Steel Was the Feature of the Day.

NEW YORK Feb. 21.—The sharp upturn in the steel stocks, which gained force rapidly toward the close of the market, was the only thing that redeemed the market from uninteresting duliness today. National Steel and Tin-Plate showed the most pronounced strength in the recovery, the former rising 5% over last night, and the latter 4% from the early low point. The outstanding short interest, which had grown quite large in the stocks of the steel companies, had a large part in the raily. The report that so-called Moore

properties of the steel group were stand ing out for a large share in the securities of the new company was an influence in the rise, the supposition of the speculators being that they were likely to get what they claimed. But the other steel stocks were not much behind in the movement, Federal Steel rallying 3% points from the low price, Steel & Wire 3% and Tennessee Coal & Iron 3.

Whether the movements accurately fore-cast any actual developments in the steel merger negotiations can only be told when the results are given to the public. De-tails were closely guarded up to the time of the closing of the market, but it is the general supposition that the reorganiza-tion plan of the steel companies, so far as it is to have official announcement, will be given out before trading is resumed on Monday. Actual information on these details is so meager that the shorts in the steel stocks were overcome with timidity and hastened to close their contracts before the coming three holidays. same influence was at work in other parts of the list. The early weakness of the market began to change to recovery when support was manifest in the steel stocks. The weakness was quite acute at one time, the steel stocks leading the decline, as they did the recovery. Many of the prominent railroad stocks were down between 1 and 2 points, the grangers, Pacifics, Southwestern and some of the coalsas & Texas preferred. Eric 2ds preferred and Rock Island were notably weak. These stocks were all conspicuous in the rally also.

A number of the most important rallroad stocks were lifted a point above last night. The continued case of the money market was an influence in driving the shorts to cover, as it was expected that there might be a flurry in money, incidental to the demand to carry over until Snext Monday. The banks report gains of cash from the interior since last Friday, and their account with the Sub-treasury about balances. The bond market was dull and irregular, except for an acute demand for Wabash debentures. Total sales, par value, \$3,410,000.

United States refunding 2s advanced 14 and the old 4s and 5s 1/4 per cent on the

Prices of stocks have worked downward during the past week, and speculative sentiment has taken on a conservative tone. The disposition has been general to lessen speculative burdens as a precaution against any unfavorable development in the situation. The continued heavy inroads making upon money-mar-ket resources by the financial operations incident to the recent railroad consolidathe steel merger would strain the available resources of the money market, have been the underlying causes of the reactionary tendency of prices. The decision to close the stock exchange from Thursday afternoon until Monday morning add-ed to the inclination of operators to close

formin tomatoes, \$2 50 per box.

Fruit-Lemons, choice, \$2: fancy, \$2 50g during a prolonged interval in the trading 2 75: oranges, \$1 750g 150 for navel: \$1 50g 1 75 for seedlings, per box; pineapples, \$4 69 per dozen: hananas, \$2 50g3 per bunch; Persian dates, \$695½c per pound; apples, 75cg\$1 25 per box.

Detail fruit — Apples, evaporated, 560c upward have not met with success. most potent interests in the financial world have made it clear that they favored a quiet stock market for the pres-ent. This they could accomplish not only by discontinuing their recent heavy buy-ing of securities, but by meeting any attempt to advance prices by free offerings. The decline has not been precipitated at any time, and the bears have not been bold or aggressive. Probably this is also in accord with the desires of the large financial interests, who are concerned in perfecting the gigantic steel merger, as

> pending financial projects, as much as un-bridled speculation for the rise. ments in that field would attract a renewal of the upward movement of prices, but in the absence of actual developments the opportunity for consideration and ap-prisals of results achieved by the recent onsolidations have somewhat a chasten ing influence on the excess of speculation. Not a few of the rumors of combination which have been started in the past for manipulative purposes have been discredited by authoritative avowals, thus help-

ing on the week's reaction. The possibility that the labor dispute would be reopened in the anthracite region, when the present agreement expired disapproval of the great centralization of financial control, which is being accom-plished, and the fear that it may lead to legislative interference has been taken

account of. Some of the bonds affected by these ombinations have been heavily absorbed at times, but the railroad bond market has generally been reactionary in sympathy with stocks. United States old 4s ad wanced 1/2, and the refunding 2s and 5s 1/4

per cent of the mark amendment of Contr.

Foreign Finnneini News. NEW YORK, Feb. 21.—The Commercial Advertiser's London financial cablegram

The stock market here was stagment today, and the tone was undecided on account of the lack of any definite news from South Africa, and on doubt regarding the settlement of the Chinese troubles. The reduction of the bank rate to 4 per cent has been too fully discounted have any effect now. In the American department prices dwindled most of the time. American shares enjoyed a slight sourt before the opening in New York, in the hope that Wall street would they have been in the most important re-cent railroad consolidations. A demoralturn buyer today; but when only selling orders were cabled the market here closed ized stock market would interfere with sloppy and dull. The bank bought £203.

Chiengo Grain Gossip F G. Legan, Chicago, wires R. W. Mc-Kinnon as follows:

Liverpeol wheat was %d higher. The market advanced fractionally early on the cables, but the advance brought moder-ate selling of long wheat and the pit has worked the short side. The volume of business is still small and the general ening, wool having dropped below their tone of the market is steady. The Cincinnati Price Current says the wheat crop ble sale this week was a jot of 1990 bales maintains good condition but much of it is unprotected. The strength in Liverpool is considered encouraging. Export duality. The wool was bought at the top bids, are, however, out of line in the main of the market last year. The net loss is and indications of business are poor. The \$50.000. The new American clip has opened condition of the market of late is fairly strong. Northwestern stocks (Minneapolis and Duluth) for the week will increase about 250,000 busnels.

IRON AND STEEL.

Trade Is at Sea as to Its Possible

Effect on Business. NEW YORK, Feb. 21.—Anent the steel situation, the Iron Age today says; Pending the official announcement of the details of the Morgan consolidation, the trade is at sea as to its possible ef-Drafts-Sight, 17%c; telegraphic, 22%c. with the industry can escape. A large NEW YORK, Feb. 21.—Money on call, that direction, means very heavy fixed charges, which in turn, would imply the ability on the part of the outsiders. tainly no new enterprises would enter the lists without very substantial finan-

cial backing, and with ample provisions for raw materials, Until the price paid for peace among the interests to be gathered in is known. It is impossible to judge high or low. All as very great. Within a few years it will depend upon the management which will be in general use. Within a year I must be broad and tactful. - Crowding prices would be fatal in many ways. Leading men point out that the true policy must be to secure economics and share them with the consumers. In other words, the plan must be to persistently lower prices. With control of everything from the ground up, there will be little excuse for fluctuations, and a steadying of the markets must be a natural result, If it were not that the situation in steel billets is peculiar, one of the best points should be a lowering in the price, which would do much to allay public
