

WITH THE ATHLETES

Puget Sound Bowlers Suffer Defeat in Portland.

MULTNOMAH GETS FOUR GAMES

St. Helen's Hall Team Defeated at Basket-Ball by Multnomah Annex-Contests at Handicap Golf-Paper Chase.

The Puget Sound bowlers who arrived last evening were given an enthusiastic welcome, and also two defeats by the teams of the Multnomah and Commercial Clubs.

The Multnomah Club bowlers were in fine form and took four straight games from the Seattle Athletic Club. The Commercial Club men took three games out of four from the Olympic Club team of Tacoma.

The visitors played in good form on the unfamiliar alleys, and accepted their defeats as true sportsmen.

At both clubs there was a good attendance of bowling enthusiasts, and lucky strikes by the local men and the visitors were cheered impartially.

The big scores were made by the Multnomah Club, where the Seattle Athletic Club was bowled. Nelson, of Seattle, made the highest game score of 85, and four game score of 215, bowling in excellent form.

The Seattle men bowled a splendid, steady game and made a strong spurt at the finish, but the Multnomahs followed suit, making their highest score of the night.

The scores of the games follow:

Table with columns: PLAYERS, First, Second, Third, Fourth, Total. Lists scores for Multnomah, Seattle, Denny, Huggins, Meyer, Gazzam, and Nelson.

At the Commercial Club.

At the Commercial Club, the home team took the first game by a close margin, and the visitors the second very easily.

The home team, however, braced up and took the next two. Graham and Skiff were the high men for the Commercial Club, and Charles and Briggs for the visitors.

The Commercial Club substituted Tarpley and Goodman for Menefer and McNary, of the regular team, who were out of the city.

Following are the scores:

Table with columns: PLAYERS, First, Second, Third, Fourth, Total. Lists scores for Commercial, Amy, Wright, Chapman, Fletch, Riddell, and Totals.

MULTNOMAH WOMEN WON.

Defeated St. Helen's Hall Team at Basket-Ball, 7 to 5.

The Multnomah ladies' basket-ball team defeated the St. Helen's Hall team, at the Multnomah Club last night by the score of 7 to 5, after an exciting contest.

In which the result was in doubt up to the last few minutes of play. The game was viewed by several hundred enthusiastic spectators, who were about equally divided in feeling, and who cheered their favorites to the echo.

The game was fast and snappy, and as the score sawed back and forth, every one was at once anxious to test their lung power to its utmost ability. The victory of the fair warriors of the winged "M" was due to their superior physical condition and better team work.

Both these points stood heavily in the second half, and enabled the ladies to pull victory out of what at one time seemed almost sure defeat. The contest was most satisfactory in every way, and the decisions of the umpire were met without a word's protest, which was itself one of the most pleasant features.

Where so much of good playing was shown on both sides it was difficult to pick out the stars, but the all-round work of Miss Hilda Hengle was perhaps the feature of the evening. Miss Hengle was in the game from start to finish, and although she was pitted against the most formidable player of the rival organization, she bore off her share of the honors.

Miss Wassermann's work was also of the very best, and she distinguished herself by throwing a difficult goal from the field. Miss Murphy contributes largely to the score by making two baskets and a third that was not allowed. In fact, the whole team played in splendid form.

NORTH-BEACH TIDE LANDS

HOW PORTLANDERS MAY PROTECT THEIR PROPERTY.

Washington Legislature is Considering a Bill to Make the Livewaco Beach a Public Highway.

Some misunderstanding about the Livewaco Beach tidelands seems to prevail here, and the following statement showing their present status will interest many Portlanders who own property along North Beach.

Under the laws of the State of Washington the ocean tidelands may be leased or purchased. Last Spring some people living at Seattle attempted to lease all the tidelands on Long Beach, a distance of some 23 or 24 miles, excepting one section in front of what is called the Tinker claim, the tidelands in front of the Tinker claim being one mile.

Lands which are to be purchased or leased from the state are put up at public auction at the county seat, and all these tidelands were so offered for sale or lease at South Bend last June.

For the purpose of protecting certain parts of the beach H. W. Corbett, Jack Kamm and Frederick V. Holman leased the story that it tells of the suffering of the poor slaves appeals directly to the finest sensibilities of the human soul.

The Ed F. Davis colossal "Uncle Tom's Cabin" company will appear at the Metropolitan Theater one week, starting tomorrow night. The sale of seats opens this morning at 10 o'clock.

Sousa and His Band. The sale of seats for the Sousa's Band concert will open this morning at 10 A. M. The band gives two concerts at the Marquam Grand, Tuesday afternoon and evening, February 26.

An interested observer of the Sousa concert this season has made the discovery that the popular bandmaster and composer has started a second edition in his famous collection of medals. Instead of the glittering array of jeweled decorations that formerly covered completely the many chest of the "March King," there now may be seen four simple medals depending from vari-colored ribbons.

The first, and the one that Sousa prizes most, is the spoked-shaped badge that was the official emblem of the Sixth Army Corps in the Spanish-American war, hanging from the American colors. It will be remembered that Sousa was appointed musical director with the rank of Captain on the staff of Major-General James H. Wilson, but the war closed before the Sixth Corps was called into active service, and the bandmaster had no opportunity to achieve martial glory on the field of battle.

The corps badge was sent to Sousa by General Wilson at the time the poor slaves appeals directly to the finest sensibilities of the human soul.

DAUGHTERS OF REVOLUTION

Mrs. Fairbanks Was Elected President-General.

WASHINGTON, Feb. 22.—Mrs. Charles W. Fairbanks, wife of the senior Senator from Indiana, has been elected president-general of the National Society of the Daughters of the American Revolution.

Out of a total of 844 votes Mrs. Fairbanks received 233. Mrs. Dana of Portland, chaplain-general, Mrs. W. S. Snot of Virginia, registrar-general, Miss Minnie Minkley, of Pennsylvania, treasurer-general, Mrs. G. B. Darwin, of the District of Columbia, librarian-general, Miss Julia T. McBair, editor American Monthly, Mrs. Ellery Avery, of Ohio, business manager of magazine, Miss Lillian Lockwood, of the District of Columbia; Mrs. E. W. Howard, of Virginia, recording secretary-general.

The following vice-presidents-general were elected: Mrs. William Lindsay, of Kentucky; Mrs. George M. Sternberg, of the District of Columbia; Mrs. C. Waring, of South Carolina; Mrs. M. T. Scott, of Illinois; Mrs. M. A. Kendall, of Maine; Mrs. J. R. Meilen, of Pennsylvania; Mrs. M. M. Granger, of Ohio; Mrs. Major-General Whiston, of the District of Columbia; Mrs. A. C. Foster, of Washington.

The tenth vice-president-general was not elected, as no candidate received an elective vote.

May Not Accept Offer for Patent. WASHINGTON, Feb. 18.—Now that there is probably to be an appropriation of \$100,000 for buying the exclusive right to the high explosive thorite, invented by Dr. Tuttle, of Tacoma, in connection with the Isham shell, there is considerable speculation in Washington, particularly at the War Department, as to whether or not the two inventors will agree to sell their patent rights for this sum.

It is claimed that they have been to a very considerable expense in producing this explosive shell, and that the sum named will not compensate them in anything like the degree they ask. It will be recalled that Dr. Tuttle asks \$100,000 for his patent to thorite, while Mr. Isham asks the same amount for the shell patent.

The members of the delegation from Washington have not had any intimation as to the intention of Dr. Tuttle, but are inclined to the opinion that he should receive more than the \$100,000 he would receive under the pending bill. In case this is declined, an effort will be made at the next session to have the full amount asked appropriated for this purpose.

John Vincent, coroner of Jefferson County was found guilty Wednesday of cruelty to animals, and assessed the minimum fine of \$1 and costs. From Saturday morning until Sunday night Vincent allowed his buggy horse to stand hitched to a post in a blind alley without food or water. The horse, almost dead from exposure, was found by a humane Chinaman, who, after providing it with food and water, reported the matter to the police.

PERSONAL MENTION. NEW YORK, Feb. 23.—Northwestern people registered at New York hotels today as follows: From Portland—Mrs. H. L. Corbett, at the Holland; E. J. Falling, at the Murray Hill. From Tacoma—R. S. Baldwin, at the Imperia. From Seattle—Miss Trner, at the Albert.

Farmers of Whitman County are depriving more than 100,000 pounds of valuable livestock and are importing thousands of cattle, sheep and hogs. The number of thoroughbred cattle has more than doubled in two years.

COMING ATTRACTIONS. "The Eleventh Hour." All true lovers of melodrama, pathos, wit and humor should see "The Eleventh Hour," which comes to Corday's Sunday and all next week, with a splendid matinee Saturday. This will be the first production of this play in this city. It has met with the most pronounced success everywhere that it has appeared this season, and is pronounced by press and public to be Lincoln's C. C. the greatest effort, and if box-office receipts are a criterion to go by, "The Eleventh Hour" is certainly a winner.

"Uncle Tom's Cabin." When will the time come when "Uncle Tom's Cabin" will lose its charm to the rising generation? Judging by its present freshness, its alluring powers will be perennial. There is something in the skillful combination of the pathetic and humorous that never fails to fascinate, and

Paris before the General was ordered to China. The assisting soloists are Blanche Dufresnoy soprano, and Bertha Bucklin, violinist.

WOMEN'S INTERESTS. They Are as Varied as Those of the Other Sex. CASCADIA LOCKS, Or., Feb. 20.—(To the Editor.)—Your correspondent of the 18th inst., who signs her letter "A Mother," may be willing to burden her sex with the responsibility for all the faults and vices of mankind, but I doubt if other mothers who consider it not only their privilege but their duty to have a few ideas not immediately connected with their household cares, will be so willing to acknowledge that they are chiefly to blame for the existence of the saloon, gambling dens and other evils incident to our "Christian" civilization. It seems quite unnecessary for the writer of that letter to state that she never had time to think of anything outside of raising her family, for that unfortunate fact is very evident.

If a woman could only rid herself of the old idea that in order to be "womanly" women must confine their thoughts to any particular subject or class of subjects, it would be much better for both mothers and children. I know of no subject which is of legitimate interest to men in general which is not of equally legitimate interest to women in general. Science, nature, social and domestic politics; the rearing and education of children; the discussion of all social and economic evils, with a view to their elimination; sports; literature, art and music are all of real interest and importance, and should be no less so to women than to men, and vice versa.

A man does not expend all of his time and energy in being a father, and it is quite possible for a woman to be a successful mother and at the same time a woman of intelligence and wide interests. Provided that she does not attempt motherhood on too large a scale, which is a greater mistake than not to attempt it at all. The woman who spends all her time and energy in being a mother at the expense of her development in other ways will probably have to endure the humiliation of seeing her ambitious boys and girls outgrow her companionship.

As for Mrs. Norton, her own stated methods should be considered and judged independently irrespective of her sex. The fact that she is a woman reflects neither credit nor discredit upon her actions. She is not her right or wrong, but she is not either "womanly" or "unwomanly." Neither is she "desexed," whatever that may mean. This practice of placing one class of virtues in one category and calling them "manly," and another class of virtues in another category labeled "womanly" is certainly a mistake. Honesty, self-respect, and independence of thought and action are admitted to be manly characteristics, but are they any less womanly also? Refinement, tenderness, charity, love of children and home are admitted to be womanly, but are they not equally manly? The ideal character, whether masculine or feminine, is composed of strength and tenderness. The sense of her development in other ways is strong and independent. If Mrs. Norton is right there was no reason why she should have waited for someone else to do what she has done. If she is wrong her being a woman does not make her any more culpable. ANOTHER MOTHER.

LITTLE FIGHTING NOW

FILIPINO REBELLION ON ITS LAST LEGS.

Returning Soldiers Tell How Close Imprisonment of Tagals Has Met With Good Results.

Many members of the Thirty-seventh United States Volunteers are passing through Portland in squads of 20 or so, to their homes in the East these days. The regiment was discharged last week at the Presidio, after having returned from Luzon, where the boys saw on an average about 30 months' service chasing Tagals. They all agree that the rebellion is on its last legs, having long since petered out into desultory skirmishes in which a score or so of insurgents beat a hasty retreat after firing a few shots from ambush.

The old method of capturing Filipinos, keeping them in the guard house for a few weeks and turning them loose again, with a few dollars in their pockets, after the treacherous little fellows had fattened up, is now giving place to the more effective one of sending the prisoners to an island where they are kept from further mischief by a strong guard. Good results are already apparent from this new scheme, according to these boys, and the final total purification of Luzon is only a question of a short time.

The returning volunteers are all young men, some mere boys, but they are all glad to get away from the Philippines and some of them express a desire to never see Manila again. The hot weather is the main objection they make when asked their reason, as even the rains are of a warm, sticky nature that is conducive to malarial in the swampy rice paddocks, as well as of malaria in the human system. Few if any of the soldiers passing through Portland have escaped the ravage of dysentery, malarial or mountain fever, and the high altitudes are reported fully as sickly as the marshes. The food furnished by the Government, they think, is not adapted to a tropical climate, as it consists of bacon, salt beef and canned salmon. The beans are always welcome and considered healthful, while rice has become quite a favorite dish in consequence of its being easy to digest.

A large number of soldiers will be discharged between now and June in the Philippines and these boys think quite a proportion of them will pass through Portland on their return to the various states where they were mustered in. The Eleventh Cavalry, they say, will soon close its career in Luzon, while all regiments from the Twenty-sixth to the Forty-ninth will have completed their term of enlistment early in the Summer. The soldiers passing through Portland may prefer this route homeward, on account of the scenery, the cost of reaching their homes being the same over all routes, they get from here, mainly over the O. R. N. and Union Pacific.
