Five other deputies, one of whom shall be an efficient stenographer, are provided for at a salary of \$75 each per month, and additional deputies by order of the County Court, whose compensation shall not ex-ceed \$2.50 per day. Concerning the duties of the office, the bill provides: "Each of oath of office taken by his principal, and such oath shall be indorsed on the writ-ing by which he shall be appointed, and shall be filed with the County Clerk and be a public record. The road supervisors' act provides for the election of road supervisors beginning with the election in June, 1962. The section authorizing the County Judge to remove the present road supervisors and appoint others in their places to serve ntil the election and qualification of their successors was stricken out.

The County Commissioners' act deposes Commissioner W. B. Steele and restores Judge Cake to his place on the county board. The Commissioners are to receive per diem of \$3 for each meeting attended, instead of a salary of \$100 per month each. This was the compensation provided un-der the old law. The Commissioners are required to meet at the call of the County Judge. This section was objected to by the opponents of the bill on the ground that it places the County Court in the control of Judge Cake, who may call the Commissioners to meet with him or not, as he may see fit, to transact general county business, or may do it all him-self if he chooses to, and thus remove and appoint the men employed on the bridges and Albina ferry, at the Poor Farm and the Courthouse janitors. On the other hand, it is stated that the meaning of this section is simply to place the County Judge at the head of the Commissioners with power to regulate the number and time of meetings. Two bills were drawn in relation to this subject. The first was found to be unconstitutional, and the second was no better.

A fee law was passed restoring the system of fees collected under the act of 1882, which was repealed by the acts of 1893 and 1895. It provides for payment according to the amount of service performed, and is expected to realize more revenue for the county than the present blanket fee system. The act applies to cases in the County and Circuit Courts, probate procedure, and recording of conveyances. The increase in revenue, with the saving expected to be brought about

EFFECT OF LEGISLATION.

City and County Will Be More Economically Governed.

In an interview on the saving in county and city affairs which will be effected by legislation, J. N. Teal, secretary of the Taxpayers' League, said, yester-

day: "The laws which were enacted by the Legislature concerning this county are quite numerous, and of very great im-portance, both in the financial aspect and in the changes made in administration. It would he hard to estimate in dollars and cents the savings that will be made when the laws get in full operation, but it will certainly be many thousands of dollars a year. Some of the laws apply directly to the whole state. The first one is that in relation to the levy for the state tax. This is Senator Booth's bill. The assessed value of the property for the five preceding years was taken, an average struck, reduced to per-centages among the counties, and that percentage is the basis for the next five years. During this period the County Clerks of the respective counties will return annually to the Secretary of State certain expenses of the counties, the average of which will furnish the basis after five years. This method is purely arbitrary, but has this good effect: It does away with a State Board of Equalization, encourages economy in the administration of county affairs, and leaves no excuse for Assessors to do otherwise than assess fairly and equitably.

"Another law which is general in its application, but which will cause a great saving in Multnomah County is that on assessment and taxation. Under this act, the repeated copying of the roll and levying on property, which have been sources of great expense, have been done away with. It also has provisions which do away with the technicalities under which so much property has escaped taxation in the past by reason of mistakes or errors in description. It provides for the payment of taxes twice a year, on May II and November 30, and in case of delinquency provides both for interest at 12 per cent, and a penalty of 10 per cent, and allows a rebate of 3 per cent for payments in full, if made on or before April 15. It contains numerous pro-visions for correcting the roll, and for assessment by the Sheriff of property which has not been assessed. Advertis-ing the delinquent list is not abolished, but the price is not to exceed 25 cents a line. Certificates of sale are required by the consolidation act will, it is ex-pected, make the office of the County Clerk self-sustaining. by reason of the act of any officer of the county, the Treasurer of the county must redeem them. "One of the most important measures directly applicable to Mulinomah County was that creating the office of County building of a drydock, to the amount of \$300,000. The commission is composed of C. City Affairs.

"Outside of the City Charter, the most mportant bill affecting city affairs was House bill 54, amending the Bancroft Bonding act. As amended, the applicants for the bonds are compelled to pay the interest and the city may redeem any bonds at par on any date which interest is due. This measure will save the city is due. This measure will save the city many thousands of dollars, as under the old law the city was not only compelled to pay the interest, but there was no way to redeem the bouds, or call them in until they had run the full term of 10 years, and the interest rate was mounting up alarmingly.

Senate bill 321 created the charter bond for the City of Portland, which is authorized and empowered to prepare a charter, and to submit it to the people at the next general election, and if approved by them, to go to the Legislature for rati-fication. This bill is regarded important as it will give this body of men time to consider the matter and get up a charter suitable to the city's needs.

of regular jurors. When this is done, unless the persons summoned live more than two miles from the Courthouse, "Senate joint resolution No. 3, which passed both Houses, provides for a constitutional amendment, which, if adopted. they will not receive fees, thus doing away with a notorious abuse. When the jury is drawn, it must be done in open will give all cities the right to prepare and adopt their own charters. "Under the bills referred to, the salar-ies have been generally reduced, but the greatest saving is in the doing away that the four judges of the Circuit Court in this district, or any two of them, may act in joint session for the trial or determination of any matter before the court, including the trial of jury cases,

the greatest saving is in the doing away with unnecessary expenses, and requiring every one to pay for the work done, be it little or much. It is believed that under the working of these laws the County Court, which is largely responsible for the running of affairs, can keep the response of the running of affairs, can keep the response of the running of affairs. and that the judges may regulate the pro-cedure of the court by rules or other-wise as they may deem best. Corbett's personal feelings of disappoint Corbett's personal feelings of disappointment may be, the campaign has served to bring out one salient fact, which is more highly valued by his true friends than his election would have been. The result carries with it an effectual refutution of the oft trumped-up charge of the questionable use of money by him. We have almost a mathematical proof of this conclusion in the fact that although a wealthy man, he is still a private citiwealthy man, he is still a private citizen in community where he is both respected and beloved. Had the charges of his defamers been justifiable he would have found little difficulty in attaining his goal, for our legislative gladiators present a varied assortment of marketable goots, such as rarely adorn a political grab-bag. It is probable that Mr. Corbett could do much for Oregon as a Senator. It is certain that he is doing much for Portland as a citizen. The circumstances permit us to continue in the sunshine of a certainty.

LONDON STOCK EXCHANGE.

Business Was Moderate, but the Tone Was Good.

LONDON, Feb. 24.-Last week the stock LONDON, Feb. 24.—Last week the stock exchange did only a moderate business, but the tone was good. The reduction in the rate of the Bank of England stimulated purchases for investment, but consols were lower on the week. American securities were the only weak section of the market. They fell sharply in the early part of the week, thus encouraging not only realizations, but also some bear activity. Later the market hardened on fativity. Later the market hardened on fa-vorable reports of the progress of the steel combine negotiations which led to some local buying on this side. Thus, while quotations were from 2 to 4 points lower on the week, they closed above the worst. A Few Facts Concerning the

NEW YORK DENTAL PARLORS

THE PRIVATE PRACTITIONERS find it an utter impossibility to compete with us, unless their work is an improvement over that generally turned out by them. It will not stand to be COMPARED with that turned out by the SPECIALISTS to be found at the NEW YORK DENTAL PARLORS. No wonder our COMPETITORS are driven to despair.

Nine Thousand Seven Hundred and Eighteen Patients in This City Alone

waited on at the New York Dental Parlors in one year.

When the public know the difference, they will choose the best every time. There is NO ONE who will have poor work done when it is possible to have the BEST DENTAL WORK done at a much less cost than for poor work.

That is the reason OUR PARLORS are always filled with people who appreciate these facts. We spend our time and money to secure GOOD DENTISTS to do our work, and will have no others. WE SOLICIT COMPETITION, which we believe is the life of trade. WE WILL AGAIN DRAW THE AT-TENTION OF THE PUBLIC to each of our
