COMMERCIAL AND FINANCIAL NEWS

The end of the month is too near at hard for much activity in trade, and business yesterday was not very heavy. Produce receipts were moderate, but a weakness was apparent in some lines. The extraordinary high prices paid for onions at the close of inst week has resulted in bringing out some pretty good offerings, and the San Francisco market went off with a rush, the price dropping H 50 per cental, and seven cars on the track unsold. Those who are holding in this vicinity expect a raily, however, as soon as present heavy offerings are absorbed, as stocks are not large, and there is yet as stocks are not large, and there is yet two months of the senson to run. Pota-toes are doing a little better, and receipts are light. The egg market is wavering a little, and some dealers are reported to be selling as low as 13 cents. Most of the dealers yesterday were endeavoring to se-cure 14 cents, and this was the price most

There was nothing of special interest in and the National steel stocks are sheat yesterday. The Eastern market only ones that do not show losses. wheat yesterday. dragged through the session with hardly a ripple. Locally there was nothing do-ing, and quotations are nominally unchanged. Exporters having no particular need of wheat, are not inclined to quote very high prices for it, and the milis when they are forced to buy, have been paying in excess of export values, but as the flour trade in the Orient is slackening they are not having very much. Wella. they are not buying very much, Waila Walla is 55 and 56 cents, and good milling stock might command a shade higher fig

was no strength manifested in the group during the day. It was a few minutes

after the opening, in fact, before the official statement was given out.

St. Paul was the most notable example of strength, rising at one time 5½ points over last night. The Southern Railway stocks, Missouri Pacific and the Pacifics and Western railroad stocks generally gave evidence of firmness. Yesterday's strength in the tobacco stocks continued, American Tobacco rising 3 points. Of the steel stocks, Steel & Wire was most under pressure, dropping at the last 4% below last night, after being vigorously supported about 41. Tin Plate got back to last Thursday's closing level, but railied a point, showing a net loss of 4. National Tube is 3½ lower, and the preferred 2 lower than last night. Federal Steel lost 24. American hoop, Tin Plate and the National steel stocks are the Railrond bonds tended lower in sympathy with stocks. Total sales par value, \$2,610,000. Chicago Grain and Produce. CHICAGO, Feb. 26.-Wheat was irregular in price. Traders evinced a disposition awalt something distinctly indicative suming their stand. Outside business was conspicuous by its absence, and to this was due the declines which followed ev-ery advance. Longs merely waited for them to unload scattered lines. May opened 484c lower to unchanged, at 614c to 7614 976%c, influenced semewhat by a report that the Kansas wheat acreage would be 7 per cent larger than last year, with the plant in excellent condition Light Northwest receipts and a shortlived commission-house demand sent nerv-ous shorts to cover, and May railied to 76%676%c. tor Fulton's knowledge of the history of Vincent's Hospital; bronchial pneumonia his state. I am not prepared to deny the assertion that he voted for Colonei Nesmith (I doubt it, however), but I know that he was not elected to the Senate in 1878. The late James H. Slater was elected. ed at that session. Mr. Fulton's memory seems to be somewhat defective. Senator Nesmith was elected in 1860, along with Colonel Baker, by Republicans and Doug-las Democrats, and some of us remember very well what accomplished that result. "Charley" was not a member of that Leg-islature. In 1878, Senator Nesmith's name was not before the Democrats, and as that Legislature had but two Democratic majority in the House and one in the Sen-ate, the Republicans would have had little trouble in electing him had they united for that purpose. I am inclined always to take "Charley's" political statements with a great deal of allowance, but he makes himself ridiculous when he puts such assertions as the above on record as facts

Sunnyside Land & Improvement PORTLAND, Feb. 24 -- (To the Editor.) -Again the opportunity to help start a factory in Portland has been set square-ly before the people. This time the promoters, whose names appear in this morn-ing's issue of The Oregonian, are, I be-lieve, men who are imbued with the right Flaxseed-No. 1, \$1 62%; No. 1 Northspirit for the enterprise, and the right men to count on for success. They are not men coming here to try their fortunes, but who know the needs of the city and the possibilities of the community. Feeling sure of that, I believe it is the duty of every citizen who has the wel-fare of the city at heart (which virtually means his own interest), to come for ward with a true business spirit and give this proposition a solid "boost." | Flour, barrels | Receipts. With an enterprise that may be of as great advantage as a woolen

mill, would it not be well worth an effort to subscribe enough money to provide a suitable site? Let us not give them a timber claim, or an out-of-town railway station, but a good central location—one that will be convenient for the operators, and at the same time of the most benefit to the business people of the city. While I am only a small figure in our business fraternity, I feel it my duty, through the kindness of The Oregonian, to subscribe \$25 toward securing a building site. Were I able, I would give \$500. There are, however, plenty who can give the latte amount easier than I am giving the \$55. J. A. CLEMENSON.

LOANING MORMON MONEY.

Colonies of Utah People Will Come to Baker and Union Counties.

J. E. Pamphiln, agent for a Salt Lake loaning company, is registered at the Per-kins. He represents Mormon capital, which is seeking investment in farm loans in Oregon and other states. He says he finds that most farmers in the West like to borrow money on their property, as they are continually investing in various enterprises, and so this habit of theirs creates quite a demand for money, though interest has been reduced of late years. Farm loans are now being made at 7 per cent, he said, yesterday, though the bor-rower has to pay all expenses of examining the land, furnishing the abstract of title, getting up the requisite papers, etc. This additional expense brings the first year's interest up to about 9 per cent, but thereafter the straight interest only has to be paid.
