AMERICAN SENTIMENT SPREADS

Ladone Rendevous Held on Po- lillo Island-Aguinaldo's Uncle Appointed Civil Governor of Bulacana Province.

MANILA, Feb. 27.—Pro-American sentiment is spreading in insurgent strongholds. Six hundred and thirty-five persons voluntarily took the oath of allegiance at Camaling, Province of Albay, at one time reported as the worst insurgent center, and 384 took the oath at Calagan.

AGUINALDO'S UNCLE. Appointed Governor of Bulacana Province.

QUINTO, Province of Bulacana, Feb. 27.—Jose Serapio, an uncle of Aguinaldo and formerly an insurgent Colonel, has been appointed Governor of Bulacana Province. There were several candidates, including two appointed Supervisors of the United States Commission was unanimously in favor of Serapio, who surrendered during General Lawton's progress northward and since that time has been a consistent friend of the United States that Aguinaldo published an order degrading his uncle. There were considerable protests against Serapio's appointment, chiefly from an organization which represented the interests of the friars.

Although by reputation Bulacana is not the easiest province to govern, all the local leaders and most of the inhabitants are now friendly to the United States. The question of the election of a capital for the province was submitted to the vote of the delegations. Malolos, the former seat of the insurgent Congress, was appointed. The election was held on Feb. 27. The ballot was the first free voting in the Philippines, excepting at the town elections held under military orders. The delegates enjoyed it immensely. Judge Taft, in admonishing the delegates, said that since they had the reputation of being gamblers, they must be as honest as gamblers in their capability of abiding by the suffrage.

INSURANCE OF NATIONS.

President Sherman on Our Policy in the Orient.

NEW YORK, Feb. 27.—At the fourteenth annual dinner of the Life Underwriters' Association of New York last night, President Jacob G. Schurman, of Cornell University, spoke on "The Insurance of Nations." He said, in part: "Some people believe that the more a nation has the happier it is. If their logic is correct the nation that overruns the world reaches the climax of human perfection. What constitutes the nation? What is its goal? Do we make the Republic greater if we cross the Pacific and annex a piece of China? Do we make the Nation safer and more secure? If not, what do we do? What insures our country, I believe, is a common nationality, a common religion and common interests. In spite of the steady stream of immigrants that has poured into the United States this Republic has retained a common nationality and the interests of one part of the country are the interests of all.

Powers of Brazilian President.

WASHINGTON, Feb. 27.—The new revenue law of Brazil, which went into effect the first of the year, greatly affects a number of staples of importance to American producers. Important administrative changes are also made in the existing law, and the Constitution of Brazil, has supplied these to the State Department. A remarkable provision is the extensive power conferred upon the President. He may do as he pleases with the government railroads, leasing or selling them. He may issue different orders for the same conditions for Brazilian produce. He is also authorized to impose a special duty on shipping to meet harbor improvements, to provide for the inspection of insurance companies, and to lease the Monazite Sands territory.

The Deal is Off.

CONSTANTINOPLE, Feb. 27.—It is stated that the Porte, not having paid the instalments due on the cruiser for which a contract was signed recently with the Cramp Shipbuilding Company, of Philadelphia, the latter considers the contract void, and repudiates all responsibility in the matter.

Philippines shall be subject to the Constitution and laws of the United States so far as they are applicable.

NOES.

NOES.

Rawlins offered an amendment declaring it not to be the purpose of the United States to hold permanent sovereignty over the Philippines, but only to have been carefully arranged, to enable many sufferers to understand just what it is that ails them. Many diseases, known under various specific names, are really of a catarrhal origin and nature. Every part of the mucous membrane, the nose, throat, eyes, ears, head, lungs, stomach, liver, bowels, kidneys and bladder are subject to disease and blight by catarrh. The proper course for sufferers is this: Read these symptoms carefully, mark those that apply to your case, and bring this with you to Dr. Copeland. If you live away from the city, send them by mail, and ask for mail treatment. In other instances, and whether by mail or office treatment, the patient may be assured of the speediest relief and cure possible to medical science.

NOES.

Bacon offered an amendment to limit the grant of powers on March 4, 1901. Rejected, yeas 21, noes 45. Pettus offered an amendment providing that every person in whom authority is vested under this grant of power shall be held to the full participation consistent with the safety of the government. Rejected, yeas 21, noes 45. Teller then offered an amendment providing that the civil government established in the Philippines should be as extensive as to secure for the inhabitants the fullest participation consistent with the safety of the government. Rejected, yeas 21, noes 45. Teller then offered an amendment a provision of the act establishing the Missouri territory in 1820, and that the same shall be moderate, no post facto laws, etc. Teller said that as officials of the Philippines were not to be required to take an oath to support the Constitution of the United States and the Constitution and laws were not to be applicable, he offered the amendment to protect the people of the islands. It embodied pretty good Republican doctrine, said he, in the days of the Republic. To prevent the cruel treatment of the natives under the powers of an autocratic government, he declared, the amendment should be adopted. It was rejected, yeas 21, noes 45. When the result was announced Teller said it had been his intention to offer an amendment to extend the Constitution over the islands, but the Senate had twice negatived that amendment, and he said he would not bring the Constitution into further contemplation by offering his amendment. But, he said, Congress was about to enact a law so contrary to anything that had taken place in American history that he felt compelled to register his protest against our early history, which might be treason now, but which were patriotism then. Teller declared passionately that he never expected to live—indeed, he regretted that he was not dead to see the day when the ordinary rights of citizens were denied to the people living under the American flag.

NOES.

Allen followed. He declared that with the power of the Senate at hand, it was in the power of those who had introduced the amendment to defeat the bill. If it became a law, they would not be able to escape responsibility. For himself, he was willing to devote all his physical and mental energies to the struggle. But no one man or half a dozen could successfully make the fight. It would require the united co-operation of all. The Republicans were now intoxicated with power, and he would not let them get drunk. He charged that hemp worth \$25 a bale was confiscated in the Philippines by the Army, put up at auction and sold to Army officers for \$6 a bale. These officers were not allowed to see the goods. After talking for an hour, Allen concluded with the announcement that if the minority would co-operate with him he would remain in his place until noon on Feb. 28 to prevent the pending bill from passage. It looked as if the vote was about to be taken, when the venerable Massachusetts Senator, Hoar, arose. There is one principle of constitutional liberty that I will not let slip, said he, "and I shall give it a chance tonight." He then offered an amendment providing that no official of the Philippines vested with executive power should be eligible for the legislative power, and vice versa, etc. to the effect that the government might be one of laws, not of men. The amendment was rejected, yeas 26, noes 42.

NOES.

At last the decisive moment had arrived. It was now 10:30 P. M. The Senate had been in session continuously since 11 o'clock this morning. The vote as taken on the amended Spooner resolution, which was adopted, yeas 45, noes 23, as follows: AYES: Aldrich, Frye, Perkins, Allen, Gallinger, Platt, Conn. Hoar, Jones, Nev. Brewster, Kenney, Rawlins, Burton, McMillan, Tamm, Pritchard, Chandler, Hawley, Proctor, Clark, Keam, Sewell, Cullum, Kearns, Simon, Deboe, Lodge, Spooner, Dillingham, McCombs, Thurston, Fairbanks, McCumber, Warren, McKim, McMillan, Wetmore, Foster.

Platt (Conn.) then offered the amendment prepared by the committee on relations with Cuba. Jones (Ark.) moved to strike out the third condition, providing that Cuba shall exercise the right to intervene for the preservation of Cuban independence. Hoar said he considered the entire Cuban amendment unwise. He was not able to share in the apprehensions indulged in on the other side. It was designed to enforce the Monroe doctrine. The only condition against which objection could be raised was that regarding sanitation and he thought it was only proper that our country should be safeguarded against yellow fever and other epidemics which might originate in Cuba under unsanitary conditions.
