# IS IT AGAINST FREE SPEECH! May So Regard a Section of the

# New Primary Law.

SALEM, Or., Feb. 28 - Attention has seen called to one section of the proposed new primary law which seems to be in violation of those fundamental principies of free government which guaran-tee free speech and the freedom of the press. This is section 8 of the bill ns printed, and is section 11 of the enrolled bill. Its retention in the bill as amended by its supporters is evidence that it meets their approval. The measure is known as House bill 188, by Shipley, and the section in question reads as follows:

Any person promoting, publishing, repeating, or representing any plan, system rule or organization or constitution. or any rule or regulation, or any declaraof political party policy or principle, after the first primary election held under this act in case of existing parties or after the first primary election held after the organization in case of parties authorized on petition as herein provided, as being adopted or established by any political party subsequent to such first primary election or such first primary election next following the organization of the party, when not adopted or established by vote at such a primary election, shall be guilty of a misdemeanor and on conviction thereof may be punished by a fine of not less than \$100 and not more than \$500, or by imprisonment in the county dail not less than three months or more than six months, or by both such fine and imprisonment."

section as a whole is difficult to understand, so complicated and inconse quential is the language, but if the verbi-age means anything at all it seems to make it a crime for a man to advocate the prin iples of his party. A number of persons have examined the section and agree that the meaning is doubtful.

Business of Long Prarie Creamery.

At the annual meeting of the Long Prarie Creamery yesterday, Henry Rog-ers, J. F. Martin and R. M. Hanankeat were elected as directors, Henry Rogers, secretary, and Claud Thayer, treasurer. The Long Prarie Creamery received last year \$25,760 pounds of milk, which produced 30,764 pounds of butter fat, and from which was manufactured 35,641 pounds of butter. The butter fat averaged 24.65 cents per pound, and the butter 21.01 per pound. amounting to a little over \$7454. The average test was 4.7. As the cheese factories are showing better returns for the last year, quite a number of stock-holders favored putting in a cheese plant in connection with the creamery, but this move was voted down.

### Arrested for Horse-Stealing.

SALEM, Or., Feb. 28.-F. C. Wright was Monday tried in the Circuit Court was alonally treat in the Circuit Court here for stealing a watch last December, and was acquitted. Theeday night he stole a horse from H. F. Jory, of this city, and was today arrested at McMinnville after having traded the horse to a Forest Grove liveryman. The stolen watch was found in his possession. He served two years in the Penitentiary for horse-stealing in Eastern Oregon, and stole the watch immediately after his release from prison. He will now have another sojourn in the county jail, and perhaps in the Penitentiary.

Many speeches were made by ministers and other leading citizens, attacking the present city administration for having permitted the flagrant violation of the iaw, which is apparent in all parts of the city. It is believed that the sentiment of the meeting tonight will favor the present administration. There are now said to be in La Grande 15 saloons, which keep employed about 40 men. In these there are two roulette wheels, four "tigers," fives "twenty-one" tables, and three poker arrangements, besides other schemes for catching dollars.
