good prices. Eggs are very weak, and sales were made yesterday at 12½c with a rumor that even lower figures had been quoted to make a clean-up. The poulity market is in good shape, with everything cleaned up. A few Spring chickens are coming to hand, and the extreme youth of the offerings does not prevent them selling at \$5 per dozen. Pork and veal are holding up to last week's figures. Potatoes are steady, and onlons vent them selling at \$5 per dozen. Fork and veal are holding up to last week's figures. Potatoes are steady, and onlons weak. Some business in new crop contact the stocks of the municipal gas companies, especially those of Greater New York. Consolidated Gas was carried to 2014 with extreme advance of \$54.

PORTLAND MARKETS.

Grain, Flour, Etc.

The decrease in the American visible yesterday was so small that it could not overcome the bearish effect of an increase of upwards of a million bushels in world's shipments, and, in consequence, the Eastern markets were dull and heavy, Locally there is a decided lack of interest in the situation. Neither the millers nor the exporters are in pressing need of wheat, and accordingly are not inclined to pay much above the export value. The fleet in port is securing quick dis-patch, and everything in the river will be loaded before the end of the month. Wheat-Walla Walla, Ligotc; Valley, nominal; bluestem, 57%c per bushel. ### NEW YORK STOCK MARKET. Light Business With a Small Attendance of Brokers.

NEW YORK, March 4.-Business we conducted on the Stock Exchange today with great decorum and sobrlety of de-meanor, in strong contrast with the wild and feverish activity that prevailed to a short time ago. The attendance of brokers on the floor was small enough itself to indicate clearly the declin in activity and interest in the market. Special trips to Washington to witness the inaugural ceremonies accounted for the absence of some, but a great many brokers are away on extended vacations,

The week opened with the wheat mar-ket still in the dumps, but with a very good trade in other directions. Produce change. The expected departure at an receipts were large for the first day of early day of the central figure in the rethe week, but with the exception of cent enormous transactions in the finan-eggs they cleaned up readily at very clai world adds to the common feeling good prices. Eggs are very weak, and that a period of disquietude is likely to

> while Brooklyn Union Gas rose no less than 1%. Dealings in both stocks were unusually large. The strength was not explained by the news, but gave rise to rumors of consolidation. People's Gas advanced a point and LaClede Gas 24, influenced by that indefinable sympathy which affects stocks of the same class in a speculative movement. The lecal movement after much heaviness in Brooklyn Transit, and they were rallied from 114 to 3 points.

A number of other high-priced industrials showed marked strength, General Electric rising 4, with a reaction of 2, and National Salt preferred gaining 4. There was a very heaving absorption of Amalgamated Copper all day, all offerings heing taken with confidence up to par, an extreme rise of 4%. The smelting stocks railled sharply from an opening break on covering by shorts upon the news of a legal point lost by the opposition to the proposed merger. The tide-water soft-coal carriers continued in de-mand on account of the large business done in anticipation of a coming increase in freight rartes. There were increases all through the list on good traffic re-

ports, earnings, etc. The Grangers and Southwesterns enjoyed good advances, Rock Island and Union Pacific leading. A number of minor railroads were also in good demand. The steel stocks were higher, but they were without any sensational features. The publication of the official circular giving the details of the financial arrangement proposed for putting through the consolidation was disregarded, as the

preliminary gossip had pretty accurately forercasted them.

The continued case of the money market precludes any acute apprehension on that score, although it is not expected that credit facilities in New York will be ex-

panded in the next few weeks.

There was a good demand for rallroad bonds with some irregularity in price changes. Total sales, \$3,579,000. United States new 4s coupon declined 1/2 per cent

on the last call.

Chicago Grain and Produce. CHICAGO, March 4.-News influential in etermining the price of wheat found only a small scalping interest to appeal to throughout today's session, save at the opening, when there was atriffing amount of outside buying. NEW YORK, March 4 .- A decline of 35 points was scored in pig tin in the local metal market today. This was partly due to tack of speculative interest, and partly in sympathy with weakness abroad. Th local market ruled weak all day, and closed weak at \$25 20@26 40. Spelter was also lower on futures, but

the spot quotation was not materially changed, closing at \$2 525-608 9744. An easy undertone was prevalent in cop per locally, as a matter of sympathy with the decline in that market abroad, though prices were nominally unchanged at \$17 for Lake Superior, and \$16 62% for casting. Domestic iron markets were rather unsettled. Pig iron warrants were unchanged at \$9 50@10 50; Northern foundry, \$15@15 50.
