## UNIVERSITY AFFAIRS

Regents of State Institution Held Meeting.

MORE INSTRUCTORS PROVIDED

Preliminary Arrangements Were Made for the New Light and Power Station, Which Will Cost. \$25,000.

Regents of the University of Oregon met at Judge Beilinger's office yesterday. Several changes were made in the policy of the institution for the sake of greater efficiency in curriculum and equipment. Provision was made for engaging more instructors and professors and for ex-pending the recent appropriations of the

Legislature.

The following members of the board were present: R. S. Bean, of Salem, president; Joshua J. Walton, secretary; S. H. Friendiy, of Eugene; Charles Hilton, of Wasco County; William Smith, of Baker City; L. Butler, of Independence, and C. B. Bellinger and C. A. Dolph, of Portland. C. C. Beekman, of Jacksonville, and Dr. S. Hamilton, of Roseburg, were absent. Dr. Frank Strong, presiwere absent. Dr. Frank Strong, prestdent of the university, was also present. The report of Dr. Strong was received,

and all its recommendations, with one or two minor excepitons, were adopted by a committee of the board composed of President Bean, C. A. Dolph, William Smith and C. B. Bellinger. Most of President Strong's suggestions were incorporated verbatim into the report of the commit-tee which was adopted by the board. Lewis H. Johnson, of Eugene, was elect-ed steward, financial and purchasing

Edgar M. Lazarus was employed as architect for the new light and power station, for which the Legislature appro-

pristed \$25,000. He was directed to pre-pure plans and specifications therefor, Report of Committee.

All the recommendations of President Strong to the Regents were adopted by the committee appointed to consider them, with only two or three exceptions. His suggestion that the board propose to the Historical Society that the li-brary of the society be located at the university was omitted. Instead of ap-propriating \$2000 for books, the board advised that the interest on the Villard fund be set apart for the purpose. The president's suggestions were further complemented by the recommendations that 19th-grade work be the qualification for entrance into the university, and that faculty meetings be held at least once a month. The proposal that the president be authorized to issue a High School manual for the benefit of the schools of the state was approved, and the expense was limited to \$300 per year. The presi-dent's recommendations that \$300 be appropriated for periodicals this year and that all graduates pay a diploma fee, were omitted from the committee's report. The committee also advised that \$500 be appropriated annually for the Law School, and \$1000 for the Medical School. These were added to Dr. Strong'

The maximum increases of salaries advised by the president were granted. The sum of \$6500 was recommended for the laberatory building. The suggestion by Dr. Strong that five more instructors and two more professors be engaged was incorporated into the report. A fellow-ship of \$115.50 are appropriated. ship of \$112 50 per annum, and two scholar-ships of \$87 50, were advised. Rent of rooms at the dormitory was fixed at \$2 25 per month. An appropriation of \$400 for a Summer school was recommended. immer school was recommended.
In prefacing his report to the Regents,

he following recommendations, made after long consideration, are the result of the experience of the past year and a half. They are made in pursuance of the plans which the president of the university are based upon the estimates of receipts and expenditures for 1891 and 1892, sub-mitted to the board. The things recom-mended are believed to be after mature consideration, not merely convenient, but In making these plans and in making these recommendations in by raising the grade of its work both in quality and quantity to make the univer-sity fill the real university field; second, to bring it into close relation and active co-operation with the rest of the public schools of the state; and third, to bring it into vital touch with the life of the state, that it may perform all those funcuniversity ought to perform."

Report in Detail. The following recommendations to the

nually, for the support of the Law School, \$600, and of the Medical School, \$1000,

commencing with January 1, 1901.

Second—That the interest on the Villard fund be, and the same is hereby, set apart for the current year for the use and benefit of the library, against which shall be charged for all periodicals, heratofore or which may hereafter be pur-chased; books, expressage, postage, freight, and all other expenses of the

library, except the salary of the librarian.
Third-That there be, and is hereby,
appropriated \$5500 for apparatus and equipment for the laboratory building, to be expended by the president of the uni-versity, and the head of the department, under the direction and supervision of the president of the board, the chairman of the executive committee, and Regent Butler: Provided, that all work shall be done by contract so far as practicable, and all purchases made on approved requisitions, as other purchases are made

Additional Instructors.

Fourth-That additional instructors mmencing October 1 next, he, and they e hereby, authorized, and the president of the university is empowered to nominate to the board, at its regular meet-ing in June, such instructors: (a) An assistant professor of English

literature, at a salary not to exceed \$1500 a year, to become the head of the department of English literature after one

ary not to exceed \$1000 a year.

(c) Instructor in Latin and French German, at a salary of not to exceed \$1000

electrical and mechanical engineering, necording to salary paid, at a salary of not

to exceed \$1200 a year.

(e) Assistant professor of education, to act as university examiner and inspector

of high schools, and in such other capaci-ties as may be necessary, at a salary of not to exceed \$1200 a year. (f) Assistant instructor in economics, at

(g) Assistant instructor in rhetoric and criticism, at a salary of not to exceed

212 50 a year. Fifth—That the positions of assistant instructors in physics and civil and sanitary engineering be continued, at a salary not to exceed \$200 per year each.

Fellowships. -That the following fellowships and scholarships be established, commending with October 1, 1901:

(a) Fellowships-Biology, \$112 50 per an

Seventh-That the president of the university be authorized to organize sys-tematic inspection of high schools, at an \*\*xpense for traveling of not to exceed \$200 for the year commencing October 1

next. Sixth-That a Summer session of the university be, and is hereby, authorized, at a cost of not to exceed \$800 for the present year; that the income from such school be turned into the general fund of the university; and that the credits granted for college and secondary work in the Summer school shall be allowed in the regular college work, under such rules and regulations as the president and the faculty of the university may

Ninth-That the qualification for admission to the university shall be work equiv-alent to the completion of the 10th grade in the high school course, as prescribed by law: Provided, a student may be conditioned in not more than two

The president of the university and the faculty are hereby authorized and empowered to outline and put into operation a systematic plan of accrediting schools and students; to assign credits to students for entrance to the university; and to put into operation a system of registration of students.

Although plasage of a faculty are hereby authorized and empowered to outline and put into operation as sign of students. Although plasage of a faculty are hereby authorized and empowered to outline and put into operation as system of registration of students.

It is the sense of this board that regu- which were passed around by Captain

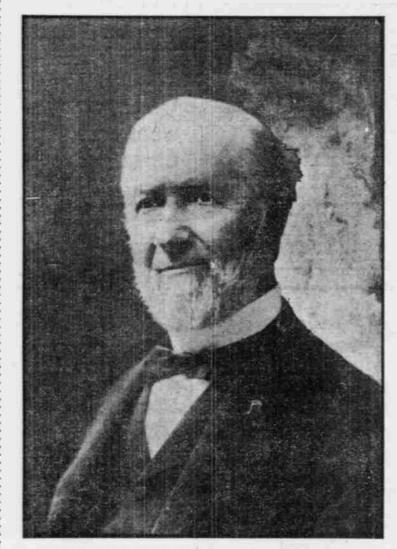

HALF CENTURY IN OREGON H. W. CORBETT CAME TO PORT-LAND MARCH 5, 1851.

Has Seen the City Increase in Popu-

lation From 450 to Nearly

100,000.

Hon. H. W. Corbett has seen Portland grow from a village of 450 people to a metropolls of near 10,000. Yesterday was the 50th anniversary of his arrival in Portland. He came from New York by way of the Isthmus, taking the new steamer Columbia at Panama for San Francisco and Astoria. The vessel had been built for the San Francisco-Astoria route. Upon arriving at Astoria on March 4, 1851, Mr. Corbett took passage on

HON. H. W. CORBETT, WHO TODAY BEGINS HIS 51ST YEAR IN PORTLAND.

lar faculty meeetings ought to be held at , O'Neil in his additional capacity as waiter, least once each month, and a record kept of their proceedings.

Salaries Increased.

erature, \$1600; instructor in philosophy and education, \$1200; instructor in history, \$1200; instructor in English, \$700; instruc-tor in chemistry, \$300; and commencing with January 1, 1801, the salary of the director of music shall be \$400 per annum.

raised from the rank of instructor in philosophy and education to that of asint professor in the same; and that Joseph Schafer be raised from the rank of instructor in history to that of assistant professor in the same. That the title of Professor Glen be proessor of English language and early Eng-

lish literature; that of Professor McAlis-ter, professor of applied mathematics and ingineering; and that of Professor Hawhorne, professor of psychology. Twelfth-That the president of the university be, and is hereby, authorized to issue university bulleting, at convenient times during the year; and to prepare and print, with the approval of the State Superintendent of Public Instruction, a high school manual for the use of the various high schools of the state: Pro-

vided, the cost of printing, exclusive of catalogus for the year, shall not exceed dormitory, commencing with January 1. 1961, be fixed at the rate of \$2 \(\sigma\) per month; and that after the close of the present scholastic year, boarding be no longer provided in the dormitory, and the rooms left vacant by the change be used at the discretion of the executive committee and the president of the accounts. committee and the president of the uni-versity: Provided, the present plans of the building be not changed without the

onsent of the board. Fourteenth-That the board hereby ofers room upon the campus, at a place to be hereafter selected, the selection of which shall be approved by this board, for a students' building, to be erected for the religious and social life of the university; such building to be held by the board in perpetual trust for the Young Men's and Young Women's Christian Associations of the university

Departments. Fifteenth-That the organization and epartments of the university be as fol-

The Graduate School; College of Litera-ure, Science and the Arts; the College of Science and Engineering: the School of Mines and Mining; the School of Medicine; the School of Law; the School of Music; the University Academy, with such subdivisions as the president and faculty of the university. faculty of the university may find it

Sixteenth-That the president of th faculty be, and he is hereby, authorized and empowered to appoint deans of the various departments at Eugene, and com-mittees, and to designate their powers and duties.

Seventeenth-That in the purchase of supplies for departments, the cost of freight, expressage, drayage, telephoning and telegraphing, and other like expenses, be charged to the account of the department for which they are ordered and de jucted from the estimate for expenditures

for that department.

Eighteenth—That inasmuch as June. Biguitectin-linat inasmuch as June, 1961, marks the end of the 25th year of the work of the university, appropriate exercises in commemoration of the event are hereby authorized in connection with the commencement exercises of the present year: Provided, no additional expense is incurred therefor.

Portland was an insignificant place when Mr. Corbett clambered up the river bank to get a full view of it. Business enter-Tenth—That, commencing with October i next, the salaries per year of the following persons be, and the same are hereby, established as follows:

Professor of Latin, \$1600; professor of chemistry, \$1600; professor of modern languages, \$1600; professor of civil engineering and astronomy, \$1600; professor of English language and early English literature, \$1600; instructor in philosophy and the village had been built on First. street near Washington by Mr. Crosby. This house is now on the east side of Fourth street, between Yambill and Taylor, and is occupied by the Native Sons Publishing Company. Mr. Corbett found a store under construction by Hallock & to occupy the building at \$125 per month, or buy for \$200. Wadhams & Kerr Bros. now have a large brick store on the lo-cation. W. W. Chapman lived on the block where the Courthouse now stands

mand when he landed in Portland, but he had friends in New York who recog ed his integrity and business capacity They gave him credit for a stock of oods which, landed in Portland, repre-nted \$34,000, freight and insurance added After 14 months in business, Mr. Corbett returned to New York and was gone a ear. While he was away his affairs were in the care of his partners, Robert N. and F. McLaren. Shortly after his return he bought out the McLarens and did business under his own name until about 1865, then he formed the firm of H. W. Corbett & Co. His partners were Edward Failing and Marshall Millard. About 1868 organized the firm of Corbett, Failing & Co., which is still continued as Corbett, Falling & Robertson. In 1868 he bought the controlling interest in the First Nadonal Bank, of which he is now presi-

argoes in 1851. Now, between 140 and 150 vessels come annually for wheat cargoes, besides steamships in regular ser-vice and tramp steamers seeking charters. Fifty years ago the channel at Swan Island had 10 or 12 feet of water. Mr. Corbett has seen it deepened to 25 feet. When Mr. Corbett took charge of the First National Bank, then as now a Govern-ment depository, the deposits were about \$80,000. They now exceed \$5,500,000. In issl Portland had but one two-story hotel. It now has in the Portland the finest hotel west of Chicago, and one of the best in the United States. When Mr. Corbett came to Portland the Northern Pacific Railroad had been talked of by Stephen Whitney, of New York, Peo-ple thought him daft for the boldness of his ideas. Now five transcontinental rail.

oads terminate in the Northwest. Returning to Portland from New York in 1853. Mr. Corbett visited Puget Sound to determine whether it would be a bet-location than Portland. His decision was for Portland. All that there was to Seattle was a sawmill and a slab boarding-house, Seattle now has over 80,000 people. then made a tour of the Willamette Valley, going as far as Corvallis, the southern limit, in 1833, of any considerable ettlement in the Valley, Mr. Corbett has been an active promo-

ter of Oregon's industries and the up uilding of Portland in his 50 years' resi-ence. Few men have done as much for

POLICE CHANGES.

A Third Captain Is About to Be Appointed.

Three police changes were announced yesterday: James H. Roberts, to be clerk to Chief McLauchian and day jailor; James F. Johnson, day jailor, to be night jailor; and John Quinton, night jailor, to be a patroiman in South Portland. Mr. Roberts was formerly clerk to the Chief. It is probable that Policeman E. E. Parker will be transferred from his beat Portland.

lice Commissioners are to appoint an ad-ditional Captain of Police, and the lucky man is said to be F. C. Geer, once a Captain of Police under a former administration. He is a relative of Governor Geer, and will make an excellent officer. At present, there are two Captains in the Police Department-Robert Holman, who is on duty from 11:45 P. M. to noon next day, and Timothy J. Hoare, on duty from noon until midnight. This is more than any two men should be expected to do, and the strain is telling on their health. The bad sanitary condition of the City Jail and Police Station is responsible for a good deal of sickness among the members of the force, and this ought to receive early attention."

PRE-RAPHAELITE PAINTERS Papers at the Opening Night of the Cathedral Class.

"The Pre-Raphaelite Painters" was the theme of the opening lecture for the third season of the Cathedral Class, at the The Woman's Club has the honor of opening the course, and the four papers read by Dr. Edgar P. Hill and contributed by clated by the large audience which had gathered.

The preliminary paper was by Mrs. Ri-naldo Bingham, and contained a history of the pre-Raphaelite movement. Since the days of Raphael, according to Mrs. Bingham, painting had deteriorated, as the painters of that age copied from him, Angelo and Titian. Then came the awakening to true art. Dante Gabriel Rosetti, John Everett Millais and Holman Hunt formed the Pre-Raphaelite Brotherhood, which, three years later, so startled Lon-don. They stood for sincerity. Everything was to be painted as it stood. stood banded together to draw what they saw or what might be seen. They had three principles: To have original ideas, to study nature for inspiration, and to sympathize with what was heartfelt. Most indispensable of all, was it their aim to draw true pictures. This movement is declared to have undoubtedly been the result of true artistic spirit.

When they sent their pictures for exhibition, wrote Mrs. Bingham, they differed so materially from the standard, they were greeted with curiosity and derision In the third year the storm broke in London, and it raged so furiously that these three men were obliged to withdraw their pictures, until John Ruskin came to their aid and turned the tide of public opinion in their favor. Their return to nature is said to have had a most powerful and far-reaching effect.

At the close of this paper, Dr. Hill read a note from Mrs. Rose H. Hoyt, explain-

ing that sickness had prevented her from writing a promised paper on Ford Mad-The reading of the three remaining pa-

pers on the founders of the Pre-Raphaelstereopticon views of the painters and their most noted paintings,

Sir John Everett Miliais, according to Mrs. Julia Marquam, stands at the head of the field of art in the nineteenth cent-ury. While most children were in the nursery, he was spending his time in drawing. At the age of 11 he was in the Royal Academy, and at 17 he was pre-sented with a gold medal. He never worked by rule, but by inspiration, and it was this which is said to have caught the eye of the critics. His secret of power was to express emotion in a simple manner. Among his paintings mentioned were: "The Huguenot Lovers," "Chill Oc-

teresting manner by Mrs. Alma A. Rogers. "Hunt is generally conceded to be the only one of the three men," said Mrs. Rogers, "who remained true to the first principles of the brotherhood. The key to itual touches given them. He painted from life one of his most famous works, 'The Scapegoat,' being the result of many weeks spent on the Dead Sea. All of his work is wrought with painstaking fidel-

The next evening's entertainment will be on March 19-"The Mountains and Valleys of Switzerland," by A. S. Pattullo. The committee appointed to

COMING ATTRACTIONS.

"The Ugly Duckling" Tonight at Cordray's.

One of the daintlest little society plays on the stage today is Mr. Paul M. Pot-ter's play, "The Ugly Duckling," which David Belasco adapted for Mrs. Leslie Carter, and which will be given by the Shirley company at Cordray's tonight. It has a clearly defined plot, which is worked out with more than ordinary skill. At times the action rises almost to the plane of melodrama, but is softened by the society toning, which only serves to increase the interest. The climax of the third act makes one of the most intense scenes ever depicted upon the stage, and the struggle of the young girl to save her sister's reputation, even at the cost of her own, if need be, carries the nudierce with it. A bright vein of comedy running through the piece relieves the intensity, and makes it stand out as

"The Village Parson" will enact his life's story to all who may flock to Cordray's Sunday night, where the company begins an engagement for a week. In this production there is much religious and dramatic emotion, but the piece is remarkably clean. Church people can well draw a parallel between some "lat-ter day spints" and the ideal village. ter-day saints" and the ideal village preacher, who is not given to fickle vanities, as portrayed by the Rev. Tom Godley. Every one of the five acts has a strong climax. The presentation of the "Village Parson" does not depend upon one good actor and a lot of bad ones, but Manager Nankeville has assembled a par-ticularly well-balanced and talented company. Every member is well fitted for his

The Henschels Friday.

The sale of seats for Mr. and Mrs. Georg Henschel will open this morning at 10 o'clock. These famous artists appear at the Marquam Grand one night, Friday, March 8. Portland has had some of the most celebrated musical artists the past few years, but it has been the desire of all true music-lovers to avail themselves of the opoprtunity of hearing the Henschels, and, therefore, it is not to be wondered at that the demand for seats has been un-usually large. Of the Henschels the Los Angeles Record has the following to say: "The audience in Simpson Audi last night was a large and cultured one, and manifested the utmost degree pleasure and appreciation of the feast of

ong given by the Henschels. The crowd that so completely filled the auditorium did honor to itself in appreciating the worth of these artists, who are, in their line, incomparable. Truly, to estimate the art of Mr. and Mrs. Henschel is to indicate a degree of culture. They are artists sublime. The two are truly one, and their sweet voices are in perfect accord. The plano accompaniment by Mr. Henschel adds a charm to the singing of himself and of his wife. "The programme, as rendered, was suffi-

crowd, but to show the variants of abil-YOU GET WHAT ity possessed by the singers. So uniformly excellent was the work of both that to make any comparisons is simply to ex-press one's individual taste. The pro-gramme opened with a duet from 'Elijah' and closed with a duet from 'Don Pasquale.' Between these two composi tions were songs of every kind, and pretty ditties were often given in compliance with the encore demands. The classical and the popular music was advoitly alternated in the arrangement of the programme, making the recital most charming throughout."

MUSIC IN THE PARKS.

Commissioners Consent to Summer Concerts by Private Subscription.

Popular concerts in the public parks, during the Summer months, was one of the important subjects discussed at a meeting of the Board of Park Commis

doners yesterday.

It was reported that Charles Brown was were: "The Huguenot Lovers," "Chill October" and "Ophelia."

Mrs. Grace Watf, in her paper on Rossettl, spoke particularly of his poetic feeling. It was through the influence of Brown, she said, that he became a painter. He spent two years at the Academy, but accomplished little. Then he became acquainted with Hunt and afterward branched out. Two of his most famous paintings were made before he was 21. His death occurred in 1882,

Halman Hunt was treated in a most in-

An application from Henry Moore for position in the park department was referred. A letter from G. Morris, of North Yamhill, offering to sell two tame foxes for \$10, and also an offer from Arfoxes for \$10, and also an offer from Ar-thur Henderson, of Wasco County, to sell proving a great success, about 1000 pounds the Commissisoners a white coyote, were referred to a committee.

The pay-roll of \$396 50 for February was approved, as were also other claims amounting to \$145.96. The estimate for this month is \$716.77. With the opening of good weather some park improvements are contemplated, which will necessitate

The committee appointed to look over park blocks, with a view to their improvement, reported that in their judg-ment a beginning might be made upon three of the blocks centrally located—two north of Jefferson street, and one south It was proposed to take out some of the objectionable trees, such as poplars, and lay diagonal walks, made of gravel. Looking to the future, the committee suggested that some of the parks might be laid out in such a manner as to produce a picturesque effect, with shrubbery, flow ers and turf. Among other things that were suggested in this connection was the advisability of getting into communication with landscape gardners of other cities, in order that the Commission might have their counsel, as well as that of the best gardners of our own state Dr. Ellot, who expects to go East in a few weeks, was empowered by resolution to confer with any persons in au-

The Commission listened with interest to the representative of the movement which has been lately inaugurated by the City Improvement Society. Its workers are under an entirely voluntary system of advising or encouraging better care and ornamentation of yards and environs of private property. These workers asked for the sympathy of the Park Commis-sion in their plans. It was informally understood that at a later date, when these plans are consummated, that the Park Commission will give every encouragement it can to those far-reaching lans for the beautifying of various portions of the city, especially directing at tention to sections which are crowded

EAST SIDE AFFAIRS.

Action in Burnside-Street Improvement Postponed for Two Weeks.

The matter of the improvement of East Burnside street has been postponed by the street committee for two weeks, at the expiration of which time perhaps some agreement will be made by which the street may be improved. There is a wide difference among the property-owners as to the kind of improvement wanted. Some do not want any improvement. The re-mainder are divided on brick, crushed rock, gravel and wood pavements. effort has been made to get the street paved from the Burnside bridge approach to Grand avenue with brick, over which the heavy travel passes, and from that point eastward any kind of improvement would be acceptable to some, but not to others. In order if possible to harmonize these differences, and reach some point of agreement among the property-owners, the whole matter has been deferred for a
