### COMMERCIAL AND FINANCIAL

Pront street was pretty well cleaned up on most lines of produce last Saturday, and the week opened yesterday with prices steady for nearly everything but of the day's special movements, that it eggs and onlons. The latter has not yet recovered from the weakness caused by the heavy stocks that were thrown on the San Francisco market when there was a scarcity a few weeks ago. Eggs are very weak at 12 cents, so weak in fact, that some dealers were shading this figure a little. The San Francisco steamer in last evening, brought considerable California produce which will be on the street this morning. In the grocery mar-kets, a drop in sugar was the only feature of interest. The decline was 29 cents, making dry granulated now \$565

Grain, Flour, Etc. The wheat markets were steadler with some firmness shown early in the day. Wire trouble in the East for the greater part of the day kept local exporters somewhat in the dark, regarding the situation abroad, and in the Bast, but prices in this market might be termed steady at about 56 cents for Walla Walla. Very little is offering at these figures, but tonnage engagements are not sufficiently pressing to demand an increase in prices, which are now up to the top notch for export value, bused on existing freight

### STOCK MARKET DULL.

Activity of a Few Special Securities

Did Not Help the List. NEW YORK, March 11.-Today's stock market was a dull one in spite of the large transactions and wide price movements in some individual stocks. The inertia of the general market in spite of these points of activity gave the whole a very spotty appearance. Professional operations were obviously responsible in a large degree for such dealings as occurred and for the manipulation which exaggerated the price movement. Where professional manipula-tion was not at work, the day's move-ment will be seen to have been very sing-gish, and not a few small lower are gish, and not a few small losses are re

norded even among stocks which are usu-

some extent.

Of the day's special movements, that Of the day's special movements, that a Burlington attracted the most attention St. Paul sold ex-rights this morning, the rights being quoted at \$\frac{1}{2}\$ to \$\frac{1}{2}\$, reducin the price to \$150, or under. This gave the supporters of Burlington an opportunit to lift that stock over St. Paul to \$15\frac{1}{2}\$, the movement of the cover Saturday of \$\frac{1}{2}\$. The movement rise over Saturday of 2%. The moveme seemed to be based purely on the consi eration that Burlington has had its righ to subscribe to new stock, while the dident rate is already 6 per cent, with 6 per cent rate for St. Paul still to b established. There was no news regardin the stock beyond the old rumor of r funding.

The coal carrying roads were strong

with a few exceptions, where an advance has already been made. There was a early decline of over a point in suga on account of the cut in price of refine sugar. The stock rallied to well over Saturday, but closed the day unchange. Great Northern preferred was marked 6 points in connection with the present in this city of the president and rumo that a meion is to be cut. Amalgamat Copper was strong. The dismissal of ti injunction against the absorption of ti Guggenheim interests by the America Smelting Company caused a rise in the stocks of 3% for the common and 2 for th preferred. The realizing movement in th last hour cut down all these advances some extent, and in the active stocks r actions ran from 1 to 2 points, with the closing ensy.

There was a very large absorption of bonds, especially of the low grade an semi-speculative issues, with continger interest payment. Total sales, \$5.855.0 United States refunding 2s advanced and the new 4s declined 1/2 per cent of

FOREIGNERS IN CHINA.

NEW YORK, March II.-The March number of the Deutsche Revue contains an article by Sir Robert Hart on foreigners in China.

"Foreigners in China, although their number continually increases," he said, "are not very numerous, and can be di-vided into three general classes: M rebants, missionaries and officials. The merchants follow their calling in an orderly, regular Walla Walla, 28s 1044; imports wheat into United Kingdom, 315,000 quarters; imports flour into United Kingdom, 280,000 barrels.

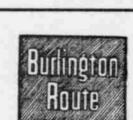

LIVERPOOL, March 11.—Wheat and flour in Paris quiet. nevertheless, the Chinese complain that foreign competition in China of the coastal trade has ruined the junk owners and

deprived them of the large incomes they formerly enjoyed. "The missionaries are acknowledged to have done good in many ways, and their medical practice in promoting public health deserves great gratitude. But the mere fact that they are bold enough to teach causes irritation and the acceptance of their doctrines is still more dangerous, for while certain abuses which have crent in-for example, converts seeking their meetings for protection against the conse quences of legal trespass, or to obtain the ecclesiastical influence for their own ben-efit, as well as the interference of misor 29 per cent on hand March 1, 1900, and sionaries in the local administrationcause occasional troubles within their dis-tricts and displeasure to the people and officials."

The article ends as follows:
"In spite of the quite inexcusable tion of the Pekin government in regard to the Boxers and the crueltles committed upon missionaries and their familles in two or three provinces, it must not be forgotten that the viceroys and governors of the other 15 or 16 maintained peace and order and did not permit any anti-foreign movements. This must not be overlooked in discussing how far the situation justifies the action of the powers in treating China as outside the limits of civilization, Every one who admits the principles of Chinese philosophers, that the power of right is great, must supplement it by the other one, that the right of power is also great. The most powerful states which are at the same time the most civilized ones, have not only the right but also the duty to enforce their will on others. But their action must be considerate, blame-less and just, in due proportion to their strength and civilization."

ST. LOUIS, March 11.-Louis Grunda an ex-assessor and collector of water rates, and at one time department commander of the Grand Army of the Republic, shot and killed himself with a shotgun at his home today. His suicide was lic, shot and killed himself with a shot-gun at his home today. His suicide was caused by brooding over the fact that physicians told him it would be necessary to amputate his right leg on account of blood poisoning, which developed six
