

CITY NEWS IN BRIEF

Amusements Tonight.
CORDELL'S THEATRE.—The Village Parson.
METROPOLITAN THEATRE.—Held by the season.

RIGHT OF WAY FOR SEWER.—Members of the Council committee on sewers will make a visit to the Eleventh Ward, and with Councilman Baker, of that district, will call upon Messrs. Abrams and Knox, to make a request for right of way for the Beech-street sewer through their tract of land, extending to the county road just north of the O. R. & N. shops, east to the boulevard. The right of way desired is down through a natural canyon. Beech-street sewer will drain one of the largest districts in the city, and will discharge into the river a short distance from Ball's Court, Gutierrez & Co.'s warehouse, after crossing the main flat north of the O. R. & N. shops. The O. R. & N. gave the right of way for the sewer across its property, and it is hoped Messrs. Abrams and Knox will be as accommodating. The sewer will drain a very large district in Northern Albina, which is very much in need of sewerage, especially the district around the Thompson school building, where there are no sewers, and the construction of this sewer will add much to the value of property in that section. The sewer is designed to be a permanent one, and will be across the flats, of brick with stone bottom seven feet in diameter.

MORE STREET IMPROVEMENT BONDS.—Auditor Devin yesterday delivered to the purchasers the last of the series of improvement bonds sold in January and dated February 1. The Council some time ago authorized the sale of \$25,000 more of these bonds, but will have to authorize the sale of more at once, as when it was known that the Legislature would amend the Hancock bonding act so that property-owners would have to pay the interest on the money they borrowed there was a big rush to get street improvements through in time to get rid of paying interest. The applications for bonding such improvements ran up to \$40,000, so the Council will have to authorize the issue of \$15,000 more of bonds. Now that it is too late for property-owners to throw the payment of their interest on their neighbors, it is not likely that there will be such a rush to take advantage of the bonding act.

ANOTHER FAITH-HEALER.—Mrs. Anna J. Johnson, a faith-healer, has come to Portland for a short visit, in the interest of faith-healing, and to see if she can arouse sympathy for the "Christ Healing and Faith Training College of New York," of which she is the founder. She said, last night: "I have been engaged 30 years in faith-healing work, and began in Chicago. I hope to speak in all the churches of the country. As to my method, I see my patients privately, in a room, and only treat with those who say they believe that God can heal them. I have rejected patients because I did not think they were sincere. Have I had any failures? No, God says 'All souls are mine.' It is a divine call." Mrs. Johnson is a woman of about 60 years of age, of respectable appearance, and has a pink-and-white complexion a girl might envy.

CORRECTOR CONTRACT.—While the Driscoll bill passed by the Legislature is not specific on the point that all county supplies shall be bought under contract, but merely provides that no contract shall be entered into except after bids have been submitted, section 5 of the County Commissioners' bill fills the gap and creates a certainty that it shall hereafter be unlawful to buy save by contract. This section reads: "All contracts relating to county business, and all purchases of county supplies, shall be made by the County Court. All supplies shall be advertised for and purchased from the lowest responsible bidder, and no member of the court shall be interested in any way in any contract purchased."

SWORN IN AS AUDITOR.—W. H. Pope was sworn in as County Auditor under the new law, by Deputy County Clerk Swadlow, yesterday. The term expires in July, 1902, and at the June election in 1902 the election of a County Auditor is provided for. Mr. Pope filed a bond in the amount of \$25,000, although the law only seems to state that the Auditor hereafter to be elected shall file such a bond. The present official, however, did not desire that there should be any question about it. The Auditor does not handle any of the county funds, and under these circumstances, the bond is a large one. The bond of the Assessor, for instance, is only \$500.

WOULD LIKE TO FIGHT.—A number of members of the Third Artillery passed through the city yesterday, en route for Fort Stevens to San Francisco. The boys were all wishing that they might be sent to Manila, but as heavy artillery is of little use in the rice swamps of Luzon, they thought this move unlikely. They were glad to get away from Fort Stevens, where, between the frequent rains and the moaning of the sea, they were made to feel rather homesick. "We would like to go to the Philippines, but there's no such luck in store for us," was the general sentiment.

DAKOTANS PLEASED.—A party of five stout, hearty, corn-fed farmers from South Dakota were in the city yesterday. They have been visiting friends in the Willamette Valley, and were starting for home, after a trip of a few days in the growing region, and had not been accustomed to the Oregon rains, but the mild climate, and the forest and grain prospects will draw them back to Oregon.

BUYING FIRE HORSES.—The Board of Fire Commissioners have been furnished with \$100 to buy horses for the Fire Department, having been looking around for suitable ones, which are not numerous. They have secured one fine pair of bays for Engine No. 4, which weigh between 1,000 and 1,200 pounds, and they have on trial another team of bays for Truck No. 2.

TO BE INSTALLED.—Rev. M. D. McClelland, the new pastor of the Fourth Presbyterian Church, will be formally installed by the congregation tomorrow evening. Mr. McClelland has been regularly engaged by the year, and the congregation is supposed to last for as many years as are agreeable to pastor and congregation.

HOMES FOR THORNTONS.—J. Moran, a Monmouth business man, is in the city on a visit. He is well pleased with the interest taken in newly arrived people from the East, by the Portland Board of Trade, and says homes for thousands can be obtained in Polk County at very low rates.

CHILDREN READY FOR HOMES.—Two babies, boy and girl; one boy, 3 years; one 15 years; one girl, 13 years; communicate with I. F. Tubey, superintendent Oregon Children's Home Society, Marquam building, or call up 'phone Union 672.

MISS ABELIA R.—Lecturer of the Boston School of Expression, will give dramatic recital at Grace Methodist Episcopal Church, Friday evening, March 15. As a perfectly natural reciter, Miss Luse ranks very high.

LAURENCE LAUNCHES.—A gasoline launch built at Supple's boatyard for the Pillar Rock Cannery was launched yesterday. She is a very handsome craft, and was named Jessie, in honor of Miss Jessie Farrell.

SPRING MILLINERY ARRIVED.—Please call and examine our price list pattern hats, also trimmed hats at exceedingly low prices, at Becker's, 230 First street.

CAMPBELL & ROGERS write steam boiler insurance. Maryland Casualty Company. Largest surplus.

WHERE LITIGATION STOPPED.—The appeal of Mary W. Gaston to the Supreme Court from the award of damages allowed by the viewers in the matter of the opening and extending of Main street through the Gaston tract, was dismissed by Chief Justice Beasly, yesterday. He held that the Legislature intended that litigation over the opening of a street, as far as the question of damages to property-owners is concerned, should terminate in the Circuit Court. Miss Gaston owns an irregular shaped tract of land, bounded on the west by King street, through which the city has been trying for a long time to extend Main street, but this extension has been strenuously opposed. An appeal was taken from the award of the viewers to the Circuit Court, and when the case was decided there in favor of the city it was appealed to the Supreme Court, causing more delay. Just what further obstruction can be placed in the way of opening the street, the viewers do not know, but it is feared that it cannot remain to be seen.

PRESENTED WITH GOLD WATCH.—Walter F. Matthews, Assistant Postmaster, who so successfully managed the campaign of Senator Mitchell during the late campaign, has been presented with a beautiful gold watch and chain by the workers associated with him as a mark of their respect for his talents as a campaign manager. As Mr. Matthews' modesty leads him to shun notoriety, his friends used the little strategy of putting him up to Judge Carey's office, and then led the conversation up to a point where the presentation of the watch and chain, which had been provided for the occasion, came in appropriately. Mr. Matthews received the watch with great pleasure, and his magnificent gift and their good wishes. His monogram is engraved on the front of the case, and on the inner case is inscribed: "Presented to W. F. Matthews by his friends as a souvenir of the Legislature of 1900."

TO ENTERTAIN CHICAGOANS.—A meeting was held at the office of General Passenger Agent Craig, of the O. R. & N., yesterday morning, to consider the matter of entertaining the Chicago merchant's excursion, that will spend March 20 in this city. Officers of the Chamber of Commerce, Board of Trade, Commercial Club and two or three of the railroads were present. After a little informal discussion, it was agreed that the representatives of the commercial bodies should consult their respective organizations regarding ways and means, and report at a meeting to be held at the Commercial Club this afternoon, at 3 o'clock, when the full programme is expected to be determined upon. The visitors will arrive in Portland at 8 A. M., and leave for the north about midnight.

STARTING CANNERY WORK.—George Beal, superintendent of the Pillar Rock Cannery, was in the city yesterday, notifying all the persons engaged to work in the cannery during the season to put in an appearance there on Thursday. The engineer, the watchmen, the crew of Chinese and all hands will be on deck at that time, and the season's work will be started by commencing the manufacture of cans. This is the first cannery on the river to start up this season. Mr. Harrington, manager, is still in England, where he has spent the winter, and writes that he is in the best of health, but says nothing about starting for home.

NEW BUSINESS BUILDING.—A two-story brick building is to be erected on the property of the Rummell estate, southeast corner of Eleventh and Washington streets. The lot has a frontage of 50 feet on Washington and 100 feet on Eleventh. The tenants of the two frame buildings now on the lot have been notified to vacate by April 1, as the cottages are to be torn down. The first story of the new building will be used for business purposes. Presumably, it will be used on the walls facing the streets, and the building will have all the modern appointments.

LEASED SPOKANE MILL.—The Portland Flouring Mills Company has leased the Echo Mill, of Spokane, from the Great Northern Railway Company, the lease to run into effect soon as the papers can be drawn and executed. President Wilcox, who left last night for a brief visit to San Francisco, did not give out the details of the lease, saying not all had yet been agreed upon. He said the mill would probably continue to be operated in connection with the Great Northern Railroad. The mill has a capacity of 400 barrels a day.

STORY OF JUDITH.—Today, at 3 o'clock, at the Bell-Hirsch building, Mrs. Altman will present the beautiful story of Judith, with readings from the Apocrypha and from the exquisite poem of "Judith," by Thomas Bailey Aldrich.

PIONEER DAYS.—Mrs. Eva Emery Dye, "A Social Study," lecture, Unitarian Chapel, Friday, March 15.

ANTI-CIGARETTE LEAGUE.

Organization Will Begin at Once on the East Side.

Mrs. Sarah M. Kerns, of the East Portland Woman's Christian Temperance Union, says that the work of organizing anti-cigarette leagues will soon be commenced. These leagues, she said, would be started in the public schools if permission of the directors is given, and the anti-cigarette leagues will soon be everywhere possible. Mrs. Kerns said she had come to realize that the young women of the country had large influence in eradicating the cigarette and tobacco habit, and she is looking forward to the time when the young women of Oregon will take a stand on this question that the young men will feel their influence.

Completing Brigade Armory.
 The armory and drill hall of the Sunny-side Boys' Brigade, on East Yamhill street, between East Third-fourth and East Fifth-fifth streets, will be completed this week and will be dedicated with appropriate exercises some time next week. It will then be thrown open to the public, and a general reception given. It only remains to complete the floor and do a little work here and there and the building will be finished. The hall is 60x48, and stands in the rear of a four-room building, now used for residence and general purposes. As the roof is suspended on trusses the floor is unobstructed, and will be excellent for drilling the several companies. There are two compartments, but another one will be organized. The brigade has a membership of 75, and applications are being received daily from other boys, which, however, will be considered after the armory has been completed and dedicated. The members of the brigade are very much interested and a considerable portion of the work in the new armory has been done by them. Sunny-side Boys' Brigade is the only brigade in the state which owns a lot and building, which has a valuation of about \$200.

Sellwood Presbyterian Church.
 The Sellwood Presbyterian Church, Rev. W. S. Wright, pastor, held its annual meeting, when reports from the various committees and auxiliaries of the church were received and read, which showed substantial progress had been made the past year. The Sunday school and Christian Endeavor society are in a flourishing condition, and the congregations have steadily increased, especially at the night meetings. The Ladies' Aid Society has been very successful in raising money dur-

ing the year, and the church has been repaired with a new roof, besides being partly refurnished. Altogether the outlook for the coming year is considered encouraging, notwithstanding several valuable members have moved away and few have come in to take their places. Messrs. Strange and Schuyler were elected elders, and Messrs. C. F. Petch, H. H. Wright and C. L. Winkle were chosen trustees. The meeting was harmonious, and all look forward with confidence to a year of growth. This feeling was inspired from the fact that Sellwood now has the advantage of a decent car fare, and soon will have quick car service.

East Side Notes.
 The hall of the Sellwood Volunteer Fire Company has been furnished with electric lights, and the effect is very satisfactory.

A friend received a message yesterday from Gresham to the effect that Mrs. L. H. Clark, who was stricken with paralysis a week ago, had another stroke, and it is feared that she cannot recover.

Dr. Wise, room 61, The Dekum.

COMING ATTRACTIONS.

Promising Sale of Seats for the Henshels.
 Judging from the sale of seats for the Henshel song recital, Wednesday night, at the Marquam, which opened yesterday morning, there will be one of the largest gatherings ever seen in the theater to hear these famous musicians. The Henshels needed no introduction to Portland music-lovers on the occasion of their first visit here, as their fame is as extensive as love for music, but the delight which was expressed with their recital is an assurance that they will be warmly welcomed on their return. They have been given a very successful recital on Puget Sound and in Spokane, and will stop in Portland on their way to the East, where they will fill a few engagements before sailing for Europe. This will be the last opportunity Portland will have to hear the Henshels for some time, and those who missed their first concert will, no doubt, hasten to secure seats for Wednesday night.

Field's Great Minstrels.
 Al G. Field's Great Minstrels will be the attraction at the Marquam Grand Friday and Saturday nights, March 15 and 16, with a special feature, Sunday night, at 2:30 P. M. A tribe of Mamelukes imported from Morocco especially for the Al G. Field Great Minstrels is one of the features of that big and always welcome organization. These dukes, Orientals seem to have somewhere and somehow picked up and mastered a school of acrobatics far in advance of any of our modern performers, and the only wonder is that any minstrel manager could pay the price they demand. The cost, however, has always been a secondary consideration with Mr. Field. Everywhere the Mamelukes, whom he has brought over under special contract, and who must be returned to Morocco at the end of the present season, are receiving an avalanche of applause and a landings of laudation, an experience which will, doubtless, be repeated when they appear in this city. The Mamelukes give their performance in the big scenic spectacle entitled "The Fete at Mecca."

CITY PRESS CLUB.

Arrangements Started to Entertain International League.

The City Press Club met last night at its rooms in the Oregonian building, and was presided over by George L. Peaslee. Albert Tozier served as secretary. William Ham Hearn was chosen delegate to the National Editorial Association, in place of Paul Kelly, resigned.

An executive committee, consisting of Frank Lee, George L. Peaslee and George L. Hutchins was appointed to arrange for finances, etc., for the proper entertainment of the International League of Press Clubs.

A committee consisting of Will G. Steel and George H. Himes was appointed to interview the Mazamas regarding the use of the latter's rooms for the club.

Mrs. Edith Tozier was elected secretary of the members of the committee on itinerary of the members of the International League of Press Clubs.

The 1901 exposition proposition was discussed, and the members of the committee on business and professional men beginning at once the use of envelopes advertising the fair.

About July 12 was considered the most favorable time for holding the meeting of the International League of Press Clubs in this city.

It was decided to appoint a committee to escort the league delegates from Buffalo to Portland when they leave the former city.

A GOOD PIANO IN THE HOME

Is like a golden chain that binds and holds every member of the family in beautiful sympathy through the medium of sweet, elevating music. You may be able to live, but you can't really enjoy yourself unless you have a

KIMBALL PIANO

They do cost more than most other makes, but they are worth more. The superb quality of materials and of construction produce such overwhelming superiority that you don't have to ask, "Have I got a good piano?" You've got it, and you will know you've got it, and you got it at the lowest possible price that such worth can ever be got. That's satisfaction.

THE TONE IS RICH

It is round and it is true. The Kimball possesses an action which is smooth and evenly balanced, with proper depth of touch, which gives necessary resistance to the hand and wrist. It doesn't tire you to play on a Kimball piano, and the beauty of the instrument is an incentive to more and better work.

WE ARE SHOWING A SUPERB LINE OF KIMBALL PIANOS.
 NOT ONE PENNY ADDED IF YOU BUY ON TIME.

341 1/2 Water street; suicide by shooting.
 March 10, Viola Williams, 46 years, 255 Sixth street; cancer.
 March 10, Ham Won, 32 years, 62 1/2 Second street; consumption.
 March 10, Sharon Garrett, 12 years, St. Vincent's Hospital; appendicitis.
 March 8, Lee Nule, 40 years, St. Vincent's Hospital; suicide by stabbing the heart.
 March 8, Valentine Moosman, 64 years, Penitentiary Station; pneumonia.
 March 7, Mary Ann Huggins, 78 years, 355 East Washington street; old age.
 Contagious Diseases.
 Six cases measles.

AN UNBOUNDED SUCCESS.

The Fredericksburg has won and received some very warm commendations lately, but in the bill put on for this week it eclipses any record hitherto made. The cast is, with one or two exceptions, entirely new. It is not only fresh, but it is of surpassing excellence. Silvana, the king of magicians, is filling his second week with a completely new and startling list of wonders. Leonora, in the very best Eastern successes, is already a popular hit, as is Lucille Cromwell, a charming little songstress from the East, who now makes her first appearance on the coast. Powers and Fred are two other Eastern musical artists, who present a delightful musical repertoire. But it is in the appearance of the Samoyov, aerial artists supreme, that any performance of the kind ever shown here is surpassed. The grace, strength and beauty of their act cannot be described. Round after round of applause greeted their performance last night. Their number appears somewhat late on the programme, but it is well worth the waiting, especially with the attractions preceding. The management of the Fredericksburg has reason to be proud of this week's bill.

WHERE TO DINE TODAY.

March is a fickle month. Overcome the effects thereof by substantial meals at the Portland, 306 Washington street.

Have you tried Runyon's, at 263 Washington street? Newest and best in city.

Everything first-class; service perfect. E. House's Restaurant, 123 Third street.

The 25-cent lunch at the Perkins, 108 Fifth, is a fine dinner. White cooks.

BOUGHT 30,000 ACRES LAND.

W. H. Moore, of the firm of Moore Bros., bankers, of Moro, Or., arrived in the city this morning from Prosser, Wash. Mr. Moore was over here looking up the lands that the Northern Pacific Railroad has for sale, and while there bought about 30,000 acres of good bunchgrass farming land; in fact, he bought about all the farming land the company has for sale at the very low price of \$10 an acre. He has made a great bargain, as he says the land they have bought is just such as the farmers here need. Mr. Moore says it will sell for \$15 to \$20 per acre in a short time.
