

COMBINATION WON

Washington House Passed a Number of Road Bills.

\$133,000 THE AMOUNT CARRIED

Appropriations Range From \$5000 to \$500,000—Letter Amount Is to Be Expended in Lewis and Pierce Counties.

OLYMPIA, Wash., March 12.—The combination effected in the House for the purpose of putting through a number of public works roads, all of which carry heavy appropriations, got in its work at the morning session, and succeeded by a heavy vote in passing seven such measures.

One of these provides for the improvement of the state wagon road between Concomly and the east line of Okanogan County and authorizes the construction of a bridge across the Okanogan River at Perry's Ferry. An appropriation of \$3000 is made. The work is placed under the supervision of the County Commissioners of Okanogan County.

Another bill was passed by Ehrlich, and provides for the survey and establishment of a state road about 45 miles in length in Whatcom County. The road is to begin at a point on the north side of the Skagit River, where the first bridge formerly crossed the Skagit River, being about three miles northeast of Goddell's Landing, in Whatcom County; thence easterly along the Skagit River over the most feasible route to the mouth of Ruby Creek; thence following Ruby Creek and Canyon Creek to the mouth of Slate Creek. A Board of Commissioners, consisting of three members, one to be named by Whatcom County, the other by Skagit County, and the third by the state, is created. The two members from Skagit and Whatcom Counties are to be members of the Board of Commissioners and will receive \$1 each for each day they are in session. The third member will receive \$5 a day. The sum of \$5,000 is appropriated for the work. No portion of this sum shall be available until Skagit County shall have agreed to construct a road from the present terminus of the state wagon road at Marble Mount to the county line between Skagit and Whatcom Counties on the Skagit River, a distance of about 19 miles, and Whatcom County shall have agreed to construct a road from the county line between Skagit and Whatcom Counties on the Skagit River to the first bridge crossing on the Skagit River above Goddell's Landing, a distance of about 19 miles, and Whatcom County shall have agreed to construct a road from the county line between Skagit and Whatcom Counties on the Skagit River to the first bridge crossing on the Skagit River above Goddell's Landing, a distance of about 19 miles.

A third bill passed was introduced by McCoy of Lewis, and provides for a state wagon road beginning near Ethel, in Lewis County, and extending with what is known as the Range Line road, to Tacoma. An appropriation of \$50,000 is made for the work, \$30,000 to be spent in Lewis County and \$20,000 in Pierce County. These two counties are required to contribute \$25,000 for the purpose of completing the road.

There is hardly a possibility that these bills will pass the Senate. House of considerable importance to King, and appropriates \$5000 for the repair of Snoqualmie Pass road, in King and Kittitas Counties. The money appropriated can be expended in either county that King County shall contribute \$1500 and Kittitas County \$500 to the repair fund. Raine, the author of the bill, was compelled to drop the matter among the members to pass the bill.

House bill No. 64, by Nesbitt, which provides for a state road from Lyle, in Klickitat County, to Washington, in Clark County, was passed. The bill carries with it an appropriation of \$15,000.

The third bill was House bill No. 107, by Kimball, providing for a state road from Buckley, in Pierce County, to Yakima, and appropriating \$15,000 for the work.

The fourth bill passed was by Bush, and provided for a state wagon road from Cosmopolis to South Steilacoom, and carries with it an appropriation of \$15,000.

The House killed House bill No. 406, by Barron, appropriating \$1500 to assist Okanogan County in the construction of a bridge on the Similkameen River.

DIFFERENT IN THE SENATE.

President Promptly Snuffed Out First Road Bill.

OLYMPIA, Wash., March 12.—When the first of the public works bills reached the Senate this afternoon, Lieutenant Governor McBride promptly snuffed it out. The bill in question was the one which provided for a state wagon road from Cosmopolis to South Steilacoom, and carries with it an appropriation of \$15,000. Senator Schofield of Chehalis, the champion of the bill, moved that it be made a special order for tomorrow afternoon. President McBride ruled that it would take a two-thirds vote to carry the motion. The motion was lost.

Schofield then moved that the bill be placed on the calendar. Senator Sharp, who is aiding McBride in his fight on the road bills, moved as a substitute that the bill be referred to the appropriations committee. The vote on this substitute was a tie.

"The chair votes aye," said President McBride, promptly, "and the bill will be referred." It is well known that any bill referred to the appropriations committee will not see the light of day during the present session.

President McBride is assuming the same attitude on all road bills, and will without doubt prevent the passage of any of them.

NOW UP TO GOVERNOR.

Bill Prohibiting Slot Machines Through Both Houses.

OLYMPIA, Wash., March 12.—The Senate, by an overwhelming vote, today passed the Rines bill, which prohibits the operation of nickel-in-the-slot machines of any sort or description in the state. The bill has passed the House, and all it lacks now to make it a law is the signature of the Governor. The bill carries no emergency clause, and will not go into effect for ten days. When the bill came up in the Senate this afternoon, Herrich of King sought to amend it as to exempt merchandise machines from its provisions. He failed to get a second to his amendment, and the roll call was ordered without a speech being made on either side. The bill passed by the following vote:

vote for the bill, but could not be present. Other Senators, Schofield would have voted against the bill.

GUARD AGAINST BUBONIC PLAGUE.

State Health Officer Asks for an Appropriation. OLYMPIA, Wash., March 12.—Governor Rogers today sent a message to both houses of the Legislature, accompanied by a letter from the president of the State Board of Health, relative to the bubonic plague. An effort will be made to act on the suggestions given. The letter referred to from Dr. Yocum, president of the State Board of Health, in part is: "I beg to call your attention to the special dispatch concerning bubonic plague, sent from Washington, D. C. Should this quarantine of California be established, a considerable portion of the commerce of that port must come to Puget Sound, and we ought to be ready to prevent the introduction of this disease into our state. I should suggest that a contingency appropriation of \$100,000 be made at this session of the Legislature, to be drawn on and used by the State Board of Health, by the consent of the Governor, to meet any such contingency. It is well known that practically no real power or usefulness."

FORMS TWENTY-NINE CLASSES.

The County Classification Passed by the Senate.

OLYMPIA, Wash., March 12.—Senator Rand's county classification bill, which passed yesterday, classifies the counties as follows: First class—Those of 80,000 population and over. Second class—Those of 70,000 and under 80,000. Third class—Those of 60,000 and under 70,000. Fourth class—Those of 50,000 and under 60,000. Fifth class—Those of 45,000 and under 50,000. IN THE SENATE.

Committee Named Practically to Decide What Bills Should Come to the Governor.

OLYMPIA, Wash., March 12.—In the Senate this morning a sifting committee was appointed upon motion of Senator McBride. The resolution provided that President McBride should be chairman of the committee. Senator Schofield made a vigorous protest against the appointment of the committee, but he was voted down. The committee consists of Senators Megier, Smith, Sumner and Sharp, in addition to President McBride. It will practically have power to say what bills shall be considered for the remainder of the session.

A resolution was offered by Senator Warburton providing that after 5 o'clock Thursday no business be transacted other than the action on the general appropriation bill. The resolution was adopted. The Pan-American Exposition bill which passed the House, was reported back by the committee on appropriations without recommendation, and was placed on general file.

A bill passed appropriating \$4000 to meet a deficiency in the expense fund for the present session. Senator Warburton offered a resolution providing for the appointment of a committee of three to attend the funeral of Guy A. Price, son of ex-Secretary of State J. H. Price, which was held this afternoon. Mr. Price was a Philippine soldier, and his body was but recently shipped home.

Senator Sumner offered a resolution requesting the Secretary of the Interior to open for settlement 16 certain townships along the line of the Everett & Monte Cristo Railroad. The townships are now included in the forest reserve. The following bills were passed: Senate bill 204, by Welby, relating to townships. Senate bill 205, by Crow of Spokane, relating to liens and liabilities of innkeepers. Senate bill 206, by Wilshire, authorizing Frank Pierce to prepare a code of the laws of Washington up to and including those passed at the present session, said code to consist of one volume and to be sold for \$5.

Senate bill 212, by Crow of Spokane, relating to the Agricultural College land grant. Senate bill 97, by Randa, amending probate laws. Senate bill 208, by Wilshire, an act granting rights of way to railroad companies over the lands of the State of Washington, and providing for the appraisal and disposition of the lands included within and used for such rights of way. Senate bill 209, by Wilshire, to amend the code relating to the appointment of administrators of the estates of deceased persons and declaring an emergency. Senate bill 201, by Randa, an act to provide for a survey of the tide and shore lands on the Columbia River in front of the City of Vancouver. House bill 212, by McCoy, an act amending an act regulating the removal of timber from state lands, etc. House bill 174, by Bush, an act relating to tidelands. House bill 90, by Badger, an act making application to Congress for calling a Congressional convention for election of United States Senators. House bill 208, by Jerard, an act to provide for the sale of certain school land, etc. Substitute for House bill 191, by committee on mining, an act relating to the leasing of mineral lands belonging to the state. House bill 99, by Rosenhaupt, an act establishing a geological survey.

IN THE HOUSE.

Anti-Pass Bill Passed—Bureau of Labor Abolished.

OLYMPIA, Wash., March 12.—By a vote of 33 to 23, 14 members being absent, the House this afternoon killed the Gunderson anti-pass bill, which made it a misdemeanor for any state, county, city or other public officer or employee to accept a pass from any railroad or other transportation company or for any railroad or other transportation officer or employee to tender such a pass to a public official or employee. When the bill came up for final passage, Gunderson said: "For the benefit of the members of the House I wish to say that this bill has no emergency clause attached to it." The House passed the following other bills: House bill 445, by Gorbam, creating a bureau of statistics and agriculture and abolishing the present bureau of labor. House bill 14, by Lewis, giving courts the power to commit boys and girls of tender years to the care of the Boys' and Girls' Aid Society at Seattle, the expense to be borne by the county from which the child is committed. House bill 91, by Stocking, providing for levying taxes in road districts. House bill 432, by Anderson, providing

IDAHO SOLONS ADJOURN

THE LEGISLATURE CONCLUDED ITS WORK LAST NIGHT.

Appropriation Bill Passed After Hard Fight—Governor Vetoes Beet Sugar Bounty Bill.

BOISE, March 12.—The Idaho Legislature has adjourned. The Senate concluded its work shortly after 10 o'clock, but the House remained in session until after midnight. The general appropriation bill was passed today, after the adoption of an appropriation for the Adjutant-General's office. There was a bitter fight against such an appropriation by the Populist

THE LATE ROBERT K. POTTER.

RESIDENT OF OREGON CITY FOR NEARLY 40 YEARS.

OREGON CITY, March 12.—Robert K. Potter, well-known pioneer, who died at Astoria yesterday as the result of an accident, whereby he fell into the Columbia from the steamer Hasala, was born in Monroe County, New York, April 15, 1815. In 1852 he emigrated to Oregon City. In May, 1855, he married Miss Mary E. Patterson, who survives him. Mr. Potter had almost continuously resided in Oregon City since that time, and was engaged in business until a few years ago. For the past five months he had remained close at home on account of rheumatic troubles. He left Saturday morning for Astoria on an early hour. The members of the family were not aware that he intended to make a trip, until a note was found in the front parlor, stating that he had gone, and bidding them good-bye until his return. Besides his wife, three children survive him—Clara C. and Emma Davis Potter, of Oregon City, and Gilbert C. Potter, of La Crosse, Wash. The funeral will be held tomorrow from the family residence.

WING OF THE FUSIONISTS, PARTICULARLY THE SHOESHONE COUNTY MEN.

The Governor has vetoed the bill providing for a bounty on beet sugar.

STUDY OF LEPROSY.

Experimental Station to Be Established at Molokai.

HONOLULU, March 5.—(Via San Francisco, March 12.)—The joint committee of the Legislature returned March 3, from an inspection of the leper settlement on Molokai Island. As the result of the visit to the settlement, the members of the Native home rule party announced to the lepers that within a few months they would be granted local government at the settlement. They will elect a board of aldermen, a mayor, justice, peace officer and all other officers necessary to the maintenance and conduct of a small municipality. The general supervision of the settlement will be under the control of the place the lepers are giving free rein. In addition to granting the settlement local government, the Legislature proposes establishing an experimental station at a cost of \$25,000 where a systematic study of the disease can be made. Several lepers were examined and found to be without the slightest evidence of the disease, and if they are able to satisfactorily stand a bacteriological examination, they will be dismissed from the settlement as cured. A special from the customs office is on watch at Waimea Island, of Kaula, for the arrival of four sailing schooners from Vancouver. Waimea is not a port of entry, and unless the masters of these vessels report immediately to Honolulu and

enter their ships, they may be seized and held until a fine of \$1000 shall have been paid.

The anti-saloon league was organized here last evening under the direction of Rev. E. B. Chapman, state manager of the league for California.

The territorial grand jury filed its report today. The most interesting feature of the document is the recommendation that the pictures of political offenders against the defunct republic of Hawaii be removed from the "rogues gallery" at the territorial prison. This is a matter which affects many prominent citizens here, as scores of them were arrested at various times during the revolutions against the Government and charged with aiding the natives.

The Legislature resumed its sessions today, after the tour of investigation to the leper settlement. The afternoon session of the Senate ended in an animated dispute between Dr. N. Russell, the speaker, and Cecil Brown, a Senator from Honolulu. Brown had called for a vote on a motion to table a resolution asking Congress to grant Hawaiian citizenship. When the vote was announced it was found that the speaker had voted in favor of the motion, thus defeating the resolution asking for citizenship. Brown accused the speaker of an arbitrary manner by voting. Brown was called to order and refused to surrender the floor and the sergeant-at-arms was ordered to arrest him. The motion was carried and the House had no motion to adjourn prevailed.

EMIGRATING TO HAWAII.

Large Number of Natives Leaving Porto Rico.

SAN JUAN, Porto Rico, March 5.—The surplus labor population of Porto Rico is being gradually but permanently lessened by emigration. During the past few months over 1800 men, women and children have left for Hawaii, and if the Hawaiian Sugar Planters' Association does not cancel its order with the local agent, and if too much opposition is not raised here, about 15,000 more will be sent to the far-away islands. The local agents are being considerably handicapped by the publication of numerous scare stories in the local Spanish papers. These stories are written and circulated by a certain element by means of newspaper articles and editorials, which have been distributed in the districts from which the emigrants are being recruited, the ignorant would-be emigrants are led to believe that they are being sold into slavery and that their masters will subject them to all manner of torture and cruelty on the sugar plantations of Hawaii.

The last lot of Hawaiian-bound emigrants sailed from San Juan on the 3d. The ship intended to sail on the 3d, but it was held up by the authorities on complaints from parents that their children were being taken away without their consent. A number of women also complained that their husbands were deserting them. The ship was detained over night, and several of those intending to sail on her were taken off by the police.

An unexpected receipt was made March 2 to ship 400 emigrants to the Cuban Iron mines from Ponce. The steamer sent here by the Spanish-American Iron Company was an English freighter, and not licensed to carry passengers. The boat was held up by the customs authorities, and the man in charge of the expedition dismissed the emigrants, saying that he was an irresponsible emigrant and not bound to pay the four days' pay which the men claimed was due them while waiting to sail. He had entered into no contract with the people beyond a verbal promise to give them \$1000 each. The disappointed men naturally felt that they had a grievance and a riot was imminent, when they were quieted by the police. Seventy-five of them sailed the next morning en route to California for new employment.

Other emigration agents are soliciting men to go to Ecuador to work on the McDonald railroad contract. The Jamaican laborers which that company has taken to South America are reported to be troublesome and unsatisfactory, and the contracting company is anxious to engage 6000 Porto Ricans. Small parties of laborers which that company has taken to South America are reported to be troublesome and unsatisfactory, and the contracting company is anxious to engage 6000 Porto Ricans. Small parties of laborers which that company has taken to South America are reported to be troublesome and unsatisfactory, and the contracting company is anxious to engage 6000 Porto Ricans.

The emigration of her laboring class may be considered a blessing for Porto Rico. The island is exceedingly overpopulated and there is no work to be offered to the vast army of unemployed. Those who are left behind have more opportunity to better themselves, and those who emigrate, especially those who go to Hawaii, will be given the permanent employment. They find the climate and style of labor the same as that which they are accustomed to here, and they are given free fuel, rent and schooling for their children.

Sent an Internal Machine.

NEW YORK, March 12.—According to a special to the World, from Philadelphia, Frederick Miller, a young man, is under arrest there on the charge of sending an internal machine to Miss Florence Bunker, a young woman who, Miller thought, stood between him and the object of his affections. Miss Elsie West, the girl lived together. A package addressed in Miller's handwriting was received by Miss Bunker, but for some reason, being suspicious, she turned it over to the police.

In Behalf of Mrs. Maybrick.

NEW YORK, March 12.—A dispatch to the Herald from London says: Another attempt is soon to be made to obtain royal clemency for Florence Maybrick. The Baronesse de Rouques, Mrs. Maybrick's mother, has been in London during the last week in consultation with her legal advisers, for the purpose of framing a petition to the crown for her daughter's pardon. It has been intimated that the prospect of bringing about such a denouement has not diminished owing to the accession of His Majesty, Edward VII, but quite the contrary.

Another new departure in the latest effort to secure the liberty of Mrs. Maybrick is the discounting of a newspaper advocacy. Mr. Levy said: "While we recognize and are grateful for the spirit actuating such support to our appeal, we cannot help feeling that its very earnestness may somehow tend to defeat its own object. Under the circumstances we have deemed it best merely to plead the unfortunate lady's case as one meriting royal clemency, and on this ground to petition the King to grant her pardon."

Mr. Levy's appeal will probably be handed to the Home Secretary, Mr. Ritchie, this week.
