OPINION IN EASTERN OREGON

Baker City Business Men Think the Amount Inndequate as Well, and May Raise \$1000 to Help the Matter Out.

BAKER CITY, Or., March 15.-Eastern Oregon is keenly disappointed over the allotment of funds for Oregon's mineral exhibit at the Buffalo exposition. An al-lowance of \$1500 out of \$20,000 is regarded as unfair. Many mining men are of the opinion that if this is the limit to be alowed, the matter had best be dropped. Their idea is a showing truly representa-tive of Oregon's great mineral resources or none at all. Baker City business men are generally of the same opinion, but hold that where there is a will, there is a way. If \$1500 is all the State Commiscion can allow. Baker City must come to the relief. It is proposed that this place and the Eastern Oregon mining district subscribe \$1000 But time is short and the official announcement of the commission as to the amount to be given to a mineral exhibit is anxiously awaited. In the meantime, the matter of private sub-scription will be agitated.

Arrangements had been made with Prederick R. Mellis, of this place, to take charge of the exhibit. He has a large collection of ores, and by reason of the excellent work done in the same line at Spokane, has the confidence of the mining men in arranging a mineral ex-hibit. Eastern Oregon had the best min-eral display there, and the Sumpter district captured the gold medal for the finest exhibit. The same work on a much larger scale was contemplated at Buffalo. A large number of specimens were to be gathered, in addition to those already possessed by Mr. Mellis. Chunks aiready possessed by Mr. atoms. Chunks of ore weighing 400 pounds and less, to-gether with pieces of country rock and the formation generally, were to be ar-ranged alongside of gold bricks. All the properties of the region were to be represented, with explanations so thorough as to instruct anyone interested regard-ing the different characters of ores. For the mining engineer and the experienced man who would avail themselves of the oportunity to inspect ore from different parts of the world, Mr. Mellis would have possessed more information than might be had after weeks visiting the ground. In every respect an effort was made to put Oregon minerals to the front. To do this would require funds. Mr. Mellis would not undertake the work for less than \$2500. For such sum, he agreed to take full charge, procure cabinets, and assistance, gather the ores, and do everything in connection with the work, except pay the freight to the exhibit. Informed mining men here believe he can not carry out his idea for a less sum. Mr. Mellis said he will have nothing to do with the exhibit, unless it is on a scale that will attract attention. In view of this condition of affairs,

some business men here state that they will raise \$1000 by subscription. Nothing was done yesterday, as it was understood some increase in the allowance might be made after readjustment of freight mat-ters. Business men do not take kindly to the insinuation that because it is the mining industry they should stand the expense of the exhibit. Mining men bear a proportionate share of the state tax, and feel that their business is as legitimate as agriculture, or any other pur-suit. It is desired by the taxpayers of this region that their part of the appropriation be mainly devoted to a minarai exhibit. The yellow pine lumber industry is not far enough advanced to permit of much of an exhibit. Farming does not command much attention would take little of the agriculture allowvertised, and Eastern Oregon legislators were under the impression that this in-dustry was to be given a prominent place when the appropriation was advocated. Albert Gelser and Captain C. H. Thompson, assisted by Mrs. Edyth Tozier-Weatherred, have done all they could to have the Eastern Oregon mines properly represented, and are hitterly disappointed over the success which has attended their efforts.

BIG IDAHO TIMBER LAND DEAL. Syndicate Acquires 20,000 Acres of Best in State.

RATHDRUM, Idaho, March 15.—A deed was filed with the Auditor yesterday in which the Northern Pacific transfers to the Humbird Lumber Company, the great Weyerhauser syndicate, 20,018 acres of timber land on the Priest River forest reserve. The consideration named is \$144,123. The deed contains \$144.50 in revenue stamps. It carries with it the transfer of some of the finest timber land in the state, situated in what is known as the White Pine Belt. The Humbird Lumber Campany is the successor of the Band Point Lumber Company, and has acquired the former holdings of the latter company at Sand Point, where its headquarters will be. Extensive improvements are under way, and active opera-

tions will begin May L. Every odd section in the Priest River reserve has been alloted to the ratiroad company, and the sale just consummated means the despollation of at least onehalf of the timber, while the other half is debarred from settlers who would be only too glad to locate the land.

First Instance in History of Oregon Public Schools. Or., March 15.-For the

first time in the history of the For the first time in the history of the public schools of Oregon, the State Board of Education today revoked a state life liploma on the ground of immoral conduct. The diploma revoked was that issued to A. B. Macpherson, of Malheur County, in 1898. He was recently charged by Rosa Lamberson with habitual drunkenress, gambling and the use of tobacco. tter was referred to John Howard, of Malheur County, to take testimony witnesses, and after considering this testimony, the board found the defendant guilty and canceled his diploma. From the testimony it appears that Macpherson has been a resident of Malheur County for many years. There was some evidence in his favor but the proponderance of testimony was clearly against him.

Member of Board of Agriculture. Governor Geer today appointed George L. Reese, of Albany, a member of the State Board of Agriculture to succeed himself. Mr. Reese was appointed a member of the board a little over a year ago to fill the vacancy caused by the resignation of A. J. Johnson, of Scio, and has filled that gentleman's unexpired term. His appointment now is for a term of four years.

Tile for Coos Bay.

J. E. Murphy, proprietor of the Salem Tile Factory, has just completed the burning of a three-carload lot of tile to be shipped to Coos Bay. Mr. Murphy is informed that the tile will be laid in marshy ground, of which there are thousands of acres in that country. The laying of this lot of tile, it is understood, is in the nature of an experiment, and if it shall be successful in reclaiming land that is now almost useless, large areas of marshy land will be tiled. The marsh land of the Coos Bay country is of unsurpassed richness and though already of great value in the support of dairy herds, will be much more valuable if it can be successfully drained without too

Expectant Motherhood

I advise every suffering woman to take Wine of Cardul. While I was going with my other children I was compelled to stay in bed for days at a time but this time I have taken Wine of Cardui and Thedford's Black-Draught and have been able to do all my housework without any trouble. I am expecting every day to be confined. My husband thinks Wine of Cardui is the best medicine in the world. He takes a dose of Thedford's Black-Draught every night and gives some to the children. He has not lost a day from work this year. He tells his friends about your wonderful medicines and I tell my lady friends to use your Mrs. GEORGIA LEE.

There are thousands of women who shrink in terror at the thought of the baby's coming. But child-birth is one of the workings of Nature and it was not intended to imply torture and agony to the heroic mothers of the race. The woman who suffers torture during pregnancy and at child-birth has usually, by some indiscretion, injured the organs which make her a woman. Neglect of menstrual irregularities leads to ovarian pains, falling of the womb and leucorrhoea, and the period of pregnancy is necessarily distressing under these conditions.

will regulate the menstrual function perfectly and eventually make the generative organs strong and healthy. Pregnancy and childbirth have no terrors for the woman who takes this pure Wine. A strong healthy womb will bring its precious burden to maturity with little or no pain. A healthy woman need not fear childbirth. Wine of Cardui completely cures all these troubles familiarly known as "female diseases" and equips the sensitive generative organs for pregnancy and childbirth. It will save any mother much pain and suffering. All druggists sell \$1.00 bottles.
