SINGULAR CASE OF CATALEPSY,-County Physician McKay has a very rare and in-teresting case of catalepsy, or something of that sort, at the County Hospital, one of the most interesting cases, he says, he has ever come across. The subject is James Holland, a laboring man, who has been working for Archie Mason, grading contractor. A few days ago Holland com-menced acting strangely, and was arrested as insane and placed in the County Jail. The County Judge called on Dr. McKay to examine him. He was in an excited condition when brought to jail, and had resisted arrest. When he was brought out of a cell to be examined he was in a hypnotic condition. His pulse and tempera-tur were normal, but when he stood on his feet he would remain in any position in which he was placed. He remained standing on one foot for 15 or 20 minutes, his muscles rigid. He would not talk or eat. He was taken to the County Hospital and further examined Thursday morning. He is in a state of catalepsy, and has been for 72 hours. When his shoulders are placed on one chair and his feet on another he remains there in a perfectly rigid condition. Electricity has been tried on him without effect. Apomorphia, an emetic, when administered to him, caused vomiting and a temporary relaxation of the muscles while the effect lasted, but as soon as this passed off he returns to a rigid condition. He will remain standing on one foot, with arms extetnded, for a quarter of an hour or more, but when pressure is exerted on the uplifted arms or leg they fall back into po sition. Dr. McKay says he is either suf-fering from true catalepsy, which is very rare, or kalatonia, a very rare form of insanity. Nourishment is administered through a stomach tube, and as his case is such an unusual one, its progress will be watched with interest.

REACHED AN AGREEMENT .- The commit thee on sewers and drainage has arrived at a satisfactory arrangement with Messrs, Abrams and Knox for the right of way for the Beech-street sewer through their tract just north of the O. R. & N. Co.'s car shops. Councilman Walker, of the Eleventh Ward, went down to Messrs. Abrams & Knox's stock ranch, on the Co lumbla, and got them to come up and meet the City Engineer and the sewer committee, and, although the proposed sewer will cost them a large sum of money, they offered no objections to the @HIIIIIIIIIIIIIII scheme, and a highly satisfactory ar-rangement for the right of way was made with them at once. At the next meeting of the Council the City Engineer will probably be instructed to prepare plans and specifications for the sewer.

VERY HARD WOOD .- As a specimen of Oregon hard wood, a chunk three feet long and weighing 200 pounds will be found hard to beat at the Pan-American exposition. This log was brought down from the Cascade locks yesterday and given in charge of Henry E. Dosch, to be taken with other specimens of Oregon ds to Buffalo. How long ago it grew or the exact spot upon which it stood when a thrifty fir sapling will never be known, as it is now a solid rock, having been petrified centuries before Lewis and Clark struck the country. One end of the log will be sawed off to show the grain of the fir and to prove to the visitors at the exposition that it is solid clear

CANNOT LOCATE WRECK .- Captain H. R. Robertson, of the Robertson Raft Company, returned from San Francisco yes-terday, and is registered at the Portland. While at the Bay City he took a trip out to where the Rio Janeiro is supposed to have sunk, and found out that not even the pilot of the ill-fated vessel could locate the spot where she went down. The bed of the harbor had been dragged with a wire cable drawn by two tugs, and still no trace of the vessel could be found. A bale of slik that washed ashore is all that has yet been found of her since she sank, and the real cause of her going down, as well as the location, are wrapped in pro-found mystery. The captain says 40 fathoms is the greatest depth in the vicinity. PORTLAND BOY WOUNDED.-Theodore H. Fearey, Jr., who is with the Fortieth In-

fantry, United States Army, Company I, at Manila, was badly wounded during a recent engagement about 80 miles south of Manila. He is now in the military hospital, but getting along well. In a let-ter to his parents he said: "We marched day. Their outpost fired on us at the foot of the hill. A charge was ordered, and \$2 of us started up the hill, and when within 50 yards of the top the insurgents turned oose. I had only gone a few yards when was wounded by a spear trap, which caught me in the back just above the

BULL RUN WATER AT LONG BEACH.-IL previous seasons the question of getting good water for drinking purposes at the seaside has been a matter of considerable concern. In order to obviate the trouble this year the O. R. & N. Co. has arranged to furnish Bull Run water for drinking purposes at the seaside resorts on Long Beach at a very reasonable figure. It will be a matter of congratulation to the many Portland people to know that their home water may be had at their Sum-mer homes. This is only one of a num-ber of enterprises the O. R. & N. Co. has undertaken in connection with its seaside business for this year.

Cow Nusance.-Complaints have been made to Councilman Walker by residents of his ward of the habit some of the people there have of staking out cows on vacant lots with ropes which allow them to wander over the sidewalks. This is a nuisance to passers, especially women and children. Mr. Walker will try to have a stop put to this practice, and, if necessary, will call on the Poundmaster to assist in the matter.

GOOD MINSTREL SHOW.

Field Company Pleases a Big House at the Marquam.

Al G. Field's minstrels made their first appearance in Portland last night to an audience which crowded the Marquam, and, judging from the enthusiasm with which they were received, the audience was glad they came. The show as a whole is unusually good of its kind. It is strongest in the second part, in which are several of the best ollo features ever seen in Portland, and which had no dull numbers. The first part, while up to the average of minstrei shows, is without notable features, there being no especially brilliant voices among the singers, and the comedy is just a trifle too plentifully sprinkled with the dear old jokes, which we like to hear now and then to remind us of the days of childhood, but which are not suited to ensemble effects. A highly amusing travesty of McKinley, Hanna and Roosevelt, with a dash of Mrs. Nation and Jameskayjones, delighted the audience between whiles,

The setting of the first part is new and tasteful, and the costuming is very handsome. Tommy Donnelly and Arthur Rig-by were responsible for the jokes, and the best singing was done by Arthur Yule Al G. Field gave a comedy sketch that pleased the audience. Doc Quigley did ome exceedingly funny dancing, and Silly Cawley, Charles Cartmell and Tom Odell executed several good things in the

was the first thing to arouse the admiration of the spectators. The Blackford Bros. followed with a bright sketch, in which they displayed considerable famil-iarity with the king of instruments.

Then came the star feature of the evening, the grotesque athletes, Bob Keys and kept the house in a roar with one of the most cleverly devised and perfectly executed "turns" ever put on a stage, These comedian-gymnasts do nothing bad-nd nothing common. Their every feat ly and nothing common. is a marvel of skill; and is done as easily as walking across the stage.

Arthur Rigby followed in an amusing monologue and last came the wonderful tribe of Mamelukes, in a superbly staged gymnastic number that kept the house applauding without cessation till the curtain fell. Altogether, the show is well worth seeing, and there is no doubt that it will be greeted by crowded houses at the matince this afternoon and the concluding performance this evening.

COMING ATTRACTIONS.

Watson Oil Company has shipped to Troutdale their machinery for boring wells, comprising engines, bollers, derricks, drills, etc., and will at once commence boring for oil. They do not know for certain that there is any oil there, but experts have pronounced the section a good one to bore wells in, and as the only way to deals. The news that Portland is to have an caused an enormous amount of flattering comments. SECOND MAN ACQUITTED cution in a stirring speech. Then came the verdict of acquittal. The next gambling cases are to be tried Monday.

GAMBLER ARRESTED FOR FARO-PLAYING.

As Before, the Law Enforcement Lengue Is Made the Issue-Secretary Cox Drawn In-

Was in Favor of Prosecution.—The attitude of G. M. Weister, a juryman in the Hellen gambling case, has been called into question by a misstatement made in L. Levens, of the Portland Club, was actually the account of the trial, that he was against prosecuting such cases. > This verdict was reached after one witness, Frank Hellen, had testified: "On the night of the raid they were playing with checks which were good for cigars and drinks." Ordinance No. 4678, under which the warrant was issued, makes it unlawful to play any game "in a gaming-house or any house, . . . with credits, dice or any other device, for anything of value, or any house, with credits, dice or whether the same be played with money checks, credits or any other representation of value,"

Oscar Cox, secretary of the Law Enforcement League, and who is also assistant secretary of the Young Men's Christian Association, was roundly denounced as "mean and contemptible" by Judge McGinn, attorney for the defendant, Twelve men were brought to serve as and sworn: H. E. Edwards, furniture dealer; O. B. Stubbs, electrical dealer; Henry Albert, capitalist; Arnold, insurance agent; J. P. Schade tailor, and F. F. Boody, manager of a tailor's store. Edwards, Stubbs and Boody were given as church members Ernest Miller, H. T. Hudson and Mr. Marx were excused as jurors by the prose Special candy sale today. Carroll's. cutton: C. H. Thompson excused because he lives outside the city limits, and Ed Ehrman and J. D. Meyer excused because they admitted holding an unchange-able opinion on gambling matters.

Lawyer Moser, in addressing the jury, said: "The attorney for the other side will have one object in view-to secure a verdict of acquittal for his client, and to do this he will not hesitate to abuse the Law Enfercement League and besmirch the character of some of the best citizens in our community."

Mr. McGinn said in part: "We have Puritans with their blue laws among us. They do not give more to charity or visit the widow and orphans more than some people, but their rigid character consists in the hard fact that they neither play cards nor drink. In the present move ment they have instituted an infamou a, and their work is sneaking, dirty and contemptible. There is one Oscar Cox, a theological politician, who has found fault with the Chief of Police, the City Attorney and the District Attor-ney. You won't find them here. At the Instance of Cox, three or four raids were made at the Portland Club, but no gambling was found there. Cox nosed about and got a map of the house. If Cox comes on my property asking questions and prying around, I will give him something to remember me by."

Police Captain Hoare and Sergeant Moore teld of the raid, but could not swear they saw gambling going on. Moore described what a keno game was. Mr. McGinn suddenly said he wished Oscar Cox were present, although a subsaid, "I affirm." In reply to questions he stated: "Yes, I have a draft or map of the Portland Club, from information supplied to me by friends of mine. I have not stated that I had men go into the place for the purpose of gambling. I got the names of men who went into the place to play games."

"And I decline to tell the names unless

Judge Cameron ruled that the witness nust answer, and Cox sald: "Guy Ben-ett and another man, whose name I do not know. I had no agreement with these men, but I asked them to tell me if gam-bling was going on. They did not tell me they had played, and I did not send any nan to participate in any game

"Were these men of yours arrested in my game?" was asked.

Frank Helien, on being questioned, testified: "There has been no gambling at the Portland Club since the police told us to close. I am connected with the club; there are several bosses. No, there is nobody I take orders from. When the rald took place, they-the men-were playing for checks, and these checks are good for cigars and drinks. I left the management of the checks, etc., to a man named

Lawyer Murdoch, for the prosecution, said in part: "Mr. McGinn has said that some of our best people are grafters, and he has abused the boy Cox. Mr. Mc-Ginn would not dare abuse men like Mr. Scott, Mr. Ladd and Mr. Livingstone. No, he prefers to attack a young man. Mr. Cox's integrity stands out; he has done nothing to be ashamed of."

Mr. McGinn said in part: "I have been connected, as legal adviser, with crime for a good many years, but never have come in contact with such a young man as this Cox. He is entitled to the paim. Gardiner, of the Boys & Girls' Aid Society, and Wilson and Urfer were arrested by Detectives Day and Weiner.

Josie Irwin is the girl whose brella, gloves, and handkerchief- were found last Thursday morning on the edge of the Willamette River, opposite the mill of Inman, Poulsen & Co. Where Josle now is, the police say, is a matter of conjecture-probably she is not in the river, as some say. Doubtless she has got tired of the wranging of her two swains, and has taken train for Scattle,

where she has relatives living.
Wilson, who says that Urfer stole the girl from him, was arrested near his home. Urfer, who got into a street fight with a bloyclist last Monday, got a "tip" yesterday that the police were after him, and took the trolley car for Milwaukie. where Detective Weiner found him last night. Urfer said: "I only took the girl out once, late Tuesday night, when she descended on a ladder from her win-dow, and we had a short walk. She went o her room again, and I haven't seen her since. I thought the police were after me for striking the bicyclist." Wilson said: "I haven't seen Josie for several nights, and I don't know where she is." Each boy Is held in \$1500 ball.
