ENGLAND CALLS A HALT a coffin the Russian, with tears streaming down his face, leaped into the grave and arranged the earth as a rest for the body. Those who were present say it was a most

WARNS CHINA AGAINST SIGNING ANY PRIVATE TREATY.

Protest Made Through the British Minister at Pekin-Rejection of the Manchurian Agreement.

WASHINGTON, March 27 .- The British Government has protested against China making a convention with any power touching territorial or financial matters until the present troubles in that country are concluded. The fact of the British protest was made known here for the first time today by a dispatch from one of the foreign officers of Europe. It says the protest was made through Sir Ernest Satow, the British Minister at Pekin. It does not state when the representations were made, but from the fact that the dispatch was received in Washington todispatch was received in washington to-day it is taken that the protest occurred within the last day or two. Although the Russian agreement is not specifically re-ferred to, it is said to be clear that the British action is directed against the Russian agreement. The language appears to be similar to that used by Sec-retary Hay, in the American protest. The effect of the British action is to place the United States, Japan action is to place the United States, Japan and Great Brit-ain in formal opposition to the signing of a convention by China with any power pending the settlement of the Chinese troubles. The course of Great Britain is the more significant from the fact that that government and Germany have a written alliance relating to Chinese affairs.

The concurrence of these protests prob-ably explains why the Manchurian agreement has not been signed. There was no definite information received here to-day at the State Department or at any of the foreign embassies as to whether the agreement had been signed or rejected. There was something of a stir in diplo-matic quarters over the report coming from official sources that the United States was considering the advisability of addressing Russia directly on the subtect. Heretofore, the American objections to the Manchurian agreement have been addressed to China. Copies were furnished the Russian authorities. Several of the foreign representatives advised their governments that this step was con-templated by the United States, but there is no official information available as to how far the consideration of the move has proceeded.

RUSSIA WILL PRESS IT.

Notification That the Agreement Will Be Signed Shortly.

ST. PETERSBURG. March 27 .- The correspondent of the Associated Press is in-formed on competent authority that the Russo-Chinese agreement probably will be signed shortly. However, the negotia-tions continue, and the result is not yet certain. While it is possible the details will be slightly modified, the arrangement will be substantially as demanded. According to the Russian point of view, an abatement of what are here regarded as moderate demands would be inconsistent with Russian interests, and would not sufficiently safeguard the frontier and railroad. The draft of the agreement now being discussed does not mention and does not affect Mongolia or Turkestan. It concerns Manchuria exclusively. Mongolia or Turkestan have never been included in the formal draft, as the cor-respondent is informed, but they formed a subject, with Manchuria, of an exchange of ideas preliminary to formal ne-gotiations. The agreement will be de-signed for the protection of existing interests and rights, and not for the acquisi-tion of new things. It is diplomatically admitted that Russia is seeking certain guarantees for future security, and it is positively certain that no powers have protested, even Japan refraining from this attempt to interfere between two other governments. However, the Japan-ese Ministers discussed this and other phases of the Chinese question with the phases of the Chinese question with the foreign officers. The statement of the Japanese foreign Minister that Japan will necessarily demand compensation if the agreement is not signed has not made an excessive impression; for, as the authority of the correspondent says, prom-ises or threats and their performance are often quite different. Russia does not ob-ject to the principle of Count von Bulow

> Proposed Monuments to Carnegie. NEW YORK March 27 -- Con

rancisco, at the meeting of the Council, atroduced the following resolution: "Resolved, That the Council of the City of New York, having a lively appreciation of the services of Mr. Carnegis, hereby directs the Mayor of this city to appoint a committee of nine, of whom he shall be one, to take the necessary steps for the construction and crection of a statue of Andrew Carnegie in each borough of the city, in order that the fact may be more fully emphasized while Mr. Carnegie is yet living that the people of New York hold him in veneration and esteem;

also "Resolved, That the committee is here-by requested to report the result of its deliberations not later than six months from the date of the adoption of this res. olution.

Councilman Cassidy, of Queens, said that as Mr. Carnegie is not dead, the li-braries, he thought, will be "monuments enough.

Mr. Guggenheimer said the resolutions were out of order, inasmuch as the city is not yet in a position to accept the gift. The resolutions were withdrawn until such time as the city is so empowered.

Ancient Egyptian Records Found.

BOSTON, March 27.-Rev. William C. Winslow, vice-president of the Egypt exploration fund, has just received official word that Professor Petri has uncarthed at Abydos the records of Kinse before Mena, the founder of the first dynasty, nearly 4800 B. C.

"We have found," writes Professor Petri, "the names of Narma Ka and a King named by a fish sign, perhaps also two of Kings Deb and Sam, of Mena, and those earliest Kings. There are about 30 inscriptions and a heavy strip of gold, with name Aha (Mena). In the tomb of the Khasekouml were found stone vases, each with a gold cap tied on with gold. Also two broad bangles of gold and a dinner ervice of a dozen pane and dishes, with 150 models of tools in sheet copper. The frequent use of ivory then is witnessed by the discovery of 40 inscribed ivories and

stones and two llons cut in ivory."

Kipling May Return.

CONCORD, N. H., March 27 .- Information has been received here which leads to the belief that Rudyard Kipling will return to America and become a Summer resident, at least, of New Hampshire, Soon after Mr. Kipling married an Amer-ican girl, the sister of Wolcott Balestier, the writer, he built a beautiful home, "The Naulahka," near Brattleboro, Vt. He left that place as the result of a quar-rel with his brother-in-law, Beatty Balestler, and has since sol d"The Naulahka," and has lived in England. Last week a large real estate owner in Chesterfield, this state, sold a building lot on the shores of Spofford Lake, at Chesterfield,

and the deed was made out to Mrs. Rudyard Kipling.

Claimant to Rice's Millions.

BELLEFONTAINE, O., March 27 .- Carl Carlson, a tallor, from Muncie, Ind., is en route to New York, where, he asserts, he will enter a formal claim to a share of the millions left by William Marsh Rice. According to Carlson's story, his mother was twice married. Her first husband was named Carlson. She separated from him and married John H. Rice, only son of the dead millionaire. Carlson declares he is Rice's son, and was so recognized before Rice and his mother died, although he had always borne the name of his mother's first husband, Carlson,

Baltimore Financier Retires.

BALTIMORE, March 27. - Alexander Brown, the head of the banking house of Alexander Brown & Sons, of this city, has resigned all the directorships held by him in financial institutions, and will emporarily retire from active business. He does this on the advice of his physician as a preliminary step to a prodeals, involving more than \$390,000, during the past three years.

REJECTION OF THE TREATY.

Signing of Manchurian Agreement Prohibited by Imperial Edict.

LONDON, March 25 .- The Shanghal correspondent of the Standard, wiring yesterday, says:

lais here assert that Count Lamsdorff, Russian Foreign Minister, has ac-cepted the plea of the Chinese Minister in St. Petersburg that an imperial edict prohibits the signing of the Manchurian convention, and that he has granted a brief delay. China is reported to be raising 50,-600 new troops and to be preparing to defend the Yangtse forts, fearing Russian reprisals. Eight anti-Christian rioters have been beheaded at Changsha, in the Province of Hunan."

The officials of the Japanese Embasey confirm the report that an imperial edict has been issued by the court at Sinan Fu, through Liu Kun Yi, the Viceroy of Nanordering that the Manchurian conkin. vention should not be signed March 26, the date fixed by Russia. An intimation of this decree has been telegraphed to the various governments concerned.

Dr. Morrison, wiring to the Times from Pekin yesterday, says:

Reports that the Chinese court has definitely rejected the Manchurian convention are acquiring great consistency, and the extreme relicence of Li Hung Chang's yamun points in the same direc-The Yangtse Valley is again, as tion last Summer, proving the center of the stability of China. The action of the Wu Chang and Nankin Viceroys is carrying the whole of the central and southern provinces with it. The movement against Russia, and in favor of an appeal to the concert of powers, is gaining such strength and breadth that, whatever disposition may exist at Sinan Fu, the Chinese court cannot consider estranging Russia less evil than jeopardizing the authority of the throne, and perhaps even the existence of the dynasty."
