## BAILROADS WILL DISPENSE WITH ORIENTAL LABOR. Orders Have Been Given for 2000 Men-Expected to Arrive Next Month.

TACOMA, March 27 .- The Northern Paclific and Great Northern Companies have placed orders in the East for 2000 Italian laborers to do construction work in Wash-ington and adjoining states this Summer. They will take the place of Oriental in-borers, and are expected to arrive Carly next month. This is the largest order ever sent from the West for white labor.

#### NEW STEAMBOAT LINE. 4

WIII Be Established on Upper Sanke River.

LEWISTON, Idaho, March 27 .- An effort is now in progress to establish a steam-boat line on the Upper Snake River, between this city and Pittsburgh Landing. The bushess men of Deviston realize the Importance of the trade of the new min-ing distinct, which borders on the river, and they have decided to reach out to

It. The O. H. & N. steamers, now make regular trips to Wild Goose Rapids, a distance of 35 miles above Lewiston. The mineral belt extends from that point to the Seven Devils district, almost without a break. It will require special boats of smaller size and greater proportionate power to navigate the section of the river between Wild Goose and Pittsburgh. The best, navigators in the Northwest have reconnoitered the route, and they have said unanimously that good modern boats will make this run with safety and carry cargoes of 100 tons down stream and 25 tons with an adequate fuel supply up stream.

There seems to be no further doubt about the future of this new mining dis-trict. Almost \$100,000 worth of ore awaits the advent of this new boat. Large quan-titles of this have been sacked for shipment so long that the bags have rotted. The statement that \$100,000 worth of ore lies on the Snake River beach and that it has waited for a considerable time for transportation, which could be afforded for less than \$10,000, will appear to the average business man to be unreasonable. It is a fact determined by actual tests and measurements that the Great East-ern mine at Pittsburgh, the Blue Jacket nt Crook's Corral and the Imnaha at the mouth of the Imnaha River have fully \$100,000 in values on their dumps. And there are other properties of equal im-

portance along the route. Those who know about the Snake River mines give evidence that justifies the belief that the mines of the district alons will afford ample traffic for a steamboat.

#### STOLEN TYPEWRITERS.

#### Effort Will Be Made to Find Out Culprits-One Machine Recovered.

OLYMPIA, March 26 .- A few days before the recent legislature adjourned a new typewriter, valued at \$100, was stolen from the Capitol building. From the fact that prior thieving at the Capitol had been confined to articles of small value, the typewriter theft caused con-siderable excitement and indignation. Police and detectives made a search for the missing machine but all to be purthe missing machine, but all to no pur-

Yesterday afternoon two boys found the typewriter on the Capitol grounds, covered with an old sack, and it had recently been placed there, as was evi-denced by the appearance of the grass under the machine. The finding of this maching has now led to the further discovery that another typewriter, also new, was stolen from the Capitol the day after adjournment, but not a trace of the second machine has been found. This is the first session in the state's history when really valuable articles have been stolen, and the state officials Yesterday afternoon two boys found have been stolen, and the state officials are indignant that such things should

Everyone expects that members of both houses will carry off stationery, waste baskets and even sets of the Code

HAVE ENGAGED ITALIANS built from the main line of the railroad at a point four miles below here, where there is room in the camyon for us to bank the logs and load them on the cars, I think the body of timber we have just secured, and upon which we have made a first, payment, is the best saw timber within easy reach of the Spokane & Lewiston branch. I understand the Mos. WILL NOT INCLUDE FISHERIES DIScow Mill Company has a contract with parties in the East to market 10,000,000 fect of yellow pine lumber within the next three years.

#### SOLD UNDER EXECUTION. Machinery and Supplies for Removal

of Sylvin de Grasse Reef. ASTORIA, Or., March 27 .- All the mahinery, material and supplies which Contractor E. T. Johnson was using for the removal of the Sylvia de Grasse reef were sold by Sheriff Linville and Con-Kelly today under executions issued from the Circuit and Justice Courts. The suits in the Circuit Court were brought by Ross, Huggins & Co., for sup-plies: W. H. Whitcomb, for a quantity of rope, and S. Johnson, for several as-

signed labor claims, amounting in all to \$393. To cover these claims Sheriff Linville sold all the machinery and tools to George Leland, supposed to represent Hale & Kern, for \$355; ten tons of coal and 40 cords of wood to L. Lebeck, for \$80, and a quantity of powder to Ross, Higgins & Co., for \$45. All the remaining property, consisting of 2500 pounds of powder, was sold by Constable Kelly to Daniel Kern, for \$165, to cover a claim of L. Lebeck, amounting to \$150 30.

This settles all the claims filed against Contractor Johnson, excepting those of H. Whitcomb, amounting to \$105 70, and A. Campbell, amounting to \$36 05. Both these are for labor, but as there will be but a small amount left of the sum realized from the sale, after the prior judg. ments are paid, these claimants will probably lost the greater portion of their claims. It is understood here that Daniel Kern will complete Mr. Johnson's contract with the Government.

#### REQUEST FOR HATCHERY.

#### From Representative Eddy, of Tillamook County.

ASTORIA, Or., March 27.--Master Fish Warden H. G. Van Dusen received a letter this morning from B. L. Eddy, of Til-lamook County, which requested that a salmon hatchery be established this sea-son in some stream tributary to Tillamook Hay. Mr. Eddy said that a hatchery had been promised by the former Fish Commissioner, and it was considered a necessity for the preservation of the in. dustry there. Mr. Van Dusen will look into the matter, and if he can find a sultable location, may comply with the reguest. He is somewhat hampered in his work

at present by not having a Deputy Fish The Fish Commissioner is de-Warden, sirous of appointing some one identified with the industry ou the const of Oregon, but so far no suitable man has been found who will accept the position. When this is done the Tillamook proposition will be turned over to him for investigation.

#### Corvallis News.

CORVALLIS, Or., March 27 .- Bids were opened today for extensive improvements to be made to the Kline building, on Main street. The upper floor is to be converted into a lodgeroom for the Woodmen of the World, and a corrugated iron addition to the rear, 12x25 and two stories will be made. The lower floor of the addition will be occupied as a wareroom for a store, and the upper floor will serve as rooms for the secret orders. The im-provement will be completed by May 1. Captain C. E. Dentler, formerly com mandant at the Agricultural College, will Inamaant at the Agricultural College, whi leave Fort McPherson, Ga., about April 1, for Manila. He is with the Eleventh United States Infantry, of which the headquarters and Second Battalion are under orders to go at once to the Philippines. The regiment was formerly Porto Rico, having come to Fort Mc-Pherson about three months ago.

#### Applications for Pardon.

LISBON, N. D., March 27 .- At the solicitation of United States District Attorney Rourke, a petition signed by county officials and other prominent Republicans here for the pardon of Alexander Mc-Kenzle was wired to President McKinley today. It is understood that similar applications from other parts of the state will follow. McKenzie, who was a resident of ery, unless it is to make an example of prisonment for contempt of the Federal ourt, this action being the outgrowth of litigation over mining property in Alaska listry and mining from Deady Hall to the of which he was appointed receiver.

#### THE MORNING OREGONIAN. THURSDAY, MARCH 28, 1901.

## WASHINGTON EXHIBI

PLAY AT BUFFALO. It Is Thought, However, the Government Will Give Space to the Industry.

TACOMA, Wash., March 27 .- Executive

Commissioner O. M. Moore has received word from John B. Weber, of Buffalo, Massioner-General of the exposition, Washington will be allowed 745 that square feet in the agricultural building and 288 square feet in the mining building. Commissioner-General Weber notifier Mr. Moore that there would be no fisheries display, except that made by the General Government. This is somewhat unexpected. It is thought in the end the Government fisheries exhibit will devote considerable space to the product of Puget

Sound, the Columbia River and Alaska. NEWS FROM CENTRALIA.

#### **Operations** of Trough and Shingle Factories-Court Dates.

CENTRALIA, Wash., March 27,-The Centralia eave-trough factory, which was recently moved to a location near the depot, resumed operations Monday morning with a full crew. The factory has orders for 28 carloads shingles from the East. In order to fill this in time, It will run night and day.

The City Council, at its regular meeting Tuesday night, paesed ordinance No. 100 granting to J. P. Guerrier, of the Centralla Shingle Company, a franchise for 25 years for a branch railroad through the southern suburbs of the city. The road will run from the company's plant near the Chehalis River, in an eastward direction, and connect with the main line of the Northern Pacific at a point near where the railroad crosses the plank road. This road will be used in delivering for shipment the output of the shingle mill

The new buildings for this plant are be-ing rapidly pushed forward to completion. When in operation it will have a capacity of 285,000 shingles per day, and will em-ploy a large crew of hands. This plant will be the largest of its kind in this locality, and one of the largest in the state It will be equipped with the latest and most-improved machinery.

The City Marshal has been instructed by the Council strictly to enforce the or-dinance relating to stock running at large in the corporate limits.

Superior Judge A. E. Rice has set the allowing dates for holding court: Lewis County-Jury session, April 1, Sep. tember 9 and December 16; motion days, March 25, May 6, 20 and 27; June 3, 17 and

24, July 1, August 5, September 3 and 23, October 7 and 14, November 4 and 18, December 9 and 30, Pacific County-Jury sessions, first ses sion, date yet to be fixed; second session, November 25; motion days, May 14, June 11, July 9, August 27, October 1, Novem-

ber 12. Wahklakum County-First session, date to be fixed; second session, October 30; motion days, March 27, June 5, July 31 and October 18,

Although Judge Rice has not recovered his usual health, he is steadily improv-ing. Judge Snell, of Tacoma, will hold court during the April session. Judge O. V. Lina, of Olympia, is now trying equity cases, and hearing motions and demurrers.

# UNIVERSITY OF OREGON.

Pledges for \$6700 Secured for Y. M. C. A. Building. EUGENE, Or., March 27.-The commit-tee in charge of the Y. M. C. A. building

fund has secured pledges amounting to 20.00. The students subscribed \$2700; the faculty \$1500, and the citizens of Eugene \$2500. The canvass has not yet been com-pleted, and it is thought that \$5000 will be

forced out of work by an order which fails to give any reasonable grounds or grievance. The men here, Mr. Freiwalt says, have

no grievance, and simply stopped work because they were ordered to do so by the San Francisco union, Mr. Freiwalt is of the bellef that the strike is but a scheme hatched by the San Francisco browers to cripple the breweries of the Northwest in order to drive them from the California territory. Mr. Freiwalt says his company is willing and has of-fered to take back the greater number of his men, provided they take advantage of the offer within a reasonable time at the same wages paid before they went out.

#### MOUNT REUBEN MINES. Development Is Going Forward

With Successful Results. LELAND, Or., March 27 .- There is much activity in the gold quarts mining dis-tricts of Mount Reuben and Grave Creek. In the Gold Bug, development work is progressing, with exposure of some fine ore. The mine is being operated by means of tunnel levels. The main tunnel is in about 600 feet, the second level tunnel about 160 feet, and the third over 60 feet. The stoping is made from these tunnel levels. The ledge has been tapped at a depth of 524 feet from the surface. The purpose is to sink deep in this mine. The mine is yielding some very fine ors, much of which will yield \$40 to \$50 per

ton. The property is owned by the Gold Bug Consolidated Mining Company. It has a good road to the mine from Glendale. There is a finely equipped fivestamp mill on the property. It is run by steam power.

Several prospects of importance near the Gold Bug are undergoing development. The New Hope group, comprising seven claims, is owned by Burnett, Hudson & Gibson. This extensive property is being worked now under a lease. A crossout tunnel is being run to tap the ledge at a depth of 1200 feet. The ledge appears to be well defined at the outcrop, and is of good width. The ore is a free-milling quartz at the surface, showing free gold. It is of a character similar to that of the Gold Bug, and is thought to be a continuation of the same vein. Assay values from these veins have run as high at \$1924. The ore will average close to

\$20 per ton. The general mass of Mount Reuben is porphysitic and schist rock. Nearly all the ledges strike north and south. The free gold ledges dip about 45 degrees to the west. There is another series of ledges nearly vertical. These are found to carry more sulphides and less free gold.

The Copper Stain is considered a valua-ble mine. It is at a lower elevation than the Gold Bug. It is being operated by a steam hoist. Specimen rock showing free gold is common in this mine; in fact, there

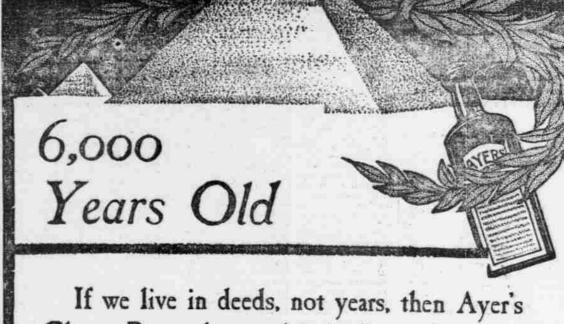

is much high-grade ore. Twenty-five miles west of West Fork is a quartz mine known as the Mule Creek mine, which has been showing some fine ore. There is three feet of ore at a depth of 50 feet. Assays from some of this ore run very high-as much as \$300-but it is all base, without any free gold. The ore is mostly copper and iron pyrites. Bradis mostly copper and from pyrites, black ley & Ladd, of Portland, have a bond on the mine. The country is broken and very rocky. The nearest wagon road is about 40 miles distant. The Mule Creek mine is in Curry County, near the confluence of that stream with Rogue River.

#### Quotations of Mining Stocks.

SPOKANE, March 27 .- The closing quotatio mining stooks today were:

Deer Trail ... Dewey Star. Gold Ledge ... I. X. L. Iron Mask ... L. P. Sur...

Cherry Pectoral must be six thousand years old.

For sixty years it has been curing coughs and colds, from a slight cold in the head to the most desperate diseases of the lungs.

It is a hundred times as old in deeds as in years, or a thousand times, for where can the limit be placed when it has done such work as this:

"My wife had a deep seated cough on her lungs for three years. One day I happened to think how Ayer's Cherry Pectoral cured my sister after she was given up to die. So I purchased two bottles and it cured my wife completely. It took only one bottle to cure my sister. So three bottles (\$1.00 each) saved two lives." -J. H. BURGE, Macon, Col., Jan. 13, 1899.

Three sizes: 250., 500., 1.00. All druggists.

To keep on hand you will like the \$1.00 size best, and you will need this amount to cure a chronic or very severe case. The 50c. size is just about right for bronchitis, hoarseness, la grippe, croup, etc. The 25c. size is convenient when traveling, and is enough to break up a fresh cold. J. C. AYER CO., Lowell, Mass.

observing the law as far as the close season is concerned, and no nets have been seized for several days. Water Balliffs Moody and McCown state that the majority of the fishermen have agreed to assist them in ferreting out offenders, and will aid in enforcing the law. #### ARE PLANTING GRASSES.

#### Farmers Near Moscow Are Diver-

sifying Crops.

MOSCOW, Idaho, March 27-Mayor B. T. Byrns, who has a model stock and fruit farm two miles south of the city, reports that he has seeded 109 acres of bottom land in clover, alfalfa and other meadow grasses, and expects to seed 50 acres "The lands about Moscow," said Mr. Byrns, "are peculiarly well adapted to the growth of meadow grasses. Thmothy and all the clovers will grow luxuriantly on any of these lands, with the exceptio of the hill tops, where the ground dries out too rapidly. "The farmers have only recently discov.

ered this, and a great deal of timothy and other grass seed is being planted. Dealers in seed inform me that more grass seed has been sold here this than ever before in all the history of the Moscow country. It is the first step in the change to a system of diversified farming, and I think will result within a few years in the farmers paying much more attention to the raising of fat cat-tle and hogs than has been their prac-

The proprietor of the Moscow nursery says that he has many orders for Winter apple trees. The favorite tree in this region seems to be the Gano, with the Rome Beauty and Ben Davis as close

#### ALLOWED THEIR DISCRETION.

County Treasurers May Deposit Money in Any Bank They Choose.

OLYMPIA, Wash., March 26.-An opinion of considerable interest to the smaller counties of the state was given today by Attorney-General Stratton, in answer to a county treasurer from Eastern

Washington. In the smaller counties it often happens that there are but one or two banks and that they are of but limited cap-italization. For this and probably other reasons the treasurers of the counties in question do not feel entirely safe in trusting the county funds to such in-stitutions. Such appears to be the case in Okanogan County, the treasurer of which has kept the county funds in a Spokane County bank. To this official the Attorney-General has replied that he is clearly within his rights in placing

the county money in any bank and in any county where he thinks he is most

#### LARGE TIMBER CONTRACT.

#### Idaho Company Secures 15,000,000 Feet on Little Bear Ridge.

TROY, Idaho, March 27-Frank Camp. bell, F. N. Gilbert and Warren Truitt, of Moscow, have closed a contract with a number of settlers on Little Bear Ridge by which they have purchased saw tim-ber to the amount of 15,000,000 feet. The timber is fir, tamaraok and yellow pine, three-fourths of it being pine. They have also closed a contract with the Mos-cow Milling Company to take the logs on the cars at 24 a thousand

It is expected that it will take the Moscow mill over five years to work up these

logs. Mr. Campbell in speaking of the matter said: "We expect to start the work of getting out the timber within weeks, as soon as a spur can be bread produced from it.

Murder Case Continued.

HILLSBORO, Or., March 27.-The case of the State of Oregon vs. James Aiken, charged with the murder of the Raleigh Chinaman, has been continued to Apri 4, owing to the illness of one of the wit nesses for the defense, who resides in Portland. The District Attorney would not agree to a deposition from the witness,

A warrant for arrest has been issued A warrant for arrest has been isded out of the County Court for William Dil-ley, of Forest Grove, upon information flied by the District Attorney, alleging that the defendant has threatened the life of one H. E. Bennett.

Around the World in a Canoe. VICTORIA, B. C., March I.-Frank Saxby, a prospector, who has been around these parts for about a year, is having a large Indian war canoe decked over, in company with one companion will attempt to circle the globe in it, going first to Hong Kong, via the Pacific Islands. The canoe is a very large one, such as British Columbia Indians use in their travels up and down the coast, and when properly handled can stand almost any kind of weather.

#### Strike Will Be Declared Off.

ASTORIA, Or., March 27.-The strike of the employee of the North Pacific Brewery is still on, but this evening a special meeting of the Astoria Labor Council meeting of the Astoria Labor Council was called for Friday night, when the strike will be declared off and the men instructed to return to work. There is no difficulty between the union and the local brewery. The men were ordered out on account of the trouble at Portland and

#### ATTACHMENT SERVED.

#### On Electric Property of F. R. Anson, of Salem.

SALEM, March 27 .-- C. F. Royal, a Sa-lem contractor, today began an action against the Salem Light, Heat & Power ompany to recover \$70 alleged to be due for services rendered in setting electric light poles for the defendant. A writ of attachment was issued in the case, and the Sheriff served the writ by attaching all the right, title and interest of the company in the franchise granted by the City of Salem to F. R. Anson, authoria-ing him to establish and operate an elec-

tric light plant in this city. The Sheriff also attached about a dozen electric light poles that have been erected on the streets

of this city by the new company. The attachment just at this time may mean more than \$70 to the partles interested, for by the terms of the ordinance granting the franchise the rights granted thereby become forfelt if the electric light plant be not in operation on April 1, 1901: Mr. Anson, manager of the company, has declared his intention to have his plant in operation by the date required, but since the franchise is tied up

by an attachment, it would seem now that the right will be lost unless the attaching creditor shall proceed to comply with the terms of the ordinance. Anson has given a \$5000 bond conditioned upon his having the plant in operation by April 1, and the City Council has declared its intention to enforce strict compliance

#### STRIKE AT VANCOUVER.

# Men, Young and Old, Read This

This is the oldest Private Medical Dispensary in the City of Portanua, the first Medical *Lispensary* ever st.ried in the city. Dr. kessier, the old, reliable specialist has been man-ager of this institution for to years, avring which time thousands of cases have been cureu, and ho person was have been cured, and no person was ever retused treatment. The SL Louis Dispensary his thousands of domars in money and property, and able innancially to make its Word

able linaricarity to make its word good. Bince Dr. Kessler started the St. Louis Dispensary, over a years ago, hundreds of triveling doctors have come to Fortanu, sovertised their surs-cure admity in the papers, sot ing patients, then field town. Dr. Kessler is the only advertising spe-cialist who can give reference to all classes. You may ask bankers, mer-chants, and an sinus of business men. They will ten you that br. kessler is 0. K. Lots of people con-ing from the country deposit their money with him. No other specia-tes as this old doctor. GOOD for

J. Henri Swaaler, M. D., Manager

READ THIS Take a clear bottle at bedtime, and urinate in the bottle, set aside and look at it in the morning. If it is cloudy or has a cloudy settling in it, you have some stidney or oludder dise se, and should be attended to before you get an incuracie disease, as hundreds die every year from Bright's disease of the kidneys.

mend it to any one suff ing from Catarrh. Hav recommended it to many Have and am happy to say that those whom I have induced to use it can bear me out in the statement that it will cure any case of Catarrh if taken accord-ing to directions."

SSS is the only purely veg-ctable blood purifier known, and the greatest of all blood medicines and tonics.

If you have Catarrh don't wait until it becomes deep-seated and chronic, but be-gin at once the use of S. S. S., and send our book on blood and skin diseases and write our physicians about your case THE SWIFT SPECIFIC CO., ATI ANTS 94.

Mr. F. H. McAllister, of Harrodsburg. Ky., writes: "Having been a terrible sufferer from Catarrh, and being now sound and well, the ques-tion often put to me ia, "What curred you?' In an-swer I feel it my daty to state that Swift's Specific is the medicine. I am such a true believer in the efficacy of Swift's Specific that I can honesily and conscientiously recom-mend it to any one suffer.
