

DISPOSING OF AGUINALDO

HE MAY BE SENT TO GUAM OR TUTUILA.

Cabinet Meeting Given Up to Discussion of the Capture-Funston to Be Rewarded.

WASHINGTON, March 29.—The cabinet meeting today was devoted almost entirely to a discussion of the capture of Aguinaldo, its effect upon the military situation in the Philippines, the disposition to be made of the insurgent chief and the reward to be given to General Funston. The subject was considered in all its phases, but no definite conclusions were reached either with regard to General Funston's reward, or to the punishment of Aguinaldo.

ODELL FOR PRESIDENT.

His Firm Stand Against Platt Again Brings Him to the Front.

WASHINGTON, March 29.—The stand which Governor Odell made against Senator Platt has raised him to a presidential possibility, but it is not the first time he has been discussed in this connection. It was said that this gentleman, who was absolutely obscure until he was named for Governor of New York, had the Presidency in mind when he helped Platt force the Vice-President upon Theodore Roosevelt. It was necessary to get Roosevelt out of the way. If Roosevelt remained in New York, and especially if he was again candidate for Governor of the state, it was a sure thing that he would be elected. The President's attitude toward Odell was up to that time known as Platt's man. He did not have any other distinction. He was the state chairman and nominal head of the "machine". He gave most of his attention to "up-state" politics. He was known as a good organizer. One of his characteristics was that in case there was a row among the "machine" men he was the best man to fix it up. He knew how to smooth out the rough places, untangle the snarls, and placate the men who had their feathers ruffled. At this time he had ambitions. When the time came he stepped into the Governor's chair. Now he asserts himself and refuses to be bound to do the bidding of Platt.

PHILIPPINE COMMISSION IS AT ZAMBOANGA.

Will Establish Civil Government There—Native Condition of Basilan Is Peaceful.

ZAMBOANGA, Island of Mindanao, March 29.—The Philippine Commission arrived here today from Isabela. The Philippine Commission is at Zamboanga. At Zamboanga they took the testimony of the marine garrison officers. The native condition of Basilan is peaceful. One date controls. The Moros discourage schools, and only the Chinese attend them. For a week the commission will remain here investigating and establishing civil government. The provinces of Mindanao are all pacified. The population is a conglomeration of Moros, Filipinos, Chinese and native tribesmen. Without doubt the commission will organize the Province of Zamboanga, but no decision has yet been reached regarding the other provinces of the island. From the natives and the military the commission met with a cordial reception.

TO DIRECT INSULAR AFFAIRS.

Single Department May Be Required for the Purpose.

NEW YORK, March 29.—A special to the Journal of Commerce from Washington, says: The question is soon likely to be taken up whether the control of business in the islands shall not be brought under the head of a single department, equipped with experts capable of giving intelligent study and their entire time to reforms in the administration of the finances—the monetary system and the judiciary of all the islands acquired from Spain. This work is now scattered among several independent heads, without being the exclusive work of any department. Secretary Root is giving a great amount of attention to the control of business in the Philippines under the military campaign in the Philippines under the War Department, and at the same time is studying measures to improve the civil condition of the islands. He also has practical charge of Cuba while the American occupation continues.

ST. LOUIS, March 29.—Acting Chief Postmaster Sullivan received a telegram today from Inspectors Sinclair and Swift, apprising him that they had effected the capture, at Omaha, of John Hall, alias Practice Tyler, one of the most notorious crooks in the country. Tyler has a long record of crime extending back nearly 20 years, but he is best remembered for his first theft, when, by a bold and daring stroke he stole more than \$100,000 of the funds of the St. Louis branch of the Pacific Express Company. He was captured by a mere chance, but not before he had made away with \$15,000 of the money.

Hawaiian Chinese May Enter.

SAN FRANCISCO, March 29.—Collector of Port Stratton has received an opinion from Attorney-General Gages definitely establishing the right of Chinese persons who were citizens of the Hawaiian Islands prior to August 12, 1898, by birth or naturalization to enter the United States. It was clearly the intent of Congress, the Attorney-General thinks, to throw the cloak of adoption over all who were Hawaiian citizens on the date mentioned in the treaty.

Miss Carson's experience with DUFFY'S PURE MALT WHISKEY is similar to that of thousands from all over the world. The merits of the World's Famous Medicine.

847 Columbus Ave., New York. Gentlemen—During the past summer I became very much run down in health and was unable to do my work. I suffered untold agony. DUFFY'S PURE MALT WHISKEY was recommended to me by a friend, who said it would do me good. I had doubts about it, but thought I would try it. I am now on my fourth bottle, and I must say that it has done me more good than all other medicines, and I tried several. I had a cough, the doctor said I had bronchitis, and I was very weak. I had backache and headache, and was greatly troubled with indigestion. I had also had numerous attacks of DUFFY'S. As soon as I began to take your MALT WHISKEY I felt better. Now my cough has left me, my lungs are perfectly sound. I have no more headache or backache, and I don't know what pain is. I can eat anything and it agrees with me. I weigh thirty-eight pounds more than I did when I started to take your WHISKEY a few months ago. I am convinced all my troubles came from impoverished blood. Every woman should know how it is. I recommend it to any one who suffers as I did, as I think it is a godsend to women. Please send me your book of information. CLARA M. CARSON.

Needed to Return Volunteers.

WASHINGTON, March 29.—General MacArthur has notified the War Department that the proposed temporary diversion of the transport Sheridan from the San Francisco route to the China route would seriously interrupt the movement of the Volunteers. He also says the Sheridan is not needed on the Chinese route at this time. In order to expedite the movement of the troops from China to Manila, it was proposed by the War Department that the Sheridan be added to the China transport fleet. In view of General MacArthur's report, the plan has been abandoned. The movement from Taku to Manila will begin in a day or two, and probably will occupy two or three weeks. The Sheridan will leave Manila for San Francisco on the 10th proximo, with the Forty-fifth and Forty-sixth Regiments of Volunteers.

One of its officers is Henry Hiram Fortough. The prospective Philippine appointees will receive \$750 a year salary to begin with, and must have qualifications that include

BLOOD HUMORS

But for Them Most People Would Be Well and Strong

—not merely free from pimples and other eruptions, but from internal derangements that more and more imperil the whole system.

These vitiated or morbid fluids affect all the organs and functions, membranes and tissues. Hood's Sarsaparilla removes all humors, cures all their inward and outward effects, makes the blood pure, vigorous and rich. It does this most quickly in the Spring—but it always does it.

"My brother had eczema and was also afflicted with pains in his limbs, but Hood's Sarsaparilla cured him, and he has never had any trouble of this kind since. We recommend Hood's Sarsaparilla to all who are troubled with eczema."—Anna B. Fry, Medford, Or.

"I felt all run down and nervous, but after taking a bottle of Hood's Sarsaparilla I was entirely well. I take it as a Spring and Fall medicine and find it invaluable."—Mrs. M. Reid, Tilton av., San Mateo, Cal.

"When I began taking Hood's Sarsaparilla I thought I could not live a month longer, as I was down very low with scrofula sores. After taking four bottles of the medicine the sores were all gone and I can do a day's work like any other healthy man."—Salvador Evans, Long Beach, Cal.

"Hood's Sarsaparilla has helped me wonderfully. I am 17 years old, and for six months my face has bothered me by breaking out with pimples which were very distressing. Thanks to Hood's Sarsaparilla they have now all disappeared."—Miss Laura Huntington, Castle Creek, Wash.

"I take pleasure in recommending Hood's Sarsaparilla as a blood purifier. Before I began taking it I had bad blood, and was troubled with breaking out of boils every two weeks, but now I am entirely cured."—C. M. Jeans, Maple Valley, Wash.

"We find there is no better blood purifier than Hood's Sarsaparilla. Last Spring the glands of my brother's neck were swollen. He took two bottles of Hood's Sarsaparilla and was cured."—Miss Mary Laviolette, Box 138, Fairhaven, Wash.

Hood's Sarsaparilla promises to cure and keeps the promise.

in Finding Favor. Canyon City Eagle. The project of holding a big fair in Portland to celebrate the Lewis and Clark exploring expedition in the Northwest is finding favor among the Legislatures of the states that are to participate in it. Washington came first with the appointment of a commission of five to make recommendation to the next Legislature. Idaho followed with the appointment of a commission and adoption of a memorial to Congress for a National appropriation for the expedition. A peculiar feature about the parasite is the length of time required to develop a culture, and this, Professor Gaylord said, accounted for the failure to identify it fully before.

CHICAGO, March 29.—The Tribune says: American flags—nearly two tons of them—have been contracted for in Chicago with "rush orders" that July 4 the red, white and blue may flutter from every schoolhouse in Porto Rico, teaching the lesson of independence to young and old in the island. The plans of the Government are arranged so that by the end of the year the flag will be a familiar sight in the towns and villages. The order of the Government calls for families of all sizes—small ones that the school children can wave from windows or carry through the streets and into their homes, and large flags to float from flagstaffs and building roofs over the head of marching troops and citizens on the day they are learning to cherish. Each individual prototype of the little red schoolhouse will
