THREE TRAINS DAILY

Front street with a good start, although the weather was inclement, and despite the rule of Monday dullness. The movement of business was good especially in California produce, which arrived by steamer in the morning. It comprised the usual consignments, all in good condition. Quotations are about the same as last week. Asparagus is higher. New potatoes are improved in quality and steady. Receipts of cauliflower were not up to the usual grade. Excellent fresh legumes found ready market. The regular display of domestic lettuce was on exhibition. Bananas were limited, owing to delayed supply, but they will be on hand today. Hardly any furmers were in town because

Eggs are firm at quotations. Receipts ue large, and several dealers are putting them into storage. Butter has regained steadiness on ite new ba-The market is still weak under the influence of the California supply, which probably will lessen its pressure now that it and Oregon have approached the same level. As usual on Monday, poultry had no movement. Packing-house were firm at last week's prices,

PORTLAND MARKETS.

Grain, Flour, Etc.

The wheat markets were displaying weakness all round yesterday, and there was nothing doing locally. Holders generally require a day or two for reflection after a shurp decline like that of yester-day before making up their minds to accept prices warranted by the changed conions. But few of the exporters cared seavy this month, but exporters are making no new engagements. Freights are unchanged, with no new business report-

NEW YORK STOCK MARKET. United States Steel Securities Re-

ceived the Most Attention. NEW YORK, April 1.—The prodigious volume of dealings in the United States steel securities today brought the aggre-

The new month began yesterday on gate sales of all stocks on the Exchangeront street with a good start, although within measurable distance of the larg est dealings on record for a single day.

The largest single days transactions were those of January 7, of this year, when the aggregate sales reached 2.127, 503. The total of today was 1,858,800 shares.

The large part played by the United States Steel stocks, even in such a broad and active market as that of today, is indicated by the sales of the common and preferred, those of the United States common amounting to 268,100, and the preferred to 168,800 shares, or for both, 434,900 shares, which was 28 per cent of the total dealings. It is very evident that the activity of the United States Steel Corporation stocks on the stock exchange with their bulky capitalization of 11,000, 000 shares, according to today's amended certificate of incorporation, is to constitute a new era in the volume of deal-ings of the individual stocks. Single commission houses today did a

sufficient business in these stocks alone to realize a handsome fortune for the brokerage commission on their operations. One house was credited with sale of upwards of 100,000 shares of United States Steel preferred, and various other houses between 50,000 and 100,000 shares of either one or the other of the stocks. The resources required for the suppor of a stock in which the dealings are o or a stock in which the dealings are of such a large scale as it was today, and the confident purchase of all the stock that may be offered at current quota-tions, staggers the imagination. But the day's event proved that the powerful syndicate back of these securities was equal to the task. It is current belief that the market man-

agement of the stocks is under the car of the most conspicuous and widel known professional operator in th street. The offerings which were huried on the market fairly staggered the prices for a period, but they railled and moved upward, the common rising 21/2 and closing at the top, while the preferred ros to venture a quotation yesterday, and an extreme 1½, and closed within ½ of Walla Walla is to a large extent nominal at about 57 cents. Clearances will be very a large influence on the ultimate movement of the whole stock market. Ther were points of great strength here and there in the early dealings, but the profit taking sales were on an enormous scale and the movement of prices was highly irregular and conflicting until pasthe noon hour. Many of the opening advances were about wiped out before the final outburst which carried prices to the highest of the day. A final real stocks down again from 1 to 2 points and made the closing very irregular. Rock Island was a feature all day i

spite of denials of reported consolidation with the Atchison system and of other rumors set afloat to account for the movement in the stock. A large par of the speculation was apparently based on the disparity betwee its price and on the disparity between its price an that of the other leading grangers which have had such tremendous advance in the last two months. The extrem rise in the stock was 41/2 and the ne gain 4 points. St. Paul, was stron throughout and became quite bupyant rising 3%, but falling back 1% on the reaction

The Money Market.

Money market conditions were entirel ignored in the eager speculative spirit Although Government internal disburse ments are expected to yield over \$3,000, 000 to the money market tomorrow, the absorption of cash by the sub-treasury on routine operations continues ve-large. Sterling exchange advanced fraction toward the gold export point today on the large demand for stock houses who are buying American stocks abroad. After the stock market has closed, a \$500,000 gold shipment to Europ for tomorrow was announced, and moris expected during the week. The ton of the money market was instinctly harder, but not the slightest effect was

produced on the speculation.

Conjecture was at a loss to account for the heavy concentrated selling of the United States Steel stocks, but ther was a suggestion that it was due t the purchase of an interest amounting to several million dolliars which the cyn dicate underwriters had agreed to sel but had decided to pass through th

The bond market was not so activ relatively as the stock market, but but lness was small and the movement of prices irregular. Total sales were \$6,035,000. United States 3s and new 4s declined 1/4 per cent on the last call.

sales, 1,940,200. Foreign Financial News. NEW YORK, April 1.-The Commercia Advertiser's London financial cablegram

The stock market here was only moderately active today, and the business done was mainly in the American department. The tone of the general market was irregular. American stocks were supported in specialities, particularly in the Atchieons, Union Pacific issues and St.

Paul. London bought Atchisons on the report that it had acquired the Rock Island, and would declare tomorrow a dividend of 21/2 per cent on the common stock of Atchison. The market closed at the top. The call money rate was 3% per cent; bills, 3% per cent. The market has repaid to the bank £3,000,000, which is about

one-fourth of the amount due. Some £8,000,000 has been released, mainly through interest payment on bonds, but the effect has not yet been felt. Silver was flat on realizations by weak holdings and the lack of Indian support. Cor per was soft on the publication of the fortnightly reports, which show an increase of 544 tons in stock and an increase

Chicago Grain and Provisions. . CHICAGO, April 1.—The advancing ten-dency of the corn market which has been shown in an aggressive manner in been shown in an aggressive manner in the past few days, received a sharp check, but broke only after a desperate resistance. May opened with sellers all the way from 41½ to 44c, the influences aside from the desire for profits being favorable weather; liberal receipts, including a good proportion of contract grade corn and indifferent cables.

Phillips bought liberally, and was trailed by country interests as usual. This sup-

Phillips bought liberally, and was trailed by country interests as usual. This sup-port held the market all forenoon against the liquidating pressure. May reacted from 44c to 44%c, and held close under that figure until noon. Long corn was then offered with great freedom, May dropping to 43%, closing weak, 161%c un-der Saturday, at 43%c. The withdrawal of the corn support, which has been the mainstay of wheat

which has been the mainstay of wheat buils for some time, had a serious effect on that naturally bearish market. May wheat opened % to ½c lower, at 75%; 75%; under the influence of weak cables, decidedly bearish world's statistics, liberal receipts and good weather. Buying by a corn bull caused an early rally to 75%. For a time the market ruled stag-

by a corn bull caused an early rally to 75%c. For a time the market ruled stagnant, but when corn broke and the visible supply showed an increase, the market broke to 74%c. The close was weak, May 1%c lower, at 74%c.

Oats were active, but erratic, and in the end bowed to the corn influence. May closed %6%c lower, at 25%675%c.

Provisions remained firm in the face of weakness in neighboring pits on light hog receipts and higher prices at the hog receipts and higher prices at the yards. May pork closed 16c over Satur-day, and ribs and lard 7½c higher each. The leading futures ranged as follows:

NEW YORK, April 1.—There was a bet-ter feeling in spelter in the local metal market today. Prices advanced about 5 points in face of a loss of 2s 5d for that metal in London, on light export liquity and a lack of selling. The close was firm

The exports of copper for the month of at \$3 95@3 97% March were 6524 tons, thus indicating a heavy decrease for the first quarter of this year, the exports for the latter being only 24,058 tons, against 44,679 last year. The local copper market was dull, but steady, at about unchanged prices, on the basis of \$17 for lake and \$16 6214 for casting and electrolytic. At London a decline of 9s 3d was reported. Spot closed

at £69 and futures at £69 10s. In London tin was 12s 6d lower, the local market dropping about 50 points in sympathy with the loss abroad, but the traders exhibited little disposition to do business at any figure. The close was quiet, but firm, at \$25@25 50. The visible supply of tin increased 1040 tons during past month. Lead was without quotable change and

very dull. Iron, while displaying a steady undertone, was inactive, and prices were more or less nominal on old basis. Glasgow Iron warrants closed at 53s 1d, and Middles-Bar silver, 59%c.
