#### CITY NEWS IN BRIEF

Amusements Tonight. MARQUAM GRAND - Matinee

CORDRAY'S THEATER-Cummings Stock Co. Matinee and evening, "Neil Owynn."

KILLED & COUGAR.-Henry De Jersey of Mist, who came here last evening from the Nehalem country, reports the killing of a cougar there a day or two since by Mr. Blinkenfeld. The animal, which was 7 feet 4 inches in length, from tip to tip, had been playing havoc among the sheep in the neighborhood, and was caught in a steel bear trap. It dragged the trap and a heavy stick fastened to it about a mile. Mr. Blinkenfeld followed its trail, but when he found the animal it was con cealed in thick undergrowth, and could not be seen, but could be heard tapping the ground with its tail. He went home and got his dogs, and they soon routed the cougar out, and he was shot. He finds that there is only 20 bounty for the cou-gar's scalp, and about the same to be obtained for its skin, and he thinks that as a cougar eats about two deer and a sheep a week, there should be a higher hounty on them than on a sneaking coy-ote. The cougar killed was a female, and it will be its mate's turn next. Mr. De Jersey came over the Nehalem mountain from Mist to Klatskanie yesterday, a distance of nine miles, on the puncheon road, and found four inches of snow on

WILL TELL OF GIGANTIC POULTRY.-In order to enable the juvenile visitors at the Portland Free Museum to realize the immense size of the birds that lived in the John Day country before that locality was covered to a depth of 3000 feet with molten lava, L. L. Hawkins is having a wooden egg turned to life size. "This egg," Mr. Hawkins said yesterday, "Is to be 13 inches long and 3 inches through, and will suggest to museum visitors the size of the poultry of the now remote cre-taceous period. That was ages before man existed on the earth, and all animals were giants compared with those of mod-ern times. I will write a story to ex-plain the presence of this egg and give brief description of the owners of those edges of the great lakes and swamps before the earth's crust had finally settled down to a safe basis for man's occupancy. This story will appear on a neat card so that visitors may read, wonder and ponder all at the same time."

No FEAR OF BREAKING LAW .- Fresh almon, which looked like Chinook, but which was labeled "California salm was exposed for sale in some of the fish markets yesterday. It was suggested that the salmon had strayed away from Cali-fornia and had been caught in the Co-lumbia. One dealer remarked that "water bailiffs" from down the river were here in the city watching fish dealers, while the fishermen within their bailiwicks were fishing uninterruptedly for salmon and taking them to Kalama for sale or dis-posing of them to cold-storage men without fear of molestation. It is probably hard for the bailiffs to please everybody, and they naturally prefer to please their neighbors. There is no question about lmon fishing being carried on in place all the way from Astoria to the Cascades and the Falls of the Williamette. The fishto violate the law until after the season

CALLED AN INDIAN A COON.-Albert Bond, a full-blooded Cherokee Indian, was before Municipal Judge Cameron yesterday, charged with striking William Wilson, in a Burnside street saloon. Bond testified: "I'm an Indian, and when Wilson asked me to buy him a drink, I refused, and he said he would not drink with a — coon, anyhow. Then I pushed him away. I may have pushed him in the face, but I did not strike him. I was insulted when he called me a coon." Wilson's evidence was that he called Bond a coon, and that Bond struck him in the face three times. The Judge said: Bond, you no doubt received provocation but you broke the law, and I must ask you to pay a fine of \$15."

ENRICHED BY RAIN.-Quite a number of people are now returning from Los Angeles, through Portland, for their homes in the East, after spending the Winter in Southern California. They all report abundant rains in that locality this sea-son, and that having is under way and buriey fields nearly ready to cut. Their trip northward, through the interior, was made past waving fields and other eviing prosperity, conse quent on the sale of a big grain crop. The good yields are doubly welcome to Californians, who had lived through three or four years of cloudless skies and empty granaries. They think California will need a large fleet to carry her crop to

Liverpool this year. NURSES ASK FOR READING MATTER.-Two letters were received here this week from nurses at Manlia, stating that one of the greatest needs for convalescents in the hospitals at Marila is reading mat-ter. These nurses, of course, had not learned of the movement here to send books, magazines and filustrated papers by the next transport. About 250 pounds of literature has been sent to the store of Olds, Wortman & King, Fifth and Washington, in answer to the first appeal by the Daughters of the Revolution, and It is hoped that the amount will be doubled today. Generously inclined citizens will find drivers of delivery wagons willing to carry the packages to the store desig-nated.

PEEP! PEEP!

EVER SEE A CHICKEN HATCH? THE ART OF ARTHUR HATCH! THE ART OF ARTHUR HATCH! THE EXPLAINED BY E. J. Bowen, agent for Syphers' Incubators, an Woodard, Clarke & Co.'s window, Fourth and Washington streets, today. After hatching the chicks will be placed in the corner window in Cyphers' brooders, lighted by electricity. They will be on display over Easter. Come early if you want to see them hatch. BREWERS' COMMITTEE TO COME.-At the

meeting of the Federated Trades As-sembly last night no action was taken with regard to the brewers' strike. Word was received that a committee of three, representing the international association of brewers, would arrive in Portland early next week for a conference with employ-ing brewers. The matter of the discharge of four men from the Portland Railway Company did not come up for discussion

ACCOUNTS ARE SETTLED.—The local committee, which had in charge the enter-tainment of the Chicago Commercial Club risitors on the occasion of their recent visit here, has concluded its labors and paid its bills. The entire expenses of the entertainment amounted to \$1004 St. Of this amount \$870 was made up through the sale of banquet tickets, and the balance subscribed and paid by the commer-

cial bodies of Portland. Bicycle Accident.-Kenneth, the 7-year-old son of C. H. McIsaac, fell from a bleycle yesterday afternoon and broke the right leg between the hip joint and the knee. He was taken to Good Samar-itan Hospital. The little fellow was rest-

ing comfortably last night. Litination Over Potators.—The case of Thomas Boggers against Sheriff Frazier for the possession of potators, selzed under an attachment by Deputy Sheriff der an attachment by Deputy Sheriff Wagner, was before Justice of the Peace Krzemer yesterday, and was decided in favor of the plaintiff.

SLIGHT BLAZE.-There was a slight blaze from an unknown cause last night in one of the employe's dressing-rooms, in the basement of Lipman, Wolfe & Co's store. An alarm was sent out from box No. 13 and the blaze was easily extin-

McLeod and Gustave Anderson.

Ter the new meat market, 287 Washing-ton, between Fourth and Fifth.

To those who use it ten days or two weeks.

gifts recently made to the church. The pulpit, the lectern, on which the Bible is laid, and the reredos, erected at the back of the altar, are all of solid oak, in nat-ural finish, and are beautifully carved, the passion flower, the Illy and the ecclesiastical rose appearing frequently in the grace-ful designs. The walls at the back of the altar have also been newly hung with tapestries of green and red. These new church fittings, which are to be dedicated to divine service this evening, are very beautiful, and will appeal to any lover of ecclesiastical art. The rector, Rev. J. E.

Simpson, will conduct the service.

TORPEDORS REORGANIZE—The Torpedo baseball nine of iast season has been reorganized and renamed as the Santella team. Cal Black was elected captain at a meeting of the players Thursday evening. Two of this year's team, Shea and Fay, played last season on the Spokane nihe that won from the Torpedoes the championship of the Pacific Northwest. The other members of the team are: Black, Oliver, Glies, Archie Parrott, Richie Parrott, Fleming, Davey, Jacobs, Hume, and J. A. Rankin. The nine expects to contest with the Mulinomahs for the local amateur championship that the Tormpson, will conduct the service. cal amateur championship that the Tor. pedoes won last season, and also with the Stephens Athletic Club nine. Suits have been ordered and the players will make their appearance on the field in neat costumes of maroon.

CANADIAN PRAIRIE FOLK .- Miss Katherine Oliver, of Chicago, one of the most gifted readers that has appeared in Portland, gave a series of readings last night at the First United Presbyterian Church, from Ralph Connor's Canadian novel: "The Sky Pilot." There was not a dull interval at the recital. Miss Oliver was equally successful in pathos and humor. Her personality was as striking as ever. She had originally intended to read a cutting from Barrie's "Little Minister," but at the request of her friends she consented to introduce them to a new field, the attractive word-pictures of Canadian prairie life by Ralph Connor, which is the nom-de-plume of Rev. Dr. Gordon, of Winnipeg, Canada.

TROUBLE AT SEWER OUTLETS. - The sewer at the foot of Glisan street under the wharf is broken, and it will be quite a job to get it put to rights. There is frequently trouble with the ends of sew-ers under wharves. At the foot of Yamhill street, when the wharf was rebuilt, a lot of the old timbers were thrown over the sewer and then a ship's ballast was dumped there and the sewer, which is of terra cotta, was badly broken up. It was necessary to burrow down over 20 feet through the ballast and timbers to make repairs, but as the new pipe was laid in concrete, it will not be likely to get broken again. The new pipe at the foot of Glisan street will be laid in concrete, and will probably last for a long time. TREES BLOWN DOWN .- The wind was

very violent yesterday morning, and about 6:30 two poplar trees on Grant street just west of Third were blown down, the tops of them rasping down the walls of two houses on the opposite side of the street, doing no damage. A new sidewalk had been laid under the trees, which were in a row of half a dozen, only a short time ago, and in order to get this down to grade all the roots of the trees on the outh side next the walk were cut off. This left them at the mercy of a south-erly gale, and the only wonder is that they did not all go down. The fallen trees were cut up and cleared away, and the others will be cut off about half way up. New Gratings.—The heavy storms in January carried out the gratings at the head of the Tanner Creek sewer and piled a lot of gravel in the catch-basin there. Over 2000 yards of gravel has been cleaned out of the basin and placed on the county road, raising the grade for a considerable distance. A new grating of 12x12 timbers has been put in at the head of the sewer, which is expected successfully to resist any future flood, unless it is a second del-

uge, in case of which there will be now further use for the sewer. COUNCIL OF JEWISH WOMEN.—The regu-lar meeting of the Portland section will take place Monday, April 8, at 2 P. M. sharp. Dr. Wise will address the meeting at 2:15 P. M. upon the feasibility of incorporating the council's philanthropic work with the proposed settlement work. This is a question of vital importance to the council, and a prompt and full attendance of members in preserve the council, and a prompt and full attendance of members in preserve the council and a prompt and full attendance of members in preserve the council and a prompt and full attendance of members in preserve the council settlement work. tendance of members is necessary. The sual programme has been arranged for, and Madame Bauer will read a paper on 'The Merchant of Venice" from a Jewish

standpoint. unning in the Cowlitz. One dealer in this city received 25 bushels yesterday, but this is so much less than the usual receipts that the price has been advanced. The fish are very good, and fishermen say that a new run has come up the river. It is now four months since the first smelt of the season arrived in market, and it is about time the run was over. After the salmon season begins there will

be no demand for smelt. MEDICAL EXAMINATIONS .- Dr. H. E. Curry, of Baker City, a member of the State Board of Medical Examiners, is in the city, attending a special meeting of the board called for the purpose of examining the recent graduates from two medical colleges of Oregon. There are 19 appli-cants before the board taking examinations for licenses to practice medicine and surgery in the state. The board expects to conclude its labors this evening.

TEACHERS' PAY READY.-School Clerk Allen will pay teachers in the public schools the salaries for the past month today. He will be pleased to see as many of their smiling faces as early as possible in the forenoon. A score or so of public teachers who receive instructions in pedagogy from Superintendent Rigler every Friday afternoon received their salaries last evening.

Y. W. C. A .- The first Sunday meeting of the Young Women's Christian Associ-ation will be an Easter service held tomorrow afternoon at 3:30 o'clock at the rooms in Macleay building. Mrs. L. E. Rockwell will speak on the subject, "Our Easter Message." Special music has been arranged for. All women are cordially invited to attend the meeting.

GRAND OPENING.—There will be a grand opening tonight at the East Morrison Exchange, 300 East Morrison and East Water. Fine lunch will be served with clam chowder. Nothing but union beer and cigars sold here. Everybody invited.

John Freilinger. CONCERT AT CENTENARY.-The Monday Musicale and the Centenary men singers, assisted by Mrs. E. S. Miller and Miss Ethel Raymond, of Salem, will give a grand concert and musicale at Centenary M. E. Church, Wednesday evening,

ALTAR GUILD,-A meeting of the Altar Guild of Temple Beth Israel will be held Sunday, April 7, at 11 A. M.

#### IMPROVED MIND. The Food Grape-Nuts.

A famous woman says: "I am so much in love with Grape-Nuts that I presume I often bore people telling them about the new food. You certainly will make an everlasting fortune from the sale of it. The article has become the best-known cereal on the market."

It can hardly be called a cereal, for it is not like the common rolled wheat or rolled oats, but it is in the form of granules, ranging from the size of a pinhead Incorporation.—Articles of incorporation of the Northwestern Oil Company were filed in the County Clerk's office yesterday. Capital stock, 1000. The incorporators are William Booth, D. L. McLeod and Gustave Anderson.

at St. Mark's Episcopal Church, corner Nineteenth and Quimby streets. This is the dedicatory service for the reredos. Pulpit and lectern, erected in memory of the late Dr. Clarence Glisan, and other sifts recently made to the church. The principal portion of the mining exhibit has been shipped, but sifts recently made to the church. The mining exhibit has been shipped, but more ores are arriving from Southern Oregon and from the Rainier mining district, and more cases are being packed. A number of cases of canned fruits, jelles, jams, etc., are also being packed, and a lot of Oregon mineral waters. Mr. Meilis, who is to have charge of the Eastern Oregon mineral exhibit at Buffalo, has already shipped over 100 cases, and will soon start East to see to arranging his display. He left for home last night. BASEBALL OFFICERS.—At a meeting of

BASESALL OFFICERS.—At a meeting of the stockholders of the Portland Profes-sional Baseball Team last evening, bylaws were adopted, the formal organiza-tion of the company perfected, and the following members of the board of di-rectors elected: Chester A. Whitemore, William Goldman, J. P. Marshall, A. H. Devers, and F. A. Spencer. After the stockholders' meeting had adjourned, the board of directors organized by electing the following officers: Chester A. Whitemore, president; William Goldman, vice-president, and J. P. Marshall, secretary and treasurer. The manager of the team, John Grim, who managed the Anaconda nine last season, is expected to arrive in the city in a few days.

Suggests a Shelter.—J. W. Linnahan, an old-time expressman, says that during the violent rain and hall squalls Thursday a number of school children were waiting for the draw of the Burnside-street bridge to close, and some of them were drenched. He took as many of them as he could into his covered wagon for protection. He says there should be some kind of shelter for pedes-trians at each end of the draw. The County Commissioners can think about County Commissioners can think about

CORONER WILL SEFT FACTS.-An Inquest will be held today into the case of Emil Jorgenson, who was found dying near the railroad track at Goble last Thursday and who afterward died in this city. He was the son of a wealthy hotel proprietor at Hutchirison, Minn, and how he came to be wearing such poor clothing is a cir-cumstance which puzzles the police. The later say that Jorgenson was probably either thrown or fell from a railroad train. His neck was dislocated.

NEGLECTED BECAUSE OF RAINS. deputy of the City Engineer is kept busy making out lists of persons delinquent in the matter of repairing sidewalks. delinquents will be reported to the Board of Public Works and their cases attended to. Probably when the weather settles there will not be such a tendency to put off repairing sidewalks, and property-owners will not have to be notified so many times before making repairs.

BABY SUFFOCATED .- The Coroner's jury Inquired yesterday into the case of 6-months-old Jennie Glazler, who was found dead in bed by her mother yesterday morning at her home on Second street. The evidence was that Mrs. Glazler had placed her baby in bed to sleep, covering her with a comforter, and that the latter fell on the child's face, causing suffocation. The jury decided that the child was accidentally smothered. accidentally smothered.

DESPITE THE WEATHER .- The licenses for the new quarter beginning April I are now due and payable, and are being paid in very freely for so early in the month. Many people take full advantage of the days of grace allowed, but the weather has been so bad since the first of the month that many have found time to call at the City Hall and get a disagreeable job done with.

Some Oil Found .- A man who came in from Troutdale yesterday said he was at the well being bored near there a day or two ago and it was down a distance of about 40 feet. He said about a pint of oil had been secured. This seemed ridiculous, but it is said that in boring oil wells small deposits are often struck before the main reservoir is reached. THE First Presbyterian Church, Alder and Twelfth streets, Rev. Edgar P. Hill, D. D., pastor. Sunday morning, quarterly communion service. In the even-

quarterly communion serving there will be an "Easter praise service," and the pastor will speak on the topic "The Hope That Saves." Music by quartet under Edgar E. Coursen. SALE ENDED .- The sale of the assets of the Portland Savings Bank was complete at 5 o'clock last evening. The list of judg-ments realized about \$1000. The stocks did

TEACHERS' ASSOCIATION.—There will be meeting of the association tonight at s o'clock in the Portland Business College. Professor Herdman will speak on "Hawthorne" and "Cooper." Opportunity for admission of members and payment of dues will be given.

LUNCHEON TODAY.—The culinary department at the new rooms of the Young Women's Christian Association will be opened today, and lunch wil be served to members of the association from 11:30 A. M. to 1:30 P, M. ORDINANCES SIGNED .- Mayor Rowe yes-

terday signed all the ordinances passed by the Council on Wednesday. He also signed a lot of warrants, which was of more importance to those in whose favor they were drawn.

### **Joyous Easter Music**

With its bursts of exultation and sweet cadences of melody, can best be evoked from our new Kimball Pianos. There is a sweetness and purity of tone, combined with greatest volume and carrying power, in Kimball Pianos that greatly intensifies the character of sacred and religious music. For Easter festivals, whether in the parlor or public hall, the Kimball Piano is inestimable. Two carloads of these world-famous instruments have just been received, and we now show every catalogue style. We sell them at one price only—the last one is the first here.

EILERS PIANO HOUSE

Retall Salesrooms: 351 WASHINGTON STREET.

DON'T OVERLOOK THIS.

Good Cheer Will Prevail at the Grand Opening of the Cafe Krats Tonight.

Tonight the grand opening of the "Cafe Kratz," 122 Sixth street, corner of Washington, will take place, and nothing will be left undone by the proprietor, August Kratz, to make the event one long to be remembered by those fortu-nate enough to attend and partake of the good cheer that will prevail. The in-terior of the Cafe Kratz is a marvel of beauty and good taste combined. No vulgar display of any kind has been made, yet the surroundings, it will be noticed, are rich and expensive, presenting, in all probability, the most artistic effect of any cafe interior on the Pacific Coast. The room is finished in emerald glazed tiling and burlsp and oak panels, with a magnificent mantel of the same colored tiling. Imitation logs in the open fireplace, in which gis is burned, allows the heat to be regulated at will and adds a most cheerful effect to the cozy sur-roundings. The ceiling is of burlap and oak panels, each square containing an electric light. The lighting is everything that could possibly be desired, at the same time there is a total absence of glare usually found so trying to the eyes. The bar is in keeping with the costly and elegant surroundings, and is one of the handsomest fixtures that has ever been placed in position in Portland. Rich curtains lend a softening effect to one of the most attractive resorts for gentle-

men on the Pacific Coast.

That Mr. Kratz felt justified in the lavish expenditure of money in fitting out his establishment on such a magnificent scale is but another indication of the confidence held by Mr. Kratz, in common with other business men, that Portland will always retain her lead as the commercial metropolis of the North-west. Creature comforts of every de-scription will be in evidence tonight at the opening, and nothing that can add to the comfort of the inner man will be overlooked by the enterprising proprie-
