To MEET VISITING SHRINERS.-The com To Mizer Visiting Shringer.—The com-mittee appointed by Portland Temple of Mystic Shriners to go to Ashland to meet the Caravan returning from a pilgrimage from Honolulu were in somewhat of a quandary yesterday, it had been arranged that they were to start last evening, but yesterday a dispatch was received from San Francisco, stating that the Pilgrims had not arrived there, but were expected to arrive on the steamship Ventura in the course of the day. As it could not be known exactly when they would arrive the committee could hardly decide whether to start for Ashland last night After due consideration it was Francisco some time last night, and they would take the train for Portland at once. So it was decided that the committee should leave at \$200 last night. At that time George H. Hill, chairman of the committee, and the following members, were on hand at the depot: H. L. Pittock, Thomas McClusker, George H. Chance, H. Beckwith, J. C. Moreland. Henry Roe and L. B. Gorham. Their grips and sult cases were filled with turkey sandwiches and other refreshments, a small corner in each sufficing for the small corner in each sufficing for the owner's fer. A sack contained the steel shoes for the camels or Arabian ponies which will carry them across the burning sands of any deserts they may find. They are not likely to suffer, as they have been notified that E. D. Carter and wife and the women of Ashland generally have made preparations to receive and feast them. If they are likely to have to wait them. If they are likely to have to wait in Ashland too long they will probably go on down the line until they meet the returngood health and spirits promptly at 8:30.

Willamette River, near Sherlock avenue, and being unable to help himself, had drowned before assistance reached him. C. F. Munson an assistant yard foreman, testified that last Monday afternoon at 4 o'clock, as previously told in The Oregonian, Elliott was working on the wharf, rolling timber into the river. "Elliott had his cant-hook attached to a piece of lumber, and his hook slipped its hold," went on Munson. "Then he fell into the river, a distance of about twenty feet, striking his cant-hook as he did so. He was in about five feet of water. Several men ran to his assistance and told him to swim, and not be discouraged. He said: "I can't." Edward Harrold got a pole and brought him up. Elliott was in the water about ten minutes. After he was placed on the wharf, a physician worked over him, but without avail." The jury returned a verdict that Elliott had been accidentally drowned. His funeral will take place this morning at 10 o'clock, from

FOR OIL DEVELOPMENT PURPOSES .- The Archuleta Oil Company have placed a limited amount of their treasury stock on sale, and offer this first authorized issue at a very low price for one week. On April 15 the price will be advanced. This company is composed of conserva-tive business men, who first thoroughly investigated the flattering showings before proceeding further with it. They have satisfied themselves, and conscien-tiously believe that they are offering one of the best inducements to conservative investors. Petroleum oil of good quality

tween S. W. Rhoads, of Woodlawn, and his father-in-law, Wiley Pillow, and the latter was before Municipal Judge Cameron yesterday, charged with pointing a repeating rifle at Rhoads. The case was continued until today. Rhoads' story is expected, and a few days ago he proposed to his father-in-law that they have sep-arate households, but Mrs. Rhoads objected. During a division of the furniture, Rhonds states that his father-in-law pointed a rifle at him. To this, Pillow. who originally hails from Texas, enters a

STILL ON THE TABLE.-Among the papers in a pigeon hole on Auditor Devlin's as to the legality of his election, which was brought about by his leaving the Council chamber while the roll was being called on the vote for him, and the resolution mentioned was soon after introduced to confirm the election. It was "laid on the table," and has been kicking about there ever since, and as it has never been finally disposed of, is still le-gally before the Council. As Storey served out his term and has emigrated to Rainler, any action the Council may now take on the resolution will make lit-tle difference to him or any one else.

QUARREL LEADS TO POISON.—After a quarrel with her colored lover, Josie Brooks, a white woman about 30 years old, attempted suicide by swallowing car-bolic acid, last night, on Everett street, near First, and was taken to St. Vin-cent's Hospital. Probably she will not recover. She arrived here about one month ago from Scattle, and took a room on Everett street, leading into a saloon. For the past day or two she has been drinking heavily, and this, coupled with jealousy, led to the quarrel. She died at the hospital about midnight.

Notice of Sale.—The undersigned will receive scaled bids for that stock of merchandise, consisting of groceries, canned goods, tobacco, cigars, etc., also fixtures, pakery and appliances, two horses, wagons and harnesses, situated at East Twelfth and East Stark streets, until Tuesday, April 16, at 12 o'clock noon. The right is reserved to reject any and all bids. Inventory at my office and propinspection on the premises. R. L. Sabin, Front and Ankeny streets, Portland, Or.

THER APPRECIATION.-Some fifty of the brewery employes who have been out on a strike marched down to the Union depot in a body last night to bid good bye to the two San Francisco delegates who came here to arbitrate the differences between them and their em-ployers, and to show their appreciation of the successful manner in which they ar-ranged a mettlement of the trouble ranged a settlement of the trouble

WILL SPEAK TONIGHT .- The Rev. E. T. Ford, of Tacoma, will speak at the First Congregational Church tonight on 'The Educational Function of the Christian Pulpit." Ralph W. Hoyt will preside at the organ. Lauren S. Pease will sing a solo. The public is cordially invited.

Unitarian Lunch.-Don't forget the lunch served by the Woman's Auxiliary today from 11:30 to 2 o clock, in Unitarian chapel, Seventh and Yamhill streets, Price

EXPENSIVE SALMON .- C. J. Malarkey was fined \$90 yesterday, in the Municipal Court, charged with having salmon caught with a net in his possession,

WORK FOR U. S. GRAND JURY .- The short grand jurors summoned a shi time ago will appear in t United States Court today. The are some twelve or fifteen cases There be considered by them. Among these are the case of Stage Driver Oglesby, whose stage was robbed of some \$75 near Lakeview. At least he reported that the stage had been held up, but it is alleged that he committed the robbery himself. He was anxious to get married, and was short of funds. The case of the Dodson brothers and Duffy, arrested on a charge of counterfeiting, will also be considered. A milling machine and a lot of counterfeit money was found in the posession of one of them, and the other two are said to have been engaged in passing the coun-terfeit money in Albina. Several cases of sending obscene letters through the mails and one case of sending threatening pos-tal cards will also be investigated.

FAN TAN GAME RAIDED .- Twelve Chinamen and about \$300 in gold were secured by Captain Houre and Sergeant Moore, as decided that if the Pilgrims arrived in San Francisco behind schedule time they would not tarry there, as they had their visit to the brethren there before leaving for Honolulu, and the probability was that the Ventura would arrive in San heavy wooden bars—removable at pleasure—stood jurging in the nassage-way. Francisco some time last night, and they would take the train for Portland at once. So it was decided that the com-

Not a New Insect .- A woman who keeps a lot of chickens in the outskirts of the city yesterday brought a sample of weevilly wheat to The Oregonian of-fice. She says she bought it at a local feed store, and that it is full of bugs which fly all around. She has never seen such bugs before, and is afraid that they will spread all over the country. The bugs found in the wheat are a beetle without wings, the ordinary wheat weevil which down the line until they meet the return-ing pilgrimage. The committee has a palace car to themselves, and started in new bug, but has been known for ages good health and spirits promptly at 8:30.

ACCIDENTALLY DROWNED.—It developed at the Coroner's inquest yesterday, into the circumstances connected with the drowning of Alfred Edward Elliott, that Elliott was stunned by falling into the Willeman's Sherlock appendix.

Big Cargo or Tres.-The largest barge load of railroad ties ever brought to this city was delivered at the railroad slip a day or two ago. It came from Lewis River, and contained 19,000 ties. The ties were cut in a mill at Etna, fifteen miles above the forks of Lewis River, and rafted down to a boom at the forks. Ties are cut from small logs, about three feet in diameter, as the timber in them is best adapted for ties, and cuts to better advantage than large logs. It is no small job to hoist 10,000 ties out of the boom and load them on a barge, and a sort of conveyor or chute fitted with rollers is used for moving them. These conveyors are in sections, and when the stern of the barge is loaded one section is taken off, and so on till the cargo is completed.

Boys' and Girls' AID Society.—At the monthly meeting of the trustees of the Boys' and Girls' Ald Society yesterday the Ladies' Advisory Board recomme ed that a suitable burial plot be procured, and that a slab, with inscription, be raised over each grave. Mrs. C. R. Templeton, the secretary of the board, through whom the report was made, suggested that as Rev. T. L. Eliot will be in the East when the National Convention of Charities and Corrections meets at Washington, he be appointed with W. T. Gardner, to represent the Oregon society. Superintendent Gardner's report showed that thirty-four children were received in April, and twenty-six disposed of. The umber on hand April 1 was forty-five.

of the best inducements to conservative investors. Petroleum oil of good quality is already there. Sinking a well will demonstrate in how great quantities it exists there. The officers of the company are: President, J. H. Robbins, president First Bank of Sumpter; vice president Hugh McGuire, president Pacific Paper Company; treasurer, T. N. Persons visiting the seaside this summer will miss him, and residents in that section will also miss him. Per-haps in the happy hunting grounds of the other side of the range old Michel is happler than he was at Clatsop.

THREE RAZORS IN A ROW.-D. C. Abshire, formerly a sailor in the United States navy, was charged with assaulting M. Mazerotzky, at the Municipal Court, yesterday. Mazerotzky testified: "Abshire walked into my store and assaulted me. He had a white-handled razor in his left hand, a black-handled razor in his right hand, and a razor in his other hand." "There must have been razors all around you. The defendant has only two hands," sarcastically commented the Judge. Abshire entered a general denial of what Mazerotzky sald, and was discharged.

MONUMENT FOR CHARLES SUMNER. Walter L. B. Plummer has been appointed by Governor Geer to represent Oregon as a member of the Charles Sumner Monument Association of Washington, D. C. The colored men of the country have determined to build at the national capital, as a tribute of love and veneration for the Massachusetts statesman; a monuent. Mr. Plummer is now taking sub-scriptions for this purpose. The First Na-tional Bank of Portland has been designated as a depository for the funds col

RECORD CROP OF FRUIT

FIFTH DISTRICT ORCHARDS WILL YIELD \$1,000,000.

Tremendons Growth of the Horticultural Interests of Eastern Oregon.

Judd Geer, of Cove, says that the fifth horticultural district, of which he is com-missioner, will produce a \$1,000,000 fruicrop this year. The district comprises Baker, Union, Wallowa, Harney, Umatilla, Malheur and Grant Counties-more than one-third of the land area of Oregon. Commissioner Geer says the Eastern Ore. gon crop is in no danger from late frosts. "We never lose by Spring frosts," he said. "The thing that gets the best of us is extreme cold weather in the Winter. We have had none of this in the Winter just past. The weather has been exceptionally favorable, and our orchards have come through the Winter strong and healthy.'

issioner Geer finds it impossible to pay a visit once a year to every part of the 35,651 square miles of territory in his district. He has visited in Union and Umatilla Counties, and received reports from other counties. He says Eastern Oregon is making tremendous progress in horticulture, and many orchards are being planted.

"The majority of our orchards that are just beginning to bear," he said, "were planted six and 10 years ago. Then there was a lull for a few years on account of the hard times. Now we are planting again. This year our people planted every tree they could get. We stopped only when the supply of trees gave out.

"Eastern Oregon is destined to be the great fruit region of the state. What we can do is illustrated by a 5-year-old orchard near La Grande. Last year it yielded 6000 boxes of No. 1 apples. The money received for the crop undoubtedly paid the cost of the land, trees and all expenses of maintenance up to the time the apples were gathered for the market. Among our big orchards is that of Van Glise, near Nyssa, Malheur County. It covers 190 acres. The oldest trees are nine years old. Next in size is the K. S. & D. orchard, near Van Gilse's. It covers 150 acres. Both of these are on irrigated land, which, until a few years ago, was considered worthless."

BREWERS' STRIKE OVER.

Amicable Settlement Reached and Boycott Declared Off.

The brewers' strike was ended yesterday afternoon, and the boycott on local beer declared off. The settlement was reached in a conference held between Paul Wes. singer, representing the employing brew-ers, and G. Pierce, of San Francisco, representing the American Federation of La bor, and A. R. Andree, also of San Fran-cisco, representing the National Union of Brewery Workmen. The terms of the settlement were not given out, both sides stating that the differences had been ost happily and amicably adjusted.

There was a jovial gathering of the representatives at the office of Weinhard's orewery after the conference was over, 'Now, we will drink some beer that is fair," sald Mr. Wessinger, filling the glasses from a pitcher of foaming beer.
"Here's to the pioneer breweries of the
Northwest and an eight-hour day," toasted Mr. Andree,
"May they prosper and their output increase," added Mr. Pierce,

The strike and boycott were then and there officially declared off. It is understood that the demands of the union were almost entirely conceded, an eight-hour day, \$3 a day pay, and 50 cents an hour overtime. Counter concessions were made to the employers, the exact nature of which is not known.

PLEASED THE THEOSOPHISTS Visit of Colonel Olcott Gave Them Much Encouragement.

Colonel H. S. Olcott, president-founder of the Theosophical Society, who has been in the city for the past few days, leaves this morning for Tacoma and Seattle. The visit of Colonel Olcott has been much enjoyed by the local theosophists. On Monday evening, the Colonel met, at the residence of Mrs. B. H. Langley, 261 Thirteenth street, a large number of people interested in problems of life and philos-

Last evening he met the members of the Mount Hood Lodge, and the impetus re-ceived by local theosophists from his vis-it will be the means of adding great strength to the society here.

After leaving Seattle, Colonel Olcott will proceed Eastward, taking in the larger cities, and will be present at the annual convention of the society in the United States, to be held in Chicago in May. After this he will proceed to other East-ern cities, and will sail from New York in August for Buenos Ayres. He will return to India via Rome in the latter part of the year.

Doing Good Work.

At the quarters of engine company No. 7, East Third and Pine streets, the members of the company are doing some ex-cellent work. They have finished a deep excavation under the floor just back of the place where the engine stands about 7x7, and bricked it up, for the heater and reservoir, the intention being to place them in this underground apartment. The pipe attachments above will be made to correspond with those in all the other engine-houses, so that any engine can be backed in the house and connected with the pipes. Besides, there will be a saving of one-third of the fuel by the improve-

ments had to be paid for by the department, they would have cost not less than \$300, but under present conditions the cost has been practically nothing. All the work was done by the firemen. The brick used to wall up the room was taken from the cells of the old city jail in the back end of the building. Everything will be finished within a few days. The firemen of the company have worked cheerfully to make these improvements, and deserve eredit.

BUYING OREGON SHEEP. California Men Are Now Replenishing Their Flocks.

A Rhen a well-known sheepdealer of Morrow County, who is at the Perkins, says no sheep have yet been sold in Eastern Oregon this year to Eastern buyers, though at this time last season many thousands were disposed of. The reason for the falling off in sales, Mr. Rhea thinks, is because Eastern buyers paid more than the market justified last year, and as a consequence lost money. Some Galifornia men, however, have been buying this year, and have started their purchases south-ward over the prairies, by Lakeview, and into the Sacramento Valley, where the stock will be fattened for the San Francisco market. He thinks California buyers must continue to come to Oregon for their mutton in the future, to a large extent. Yearling wethers are being held at \$2 and \$2 15 this year, though last season as high as \$2.50 was paid. A good many pur-chases have been made at these figures by home buyers, who had more range than they had sheep to pasture. He does not think the sheepmen are uneasy over the nonappearance of Eastern buyers, although money is becoming somewhat scarce on account of the slow sale of wool.

"THE LIONS MADE QUICK WORK OF IT."

Portland, Or., April 6, 1901. Judge Alex Sweek Supreme Secretary, Independent Order of Lions,

Portland, Or Dear Sir and Brother-I received today warrant No. 103 in the amount of \$95, due me for 10 weeks' disability. I appreciate your promptness in payment of this claim. St. David's Parish Annual Meeting. At the annual meeting of St. David's Parish, held Monday evening, the following were elected vestrymen: Dr. S. E. Josephi, John Sealy, W. T. Gardner, Captain F. H. West, A. L. Tyler, Cranston Walker, S. C. Kennell, John Webb and J. Royle. The vestry then organized by the election of the following officers: 'Dr. S. E. Josephi, senior warden; John Sealy, junior warden; Cranston Walker, clerk; W. T. Gardner, treasurer; executive com-mittee, Dr. S. E. Josephi, John Sealy and A. L. Tyler; finance committee, S. C. Kennell, Captain F. H. West and J. Royle; music committee, John Webb, W. T. Gardner and Cranston Walker. The report of the treasurer showed that all current expenses had been met, and \$230 balance left to meet other obligations. The Easter offering from the congregation was about \$200, while that from the Sun-day school, including a gift from a communicant, was \$140, which was from the children. The superintendent reported the Sunday school growing and prosperous in all lines. The rector, Rev. George B. Van Waters, has the oversight of the mission at Lents, and C. L. Parker is the lay missionary there in charge. sion was reported prospering, and Mr. Parker is doing an excellent work. Special emphasis may be given the work of the Woman's Guild, which carries the interest on the church indebtedness, the interest being over \$300 annually, besides other Since January 1 Arch Wright has had charge of the choir, and the fine music on Easter was under his direction. The rector also has oversight of the St. Helens mission, where a church was built the past year, and its affairs are prosperous. Rev. Mr. Breck is the missionary in charge. On the whole St. David's parish and its missions have grown largely the past year.

NATURE'S REMEDIES.

Everything existing in this universe was created for a purpose. Nature gives us in the vegetable kingdom healing and disease-curing herbs. Many of these, howease-curing nerbs. Many of these, how-ever, are very poisonous, and it requires great care and knowledge for their suc-cessful administration. But the greatest boon given to suffering humanity is of-fered in the healing and disease-eradicat-ing mineral waters oozing out of Mother Earth

Earth.

Be it here said that the Witter Springs water, from Lake County, Cal., excels all others in its composition for all kidney and bladder troubles, such as catarrh, infiammation, gravel, rheumatism, gout, etc. For all skin diseases and syphilis, in all its stages, it has no equal.
