

NO FEAR OF A RUPTURE

JAPAN ACCEPTS THE LATEST DECLARATION OF RUSSIA.

The Russian Minister at Peking Has Adopted a Policy of Intimidation—Meeting of Envoys.

WASHINGTON, April 10.—The Japanese Minister, Mr. Takahira, today received official advice from the Foreign Office at Tokio, entirely dispelling the alarming reports of a Russo-Japanese rupture, and showing that the Japanese Government accepted the latest declaration of Russia regarding Manchuria with the same sense of satisfaction that it had been received with in the United States. Mr. Takahira called at the State Department and conferred with Secretary Hay of the gratifying nature of the events.

THE BOXER UPRISING.

It Was Not Especially Anti-Missionary.

NEW YORK, April 10.—The annual report of the American Anti-Boxer League relative to the situation in China, will contain the following interesting statement by its agent in China, the Rev. John H. Hyde, D. D.: "There was a deep and cunningly laid plot, under the leadership of a man who, by the name of the 'Boxer' movement, expel all foreigners and destroy all foreign interests. No one destroyed the full extent of the plot, which was deliberately contemplated. "In all, 135 Protestant missionaries, including sixty men, seventy-five women and forty children, were massacred. With the exception of the massacres at Ku Choo, in the Kiang, in which eleven persons were killed, and at Heng Choo, in the Shan, all the others occurred in the Northern provinces. "The question has been raised at home as to whether the Boxer uprising was anti-foreign or anti-missionary in its character. No doubt exists in the mind of any well-informed person in China. The movement was undoubtedly against foreigners, as such, and the crusade was declared against everything foreign—Christianity, of course, included. Hsu Ching Chang and Yuen Chang, two Ministers of the Chinese Government, were ordered to issue a painful edict which reiterated the order to 'painfully exterminate all foreigners,' but changed it so as to read, 'protect all foreign missionaries who are flying over the wires to the remotest provinces. They were sentenced to be cut in two. Missionaries were the class that benefited by the Boxer movement. The fact that the missionary escaped from fourteen out of the eighteen provinces would indicate that the crusade was not especially anti-missionary. "The crusade destroyed not less than 100,000 volumes, and the actual loss to the society will not be less than 500,000 gold dollars, including the value of the property of the workers to places of safety and back again to their stations. More than 40,000 native converts (including Roman Catholics) met their death in the Boxer uprising of the best age of the church."

RUSSIAN INTIMIDATION.

De Giers, the Minister at Peking, Adopts New Tactics.

LONDON, April 10.—"M. de Giers demands the return of all communications to the Chinese authorities from the Russian Legation regarding the Manchurian negotiations," says Dr. Morrison, writing to the Times from Peking, "and he has warned Li Hung Chang that instead of assuming an attitude of advocacy of the Chinese cause in the conference of Ministers of the powers, he will henceforth support the policy of the most severity. Russia has still ample means to enforce this upon the conference, but I believe that it is premature that Russia has already prepared a fresh form of convention. Doubtless when the prospect of intimidation is removed, a fresh attempt will be made to recover the lost ground." Dr. Morrison draws a gloomy picture of the situation and urges the necessity of withdrawing troops before the hot rainy season sets in, adding that unless orders for withdrawal arrive before May it will be almost impossible to move before autumn. He says that the observers believe the anti-foreign feeling in Chi Li is more prevalent than ever.

Coolness Between Germans.

BERLIN, April 10.—"England is intriguing in Peking," says a dispatch to the Frankfurter Zeitung from the Chinese capital. "To secure the substitution of Prince Su for Prince Tuan is the object of Berlin, and she wishes to combine Prince Su's trip for that purpose with the Chinese emperor's congratulatory mission to King Edward. A perceptible coolness has arisen between Count von Waldersee and Dr. Mumm von Schwarzenstein, principally because the Commandant-in-Chief has refused to order the troops to render the Minister military honors, as to do so would be contrary to German army instructions. The same correspondent asserts that reports of the outbreaks of a rebellion are not credited in Peking."

Revelation in Japan.

YOKOHAMA, April 10.—The Nishinichi, a leading newspaper, which reflects the government's views, applauds Russia's judgment and love of peace, and says the great desideratum now is the restoration to the Chinese Government of effective authority, adding: "Russia cannot justly be condemned for the adoption of measures to protect her rights acquired in Manchuria. Under the present conditions the duty of preserving order in Manchuria would devolve upon those responsible for Russia's withdrawal. It would not conduce to Japan's interest to accept such a responsibility."

Report on Fortifications.

PEKING, April 10.—A meeting of the Ministers of the powers will be held tomorrow morning to consider the report of the General upon article 8 of the joint note, referring to the destruction of the forts which might obstruct free communication between Peking and the sea and the military occupation of certain points in order to maintain communication between Peking and the sea. "The Belgians who have missions in the disturbed district of Mongolia, say they do not believe the rebellion will make much headway."

Signing Merely Postponed.

ST. PETERSBURG, April 10.—The Russian press is abandoning that reserve with which it first discussed the government's declaration on the subject of Manchuria. It now declares that the joy

with which the British press greeted China's refusal to sign the Manchurian agreement has merely postponed the signing of a new understanding with advantage the conversion would be advantageous to China.

The Chinese Minister's "Accident."

PARIS, April 10.—The Pacific today publishes a dispatch from St. Petersburg which says the Chinese Minister there, Yang Yu, insulted Count Lamdorff, the Russian Minister of Foreign Affairs, during a discussion of the Manchurian question, whereupon the Count ordered the lackeys to put the Chinese Minister out, and Yang Yu was thrown downstairs and fatally injured in the head.

It shows gratifying progress throughout all the extensive work now being carried on. The number of ships under construction advanced from 1 to 5 per cent on the various ships within the last month. "Of the nine battle-ships now under contract four of them are well along, the Illinois standing at the head and being 90 per cent completed. The Maine comes next with 48 per cent completed. The Oregon is 33 per cent completed, the Ohio 28 per cent completed. The remaining five, the Virginia, Nebraska, Georgia, New Jersey and Rhode Island, as well as the six armor-plated cruisers, the Pensacola, Maryland and South Dakota, have not yet been started. "Of the protected cruisers the Cleveland is 80 per cent completed, being now 52 per cent completed. The Chattanooga pushed up 5 per cent during the last month. The Denver is 48 per cent completed. The Des Moines is 39 per cent completed. The Tacoma and the St. Louis and Charleston have not yet been started. The Nevada is farthest along of the monitors, being 72 per cent completed. The Wyoming being 72 per cent; Florida 63 and Arkansas 61. OPPOSED TO CREMATION.

Practice Disapproved by the Catholic Church.

MONTREAL, April 10.—A pastoral letter from Archbishop Bruchési has been read in all the Roman Catholic churches of this diocese, and interesting references were made in it to the recent decision of the Delphi case and to the action of the Legislature in granting to the Mount Royal Cemetery the power to cremate bodies in place of burying them as so desired. As to the former, the archbishop merely reiterates the attitude of the church on mixed or irregular marriages which can be affected by the judgment of civil tribunals and warns all communicants not to offend at the risk of severe ecclesiastical penalties. "With respect to cremation, the archbishop's declaration is of greater interest, since he virtually censures the Legislature for granting the request of the Mount Royal Cemetery Company, which is a Protestant organization. The archbishop cited the ruling of the church on the subject, quoting Pope Leo XIII's condemnation of the practice in his letter to the Emperor of Mexico in 1881, and Cardinal Richard's vigorous denunciation in a pastoral letter of February, 1890."

CABLE LAYING IN PHILIPPINES.

Barraside Is to Continue the Work of Connecting the Islands.

WASHINGTON, April 10.—The report from Manila that the cable ship Barraside is to continue laying cables in the Philippines, connecting the islands with Manila, revives interest on the part of the Eastern Extension Company, which now controls the cable from Hong Kong to Manila, against the laying of cables in the islands. The project was approved by the State and Justice Departments of this Government, and it was determined, after an opinion by the Attorney-General, that the reservation by which the Spanish Government granted the Eastern Extension Company exclusive rights in cable construction allowed the United States Government to continue its cable connection. This reservation decided that the Spanish Government could lay cable for state purposes. As the cable being laid by the War Department is for the use of the United States Army and Navy, it was the opinion that this meant a "state purpose" in the Spanish concession. The cable company connection was granted just before the American-Spanish war, and the company while the company makes no strenuous objections to the laying of cable for purely Government purposes, it has served notice on the Eastern Extension Company that the cable be used for commercial purposes. The company offered to relinquish its franchise upon payment of \$25,000 for the use of the cable, but this proposition has not been received with particular favor by the United States authorities. Meanwhile, cable tolls are quite high, especially upon messages sent from here to Manila, at the rate of 25 words on messages going to the Philippines, while the rate is 10% on messages from Manila to the United States.

Dewey's Flagship Olympia—Captain Gridley, Commander.

Mrs. Gridley, mother of Captain Gridley, who was in command of Dewey's flagship, at the destruction of the Spanish fleet at Manila, says of our remedy, Peruna:

"At the solicitation of a friend I used Peruna, and can truthfully say it is a grand tonic and is a woman's friend, and should be used in every household. After using it for a short period I feel like a new person."

Mrs. Longstreet is the wife of the famous Confederate General, Lieutenant-General James Longstreet, the only living ex-Confederate officer of that rank. She writes as follows to The Peruna Medicine Co., Columbus, O.:

"I can recommend your excellent remedy, Peruna, as one of the best tonics, and for those who need a good, substantial remedy, I know of nothing better. It has been a good tonic to me in an effective cure for catarrh."—Mrs. James Longstreet.

Hon. Lucius E. Gridley, brother of Captain Gridley, also speaks a good word for Peruna.

"I have now used it for about three months and feel completely rejuvenated. I believe I am perfectly cured, and do not hesitate to give unqualified praise to your remedy, Peruna."

Every organ of the body is liable to catarrh. Symptoms of catarrh differ according to the part affected. If the catarrh is confined to the nose the symptoms will be sne
