ARDNAMURCHAN IS SAFE

PRASER RIVER SALMON SHIP WAS NOT LOST OFF CLATSOP.

Mystery Regarding the Canned Salmon Found on the Beach Is Greater Than Ever.

The mystery surrounding the finding of mber of cases of salmon on Clatsop ch last Winter will either be solved in Merchants' Exchange advices yesterday report the British ship Ardnamurchan as spoken Wednesday in latitude 50 north. ongitude 15 west. The vessel was spoken by the Alian Line steamer Parisian, which arrived at Liverpool yesterday from Portland Me. This position shows the vessel to have practically reached her destina-tion, as she was then but a few miles from the English coast. When the salmon began coming ashore at Clarsop it was identified as being a portion of the cargo of the Ardnamurchan. Experts who knee all about the loading of the ship came over from Vancouver and Victoria, and after a careful examination of the brands and cases asserted that the salmon not only came from the Ardnamurchan, but came from that portion of the cargo that was only have been dislodged by the total de-

struction of the ship. On the strength of these stories the underwriters became frightened and sought this season have been so long on the way to lessen their losses by offering extravagant rates for reinsurance. The rate started off at 65 per cent, although the resuel had been out less than two months The speculative public was also inclined to be frightened, and would not take hold. After the first shock of the discovery had men began to reason over the matter a little, and, fulling to make it clear in their minds how heavy cases of salmon would wash ashore from a wrecked ship without being accompanied by buckets, boats, cars, rafts and other light wreck-age, decided that there was something in the proceedings. The rate ed back to 40 per cent, and as the days were on and the ship was nearly due

t again worked up to 60 per cent. Then came a story that all of the salmon of the brands found had not been placed in the lower hold, but that some of t was in the deckhouse. There was also a vague rumor floating around to the effect that there was a "job" in connection with the overdue ship. This uncertainty caused a great many speculators to regard the Ardnamurchan as an unlikely subject to place money on either way, and there was accordingly less reinsurance written on her than there was on any of the "long shots" which have been floating around. The arrival of the ship will not only relieve a tremendous strain from the minds of those who had relatives aboard, but it will also be quite cheering to the underwriters, as ship and cargo represented a valuation of \$500,000. The Marchrubanish, which sailed the same time as the Ardnamurchan, has not yet arrived, and there is a possibility that the salmon came from her cargo.

HAD A ROUGH TRIP.

Barkentine Makes a Long Trip From Peru.

PORT TOWNSEND, Wash., April 12.— The barkentine J. M. Griffith arrived today, 76 days from Mollendo, Peru, and, according to Captain Arey, the entire voyage from Puget Sound and return was one of disaster. On her way to Mollendo, the Griffith encountered a burricane, and her decks were swept clean by seas, her masts spring and sails carried away. The main water tunk was washed overboard, and the officers and crew were suffering for want of fresh water, and what little was left in the other tanks had to be rationed out. Captain Arey kept a small demijohn of water in his room, and after using it for several days be became guite sick, and april 12—Ship C. F. Sargent, for Honoland April 13—Ship C. F. Sargent, for Honoland April 14—Ship C. F. Sargent, for Honoland April 14—Ship C. F. Sargent, for Honoland April 14—Ship C. F. Sargent, for Honoland April 15—Ship C. F. Sargent, for one day, while taking a drink out of the demijohn, the tail of a mouse got into his the water, which caused his sickness, and upon his arrival here he was still suffering from the effects of the water. On Cadiz—Salied April 8—Ammon, from return trip, when seven days out from Mollendo a heavy sea was encountered and the vessel rolled heavily, causing the mizzenmast to be carried away even with the deck and doing other damage, and when Moville, April 12.—Sailed—Anchoria, from neck and doing other damage, and when she arrived here she was leaking freely. The Griffith is owned by the Washington Mill Company, and was towed to Hadlock this evening, where she will have three new musts put in.

LIGHTSHIP MOVING RIGHT ALONG. One-Half of Distance Covered From

Beach to Baker's Bay. ASTORIA, April 12.—A telephone mes-sage was received here this afternoon from Fort Canby, stating that the Colum-bia River lightship was in the woods mar there, and had completed one-half of her journey from the sands at Mc-Kenzie Head to Baker's Bay. The vossel is now on top of the ridge that was was expected.

General Beebe Buys a Launch. While General Charles F. Beebe, of Portland, was in Astoria yesterday he purchased the launch Hattle from John Kopp. The launch is to be used in meeting incoming vessels and furnishing them with supplies, as well as doing a gen-eral boating business for ships in the

READY FOR SEA.

Steamship Monmouthshire Will

Leave for Europe Today. The steamship Monmouthshire finished loading her wheat cargo yesterday morning, and will clear today for St. Vincent for orders with 112,297 bushels of wheat. She was dispatched by Eppinger & Co., who have cleared three out of the four steamships which have left Portland for Europe this season. The Monmouthshire small carrier for her tonnage, espeminn. Eppinger's last steamer from here. The Wilhelmina carried over 210,000 bushels of wheat, although her net tonnage was only a third greater than that of the Monmouthshire. The Kate Thomas was cleared yesterday by Balfour, Guthrie & Co. for Queenstown or Falmouth for or. ders with 25,630 bushels of wheat.

with 3000 tons of Cumberland coal on her, is now 60 days overdue. The Mc-Donald has been out 210 days, and while she has not yet been posted, there is 75 per cent reinsurance on her. Cumberland coal is nonsulphurous, and is used almost exclusively in forging. Unless the McDonald comes into port within a short time it will be necessary to have the coal shipped overland by rail.

War Risk Demanded. SAN FRANCISCO, April 12.-The Ex-

Vessels bound from this Coast to Chi nese and Japanese ports must carry extra insurance and have been put on a war-risk basis. This means a heavy addition to the usual rates of insurance, and comes in the class of special hazards. The reason for this decision on the part of marine underwriters is the strained relations be-tween Japan and Russia. The first vessel on which war risks were written was the Hong Kong Maru, one of the Japaness liners. She sailed yesterday, and carried extra lines of insurance on both hull and

German Ships Are Slow. The German bark Olga arrived out at Falmouth yesterday, after a voyage of 151 days from this port. A passage of this kind plays havoc with the averages, which are helped along by trips like that of the Muskoka in 101 days. It may not be the fault of the flag or of the men behind the mast, but for some unknown reason the ented, he is erratic," and his own confesred in the lower hold, and which could German ships have been making much shower average passages than the British ships this season. Nearly all of the Germans that have headed in this direction this season have been so long on the way ance before reaching their destination.

> Fishing Steamer Lost. ALTONA, Holstein, April 12.-The fishing steamer Enfina has been lost during a storm in the North Sea. Her captain

and crew of 10 men were drowned.

Domestic and Foreign Ports. ASTORIA, Or., April 12.—Sailed—At 7:30 . M., German ship Ferdinand Fischer, for Queenstown or Falmouth for orders; American bark Harry Morse, for Alaska. Condition of the bar at 5 P. M., moderate; wind, northwest; weather, hazy.

MR. MILLS' LAST LECTURE

OPINIONS OF PRESBYTERIAN MIN-ISTERS.

One Thinks the Unitarian Not Wholly Sincere; Another, Unfair; Another, an Apologist.

Presbyterian ministers of Portland were asked yesterday by The Oregonian for their views of Rev. B. Fay Mills' last lecture, "How I Became a Unitarian. of them, including Dr. Edgar P. Hill, of the First Church, declined for the reason that they will use Mr. Mills for a text todid not intend to read it, and another had packed his traveling bag for an out-of-town appointment. The others answered

as follows: Enrnest, but Not Wholly Sincere. Rev. W. O. Forbes-I did not hear Mr. Mills' address Thursday evening, and so can only refer to it as reported in The Oregonian. Since Mr. Mills is a personal friend of mine, and was a college mate some 25 years ago, I hesitate to say what sion Thursday night confirms the feeling that many of his friends then had of him. Though earnest, he was not wholly sincere. I cannot see that Mr. Mills has added anything new to the Unitarian argument, nor does his address justify the words with which his coming was herald-ed-to the effect that he had not given up anything he believed before, but had only added some new truths to that be-lief. To preach, as he did for many years, Savior divine, atoning by his death for the sins of men, and then to declare, he now does to his converts, practically that he was "only in fun," or quoting his own expressed thought, "only believed it after a fashion," is only to advertise his incincerity and to easily account for his utter failure as a leader of thought.

An Apologist Now. Jerome McGlade-It seems to me that Mr. Mills has landed where all have anded who have taken his views of love and Jesus Christ, and now, after having had a successful career as an evangelist, he must apologize for the views he had entertained and preached successfully for so many years. I presume he places Christ on the same plane with man himself. If his conception of God is right, then there can be nothing of justice among his attributes. What would be the result if all our Judges and Magistrates were all love, and they had no concep-tion of justice? They certainly would be very weak indeed, and criminals would go free. Mr. Mills seems to have destroyed his life work. What about the hundreds who thronged to hear him preach and were onverted under the inspiration of his elo-uence? What can Mr. Mills say to them? Will he say that he has been wrong all this time, when he told them to look to Jesus Christ for salvation? His present

course leads him to this position. There have been no harsh words said about Mr. Mills, nor will there be, but there is regret over the course he has taken. Regards Mr. Mills Unfair. Rev. J. J. Dalton, D. D.-In Mr. Mills' address on "How I Became a Unitarian," as reported in The Oregonian, he advances nothing at all new to those who are accustomed to reading men's reasons for rejecting the divinity of Christ and claim-ing that the atonement is unnecessary to salvation of men. All the religion that some have—and it seems that Mr. Mills is among them—is a material phil-osophy. His theory as advanced in this discourse is as old as the hills, and his argument is familiar to every student of history. He makes conscience, judgment and reason the guide of life, and predi-cates salvation on the fact that these have been strictly obeyed, and so good-natured is he that if these do not save him, then he will "to hell cheerfully go." Mr. Mills is unfair, and gains nothing for his cause when he insinuates that ortho-dox churches believe in a "partial God revealed only to a favored few." for such is false, as he very well knows. God is no respecter of persons, and would have all men to come to him for life. The orthonox churches do believe that Christ was that he is essential to the salvation of the soul, "for there is none other name under heaven given among men whereby we must be saved." We do believe that he died for our sins, and that "by his stripes we are healed." We do not believe in artificial and pharisaical distinctions between the children of God and the children of the devil; but we do believe that God makes a distinction between those who lovingly obey him and those who willfully repel against him. Mr. Mills evidently considers himself wise above what is written, but he will hardly make himself as popular lecturing on "How I Became a Unitarian" as he did when he was evangelizing in the name of Christ and the orthodox churches, unless he introduces something new in his theories and arguments. Theories and philosophy that are worn trreadbare will not take the place of the word of God with those who are earnestly seeking to know

The Rebellion in Arabia. BOMBAY, April 12.-Ibu Rashid has recovered the Kingdom of Nejd, Central Arabia, after defeating Mabaronk, Sheik of Koweyt, who recently seized the City of Neid and deposed Ibu Rashid after a pitched battle. The army of Mabaronk was lured into a narrow gorge, where the hordes of Ibu Rashid swooped down from the mountains and overwhelmed their enemies. Fugitives who have reached Guimies. Fugitives who have reached Gulf ports declare that 5000 men were killed. The fate of Mabaronk is not known.

Golf at Eltham. LONDON, April 12.-Harry Vardon met

GROWING CHILDREN. The Period When the Nervous Activ. ity Is at Its Greatest.

The Home Doctor.

"Against the practice of giving tea and coffee to children, we cannot speak too strongly. Childhood is the period when the nervous activity is at its greatest. The brain is ever busy receiving new impressions. Reflex action, co-ordination of muscles, and the special senses are all under a special course of training.

'The nervous system is pushed to its utmost capacity, and long is the list of victims that follow its over-stimulation. In these little people nothing but harm can come from the use of such cerebral

stimulants as tea or coffee. Bad then, as this practice is, let us as physicians be aggressive in its prohibition.
"Do not be satisfied by answering 'No,' when asked as to its use, but let us teach the families with whom we come in contact that that such practice is sail. tact that such practice is evil. We speak emphatically, because not only among the poor and uneducated, but among the

rich, who should know better, this prac-tice is marvelously prevalent."

Children like a warm beverage for breakfast and it is well for them to have it if the drink is a food and not a drug. Postum Food Coffee is made to supply a rich, nourishing liquid food with a crisp coffee taste, for those who cannot and should not use coffee. Analysis shows it to contain about fourteen per cent of muscle-forming elements, and 66.11 per cent of energy and fat-producing elements, which go to nourish and sustain the delicate nerve centers throughout the body and from which the vital energy pro-

The supreme importance of proper food in place of drugs is not generally understood, but the success of child or adult depends largely upon proper sustenance for the body. Children who depend upon the intelligence of their elders to furnish them with good food deserve our most careful attention and thought upon this

James Braid today on the links at Eltham in a 35-hole match. Both played brilliant golf, and a splendid contest was brilliant golf, and a splendid contest was the result. At the end of the first round Vardon had a one-hole lead, the scores being 75 and 77. Vardon won the match two up and one to play. The second round was a tie, 74 to 74. Both the players showed phenomenal driving power, but Vardon was the most accurate. He won by several sensational punts at critical stages of the contest.

AMERICA'S RACE PROBLEMS

Discussed by the Academy of Political and Social Science.

PHILADELPHIA. April 12. - The fifth annual meeting of the American Academy of Political and Social Science began here today, and will continue tomorrow and tomorrow night. There is a full attendance of the membership of the academy. The general topic of discussion is "America's Race Problems," and the many phases of that subject were ably discussed today by men well known the country over. The annual address was delivered tonight by Professor Edward A. Ross, formerly of Leland Stanford, Jr., University, and now a member of the faculty of the University of Nebraska. on the "Causes of Race Su-Samuel McCune Lindsay, president of the Academy, preceded Pro-fessor Ross with an address reviewing the work of the Academy during the past

'At the opening session this afternoon, at which Malcoim Williams, of this city, presided the principal theme was "The Races of the Pacific." Those who spoke were Dr. Titus Munson Coan, of New York, on "The Natives of Hawail"; Rev. Dr. Charles C. Pierce, chaplain, U. S. A., on "The Races in the Philippines," and on "The Races in the Philippines," and Rev. Dr. Oliver C. Miller, chaplain, U.

Interscholastic Baseball Today.

The first of the Interscholastic League baseball games will be played this after-noon on the B. S. A. field at 2:20. The contesting teams are those of the Port-land High School and the Bishop Scott Academy. Both teams have been practic-ing hard during the past week, and are in good condition. They will line up as

HAYFEVER 10

EAM BALM

IT IS IMPORTANT

To Know What You Are Taking When Using Caturrh Medicines. Catarrh is the short route to consum; Hon, and the importance of early and judicious treatment of catarra whether located in the head, throat or bronchial tubes, cannot be too strongly

The list of catarrh cures is as long as the moral law, and the forms in which they are siministered, numerous and confusing from sprays, inhalers, washes, cintments, and salves to powders, liquids and tablets.

The tablet form is undoubtedly the most convenient and most effective, but with nearly all advertised catarris

remedles, it is almost entirely a matter of guess work as to what you are taking into your system. As the proprietors, into your system, as the proprietors, while making all sorts of claims as to what their medicines will do, always keep it a close secret as to what they are. The success and popularity of the new catarrh eure, Stuart's Catarrh Tablets. is largely because it not only cures ca-tarrh but because catarrh sufferers who tarrh, but because catarrh sufferers who used these tablets know what they are taking litto their systems. Stuart's Catarrh Tablets, being composed of Eucstyp-tol, Hydrastin, Gualcol and similar valu-able and antiseptic ingredients, and are pleasant to the taste and being dissolved in the mouth, they take immediate ef-fect upon the mucous lining of the threat. nasal passages and whole respiratory

The cures that Stuart's Catarrh Tablets have accomplished in old chronic cases of catarth are little short of remarkable, and the advantage of knowing what you are putting into your stomach is of paramount importance when it is remembered that the cocaine or mor-phine habit has been frequently contracted as the result of using secret catarrh

Stuart's Catarrh Tablets meet with fordial approval from physicians, because their antiseptic character render them perfectly safe for the general public to use, and their composition makes them a common sense cure for all forms of eatarrhal trouble. All druggists sell them, at 50 cents for the full-sized packages.

THE VIGORLESS

And Wenk Man or Woman Cannot Succeed in Life—They Have No Am-bition or Energy, and Their Brain is Clouded and intellect Dull—It Shows a Lack of Electricity in the

Shows a Lack of Electricity in the System—Dr. Benneit's Electric Belt Will Cure You, and the Cure is Gnarantecd—Read What the Doctor Says—His Book is Free, and You Should Have One.

Electricity, when the right current is applied in the right manner, will cure every phase and guise of Weakness in either sex. When you are Wenk, Nervous and Vigorless, when you have not that Vitality which makes MEN, the Electricity is fast dying out of your system, and before you can become a

you can become a BETTER MAN you must have it sup-piled. I have invent-ed a method of ap-pying Electricity ed a method of applying Electricity which will not fall. As a reward for my study, research and liscovery, the United States Government has given me the exchange use of my method of applying Electricity to the human system. My Electric Belt will cure you. You take no chances, the cure is guaranteed. If my Electric Belt falls to cure you (which is not at all likely), it shall not cost you a cent. Could sny offer be fairer than this? It should give you hope.

My new book on Electricity is free to everybody. You should have it.

How can a Weak man success in this ourself in the outself in the outself in the outself in the outself in the has no ambition, no energy. The Nerve Weakness is drawing the very Life itself from his frame. He has no nerve: no confidence. His humiliating position in the social life of his fellow-men is doubly realistic to him. I tell you—and I am honest with you—that there is not a drug known to science which will have the least effect upon these Weaknesses.

If you have an old-state helt which If you have an old-style belt which burns and blisters, send it to me as

Dr. Bennett's Electric Belt Is no experiment. It is the result of years of study on my part. You must not confound it with the many so-called electric belts now being offered the public. There are no electric belts "just as good" as mine, for there are noted like it. It has soft silken, chamois-covered aponge electrodes, which do not hurn and bilister as do the bare menal electrodes used on other makes of belts. My Bost can be renewed when burned out for only 75c; when others burn out they are worthless, Absolutely guaranteed to cure Varicoccele and all Weaknesses in either sex; restore Lout Vigor and Vitality, check Losses, cure Rheumstlasti in svery form, kidney, Liver and Blostder Troubles, Constipation, Stomach Disorders, Lame Back, all Fermis Compiaints, etc. My New Electrical Suspensory for the Perfect cure of all Weaknesses of Men Free to all Maie Patients.

DR. BENNETT Electric Belt Co. 8 to 11 Union Block,

Denver, Colo.
