The ordinance was approved on March 21, and this is the first violation of its provisions reported. It will be a test case, and it is urged by the defense that the ordinance cannot be enforced. Mayor Rowe called at the police station yesterday and complained that policemen do not enforce any ordinance, unless a complaint is signed. TRAVELED TO SEE & SIGHT .- J. E. Cope-land, a Walla Walla farmer, made a trip STRIKE clear to Fort Canby, Wash, to see the big lightship "travel through the woods" to Baker's Bay. He returned from the beach yesterday and considers himself well repaid for his time and expenses, as "she was a sight to behold." The big fir trees have been felled along her right of way, and the heavy timbers are being used as a foundation for the plank road, over which she is being rolled. The vessel's masts reach above the forest, and on one a flag is flying, which can be seen from afar. Four horses, hitched to as many capstans, furnish the motive power and the vessel moves so slowly that the spectator has to sight to a tree or stake

to discern any motion. He thinks An-drew Allen, who is boss of the job, is the most wonderful man he ever saw. between CANNOT RECOVER.-J. G. McGuigan, the Spokane mining man, who fell from a window sill of the Imperial Hotel last Saturday, cannot recover, although he rallied for the first two days after the dlers. accident and his physicians had hopes for him. Me Yow's counsel argued that his client was not aware that Hoare and Moore were was not aware that Hoare and abore were police officials, when the raid started.
