Change in Army Rations. A change was made in the Army ra-tions last month, pork being entirely eliminated. The new rations are divided under three heads-garrieon, field and traveling rations. In the garrison ration the allowance of sugar has been increased 20 pounds to every 200 rations. Fresh meat will be served seven out of 10 days, the remaining three, salt meat will be used. Dried, pickeled or canned fish can be substituted. Besides fresh mest, fresh and dessicated vegetables, four cereals, canned tomatoes, potatoes, onions, soft and hard bread, ten, coffee dried apples and peaches will be given. In the field rations canned tomatoes will be served the first day inwhead of the fourth, as formerly, and jam will be used instead of dried fruits. Wherever it is impossible to procure both fresh meat and vegetables, canned fresh meat and vegetable siew will be substituted. An emergency ration has also beer prepared under the direction of the War Department, which will be issued to the troops when engaged in active service. It is packed in a conveniently shaped package, and will be carried in the haversack or saddlebags.

SHEEP CHANGE HANDS.

Baronett, the English-man for whom a fortune is waiting in England. Steele is positive that he can find the missing heir, who, he says, was his old comrade in the Puget Sound country and in Alaska.

Baronett has fallen into a fortune of about a quarter of a million dollars through the death of a brother in the Boer War. A check for \$5000 is in the hands of William J. Seymour, of Tacoma, to pay his expenses back to England. "Doubtiess Captain C. J. POSTOFFICE MUST ALSO MOVE. Effect of Sale of Thurston Courthouse for State Capitol.

OLYMPIA, April 16.-Consequent upon he state's purchase of the Thurston County Courthouse, the Commissioners of this county are laboring to select a site for a new building, and discussing plans as to the cost of the new structure. Many propositions have been submitted to the oard, some of the offers made being in board, some of the offers made being in the form of business buildings already erected and now occupied. It is expected, that the question will be definitely set-tled this week.

Another matter of a similar nature that is causing considerable interest in this city is the location of the postoffice. The postoffice is now in the Courthouse, but like the county offices, a new location must be found. It is generally thought the postoffice will go considerably further down town, into the business district

SECOND PLANT OF ITS KIND FOR SALEM THIS SEASON.

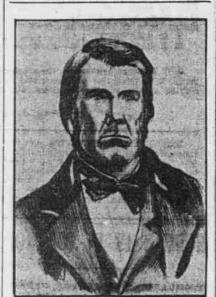

May Be Operated on the Exchange Plan, Which Is Much Desired by Farmers.

SALEM, Or., April 16 .- The farmers of this vicinity are in a fair way to get what their wheat is worth in Salem this season, for there will be two competing flour mills in this city before the present crop is harvested. The Salem Flouring Mill Company has already begun the erection of a new mill on the site of the one that burned two years ago, and today Bryant and Reeves, of Aumsville, bought property on Church and Trade streets, which they will build a mill. The fully known, but they are practical flour-ing mill men, and it is stated that they will not only mill grain, but will also grind wheat for the farmers on the exchange plan.

For a number of years the Salem Flour. ing Mill has refused to do an exchange business, and the farmers have not been satisfied with that arrangement. A second mill doing all kinds of business and in competition with the old mill will have a tendency to keep up the price of grain. As Salem will therefore afford a better market for grain, farmers from outlying districts will come here with their product and do more of their trading here.

AN OREGON PIONEER OF 1846. William Edger, Who Recently Died at His Home Near Marion.

SALEM, April 16.-William Edger, an Oregon pioneer, who died at his home near Marion April 10, 1901, was born in Aleghany County, Va., March 7, 1810. In 1835 he was married to Phoebe Deeds,

and the same year moved to Indiana, Ten years later he returned to Virginia and in 1846 came to Oregon. He took up a donation land claim 13 miles south of Salem and spent the remainder of his days in that vicinity. Four children were born to the Edger family, three of whom are still living, Rankin Edger, Mrs. Farlotte Crabtree and Mrs. Darinda Robbins, all residents of Marlon, in this county. Mrs. Edger died June 22, 1888, aged 82 years.

Mr. Edger was one of those hard-work-ing, frugal, industrious ploneers who did much to develop the agricultural resources of the Willamette Vailey. Caring nothing for public life, he was known best for his honest dealings with his fellow-men, his interest in the welfare of his own community, and his success in his chosen occupation. While courting no public no-tice, he was well known to all the early residents of Linn, Marion and Polk Coun-

ALASKA TOWNSITE TRUSTEE. Indications Are That None. Will Be

Appointed for Wrangel. WASHINGTON April 12 -The citizens of the town of Wrangel. Alaska, are having considerable difficulty over the selection of a townsite trustee; and owing to their inability to get together in support of some one individual, no appointment has been made. In fact, there are indications that no appointment will be necessary, and if this turns out to be the case, the Interior Department will be greatly relieved.

Some time ago the townsite survey of Wrangel was completed and approved by the General Land Office. Then arose the question as to who should be appointed townsite trustee. In a sense, such a trustee is a Mayor and City Council combined. That is, he has charge of the disbelonging to the Government, makes deads and such other instruments of transfer of property, has charge of the laying out, construction and widening of streets and alleys, and similar duties.

When the question was laid before the citizens of Wrangel there was quite a contention over the candidates. A number of names were presented to the de partment for opinion and selection. was found that those who highly extolled one candidate, bitterly denounced another. BROKE THE RECORD.

Mail Sent From Circle City to Valdes by All-American Route. WASHINGTON, April 16.—Reports re-ceived at the Postoffice Department show that mail which left Circle City, Alaska, March 4 for Valdes, by the all-American route between those points, broke the time record. The distance was made in 13 days and four hours, which is three hours faster than any previous trip. The Post-office Department is steadily developing the service along this all-American route, and has reduced the time between Cirole City and Valdes from 30 days to a little over 15 days, with a proportionate improvement along the rest of the way

Better equipment has been sent to the stations there recently, and while it has not yet been deemed best to divrt the let-ter mail thence from the older route over Canadian territory, via Dawson, that probably will be done in the future. Mining interests in the Copper River country, according to the latest official advices, are likely to tempt an influx of population that will justify especial attention

The Lewis and Clark Centennial Exposition to be held in Portland in 1905 is already attracting attention in this state and in the Inland Empire. Many have signified their intention of arranging exhibits from this section and the work of treasuring for the exposition has bea 10-mile gait. The gathering on May 2, 1901, will be greatly different from that which history at Champoeg, on May 2 1843, and yet the assemblage next month will have many of the characteristics of a ploneer event. All persons who attend will find organizing for the exposition has beit necessary to carry lunches or go hun-gry. But

So far as can learned, there has not been much change in the landscape at Champoog in the past 58 years. At that sion of the state lawmakers, and what work is done previous to that time must place French Prairie extends westward to the Willamette River, and is the only place for many miles where there was by those who are willing to give their ef-forts without the substantial influence of not in the early days timber on the river bank. Colonel Frank J. meeting tonight 20 citizens presented a re-monstrance against permitting bicycle riding on the south side of State street, in the business section, and urged the Counell to prohibit bicycle riding on any side walk between May 1 and October 1. Fina action was postponed one week. The rec ommendations of the two citizens' meet, ings, one favoring and one opposing the occupation tax, were received, but no ac-Washington Land Case Decided.

WASHINGTON, April 12.—The Secretary of the Interior has affirmed the decision of the General Land Office canceling entry of Julia Joyce to a tract of land in the Waterville land district, Wash-ington. It seems that this party was permitted by the land officials at Waterville to locate a military bounty land warrant of 160 acres, as a private entry in that district. The proceedings being irregular, the entry was necessarily canceled. Military Orders.

Makes Happy Homes happy. We have spent \$150.00 with doctors to bring us a child, but have always failed.

But on hearing of your Wine of Cardui I decided to try a bottle. I was surprised to find it to be just as it was represented and it was just what I needed. I became pregnant and expect to be confined in two or three months.

We have been married twelve years and have done all we could to make our home

Marriage, which does not culminate in motherhood, is a travesty on wedlock. It makes a home barren and desolate that ought to be happy. But careful investigation proves that actual barrenness is rare. Many women are denied the happiness of children in their home on account of some slight derangement

would cure. Instead of enjoying the privilege of motherhood many thousands of good women are languishing on beds of sickness, suffering dragging menstrual pains, the agonies of falling of the womb and the distress of leucorrhoea. Mrs. Lawrence had the same experience, but she was cured by Wine of Cardui, the same great medicine that has made many thousands of barren homes happy. You can be cured. Wine of Cardui regenerates the weakened female organs by building up the worn-out nerves, regulating the menstrual flow and restoring the fallen womb to its proper place. In strengthening the generative organs and reinforcing Nature's functions Wine of Cardui rarely fails to make childbirth possible. Your home can be a happy home. All druggists sell \$1.00 bottles of Wine of Cardui. Take no substitute!
