METROPOLITAN-Meneley Trio Concert Co. IMPORTED AND DOMESTIC FISH.—A number of small-sized black bass were exposed for sale in one of the markets of this city yesterday, labeled "the scarcest fish here, & cents per pound." They came from near Spokane, it is said. As it is not allowed to sell Oregon trout, and the importation of trout from other states is prohibited by law the market mee have as prohibited by law, the market men have had to fall back on black bass. One of them remarked that probably the sportsmen, as soon as they could, would have the importation of black bass from Washington and striped bass from California prohibited. Only true sportsmen, in this state, stand any show of having game or trout to est. They may perhaps get a blie or bit of salmon in the season, and can have carp and suckers almost any is prohibited by law, the market men have can have carp and suckers almost any time, and many are rapidly overcoming their objection to bones and are taking to eating shad, which they find a most ex-cellent fish. As yet no laws have been passed for the protection of shad, and they are likely to be plentiful for years to come. Some 10 boxes, about 1000 pounds in all, were received here yeaterday, among them some fine large ones, and a few roe shad. Catfish are com-ing into general use here, and are plen-tiful. There are some black bass in the Willamette, but they are not numerous enough yet to cut any figure in the mar-

Sheridan passenger train which leaves the orner of Fourth and Stark streets at P. M., going south, is crowded to its utmost capacity during the first few miles of its journey, as quite a number of business people who live in the neighborhood of Bertha alight within a few min-utes, and thus leave vacant seats. The scramble, however, is pretty lively as these passengers board the train at Stark street, because nobody desires to stand up and hold parcels for even the few miles ride. A good many take the cars at the Grand Central Station and thus forestall the Stark-street patrons, who have no time to travel clear to the terminal grounds just for the sake of a seat. One of these passengers, who usually has to stand up, all the way to Bertha, was heard to remark recently: "The company won't put on an extra coach for us short-ride fellows, and so we have become used to standard."

U. S. GRAND JURY DISCHARGED.—The gratulating themselves. They are getting United States grand jury completed their 50 to 65 cents per cental for them, and labors at 4 P. M. yesterday and were they are going like hot cakes. The steampaid off and discharged. They have had some 18 cases under consideration and have returned a number of true bills, which have not yet been reported for obvious reasons. In addition to the true bills found against Louis Dodson, George Duffy and Thomas Duffy, indicted for having in their possession and passing counterfeit money, a true bill was returned in the case of Larkey L. Logan, a Siletz Indian charged with stabilities land Slietz Indian charged with stabbing Jack Spear, November 5, 1990. The indictment against Logan submitted to the previous grand jury was found to be defective and Logan was kept in jail here until a new grand jury assembled, and they have found a true bill against him.

REMARKABLE QUISTION. - The present condition of many of the streets of this city, as regards dust, is, if possible, worse than ever before. There was practically no scraping of streets last Winter, so all the mud has been left to form dust, and there is enough to "go 'round," and it goes whenever there is a breath of wind. Talk is cheap, but it takes money to keep streets clean or aprinkle them, and there is but little in the street-cleaning and sprinkling fund. A stranger who was yesterday enveloped in a cloud of dust such as is sometimes seen on the great Desert of Sahara, asked a native if it ever rained here. Such is life.

The prospect is that but few eggs will be collected for the hatchery on the Clackamas this year. The fishermen down the river would like to catch all the salmon if they could, but if any get away, they would like to see them utilized for breeding purposes. The fishermen at Oregon City are bound to catch all the salmon which reach the falls, and only wish that there was a similar obstruction in the Clackmas. When a salmon ch-

The commit-tee having in charge the proposed carni-val to be held this fall met with the directors of the Multnomah Club last even-ing, and discussed the advisability of leas-ing the club grounds in connection with the Exposition building as a place for holding the carnival. The Exposition building has already been secured, and the committee made known their desire to lease the grounds if they could be secured at a fair rental. After considerable desat a fair rental. After considerable des-ultory discussion the club directors agreed to submit a proposition at a joint meet-ing to be held next Monday night. The Smallpox Case.

Except in the immediate neighborhood the smallpox patient in the Geil family, in the house on the corner of East Sixth and Belmont streets, causes little appre hension. The warning flag floats from the corner, but people continue to pass without any apparent fear, although no one calls on the patient. Book agents and peddlers do not worry him nor the rest of the family. People of the neighborhood, however, are a little nervous over the proximity of the case to their homes. The case is 'mild in form and the house is quarantined.

"The Strollers" at Cordray's

"The Strollers," presenting vaudeville as it is seen in New York, will open at Cordray's theater Sunday.

"The Strollers" have not only nine great acts selected from the best European and American vaudeville stars, but are managed by Mr. J. F. Crosby and Miss Inez Forman, both prominent in New York and Denver re-

Not only will La Loie produce all her maryelous creations here, but she is marvelous creations here, but she is consideration, it is little wonder that the critics along the route she has traveled thus far speak in glowing terms of her performance and of the splendid company with which she is surrounded.
