

THE CAMBRIDGE MURDER

STATE LOST ITS FIRST POINT IN THE EASTMAN CASE.

Evidence of a Witness of the Affidavit Trial of Callahan, the Alleged Kidnaper.

CAMBRIDGE, Mass., April 24.—The prosecution lost its first critical point today in the admission of evidence against Professor Eastman, of Harvard College, who is on trial in the Superior Court, charged with the murder of his brother-in-law, Richard Grogan, Jr., when Judge Gaskin stated that certain evidence in the form of a receipt of the statement alleged to have been made by Grogan as he was dying was not admissible in a certain form which tended to convey an opinion and not the fact as to whether he (Grogan) had been "killed" or "murdered."

AN INSANE IMPULSE.

Bloody Work of an Electrician at Portland, Me.

PORTLAND, Me., April 24.—A bloody tragedy occurred this afternoon on the fourth floor of the building occupied by the New England Telephone Company. George H. Brainard, a foreman electrician who has been employed by the company almost 20 years, while chatting with his fellow workmen, whipped out a .38-caliber revolver and opened fire on the party around him. He is believed to be an expert marksman, for in a brief space of time he killed one man outright, fatally wounded another man and probably fatally wounded two others. The longest record from New York to Hawaii.

TRIAL OF CALLAHAN.

Edward A. Cudaby and His Son on the Stand.

OMAHA, Neb., April 24.—After the jury in the Callahan case had inspected the scene of the kidnapping, the trial of Edward A. Cudaby and his son Edward, took the stand and the latter's testimony was not concluded when court adjourned. Through Cudaby described the journey to the house on Groves street and related at length his conversations with his father, who is thought to have been the chief with-out exception of the state. Cudaby admitted the conversation in Chief Donahue's office between the chief and Callahan and the identification will rest on a recognition of voice rather than any similarity of features. The examination of the elder Cudaby, the purpose of the defense was brought out to show the father had surrendered the keys without compulsion. The state follows the allegation in the complaint set forth that a robbery was committed when the gold was extorted from Cudaby through threats on his son's life. Cudaby conceded that he gave the money freely without expectation of getting it back.

Shooting Affray in Courtroom.

CHICAGO, April 24.—Two men will die as the result of a shooting affray that occurred in the Harrison-Street Police Station courtroom just after court had adjourned today. The slain men were Policemen William Messenger and Richard D. Houghtaling. Houghtaling, who was formerly employed as a motorman on the Lake-Street Elevated, had been in altercation with the policeman on the street a short time before the shooting. He had been drinking and the policeman who claimed that Houghtaling had been following them. Houghtaling had been taken into court and released and as he was leaving the building he approached Messenger. The state followed the shooting. Messenger, who was struck by two bullets, drew his own revolver, shot Houghtaling and fell unconscious. Other policemen joining the fray, shot Houghtaling probably 50 shots, and when Houghtaling fell in the hallway leading to the courtroom he was injured by five bullets. Both men were taken to hospital, and it is said that both will die.

Navajo Chief Murdered.

DENVER, Colo., April 24.—A report has been received at Army headquarters in this city, from Lieutenant Colonel L. Woodhouse, commanding Fort Wingate, N. M., of the killing of "Thomas," or Hosten-Bo-Cuddy-Begay, a head man of the Navajo Indians, by three men of his tribe. A party of soldiers discovered blood and other evidence of a murder about seven miles southwest of Fort Wingate. Pursuing the trail they overhauled "Thomas" mother, wife and two children. They said that Josie Pardoney, Chibe Pardoney and Juan Corby had killed the chief with a knife and an ax after a dispute over a pony trade, and had buried the body on a high mesa.

Tried to Wreck a Train.

SAN ANTONIO, Tex., April 24.—The south-bound International & Great Northern passenger train was wrecked this morning at Davenport, 16 miles north of here, supposedly by robbers, who threw the switch. A posse with bloodhounds is scouring the country to apprehend the miscreants. Engineer Pat Monahan was fatally injured, and Fireman W. H. Hicks killed. Attorney C. Goeth, of San Antonio; E. D. Keylick and E. J. Stanley, railway mail clerks, of San Antonio, and Miss M. Moran, of Killen, Tex., were bruised and cut.

Satisfied With His Gallows.

SLATTON, N. M., April 24.—Tom Ketchum, alias "Black Jack," the famous bandit of the Southwest, arrived here today by special train over the Colorado & Southern Railroad, in charge of Sheriff Garcia and 30 guards. The prisoner was immediately taken to the County Jail, where, at his request, he was allowed to inspect the scaffold from which he will be hanged Friday. He expressed himself as well pleased with it, but said he would like to have the stockade taken down, so that the boys could see him hanged.

Used Mails to Defraud.

KANSAS, Mo., April 24.—In the Federal Court here, Stephen A. Wetmore and Joseph H. Kelly, president and secretary, respectively, of the Wetmore Institute of Magnetic Healing, at Nevada, Mo., pleaded guilty to the charge of using the mails to defraud. Sentence has been reserved. The institute advertised to heal "all diseases known to man or woman."

HAY AND PAUNCEFOTE

THE CANAL PROJECT DISCUSSED AT THE STATE DEPARTMENT.

Rumor of a Pool by Shipbuilders to Control Government Business Is Denied.

WASHINGTON, April 24.—Lord Pauncefoot, the British Ambassador, was in conference with Secretary Hay at the State Department today for an hour. In view of the approaching absence from Washington of Secretary Hay, the Ambassador was desirous of disposing of pending matters of business. But the important subject of discussion was the canal project.

SMALLPOX ON A TRANSPORT

The Kilpatrick Quarantined in Honolulu Harbor.

HONOLULU, April 24.—The transport Kilpatrick arrived here on April 13 from San Francisco, with two cases of smallpox on board and several cases of mumps and measles. She is in quarantine outside the harbor, and will not leave Honolulu until she has been thoroughly cleaned and fumigated. All the soldiers on board will be transferred to another vessel while the steamer is cleaned. The Honolulu Board of Health has refused to allow the men to be landed here, as proposed by the Army officers, and the latter will probably charter the schooner Mary F. Foster as a hospital ship to quarantine the men while the transport is freed from danger of further infection. Lieutenant Thoms M. Cobb, Jr., of the 10th Infantry, one of the smallpox patients, landed at quarantine island from the transport Lawton, died early on the morning of April 13. He was taken ill while on the way from Manila.

SHIPYARDS POOL.

Warship Builders Declare There Is No Combination.

SAN FRANCISCO, April 24.—Irving M. Scott, of the Union Iron Works, stated to the Associated Press today that he knew nothing official regarding the reported consolidation of the Union Iron Works, the Bath Iron Works and the Newport Shipbuilding & Dry-Dock Company and the Crescent Shipyard. "Such a pooling of the shipbuilding interests," said Mr. Scott, "has been spoken of for several years past, and periodical reports to the effect that the deal has been consummated appear in the papers, but so far as I know nothing official has been done in the matter recently and I would surely know if the consolidation had been perfected."

NEW YORK, April 24.—The Journal of Commerce says:

Mr. Nixon was questioned last night about a report that he had been building a pool of interests with other shipbuilders in Government contracts. He said: "About a year ago many of the big firms operated in an anti-trust manner, would work for the Government and that of their men. The object in view was not to avoid competition by any means. The firms simply sought to distribute the work so that a contract would be placed with a firm best qualified to do it, and to devise a plan by which the overflow work from the big concerns could be evenly distributed among the smaller ones. That plan is in about the same condition as it was a year ago."

Prize Money Suits.

WASHINGTON, April 24.—The suit instituted by Admiral Dewey and other officers for prize money for the capture of the Spanish vessels, Don Juan de Austria, Isla de Cuba, Isla de Luzon, Manila, Rapido, Calino and other property, adjourned in the Court of Admiralty. The action is for the condemnation in prize of the captured vessels, Don Juan de Austria, Isla de Cuba, Isla de Luzon, Manila, Rapido, Calino and other property, and the naval stores in the Cavite naval station and the captured cascos. The United States has admitted, in general, the allegations of this libel suit, but called for proof of the details. The answer of the Government is a general denial that the claimed property, with certain exceptions, is property subject to condemnation in prize. The hearing began yesterday, counsel for Admiral Dewey and his associate claimants contended that the court should decree to the captors one-half of the net proceeds of the property claimed. Charles G. Binney, special attorney for the Government, opposed this claim.

St. Louis Fair Commission.

ST. LOUIS, April 24.—The Louisiana Purchase World's Fair National Commission met today with all the nine members present, and completed its permanent organization. Ex-Senator Thomas H. Carter, of Montana, was elected president, and Hon. Joseph M. McKim, of Missouri, secretary. Mr. Flory was the Republican candidate for Governor at the last election. The organization of the local world's fair corporation will be completed tomorrow, on receipt from the Secretary of State at Jefferson City of the certificates of incorporation, application for which was filed there today. William I. Buchanan, director-general of the Pan-American Exposition, is prominently mentioned for the same position with the Louisiana Purchase World's Fair, D. R. Francis, chairman of the world's fair executive committee, says that Mr. Buchanan's name had been considered in an informal way.

Measles Among Cavalrymen.

LEAVENWORTH, Kan., April 24.—An epidemic of measles has broken out among the members of the Fourteenth Cavalry, at Fort Leavenworth, and it is feared that the disease will practically disable the regiment for a time at least. Forty men are now in the hospital, and new cases are appearing daily. The disease is in a mild form, and no serious results are anticipated.

Mustered Out Volunteers.

WASHINGTON, April 24.—General Shafter, at San Francisco, has notified the War Department that volunteer regiments which recently arrived at that place from the Philippines will be mustered out at San Francisco as follows: May 6, Thirty-ninth Infantry; May 8, Twenty-second Infantry; May 10, Twenty-ninth Infantry; May 13, Twenty-sixth Infantry. No dates have yet been fixed for the muster-out of the Twenty-eighth and the Twenty-fifth Infantry, which recently arrived at San Francisco on the transport Thomas.

Known in San Francisco.

SAN FRANCISCO, April 24.—Baldwin and Fred Macondray, who are detailed as witnesses in the Manila commissary fraud cases, are well known in San Francisco. Baldwin was United States Marshal here during President Cleveland's term, and was a prominent business man. Macondray is a member of the big importing firm of Macondray & Co., and went to Manila to establish a branch house.

Mosquito Fleet at Cavite.

WASHINGTON, April 24.—A cablegram received at the Navy Department today announced the arrival of the mosquito fleet at Cavite, Philippine Islands. The four vessels of this little fleet will be utilized in patrolling the coasts of Luzon and the lower portion of the Philippine group.

Women Taxpayers May Vote.

ALBANY, N. Y., April 24.—Governor Odell today signed the bill authorizing women taxpayers in villages and towns to vote on propositions to expend money for public purposes.

COAL LAND LAWS IN ALASKA

Inoperative Because People So Will Industry Not Suffering.

WASHINGTON, April 19.—Although by act of Congress of June 6, 1900, the coal land laws of the United States have been extended to Alaska, little benefit has yet been derived there. The provision of the law applicable to the territory allows persons and associations lawfully possessed of coal lands to apply for patents thereon. The law also provides that the township surveys proposed to be surveyed is within the range of the regular progress of the United States Government. The law also provides that the township surveys proposed to be surveyed is within the range of the regular progress of the United States Government.

ALERTED CONDITION OF THE NECK OF THE WOMB

Can you produce all of these symptoms, and no woman should allow herself to reach such a perfection of misery when there is absolutely no need of it. The subject of our portrait in this sketch, Mrs. Williams of Englishtown, N. J., has been entirely cured of such illness and misery by Lydia E. Pinkham's Vegetable Compound.

NO OTHER MEDICINE HAS SUCH A RECORD FOR ABSOLUTE CURES, AND NO OTHER MEDICINE IS "JUST AS GOOD."

Women who want a cure should insist upon getting Lydia E. Pinkham's Vegetable Compound when they ask for it at a store.

THE PERFECT MAN.

I am peculiarly drawn toward Jesus the human-up and down, like myself, and divinely alone in him would be overwhelmed me.

As long as Christianity gives man the 13th chapter of First Corinthians a photograph of what is a Christian is a winning force in the world. Its essence is not loyalty to a creed which changes, but to a person the same today as when he trod in Palestine. Of course, our conceptions of him change and we have a larger Christ; Christianity is goodness, and the world needs goodness more than knowledge. The Christian is a rationalist; he subjects his belief to the tests of reason; he is an evolutionist, for he passes from his birthday conversion to the endless progress in heaven, and he is an agnostic, for he reads, "We know in part," (yet he knows) and "It doth yet appear what we shall be." Surely Mr. Mills must not overlook Christianity in formulating a new religion, and he must see that Christian notions are the sheep of time and take the right, while non-Christian notions, the goats, have the left.

A UNIVERSAL RELIGION.

Rev. J. B. Hoadley Recommends Christianity.

PORTLAND, April 22.—(To the Editor.)—I listened to Mr. Mills while he was speaking recently in Portland, and will permit me to recommend Christianity as being competent to become a universal religion? In the first place it offers the world Divinity in its founder. See the darning of his words, "Come unto me," "I am that bread of life," "I am the door," "I am the true vine," "I am the good shepherd." See the darning of his plans! His conception took into itself the content of the globe of knowledge of the world's perfect man. Perfect! Who else among men is perfect? Our heroes fall from their pedestals when we come near them. Luther in Germany was not a man in Jesus Christ the more beautiful he becomes, the stronger he is. He combines strength and beauty in his character. A woman as well as man finds a model in him.

Positively cured by these Little Pills.

They also relieve Distress from Dyspepsia, Indigestion and Too Hearty Eating. A perfect remedy for Dizziness, Nausea, Drowsiness, Bad Taste in the Mouth, Coated Tongue, Pain in the Side, TORPID LIVER. They Regulate the Bowels. Purely Vegetable.

Small Pill. Small Dose. Small Price.

THEIR SPECIALTIES

Deafness, Catarrh of the Head, Nose, Throat, Bronchial Tubes, Lungs and Stomach, Disease of the Liver and Kidneys, Blood and Skin Diseases.

CONSULTATION FREE

Great numbers of people suffer from the malign poisons of catarrh, as from other subtle chronic maladies, without any correct or definite idea of the nature of their affliction. The symptoms above have been carefully arranged by Doctor Copeland to enable many sufferers to understand just what it is that ails them. The proper course for sufferers is this: Read these symptoms carefully over, mark those that apply to your case and bring or send them to Doctor Copeland. Consultation free of all charge.

Pen Picture for Women.

"I am so nervous, there is not a well inch in my whole body. I am so weak at my stomach, and have indigestion, and palpitation of the heart, and I am losing flesh. This headache and backache nearly kills me, and yesterday I nearly had hysterics; there is a weight in the lower part of my bowels bearing down all the time, and pains in my groins and thighs; I cannot sleep, walk or sit, and I believe I am diseased all over; no one ever suffered as I do."

This is a description of thousands of cases which come to Mrs. Pinkham's laboratory for advice. An inflamed and
