

After Discussing the New Redemption Law, They Prepare a List of Pertinent Questions.

The County Judges and Commissioners Association are still considerably at sea. and asked some very important ques-tions of the people of Oregon, at their meeting in Judge Cake's chambers yes. terday. The meeting was not a large one, as but seven counties were repre-sented, but the officials of other counties had sent word that they would have been present had not circumstances prevented. The outcome of the proceedings will be watched with interest by the Judges and Commissioners all over the state, as the problems debated concern the disposal of lands bid in by the Judges at delinquent tax sales

There were present Judges J. H. D. Gray, of Clatsop; J. B. Doan, of Colum-bla; H. M. Palmer, of Linn; A. G. Bartholomew, of Morrow; W. M. Cake and Commicsioner Showers, of Multnomah; John Fulton, of Sherman, and George A. Hart. man, of Umatilla. Judge Bartholomew acted as chairman and Judge Fulton was named secretary. Apologies for unavold-able absence were received from Judge Thomas F. Ryan, of Clackamas; E. Woodward, of Benton; H. R. Kincaid, of Lane; J. F. Stevens, of Malheur, and George C. Blakely, of Wasco.

Since 1889 County Judges have been bidding in lands at delinquent tax sales in behalf of their respective counties, but were not empowered to dispose of these anless the owners decided to redeem them. The Legislature of 1901 undertook to empower the Judges to sell these lands to the highest bidder for cash, but left the matter of back taxes in such doubt that this meeting was called to discuss the proper mode of procedure.

Judge Cake said he saw nothing in the new law that would prevent the sale of lands for the full amount of back taxes, and that County Judges could bid them in for their respective counties, provided outside bids were not high enough to cover the accumulation of charges. He suggested that this mode of procedure gone through with after July 1, 1901, when the new law goes into force. He saw nothing to prevent County Judges from buying these lands year after year, so long as individuals did not offer the ent sum in full.

Junge Gray, of Astoria, felt very much relieved on hearing Judge Cake's opin-ion, as he feared there had been a putup job in the last Legislature, to en-able brokers to obtain title very cheaply to lands already bought up by Clatsop County. The annual purchases of de-linguent lands in his county since 1889 now aggregate about \$70,000, he said, and if his county were compelled to relinguish title to these lands at a tithe of their value, the loss to the property owners of Clatsop who do pay their taxes would be very large.

Judge Hariman, of Pendleton, differed with Judge Cake, and thought the act of 1901 would be declared unconstitutional on account of a technical error in the wording of the title, which should have covered the whole matter in the body of the act. As to bläding on the same kend, bid in at a previous sale, he con-midered that impracticable. "We own sidered that impracticable. "We own the land now, and how can we buy it he asked. again?"

Judge Bartholomew did not consider Morrow County very much interested in the matter, as there are no delinquent taxes to speak of, property owners coming forward punctually as a rule. He took to remark that his county is unhampered by delinquent tax lists, but is niso very nearly out of debt, its outstanding warrants having been nearly all called in. He could not see, however, how County Judges could bid in property at Sheriff's sales hereafter, with. offering the ready cash, as the recent law provides that such sales shall be nade for cash only. Judge Cake said: "The land already

owes the county the cash, so there need be

ODD FELLOWS' ANNIVERSARY

Celebration by the Lodges and Encampments of Portland.

The \$2d anniversary of the founding of the Independent Order of Odd Fellows in America was celebrated by the lodges and encampments of Portland at I. O. O. F. Hall last evening. The anniversary ceremoney, detailing the history of the found. ing of Odd Fellowship in Baltimore in 1819, was given by S. W. Stryker, the chairman of the meeting, and S. C. Catching,

Thomas C. Devlin delivered the anniver-sary address. He said: "The 82d anniver-sary of the founding of Odd Fellowship in this country is a time for Fetrospec-tion, for the review of work done. Odd Fellowship, having its origin in England, has grown to be an American institution. It is based on the principle of doing for people in need to the best of one's ability, caring for the sick, and helping the widows and orphans. During its history the order has never failed to exercise be-nevolence and charity, and all the qualities carried by the meaning of those words. The Portland University building, with its campus and as much ground as may be required, will be donated free of charge for a site for the Lewis and Clark Centennial of 1905. This announcement was made by Francis I. McKenna, at an effthusiastic meeting of the Peninsula thusiastic meeting of the Peninsula Sub-Board of Trade, held last night at Uni-versity Park. The purpose of the meet-ing was to take action on this donation and to press it upon the attention of the Fair Commissioners. P. Chappelle Browne, president, presided. Business was taken up at the start, and the follow-ing declaration of the residents and prop-erty-owners of the Peninsular, was adopted: adopted:

Whereas, There is no doubt that the United States Government will furnish several war-ships for the occasion to be anchored in our harbor.

Whereas, University Park is the only place near Portland otherwise suitable for the ex-position that furnishes a view of the harbor and the whole city, and where ships passing to and from the ocean can be seen from any to and from the ocean can be seen from any part of the grounds, and where a perpetual panorama formed by a magnificent sweep of the Coast and Cascade Mountain ranges, set with the unsurpassed beauty in the mighty presence of Mounts Hood, St. Helens, Adams, Rainier and Jefferson, the only place from where all these perpetual snowcapped peaks can be seen and our lakes of unsurpassed beauty.

Whereas, The use of a four-story stone and brick building at University Park, along with ample room, can be had free of charge, which

will save the people of Portland \$50,000 or more under the cost of any other location. Whereas, The O. R. & N. Co. offers to handle the business of all railroads not entering University Park for a nominal consideration, and that the Northern Pacific has filed its declaration of intention to build to Partland by way of University Park, and that the Portland Street Railway Company will build to University Park if the exposition be held there, and that the river boats can land their passengers in the exposition grounds, and that two wide boulevards approach the proposed site from opposite directions, and altogether University Park can offer better inducements in the way of transportation facilities than

no cash in the transaction." Judge Gray had been in the habit of tendering county warrants to the Sheriff for these lands, and these warrants would be immediately cancelled. He had followed this course at the advice of the leading attorneys of Astoria.

The respective problems were not solved the debate, and were condensed into the following queries:

In the law on page 71, of the statutes certain duty?

Does said act authorize Sheriffs to sell lands for the dolinguent taxes of several previous years, other than those which the county has purchased at tax sales, where time for re-

emption has not expired? Can a county bid on land at Sheriff's sales, where such lands have formerly been bid in by such county?

These questions will be submitted to two or three well-known law firms for

The meeting was in favor of going ahead with the delinquent tax sales at the proper time, and of tacking all the unpaid taxes of previous years to the sum to-tal. When outside bidders do not reach these figures, the Judges will bid in the property, thus protecting the proper owner from the broker, who would oftentimes obtain title and speculate on the property to the detriment of both county delinquent tax payer.

Shermon County reported a very small smount of county lands on hand. Multno. County has none to speak of, as very few purchases have been made by the County Judges, and what were have been redeemed. Delinquent taxes and non-paid mortgage taxes may be effected orking of the law, however, to the tune of \$200,000.

Umatilla County has \$8000 worth and Linnn County \$2500 worth in the '98 tax roll. Judge Palmer was not advised as nts on hand from purchases made by his predecessors.

The convention adjourned at 5 P. M., to await the call of the chairman, and the visiting Judges prepared to return to their homes. Each expressed himself as feeling benefited by the debate, and considerably relieved of anxiety over the matter, as much depends hereafter on the workings of the law in regard to clearing up delinquent taxes.

TURN GRAIN TO PORTLAND.

Tramway Under Construction Southern Whitman County.

COLFAX, Wash., April 26 .- Aaron Kuhn, merchant and grain-buyer of Col-fax, this week began the construction of a tramway for handling grain down the Snake River bluff at Wawawai, in south-ern Whitman County, which is expected to divert from Pullman and points south on the Spokane & Palouse Railroad 150,000 or 200,000 bushels of wheat annually, which without the tramway would natur ally find its way to the Northern Pacific branch road and Puget Sound ports. On completion of the tramway farmers adjacent will beable to save long hauls and the

great labor of wagon trips from the plateau to the river and return up the weary five-mile hill, with an elevation of from 100 to 2000 feet above the river. This grain will then all naturally reach 'Portland down the Snake River and the con necting O. R. & N. line,

Two warehouses will be built by Mr Kuhn. One will be at the river's bank 60x150 feet, and the second at the head of the tramway, 50x80 feet, 4500 feet dis-tant from the lower house and 1600 feet above it. The cable will be 9000 feet, or nearly two miles in length, and will carry 150 bushels, the descending ones each car-rying a sack of grain and furnishing all necessary motive power. One revolution an hour, transporting 150 sacks will be the capacity. The tranway will be com-pleted in time to handle this year's crop.

It is accessible from a large scope of th finest Palouse wheat lands, and is expected to handle not less than 250,000 bush els annually, half of whic hwil be diverted from Pullman and other railway stations

Look carefully into the state of health of the individual who knows that "coffee don't hurt men." and you are almost sure to find some form of physical all or functional disturbance-perhaps muddy complexion, or weak eyes, incipient heart fail-ure, kidney trouble, liver or bowel dis-orders, or some form of weakness that shows plainly enough by the cry for re-lief sent up from some organ of the body

Why does the dismissal of coffee and the use of Postum bring help? Experiments in artificial digestion show clearly to the scientific investigator that coffee ar rests digestion, and according to one au thority, allows only 61 per cent of the food to be digested. That strikes at the very key-stone to the arch of health. Failure in digestion means lack of good blood, and therefore a lack of food for the nerve centers. As the nerves control nerve centers. As the nerves control the organs of the entire body, one can readily understand that a disorganized nervous system may show effect in any part of the body. Therefore, a removal of the cause will allow nature to right herself. A powerful assistant to nature Postum Cereal Food Coffee, of the albumen, phosphates, gluten, etc. from which nature builds in the delicate Postum aids digestion without drugging,

and furnishes a concentrated liquor food as well as a most delicious morning cof-

If the reader has ever failed to make Postum satisfactorily, it will be found that to allow it to boil 15 minutes after boiling commences will solve the prob-lem, as it must be so boiled to extract taste, color and food value. It is the only original Food Coffee with a pleas-ant coffee flavor. Many imitations of Postum are now upon the market. The only palatable ones thus far tested prove to be made of a low grade of coffee, and ome other articles, notwithstanding the loud claims that they are "pure."

The cause of biliousness is the lack of age - too much haste to put the beer on the market. To ferment beer thoroughly requires a process of months. Without it the fermentation takes place in your stomach. That is the cause of biliousness.

Hurried beer is unhealthful. Schlitz beer is kept for months in refrigerating rooms with a capacity of 265,000 barrels-kept almost at freezing point until it is well fermented. Schlitz beer is never marketed until thoroughly aged.
