THE MORNING OREGONIAN, TUESDAY, APRIL 30, 1901.

# FINANCIAL NEWS COMMERCIAL AND

Local markets were quiet yesterday. Potatoes were stronger. There is a good deal of confidence in the present situation and some farmers are holding for another advance. They draw assurance from the California market that the high limit has not yet been reached, although most deal-ers apparently believe prices will be steady at existing figures. The product, whenever at existing figures. The product, whenever t existing figures. The product for the p California market that the high limit has not yet been reached, although most deal-ers apparently believe prices will be steady at existing figures. The product, whenever available, is taken up by speculators at once and the country is reported to have few left. The California crop of potatoes was large, but advices are to the effect that it is running low. This fact is ind-toated by Ban Francisco quotations and by increased requisitions on Oregon Bur-hanks. Although the supply of ontons is wery short in the local market, there is mo probability of any stress, for a quantity of new California will arrive on next

Eggs were a little uncertain yesterday, quotations varying between 14815c. Ma-jority of sales were for 148145c. Cold storage is still receiving a large part of surplus stock. The market is thought to be in nice equipoise at present because advance would tend to put on sale that part of receipts which is now going into storage. Much of the present strength is regarded as induced by competition of winter speculators. Butter is steady at quotations. Creamery is firm, but store is weak. Improved market for store is looked for, as quality of product is grow-ing better and California is sending in some orders. Poultry is slow of sale, exg brollers and fryers, which have good demand.

Rhubarb and asparagus make up the bulk of the present vegetable supply. Presh California produce by steamer is due tomorrow morning. A small consign-ment of cherries from California arrived yesterday and was sold slowly at \$1@1 25 per box. Strawberries show a slight de-

# PORTLAND MARKETS.

Grain, Flour, Etc. A sonking rain in California sent the Ban Francisco markets down with a rush yesterday, and the weakness there was a factor in disturbing conditions elsewhere. World's shipments showed a heavy de-crease since last week and there was quite a decrease in the American visible. In the local market, there was not much the local market, there was not much doing, but some preity stiff bids are re-ported out at some competitive points in the interior. Some round lots of Walls Walls were sold late Saturday evening as high as 62 cents per bushel, but this was about a cent above the figure openly quoted yesterday. There is a rumor float-ing around to the effect that 10,000 tons of wheat have been purchased in the Palouse for shipment East by rail and thence to Liverpool on through bills of lading. The report lacks confirmation, but is not improbable, if the railroad companies have made concession on the rail haul. Wheat - Walla Walla, 6026014c; blue-

stem, 61c; Valley, nominal. Flour-Best grades, \$2 9063 40 per bar-rei; graham, \$2 60.

STOCKESTOCKESTOCKEStock Each LagsStock EachStock Exchange.Norther Pacific in the serveril feel the leadershy work for and how by a number of other stocks with not a single block of leadershy was unafter with the during y performed after the bediday interval, these were dispelled within five minutes after transaction for the base were first of these stocks with not a single block of lease than store at the speculation of the stock store at the stock with not a single block of lease than store at the speculation of the stock store at the stock store at the store at the stock store at the st

wide fluctuations, as it naturally would from the much greater volume of the company's capitalization. The stock advanced 3% and the preferred 3% and held more firmly than almost any other stock in the list. There were some very striking gains among the grangers, Pacifics and trunk lines, but these seemed to be associated in the minds of the buyers with the movement in Union Pacific. Rock Island was at one time 6% over Fri-day, St. Paul 4%, New York Central 5, Pennsylvania, 3%. Baltimore & Ohio 3, Illinois Central 3%. Louis and San Francisco second preferred 3%, and a number of other stocks from 2 to 3 points. Colorado Fuel rose 8 points and Amalga-

mated Copper 3%. If these stocks are set apart it will be found that the dealings elsewhere and the movement of prices otherwise were not sensational. But contemplating these special price movements and the volume sensational of dealings in the stocks enumerated, one has compassed the sallent facts of the extraordinary market of the day. There was no specific news to account for the unprecedented dealings which lifted the day's record to 2,780,000 shares.

money supply, the increase in surplus reserves shown by Saturday's bank statement was a favorable factor. The large gain in cash was noted with especial sat-isfaction as reflecting the continued inflow of funds to New York. Much store

As the vital point of the speculation is

is placed also in the Government inter-est disbursements to be made May 1, and large corporation dividend payments are also counted upon for help to the money situation. The reliance placed on these factors was made evident by the small mometary effect of the engagement of \$1,750,000 In gold for export and the opin-ion of exchange experts that probably \$5,000,000 might go out during the week. There was some doubt as to the destina-There was some doubt as to the destina-tion of the gold, but that it would go to

close.

the Continent and not to London seemed evident. The engagement of \$1,000,000 for London was unknown until after the The decline of the Continent exchanges

The decline of the Continent exchanges in London in spite of the rather pleth-oric condition of the Continental money markets, and the relative stiffness of the London money market, is beginning to arouse surmise in financial circles whether preparations are not making by the Continental Government banks to provide for floating a Russian loan in addition to the requirements of the British loan. The the requirements of the British Ioan. The strength of the steel stocks was accom-panied by rumors of coming statements which will show extraordinary earnings by the United States Steel Corporation. The belief is widespread in speculative circles that extensive readjustments in the relations of the various granger and Pacific railroad systems are necessitated in compensation for the Burlington deal. This belief sizes rise to varied rumors in compensation for the Burlington deal. This belief gives rise to varied rumors, almost all of which are received with a certain amount of credulity. The action of the whole market shows clearly that the demand for stocks from all classes of buyers maintains its voracious force, and needs only the leadership of an upward movement in price to bring in such buying from all quarters as will eclipse all previous experience in the history of speculative markets in New York. The final volatile outburst in Union Pacific and Northern Pacific today seemed to arouse misgivings and there was free profit taking all through the rest of the list. But this is exactly the history of last week's similar movement in Union Pacific, which caused widespread appre-hension lest the culmination of the boom had arrived, and which was, nevertheless followed by a renewal in full force cent: of the speculative advance. Dealings in Union Pacific convertible cent; bonds were in enormous volume, and the prices shot up 7% points in response to the advance in the common stocks. Dealings otherwise were large, and the price changed irregularly, Total sales, par value, \$6,000,000, United States 5s advanced %, and the

Chicagh Grain and Frovisions. CHICAGO, April 29.-Although world's stocks were bullish, wheat traders were more impressed by Liverpool's failure to follow the aggressive advance here and heavy lines of long stuff were offered. May at the opening being quoted %@%c to %@%c lower at 72% to 74c. Outside buying orders cared for the offerings early but the market showed no railying power. the market showed no rallying power. This demand soon died out and longs, discouraged further by the fail of rain in California, the lack of export inquiry, the Cantornia, the lack of export inquiry, the liberality of receipts and the fact that bug reports failed to show any spread of the pest, continued to liquidate the re-mainder of the session. May was gradu-ally forced off to 72% and the close was weak; 1%@1%c lower at 72%@72%c. There were no important rallies on the way down down.

May corn was saved the weakness which affected July by the neglect which the great majority of traders treated it, and by support from Phillips when the mar-ket needed it. The volume of trade was rather small. July sold between 45%c and files and closed for down at files. May 45%c, and closed %c down at 45%c. May closed unchanged at 45@48%c. Oats was active, and despite a moderate

recession, seemed firm at the bottom. Elevator people still led the buying, hedging against cash sales, while the cash inquiry remained in its previous satis-factory condition. May closed 46% lower at 25% c. July closed % down at

The provisions market was dull and the tone easier because of heavy hog re-ceipts and a slump in hog prices, but prices July suffered little after the opening. pork closed unchanged at \$14 67%; July lard 7%@10c down and July ribs 2%@5 depressed. The leading features closed as fol-
