WILL NOT COME FOR YEARS

Establishment of Forest Reserve in

Eastern Oregon.

WASHINGTON, April 25.—After getting the views of the Secretary of the Interior, the Commissioner of the Land Office, the Chief of the Forestry Division in the Agricultural Department, and the Chief of the Forestry Division of the Geo-

logical Survey, The Oregonian correspond-ent thinks it safe to say that Eastern Ore-

gon will have no forest reserve for many years to come, and there is a strong prob-ability that no reserve whatever will be

established in that section. However

there is a possibility that some such action may be taken at a distant day.

favor of the creation of such a reserve, but, strange to say, the chief agitator is an Idaho man, E. H. Libby, president of

the Lewiston Water & Power Company, For some time Mr. Libby has been cor-responding with different officials here in

regard to the creation of a reserve in the Blue Mountain country. It is his idea that a reserve is essential in these moun-

tains, in order to protect the timber and water supply of Union, Umatilla and Wal-lowa Counties, Oregon, and Walla Walla,

Columbia Garfield and Asotin Counties

Although considerable correspondence

has been had on the subject, the depart

ments have been unable to get Mr. Libby definitely to outline the reserve which he and his associates think should be cre-

ated. He has roughly stated, however,

its phases, he thinks all of this mountain

should be withdrawn from entry and con

werted into a forest reserve. He says most of the land in the counties named lying below this level, while for the most part unsurveyed land, has been settled upon, and the settlers would strenuously object to having their lands converted in-

to a forest reservation. However, he believes if the crest of the mountains is

protected against timber-cutting, it will

afford ample protection to the water sup-ply of Southeastern Washington and

In past seasons the Geological Survey has made more or less extensive exami-nations of the Blue Mountains, in both

Oregon and Washington. As a result of those examinations, Mr. Gannett, the for-ester, states that the creation of a for-

est reserve in that section might be a good thing, as it would afford a protection

country has not been extensive up to this time, but there seems to be some an-ticipation that it may get a start and

progress so rapidly as materially to reduce the water supply in a few seasons.

Mr. Libby, in his correspondence, ex-

presses anxiety as to the waters of the Grand Ronde River, George Creek, Alpo-wa, Tucannon, Touchet and Walla Walla Rivers. While he has not been able to

make an extended examination of the en-tire Blue Mountains, he says the timber,

particularly in Southeastern Washington,

is much scattered, and the settlers are cutting it off rapidly, although the soil is of little value, except for hay. Other

areas, he reports, have been burned off. He goes on to state that under present

conditions, sheep are grazing in these mountains, destroying the grass and un-derbrush, and in consequence affecting the water supply. The department admits

that these assertions are at least in part

but the departments lack that certain

justify them in creating

Mountain Reserve. Primarily, all forest

reserve matters are in the hands of the

Secretary of the Interior, and, as previous-ly stated, he is much averse to rushing

in and creating any new reserves without a thorough examination and report. This

same spirit of caution seems to be spread

ing among the other bureaus, for the for-est reserve question, through its bungle-some management in the past, has become

a great eyesore and source of almost uni-versal annoyance. Consequently, there is

a uniform desire just now to proceed

with caution in the matter of new re-serves. It may be stated positively that

the department will never create a re

serve in the Blue Mountains on the lines

suggested by Mr. Libby. His main idea may be all right, but it does not meet

with the approval of those authorities who have any knowledge of that country.

Moreover, from correspondence with this

gentleman, it appears that his main inter-

est lies in that section of the Blue Moun-tains lying in Washington. His concern

as to the Oregon forests and water supply

If the people of Eastern Oregon desire the establishment of a forest reserve in the Blue Mountains, their course would

be to petition for its establishment, ad-dressing the Secretary of the Interior. It is understood that Mr. Libby is now cir-

culating among the citizens of Asotin, Garfield, Columbia and Walla Walla Coun-

ties, Washington, petitions asking for the

creation of a reserve in that state, but further than that, his efforts do not at

would much rather take up the matter of the creation of a reserve at the instiga-

tion of the settlers than to undertake

he proposition of its own accord. It would like to have the assurance that

the people themselves want such a reserve and believe its creation would be in their interest, rather than be a hardship to

settlers of Eastern Oregon do ask for such a reserve, none will be established.

It is true that there are now many mines in the Blue Mountains, and that their number is constantly increasing. As

far as they are concerned, a reserve would make no difference one way or the

reserves. As far as grazing and timber-cutting is concerned, however, the reserve would be a most important factor.

There is little doubt that if the idea

of the Secretary of the Interior regarding the control of the reserves is carried out,

placed under the Agricultural Depart

ment, that the timber of the Blue Moun-

tains would be more judiclously handled

in a forest reserve than it could be other-

in pending forest reserve questions, both as to reductions, enlargements and the proposed creation of new reserves, suffi-

cient matter to occupy their attention for

several years, before the question of a Blue Mountain reserve would ordinarily be reached, without there was especial

pressure in its favor from the people, and, under existing conditions, no step in this direction will be taken for many years to

WON BY HIS EMINENCE

SON OF FALSETTO CAPTURED THE KENTUCKY DERBY.

Sannaguarro Was Second, Driscoll Third-Results on Other Tracks-Scores of the Two Leagues.

LOUISVILLE, April 29.-The twenty. seventh Kentucky Derby has passed into history and not one of the 25,000 persons who saw it can say anything except that it was a race from the drop of the flag until His Eminence, the son of Falsetto, passed under the wire a winner in the good time of 2:07%.

The track was fast. In the betting ring

there was a jostling, surging crowd and the 18 books did a rushing business. Alard Scheck, by his work-out Friday, was favorite and when the odds of 7 to 10 were first chalked up, money came in at such a lively rate that the books could not handle it. But it is doubtful if all the books gult winner on the race, for loads of money went on His Eminence at 5 to 2. The contingent from the Blue Grasse section of the State came down prepared to back Sannazzarro and they out up their money in goodly quantities. On the second attempt the horses got away on even terms. Down the stretch they came toward the grandstand, and a length did not separate the five colts, with His Eminence in front, Driscoll secwith His Eminence in front, Driscoil sec-ond, Alard Scheck third, Sannazzarro fourth and Amur last. When they straightened out on the back stretch, Winkfield was hugging the rail, still a length in the lead, Alard Scheck had moved up to second place and was a half length in the front of Amur, who was about the same distance from Sannazzar. ro and Driscoll, who were moving down the back stretch on even terms. As they reached the three-quarters pole, Jockey Woods loosened his rein and called on the Schorr entry to overtake His Eminence, but the Memphis horse was not equal to it, for little by little he fell back. As they entered the stretch, Sannazzarro had moved up into second place, followed by Driscoll, and Alard Scheck was left to fight it out with Amur. "His Emi-nence!" was the joyous shout that went up from thousands when the Falsetto colt reached the seven-eighths pole, running with long, even strides. Sannaz-zarro made one final effort, but it was of no avail, for His Eminence was under the wire a length to the good, with San-nazzarro half a length in front of Dris-

coll, Amur fourth and a length away, with Alard Scheck, the favorite, last by three lengths. The summary:
Five and one-half furiongs—The Rush won, The Lady in Blue second, Mosketo third. Time 1:06%. Four furlongs-Endurance by Right on, Miss Thomey second, Scortle third.

Time 6:48. One mile—Esplonage won, Charles Boy second, Mr. Phintzy third. Time 1:41.

The Kentucky Derby, \$6000, of which \$700 to second and \$300 to third; mile and a quarter—His Eminence, 117 (Winkfield). 2½ to 1, 4 to 5 and 1 to 5, won; Sannaz-zarro second, (O'Connor), 4 to 1, 5 to 5, second; Driscoll, 100 (Boland), 25 to 1, third. Time 2:07%

Four furlongs—Eddie Busch won, Red Hood second, Badger third. Time 0:4912. Six furlongs-Velma Clark won, Locust Blossom second, Northumbria third. Time 1:15%

Races at Oakland.

SAN FRANCISCO, April 29.-Racing was resumed at the Oakland track today and the occasion was marked by the victory of Rio de Altar, a 50-to-1 shot, Articulate was an odds-on favorite for the event, but Rio de Altar had the most speed in the muddy going and won by two lengths from Articulate. Eonic and Malay were the only favorites to win during the afternoon. Weather fine, track muddy. Summary:

First, five and one-half furlongs, selling I Don't Know won, Irate second, Triple Cross third; time, 1:12.
Second, half mile, selling-Glendenning won, Estado second, Dr. Scharff third;

Verdict in the Billy Smith Case. LONDON, April 29 .- The Coroner's jury which has been investigating the death of Billy Smith, the puglist, who was fatally injured April 22, at the National Sporting Club, in a bout with Jack Roberts, today rendered a verdict of accidental death. The Coroner closely examined the club officials and some disinterested spectators of the contest. The hospital surgeon who attended Smith said that the appearance of the pupils of the latter's eyes dis-proved the story that he had been drugged. All the testimony elicited tended to establish the fact that the puglist was not drugged. Out of the 250 bouts which have taken place at the National Sporting Club this year, this is the first in which any of the contestants has sus

Shamrock Not Injured.

GLASGOW, April 29.—It transpired that the Shamrock II grounded on a mud bank near Dumbarton while proceeding south-ward on Saturday. Her crew was trans-ferred to a tug and thus lightened the yacht floated after having been ashore three-quarters of an hour. It is said she is not injured.

SOUTHAMPTON, April 29.-The Shamrock II has arrived here.

The President, Before He Left Washington, Signed a Large Number of Appointments.

Before the fight it was announced that one month from tonight Terry McGovern WASHINGTON, April 29.-After announcing various opinions and hearing a number of motions today, the United States Supreme Court took an adjournment until Monday, the 13th prox. The meeting then will be only for the announcement of opinions.

The court decided in the case brought by ex-Congressing Stephen V White

of Brooklyn, that a "call" as the word is used in the Stock Exchange, is an agreement to sell, and therefore subject to taxation at the rate of 2 cents per \$100 under the war revenue law. The opinion was handed down by Justice Brewer, who, defining a call said. defining a call, said:
"Calls are not distributed as mere ad-

vertisements of what the owner of the property described therein is willing to do. They are held, and in parting with them the vendor receives what to him is satisfactory consideration. Having parted for value received with that promise, it is a contract binding on him, and such a contract is neither more per less than an outer the property is neither more per less than an contract is neither more nor less than an agreement to sell and deliver at the time named the property described in the insrument. On the face of this instrument there is an absolute promise to sell. Therefore, it comes within the letter of the statute.'

The court reported to the docket for re-hearing the case of the Treadwell Mining Company, of Alaska, involving the right of the Government to collect a tax upon the company's stamp mills and mercanthe company's stamp mills and mercan-the company's stamp mills and mercan-tile establishment. The order was made because the Government had not been represented when the case was presented last week.

County Attorney Fulton, of King County, Washington, moved either to dismiss or affirm judgment in the case of Charles W. Nordstrom, who is under sen-tence of death, and appealed to the Supreme Court. The motion was opposed by ex-Congressman J. Hamilton Lewis. The case is a celebrated one. In has been in this court on three different occasions. and the first judgment against Nordstrum has been held for nine years. The court took the case under advisement.

PRESIDENTIAL APPOINTMENTS.

\$153,800, was the lowest.

Prominence in Bridge-Building. Engineering Magazine.

Americans are 20 years in advance of other nations (except Canada) in the art of bridge design and construction. The steel of which a bridge is made represents about half its cost. Steel is now made in the United States at much less cost than in any other country. In Britain labor is so much hampered by trades unicalsm that it is admitted by one of the leaders that the cost of labor in making steel in the United States is not onehalf of what it is in Britain. This can be said also of the labor employed in man-The market for bridges is far greater

in the United States than elsewhere. The States have now 190,000 miles of rallways, and it has been estimated that there is an average of one span of metallic bridges for every three miles of railway. This This gives 63,000 bridges on existing lines, without including those required for new lines. The increase in the United States of the weight of cars and engines has resulted in wonderful economic changes. The average rate of freights on American railways was in 1867 a little over \$5 per ton. Now it averages 95 cents. Any one car figure the saving on 976,000,000 tons of freight moved in 1900. These larger cars carry double the paying load of the old ones that they have superseded, and more powerful engines draw more cars in a This increase of weight of rolling stock has led to the renewal of the 63,000 old bridges by stronger and heavier ones. This demand has brought into existence many bridge-building companies, and not at all cold. Rarely does the ther-they can well afford to equip themselves mometer descend below zero. Yesterday

with the best labor-saving and accurate working machinery, regardless of first cost, as they know it would seldom if ever lie idles European bridge-builders are not in this position. Trains have not

HOW YOU MAY OBTAIN A LASTING CURE FROM PILES.

No Surgical Operation, No Pain, Trifling Expense-A Simple, Harmless Remedy But It Does the Work.

There are some people who have piles as regularly and frequently as other peo-ple have colds. Any little bowel trouble will bring them on, any extra exertion es in lifting, will produce them, and in fact will often appear without any ap-parent provocation. Piles, however, is much more serious than a cold, as the endency is always to grow worse until the trouble becomes deep-seated

chronic, or develops into some fatal rec-While there are many pile remedles which give relief, yet there is but one which not only gives instant relief but at the same time makes a permanent cure. and that is the well-known Pyramid Pile

This remedy is composed of simple narmless vegetable ingredients, but cobine so effectively and act so promptly and thoroughly that it cures every form of piles whether itching, blind, bleeding or protruding. In long standing cases the Pyramid Pile Cure has proven to be the only certain cure except a surgical oper ation, and its advantages over an opera. tion are many, as it is painless, causes no delay or interference with daily occupation and, last but not least, is cheaper than any surgical operation could possi-bly be, costing 50 cents a package at any drug store. The cases that the Pyramid Pile Cure will not reach are so few that physicians are doing away with operations for piles and depending on this cheap but effective remedy to accomplish a complete cure, and it never disappoints except in cases beyond the reach of med-ical skill. The Pyramid Pile Cure is prepared by the Pyramid Drug Co., of Marshall, Mich., and for sale by druggists everywhere at 50 cents per package. Each package contains a treatise on cause and cure of piles, together with testimonials from every section of this country.

the sun shone gloriously. The ice reflected it with a blinding glare and in brilliant colors. The ship has withstood all the assaults of the ice. It is splendid to see how it breaks up ice that is some-times three or four feet thick. At other times, when it is even thicker, the ship is rushed against it at full steam. The shock splits and breaks it very often for a distance of 40 or 80 yards. The Duke of Abruzzi is always on the bridge, and loses no opportunity of getting ahead. Sometimes he does not even come down to his meals. Whenever we get the smallest opening he orders us to go on, and we are glad of it, because the more we advance at the present time the less we shall have to do next year.

EASTERN MULTNOMAH.

Difficult Road Surveying - Coun-

terfeit Dies Discovered. TERRY, Or., April 29.-Deputy County Surveyor Lewis and four assistants have been engaged for about ten days in surveying a new road of about haif a mile in length between the Section Line and Rev. J. H. Wood's place. It looks like a lot of work for a short road, but the time was mostly consumed in trying to locate a starting point. It was necessary to survey about ten miles of old departion. to survey about ten miles of old donation claim boundary lines and some of the oldest settlers were called upon to show the surveyors where "corners" and witness trees were supposed to have been located years ago. The Emmett Kelly farm was surveyed in trying to find a starting point, and a good board fence was found to be 15 feet away from the line on one side. The surveyors remarked that it would cost nearly as much to survey that little piece of road as it would to improve it afterward. Superwould to improve it afterward. Supervisor Littlepage will have a crew of men at work upon it in a short time, as it is intended principally for rural mail that there is absolutely no evidence in any of the departments at this time to indicate that a forest reserve will be cre-

route No. 2. Double Anniversary.

sary of the wedding day of Mr. and Mrs. H. S. Stone, of Fairview, and they were tendered a surprise by a large number of their friends, which was a success in

Refreshments were served by the wo men and songs were sung which recalled the events of a quarter of a century ago. Several special numbers were rendered by Messra, Byers, Turner and Dunbar, and Mrs. A. L. Stone. Several pioneers were present, and the company exchanged short stories of early days. The occasion was also the 31st anniversary of Mr. and Mrs. C. Shepherd, who were present, and the 19th of their arrival at Fairview. Mr. Stone is one of the most prominent citizens of Eastern Multnomah, baving served a term as County Commissioner, and is reckoned as one of the most solid and influential men of this community. Counterfeit Dies.

A counterfeiters' outfit was discovered a few days ago in the dwelling lately oc-cupied by H. W. Lang at Montavilla. A loose board was found in the floor, which was taken up, when a box was seen in which was found dies for halves, quar-ters and nickels. The building is just across the road from the postoffice, and was occupied for two or three years by a jeweler who had a shop there. ved away last fall, since which time the house was vacant until Mr. Long moved in. Secret service officers were notified, who took the outfit away. Considerable spurious coin was circulated around Montavilla last Summer, but no one was caught at it, and the counterfelters are not positively known. Brief Notes.

Rev. Howard Osborne will move to Rockwood this week from Woodstock, and occupy the new parsonage, which will

be nearly finished by the time he arrives there with his family. Another train load of split cedar poles is being made up at Troutdale for ship-ment to Eastern Oregon. The last shipment consisted of nine cars.

A. T. Webb has a force of men at work clearing up another large tract of land which will be in readiness for a crop this spring. He now has about 80 as cleared and is making a model farm. Beaver Creek school closed Friday last after a successful term of seven months. The teacher, Miss Eula Strange, has given complete satisfaction, and will probably elected to serve again for another

year. A fine specimen of gold-bearing quartz was found by some workmen while dig one day last week. Free gold could easily be seen with the naked eye. The specimen was very rich.

Andrews & Rowley now have their foun dry in full running order and are turn ing out considerable custom work. several contracts for castings, but appliances, upon which they have pat Four pupils recently graduated from the

eighth grade at Gresham public school. They were: Maude Rowley, Lillie Ross, Bert Metzgar and Clarence Cleveland. Four more will take the examination May and the graduating exercises will be held June 9. Surveyors were at work Saturday lo-cating the site for a new bridge to be built across Beaver Creek on the Base

The new structure will be about

300 yards long and considerably higher than the old bridge, which has spanned the creek for 20 years. Andrew Martin, working in one of the logging camps on the Sandy, was struck by a failing limb on Saturday last, and knocked senseless, besides suffering a fracture of the left arm. He was taken

to his home near Bridal Vell. Carp spearing is a favorite pastime on

Important to Sufferers. WHAT THEY

TELLING JUST WHAT THEY DO FOR SICK FOLKS AT THE COPELAND INSTITUTE.

An Entire Month's Treatment, Medicines Included, for \$5 What Is Usually Paid for Examination-Other Features of the Heipful and Encouraging Arrangement Made by Dr. Copeland.

The diseases accepted for treatment at the Copeland Institute, and the remark-ably prompt and thorough mastery of which has made the reputation of the Copeland medical system, are—

Deafness; Nasal Catarrh: Catarrh in any form; Asthma; Chronic Stomach Trouble; Chronic Kidney Disease; Chronic Rheumatism; Affections of the Skint Diseases of Blood;

Diseases of Nervous System; In short, all allments and infirmities a seated and serious nature, requiring time treatment—requiring a certain deflnite period of close professional attention for their radical and lasting cure. Under this very helpful arrangement, any one suffering from deafness in its

early or later stages, or from chronic catarrh, in however malevolent a form, or from asthma, with its danger, torture and unrest, or from any of the maladies above enumerated, can now apply at the Copeland Institute, and receive one entire month's treatment, medicine included for throat and stomach for many years. I coughed constantly. Everything I \$5, the same sum that is usually paid for examination alone.

Mr. Robt. Allen, Cornelius, Or.

I took treatment at the Copeland Institute for a bad case of nasal ca-tarrh. My nose was continually stopped up, and I was always hawk-ing and spitting. When I fluished my course there was no sign of ca-tarrh. I was thoroughly cared.

REJOICES IN GOOD HEALTH. CURED BY HOME TREATMENT.

The Copetand medical practice is acknowledged to be the largest in the Northwest. It is founded on honesty and built up by ability, skill and experience. Offices in the Miss S. F. Troutman, Shedd, Linn County, Or.: I suppose I should have County, Or.: I suppose I should have written you sooner, but I feit so well that I did not think it necessary. When I wrote for your symptom blank I was miserable indeed. I was suffering from all the annoying symptoms of catarrhal trouble. I had no strength or energy and could not eat or sleep. My nervous sys tem seemed completely shattered.

Language can not express the gratitude
I feel for all you have done for me. I

feel that you have almost raised me from the grave. I recommend and praise you to all my suffering friends, but feel it my duty to give you this short recommends tion of what your wonderful treatment has done for me. It is not only a duty I owe to you, but a duty I owe to those suffering as I was, Mr. W. H. Patterson, City Poundmaster, address 530 Market street, Port-

I suffered from catarrh for 15 years First it was in my head, then it extend ed to my throat, and finally it extended to my stomach. There was a discharge from the head, my breath was very offen sive, and my voice husky and weak. My stomach was sore and tender, and everything I ate gave me distress. I had tried different remedies, but got no relief until I began treatment with Drs. Copeland and Montgomery, Then I began to improve, and now feel like a different man.

Mr. Al Thornton, Vancouver, Wash.: For 20 years I suffered with my head and stomach. I was bloated with gas, had soreness and pain in the stom ach, and heart palpitation. I was weak and unfit for work. The Copeland physicians cured me thoroughly and perma

Mr. Frank Kuhik, Woodlawn, Portland: I took the Copeland treatment for catarrh and deafness. I also had rheumatism. The pain was excruciating. I could not rest or sleep, and was unable to work. I quit the treatment a well man, | SUNDAY-From 10 A. M. to 12 M.

Nerves that Die

For lack of nourishment are just as dead as though they were severed with a knife. In either case the base of supplies has been interfered with. Nerves that need nourishing make their wants known through headache, backache, loss of appetite, indigestion, fluttering of the heart, irritability, sleeplessness, and general weakness. Feed the hungry nerves, build them up and make them strong and vigorous, full of vim, vitality and power, with the great nerve food and tonic, Dr. Miles' Nervine.

"My nerves became so weak and run-down from the effects of an old wound that I became paralyzed and per-fectly helpiess. Nine years of my life was passed in an invalid chair, and during that time I endured the most intense suffering. When I commenced taking Dr. Miles' Nervine it seemed to give me instant relief, and in a few weeks I was able to be up and about once more.

E. J. DENMAN, Garden City, Kans. Dr. Wiles' Nervin

quiets the nervous irritation, stimulates the direction and fills the blood with just the nourishment needed for weak and run-down conditions. Give it a trial.
