PORTLAND BASEBALL NINE VIC-TORIOUS AT SPOKANE.

Grim's Men Open Season Auspiciously by Rolling Up Score of S to 1-Tacoma Won From Scattle.

SPOKANE, Wash., May 1.-The league SPOKANE, Wash, May 1.—The league ball season opened today, and the local nine lost a poor game to Portland by a score of \$ to 1. The attendance was 700. Opinions were free that the Spokane man-agement will have to secure almost an entirely new club if it hopes to make a showing against the Portland team. Grim's youngsters showed up fast and snappy as compared with Spokane. De-lancy, in the box for the home team was laney, in the box for the home team, was disappointing. His support was poor. Salisbury, the Portland pitcher, had the good fortune to face poor stickers. Only five hits were made off him. Umpire Sandy McDermott carried out the orders to be "It" to an unexpected degree. The

TACOMA DEFEATED SEATTLE.

Score Was 7 to 3-Shortstop McCarthy Was Star of Game.

TACOMA, Wash., May 2.—Two errors by Carter, who threw the ball to the fence while trying to catch a base-runner off the cushion, allowed Scattle the three runs which the Eiliot Bay team scored. Tacoms outplayed the visitors and de-served to win. The score was 7 to 2. The sensational work of McCarthy at short was the feature of the game. He accepted eight chances, most of them appearing impossible without an error, and figured in the two double plays of the game. House made a sensational catch of a line drive. On the whole the work of the two teams was good but these of the two teams was good, but there seemed to be a lack of good team work. Twice Scattle men collided while chasing cuifield flies. The weather was a little cold, and in the morning it had looked like rain, but 1500 persons saw the opening game. The score:

thanks and I leave you with a wish for your happiness and your prosperity."

This was the first time a President had visited Vicksburg since the days of Zacharay Taylor and the Presidential party was received with the greatest enthusiasm. The party disembarked just outside of the city at the National Cemetery, which is located on the site of the place where Pemberton surrendered to Grant at the end of the memorable forty days' siege. Sixteen thousand Union dead are buried here. The party drove through the cemetery and from the Grant-Pemberton monument they obtained a fine view of the Mississippi. Here was pointed out to the President the projected Yazoo canal, the President the projected Yazoo canal, by which the populace of Vicksburg ex-pect to divert the flow of the Yazoo into the Mississippi at this point and restore the harbor lost in 1878 when the river changed its course.

From here the party moved into the crowded, flag-festooned city. President and Mrs. McKinley were in an open carriage, which was swathed even to the riage, which was swathed even to the wheels with National colors. The procession passed under a picturesque arch of cotton bales surmounted by Spanish daggers, on which was the word "Expansion." At the Courthouse square, which was also elaborately decorated, the President was introduced by Mayor Trowbridge and addressed fully 10,000 people. His remarks created much enthusiasm. On the way back to the station the President's carriage was stopped to give him an opportunity to address several hundred children.

A Speech at Jackson. JACKSON, Miss., May 1.—The Presidential train arrived here at 1 o'clock sharp, 15 minutes ahead of time. Hundreds of people had congregated at the depot and gave a royal welcome to the President and his party to Mississippl's capital. Governor Longino welcomed the President on behalf of the people and state. Mr. McKinley expressed delight at the cordial reception and the 15 minutes' stop here was heartily enjoyed. In response to Governor Longino's introduction to the Governor Longino's introduction to the people of the whole country, Mr. McKin-

The war with Spain started us to growing and we cannot help it if we would. Our growth has made new problems, but the American people have faced them and will continue to face them. We will have our differences, men always would, but we have more agreements than differences. I think your greetings grow warmer as we move southward, but in all our journey we have been welcomed by warm hearts to Southheen welcomed by warm hearts to South-ern hospitality, and we will carry with us through our long tour no happier memory than that of our visit in the Southern states. I have been made to note that every section of the South shares in the general welfare and in that universal prosperity with which the coun-try is so signally blessed. We have a larger prosperity than ever before, with higher national and individual credit, What we want in this country, now having reached a point of development where we can more than supply our Nation's demands, is a foreign market in distant lands. We want to send the products of our farms, our factories and our mine into every market of the world; make the foreign people familiar with our products; and the way to do that is to make them familiar with our flag."

THE CASE OF CLARK.

Wilson Answers Charges Made Against Him.

ROSEBURG, May 1.—I notice in your issue of Friday, April 23, a letter from "A Subscriber," and before that a report from this place and certain editorials in your paper relative to the sending of James G. Clark, of this county, to the Oregon Insane Asylum. In addition to this I am informed that certain people here and cisewhere in this county have taken it upon them. this county have taken it upon them-selves to present "facis" which would, if true, have a tendency to bear aut the statements heretofore referred to. I ask space in your paper to make a statement of the facts, believing The Oregonian did not publish or dictate the statements for personal reasons or feeling against me. In the latter part of 1894, James G. In the latter part of 1894, James G. Clark wanted me to take what he had and allow him to live with my family. I found that he had a life estate in 183.89 acres of his wife's part, or half of the old donation claim of James G. Clark and wife, Cl. No. 51, located near Canyon-ville, Oregon; that Mark D. Briggs held the title to the said land excepting the life intract of larges G. Clark, the high life interest of James G. Clark; that his (Clark's) personal property amounted to one old mare and colt, one 2-year-old filly and some old articles of various kinds amounting in value to about \$20 or

Clark proposed to deed me his life in-terest in the land and give me the personal property if I would take him in my family and keep him, provided that he wanted the proceeds received from the two-year-old filly to be used for the purtwo-year-old filly to be used for the purpose of putting a grave stone or slab at his brother's grave. I finally agreed to the arrangement and made arrangements for a division of the land. Briggs to take what was lying on the west side of the County road and I to take the other side, Clark to deed his life interest and I to pay him \$250 for his interest in the part I was to receive. By this arrangement I secured title to 57.92 acres and Mark D. Briggs to 75.97 acres. The deed from Briggs to myself, consideration \$250, is recorded in Deed Record, Vol. 32, p. 282, for Douglas County, Oregon. The deed for Clark's life interest to Briggs is recorded in Vol. 33, p. 339, aforesaid recorded in Vol. 32, p. 283, aforesa corded in Vol. 32, p. 283, aforesaid rec-ords, consideration \$1, and the following: "With the understanding that H. J. Wilson is to maintain, support and keep m as one of his family during the remain-der of my life."

The filly I sold for \$20 and put a marble

slab at the grave of John Clark, paying \$20 therefor. The colt I kept until 3 years old, pastured and fed it and sold for \$12 50. The old mare I traded off and short time afterwards was offered her back for \$5. I make this statement in order that the value of the personal prop-erty may be determined. After January 3, 1895, Clark lived with

me and was treated as one of the family until it became necessary to place him where he could be constantly and well cared for. I have clothed him, bought tobacco for him (an article not used in tobacco for him (an article not used in my family), and he has not wanted for anything that was necessary for his comfort. He has used my parlor for a bedroom for over five years. For the past 18 months he has at times been what most people term "out of his head," and these spells continued and would come oftener and last longer as time wore on. For the past year I have had some one at home with him con-stantly, as I considered it both unsafe and dangerous to leave him without some one to watch him. He was at to warrant granting Mrs. Herron times so unbalanced that he could not even find his bedroom, and at other times abusive. I was compelled to be away from home a great deal and the last few times I was away before trying to se-cure a place for him the neighbors had to be called in to attend him. He was in such a state mentally that he could not

be trusted to clothe himself After selling my place near the fair grounds I had to move my family away and give possession. I could not care for Clark while moving and then not afterwards, as I could not get a suitable house. I made arrangements with Mrs. Ketchell to keep him for one month on trial and see if she could manage him. He was not there three days until she informed me she could not keep him.
Knowing his mental condition, I saw no other course to pursue than to have him committed to the asylum. I have never claimed that he was violently in-sane, but I do know that he was what I would call insane to that extent that he must be cared for. He was, after due examination and report by two physicians, committed to the Oregon Insane Aeylum. Now, in conclusion, I will state that I kept James G. Clark "as one of my family" as long as it was possible for me so to do. I am yet willing, if those extraordinarily conscientious parties will find a place where James G. Clark can be cared for at a reasonable sum, to have him kept and pay for it. This statement is made with due knowledge and deliberation and I challenge must be cared for. He was, after due exedge and deliberation and I challenge any one to disprove it. I leave the mat-ter now with the public and feel that a just verdict will be rendered me in this

H. J. WILSON matter. Ran Into a Hornet's Nest.

CHICAGO, May 1.-The committee of clergymen appointed by the Ministers' Association of Chicago to investigate the ef-fect of the abolition of the Army canteen at Fort Sheridan paid a secret visit to the post today, and ran into a hornet's nest. The reports of the people living near the post have been to the effect that the num-ber of intoxicated soldiers near the post has been materially increased since the abolition of the canteen, and the ministers went to the post to investigate for themselves.

Colonel Van Horne caused a sensation by asking Dr. Parkhurst, a member of the committee, as to the authority of an alleged interview in which he was made to accuse the Army officers of receiving liquors without bills attached. Dr. Parkhurst denied the interview, but refused to make a written denial for publication. After several hours of temperance argument, the committee withdrew, having complished little,

Missouri Murderers May Be Lynched. KANSAS CITY, May 1 .- Dr. B. I. Gartrell, who yesterday confessed to killing D. B. Donegan, a Victor, Colo., miner, and W. P. Gartrell, his son, were taken to Butler, Mo., today, where they will be held pending trial. A special from

Dr. Gartrell asked the Sheriff, 'Do you think they'll lynch me?' 'Not if I can help it,' was Sheriff Smith's terse reply, and the aged murderer expressed some fellef. He called for a drink of whisky, and after he had swallowed half a tumblerful of the liquor, said: 'It was whisky that did it. I took the cure twice and I think that it must have twice and I think that it must have affected my mind. Fears are expressed that an attempt will be made to lynch the men tonight. The resolutions adopted make no mention of Dr. Herron's alleged heresies, referring simply to different charges made against him in a court of record and which "the court deemed sufficiently grave vorce." The resolution preferring charges against Dr. Herron was unanimously

adopted, no one speaking in his behalf.

A Diswesceful Speciacle. Buffalo News. The story of the public whipping of two women in Suffolk. Va., is a disgrace to the name of the state, and makes the term "Southern chivairy" one of ironical contempt. The women were not accused of some brutal crime, but simply of dis orderly conduct. But even if their crime had been a revolting one, such a brutal punishment as 20 lashes with the whip is shame on the community. Any town can keep itself decent if it will without appeals to such disgusting displays of force, and woman-whipping will do more to brutalize the youth of the place than almost any kind of punishment that could be administered.
